LOT SETTLEMENT AND PICK-UP

Available weekdays 9:00 AM – 5:00 PM CT starting Friday, December 15, by appointment only. Please contact Client Services at the number below.

Heritage offers extended payment plan options up to six months to qualified, pre-approved clients on select items. Please email eppgroup@ha.com or call Client Services for more information. We also accept Bitcoin and Ethereum on invoices over \$5,000 subject to approval. Please email Bid@ha.com or call Client Services for details.

Direct Client Service Line: 214-409-1150

Email: Bid@ha.com

Fax: 214-409-1425

Mail: Heritage Auctions | PO Box 619999 | Dallas, TX 75261-6199

BIDDING METHODS

HERITAGE Live!®¹ BIDDING

Bid live on your computer or mobile, anywhere in the world, during the Auction using our HERITAGELive!® program at [HA.com/Live](https://www.ha.com/Live)

LIVE FLOOR BIDDING

Bid in person during the floor sessions.

LIVE TELEPHONE BIDDING (FLOOR SESSIONS ONLY)

Phone bidding must be arranged 24 hours before your session begins. Please contact Client Services.

INTERNET ABSENTEE BIDDING

Proxy bidding ends 10 minutes prior to the session start time.

Live Proxy bidding starts seven days before the live session begins and continues through the session. [HA.com/1367](https://www.ha.com/1367)

FAX BIDDING

Fax bids must be received 24 hours before your session begins.
Fax: 214-409-1425

Lots are sold at an approximate rate of 125 lots per hour, but it is not uncommon to sell 100 lots or 150 lots in any given hour.

Buyer's Premium Per Lot:

This auction is subject to a Buyer's Premium of 20% (minimum \$29) per lot.

Attendees must comply with local regulations for in-person events.

This Auction is catalogued and presented by Heritage Numismatic Auctions, Inc., doing business as Heritage Auctions:

Dear Bidder,

As we approach the end of yet another remarkable year, Heritage Auctions is pleased to present our December Dallas Signature® Auction — always a popular event that rounds out the U.S. Coins schedule. This year stands as a testament to the rare coin market's strength. Many record-setting milestones were tallied, not only for Heritage Auctions, but also for our valued bidder clients, consignors, and dealer associates. Best of all, the pulse of the market shows undiminished vigor, and we expect it to remain robust well into 2024 and beyond.

The December Dallas auction serves as a strategic platform for collectors and dealers to refine their year-end holdings and set their stance for the upcoming year. This auction offers a rich trove of numismatic specialties, enhanced by several Featured Collections. These 'named' consignments allow you an opportunity to appreciate the time, dedication, and challenge embodied by these diverse and notable collections.

THE RICCOLO COLLECTION

The collector of the Riccolo Collection embarked on his journey with coins when he was 10 years old. His friend's father owned a bank, and he would go through bags of coins that came through the teller windows every Saturday. That sparked a lifetime of collecting — not only coins, but also antique toys, vintage sports memorabilia, and Houdini memorabilia. His travels for work allowed him to hunt down many rare and interesting coins on his numerous business trips. The result is a wide-ranging collection of U.S. type coins focused on better dates and varieties. Multiple examples of some key issues provide extra opportunities for like-minded bidders.

THE WILLIAM K. HARTER COLLECTION, PART II

A complete set of high-grade Indian cents highlights Part II of the fine William K. Harter Collection. Numerous Premier Session Indian cents include an 1872 Shallow N cent, Snow-10a, FS-901, certified MS65 Red PCGS. An 1873 Doubled LIBERTY cent, Snow-1b, FS-101 grades MS64 Red and Brown PCGS with CAC. A pair of Gem 1877 cents includes an MS65 Red and Brown PCGS example with CAC, Snow-2. Other Indian cents include important pattern issues. This collection includes a variety of gold issues and an extensive group of double eagles, most of which are Gem Uncirculated or finer. Liberty Head quarter eagles, three dollar gold, as well as Liberty and Indian half eagles, eagles, and double eagles appear throughout the floor sessions and Sunday's online-only Signature® session. The Premier Session features many excellent Saint-Gaudens double eagles, including a 1913 twenty certified MS65 PCGS, with none finer at PCGS. William Harter was a specialist not only within select U.S. coin series, but also in several other collectible fields such as Arms & Armor and Rare Books.

THE KANKAKEE COLLECTION

The Kankakee Collection presents a choice selection of U.S. copper, silver, and gold type coins, each carefully assembled and uncommonly attractive for their grade. Examples from this consignment frequent the floor sessions and our popular Sunday online-only session. An 1883-CC ten dollar gold piece with prooflike surfaces certified AU55 PCGS and an 1883-CC half eagle also grading AU55 PCGS caught our eye. Also, a 1796 JR-6 dime certified AU53 PCGS is a standout coin.

THE WASHINGTON CORNER COLLECTION

Silver type includes an assortment of denominations from twenty cents to silver dollars in this small but perceptively chosen collection. Reeded Edge half dollars, Seated coinage, and early type are represented. The 1934-S Walking Liberty half dollar is a pure Gem.

THE ESTATE OF CHARLES W. MONTGOMERY, PART II

The larger part of this exceptional collection graced our November Signature® auction, although some outstanding Territorial gold pieces, patterns, gold dollars, and Saint-Gaudens double eagles make an appearance in the Premier Session and its accompanying floor session. Judging from the anticipated results from November's installment, The Estate of Charles W. Montgomery coins will be equally well-received.

THE TIEN'S TREASURE COLLECTION

Morgan dollars make up the entirety of Tien's Treasure Collection. While the majority of the coins are found in the regular floor session, a scarce 1879-CC Morgan graded MS63+ PCGS certainly deserves its Plus designation. The other coins are all semikey issues, well-preserved and high-end for their grades. We encourage "clicking the online link" to take in the entire collection in a single look.

Additional highlights in this auction include:

- **An 1815 B-1 Capped Bust quarter, MS67 CACG.** Ex: Green-Newman. The finest known.
- **An 1864-S Liberty eagle, XF40 NGC.**
- **An 1853-D Liberty half eagle, MS64+ PCGS. CAC.** Tied for Finest Certified.
- **A 1927-S Saint-Gaudens double eagle, MS64 PCGS.**
- **An 1855 gold dollar, MS66+ NGC. CAC.**

The auction starts on Thursday, December 14 and continues through Sunday, December 17. The Premier Session is Thursday evening at 6:00pm CT, so mark your calendar!

We look forward to your real-time participation — either in person here at our Dallas World Headquarters, or by computer, phone, or tablet. Of course, advance bidding is available by mail, fax, or online before the auction. As always, we welcome your questions and will do our utmost to assist you regarding purchasing or consigning coins, notes, artwork, or virtually any kind of collectible. Our email addresses are below. Please do not hesitate to write or call if we can be of personal service to you.

Sincerely,

Greg Rohan

SESSION ONE

COLONIAL

1796 Myddelton Token, PR63 Brown
Copper, W-8900

- 3001** 1796 Myddelton Token, Copper, PR63 Brown NGC. W-8900, R.7. Philip Parry Price Myddelton commissioned a token from the Matthew Boulton's Soho Mint, for Myddelton's proposed British expatriate community on his plot of land in northern Kentucky. Myddleton was imprisoned by the British crown for his efforts to export skilled labor to America, ending his efforts at settlement. But the tokens are prized by numismatists today for their beauty and quality. A lustrous and well-struck autumn-brown specimen with glimpses of peripheral powder-blue. Listed on page 75 of the 2024 *Guide Book*.
PCGS# 646

HALF CENT

1793 Half Cent, Fine 15
C-2, Single-Year Type

- 3002** 1793 C-2, B-2, R.3, Fine 15 PCGS. CAC. The first-year half cent is a single-year type coin, since the portrait faces right on subsequent Liberty Cap dates. Problem-free examples are very scarce. This lilac-gray and wheat-gold representative has uncommonly few marks, located near the jaw and the 1 in the date. No spots are of any notice. A minor lamination is over OF. UNITED STATES is sharp, and the remaining legends are clear. Liberty's profile is bold. Cohen-2 is midlevel in rarity for the issue. It shares an obverse die with C-1, and a reverse die with C-3. C-2 is notable for a straight date and a widely spaced AME in AMERICA.
NGC ID# 2222, PCGS# 35006 Base PCGS# 1000

LARGE CENTS

1793 Chain Cent, XF Details
AMERI., Sheldon-1
Famous Introductory Cent Variety
Ex: Oscar Pearl

- 3003** 1793 Chain, AMERI., S-1, B-1, R.4 — Environmental Damage — NGC Details. XF. A few patterns may have preceded it, but the Sheldon-1 cent is the first die marriage struck at the U.S. Mint for commerce. It is also the die variety that abbreviates AMERICA as AMERI. This was presumably done for aesthetic reasons, to balance UNITED and STATES on the reverse peripheral legend layout. S-1 is also noted for its wide date. Low-grade examples can be attributed by the E in ONE, which is fairly distant from the chain. The present example is much sharper than the typical Chain cent, since fine details of Liberty's hair are evident. As is the case for most Chain cents, the surfaces are deep brown and shows signs of granularity, though to a lesser degree than implied by the NGC designation. The minor to moderate marks are inoffensive, though we note slender abrasions above the C in CENT and below the D in UNITED.
Ex: Oscar Pearl FPL (Kosoff, 1944), lot 475, flip included; 1946 ANA Sale (Numismatic Gallery, 8/1946), lot 1413 (flip included); FUN Signature (Heritage, 1/2021), lot 3981.

1793 Liberty Cap Cent, VF Details
S-13, Bold Peripheral Definition

- 3004** 1793 Liberty Cap, S-13, B-20, Low R.4 — Obverse Scratched — NGC Details. VF. The Liberty Cap design is rarest among the three 1793 cent types, and is also conditionally rarest. Sharp examples are seldom encountered. The present example has XF sharpness throughout the borders, but the centers are lightly brought up. The lavender-brown surfaces are lightly granular, as often seen for the variety. Marks are surprisingly few, save for a couple of unobtrusive thin marks on Liberty's forehead. Among the six die marriages for the 1793 Liberty Cap, S-13 is seen most often. It is typically attributed by the spacing of the legends. For example, the RT in LIBERTY is much closer than TY. On the reverse, the ATE in STATES is very widely spaced.
Ex: Charles Williams Collection (Numismatic Gallery, 11/1950), lot 544, flip included; FUN Signature (Heritage, 1/2021), lot 3310.

PROOF FLYING EAGLE CENTS

1856 Flying Eagle Cent, PR58
Collectible Snow-9 Variety

3005 1856 Snow-9 PR58 NGC. Snow-9 is the typical variety encountered among 1856 Flying Eagle cents, being the proof restrike issue produced over the course of about two years between late 1857 and 1860. These coins were distributed to collectors seeking an example of the first small-size United States cent. The present example displays sharp definition and has only a trace of discernible wear. However, the usual satiny luster of the Snow-9 die pair is replaced by deep, uniform chocolate-brown patina with brass-chestnut accents on the high points of the devices. No major contact marks are observed beneath a loupe.

From The Riccolo Collection.

PCGS# 147890 Base PCGS# 2037

1856 Flying Eagle Cent, PR66
Snow-9, High-Quality Proof

3006 1856 Snow-9 PR66 NGC. A magnificent Premium Gem of this historic issue. The cumbersome large cents were targeted for replacement by the mid-1850s. Several pattern varieties of intermediate diameter were succeeded by Longacre's 1856 Flying Eagle small cent. The few hundred pieces struck in 1856 for demonstration purposes were not enough to satisfy growing numismatic demand, and the issue was restruck in proof format circa-1859. Most high-grade examples are from Snow-9 dies. On the present piece, the olive-green and butter-gold surfaces are fully struck and virtually devoid of detractors. The fields are flashy for the proof issue, and the eye appeal is exceptional.

Ex: E.B. Strickland Collection / FUN Signature (Heritage, 1/2018), lot 4753; Central States Signature (Heritage, 5/2023), lot 3018.

PCGS# 147890 Base PCGS# 2037

INDIAN CENTS

1871 Indian Cent, MS65 Red
Snow-5, FS-901, Shallow N Reverse

3007 1871 Shallow N, Snow-5, FS-901, MS65 Red PCGS. Snow-5 is one of two Shallow N varieties documented by Rick Snow, identified by the faint upper point of a 1 in the dentils beneath the primary 1 in the date. This Gem Red coin is the sole finest Shallow N specimen attributed at PCGS, and it is conditionally rare as a Gem Red example of the date, with only a handful of finer pieces reported. The coin is sharp and satiny with rich copper-orange luster. A faint fleck appears beneath the N in ONE and another is tucked next to the wreath to the right of the E.

From The William K. Harter Collection, Part II.
PCGS# 404551 Base PCGS# 2102

1872 Indian Cent, MS65 Red
FS-901, Snow-10a, Shallow N

3008 1872 Shallow N, Snow-10a, FS-901, MS65 Red PCGS. Eagle Eye Photo Seal, card included. This is the finest of just three FS-901 representatives attributed by PCGS in the Red color category. As a date, the 1872 Indian cent is rare in Gem Red condition and prohibitively so any finer. This piece displays original satin luster with warm copper-orange and pale amber hues. A few pepper specks are seen beneath a loupe on each side, but the overall eye appeal is excellent for the grade, and there are no mentionable abrasions. An essential acquisition for the advanced Registry Set collector. Population: 1 in 65 Red, 0 finer (10/23).

From The William K. Harter Collection, Part II.
PCGS# 404548 Base PCGS# 2105

1873 Cent, MS64 Red and Brown
Snow-1b, Doubled LIBERTY
Important DDO Variety

3009 1873 Doubled LIBERTY, Snow-1b, FS-101, MS64 Red and Brown PCGS. CAC. Eagle Eye Photo Seal, card included. Rick Snow calls this the top doubled die variety in the series, with prominent doubling on LIBERTY, the headdress feathers, and Liberty's facial profile. Examples are elusive in Mint State and notably rare as fine as MS64 Red and Brown. This is one of the finest Red and Brown coins with CAC endorsement. Intermingled plum, copper-orange, and burgundy-brown colors adorn each side, with no major abrasions or spots. Eye appeal is outstanding for the grade. Advanced Indian cent specialists should not let this rarity pass by. Population: 13 in 64 (1 in 64+) Red and Brown, 2 finer. CAC: 5 in 64, 0 finer (10/23).

From The William K. Harter Collection, Part II.
PCGS# 37505 Base PCGS# 2116

1877 Cent, MS65 Red and Brown
Green Label Holder

3010 1877 MS65 Red and Brown PCGS. Eagle Eye Photo Seal, card included. A boldly struck example, showing satiny original luster with most of each side exhibiting rich copper-orange color. Light amber toning dusts each side, and eye appeal is excellent. A few microscopic pepper specks are seen around the TES in STATES with a loupe, but eye appeal is overall excellent.

The 1877 Indian cent is the key date in the series and it is genuinely scarce in Gem or better condition. This Red and Brown piece is conditionally scarce, and only a few finer Red and Brown coins are reported. Housed in a green label holder. Population: 91 in 65 (1 in 65+) Red and Brown, 7 finer (10/23).

From The William K. Harter Collection, Part II.
NGC ID# 2284, PCGS# 2128

1877 Cent, MS65 Red and Brown
Attractive CAC Example

3011 1877 MS65 Red and Brown PCGS. CAC. Snow-2. Eagle Eye Photo Seal, card included. A microscopic die dot on Liberty's neck near the hair attributes this die pair, although the key date status of the 1877 Indian cent makes the die variety somewhat irrelevant for most collecting avenues. Mint State 1877 coins are highly sought after. Most grade in the Red and Brown category, although the majority are no finer than MS64. Gem Red and Brown coins are scarce, and such pieces are rare with CAC endorsement.

This remarkable example displays blatantly original copper-red luster beneath burgundy-chestnut toning, with the most protected areas of the fields retaining full bloom. The strike is sharp, and eye appeal is outstanding. Population: 91 in 65 (1 in 65+) Red and Brown, 7 finer. CAC: 37 in 65, 2 finer (10/23).

From The William K. Harter Collection, Part II.
NGC ID# 2284, PCGS# 2128

1894/1894 Indian Cent, MS64 Red
Snow-1 Repunched Date, CAC

3012 1894/1894 Repunched Date, Snow-1, FS-301, MS64 Red PCGS. CAC. Eagle Eye Photo Seal, card included. Indian cent specialist Rick Snow calls the 1894 Snow-1 issue one of the top five varieties in the series. Incredible doubling of the date is visible with the naked eye. Snow-1 is scarce in full Red condition, and it is a rarity with CAC endorsement in this category. The current coin displays natural, softly frosted copper-gold luster and is boldly struck. A few tiny pepper specks are discernible beneath a loupe. Population (FS-301): 13 in 64 Red, 16 finer. CAC: 3 in 64, 5 finer (10/23).

From The William K. Harter Collection, Part II.
PCGS# 37584 Base PCGS# 92189

LINCOLN CENTS

1925-S Cent, MS64+ Red
Rarely Seen Finer

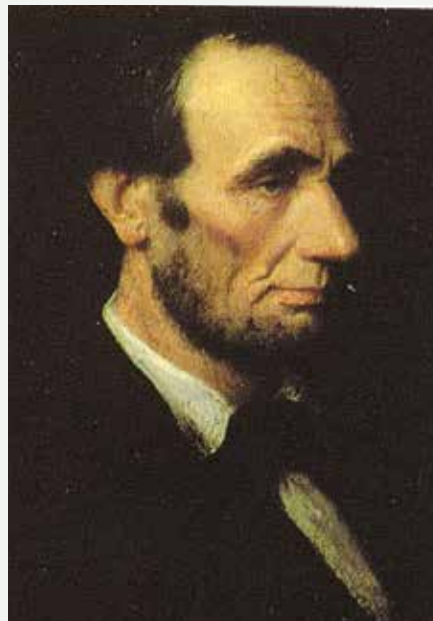

3013 1925-S MS64+ Red PCGS. CAC. The 1925-S Lincoln cent is scarce in Mint State with original Red color. Choice examples are particularly elusive, and finer pieces are rare. This Plus-graded near-Gem displays mainly copper-orange luster but also shows wisps of delicate rose and pale-green hues. Only a few specks are present. Struck from worn dies, as usual, with metal flow lines on the obverse. Evidence of heavy die usage is more obvious on the obverse than the reverse. Population: 59 in 64 (2 in 64+) Red, 13 finer. CAC: 4 in 64, 4 finer (10/23).

Ex: Summer FUN Signature (Heritage, 7/2019), lot 3011.
NGC ID# 22CH, PCGS# 2566

1927-S Cent, MS65 Red
Old Green Label Holder

3014 1927-S MS65 Red PCGS. Full Red examples of this San Francisco issue are challenging in any grade, and they are rare in Gem condition with none numerically finer (11/23). This piece displays satiny copper-orange luster and is well struck, though minor die erosion is evident in the fields. Housed in an old green label holder. Population: 21 in 65 (3 in 65+) Red, 0 finer (11/23). NGC ID# 22CP, PCGS# 2584

THREE CENT SILVER

1871 Three Cent Silver, MS68+★
Spectacular, Top-Certified Example

3015 1871 MS68+★ NGC. The 1871 three cent silver is slightly more available overall than it theoretically should be, given its low mintage of 3,400 coins. Mint State examples were apparently set aside by dealers and collectors when the denomination was discontinued in 1873. The issue is still scarce in comparison to most earlier dates. Superb Gems are extremely rare, and this is the only MS68 example with both Plus and Star designations.

This spectacular Superb Gem features fully prooflike fields and well-defined devices, characteristic of this late-series issue. The central obverse is frosty and brilliant, while the peripheries and the entire reverse exhibit deep shades of violet and navy blue toning. Census: 4 in 68 (1 in 68★, 1 in 68+★), 0 finer (10/23).

Ex: Purchased by Gene Gardner from North American Certified Trading (1/2006); Eugene H. Gardner Collection, Part III (Heritage, 5/2015, as MS68 ★ NGC without + designation), lot 98107.

NGC ID# 22ZM, PCGS# 3692

LIBERTY NICKEL

1885 Liberty Nickel, MS67
Unsurpassed Key-Date Example
Extraordinary Eye Appeal

3016 1885 MS67 PCGS. There are three keys to the Charles Barber-designed Liberty nickel series: the 1885, 1886, and the 1912-S. This is the most challenging of the three, with a much smaller percentage of the issue's 1.4 million-coin mintage saved by collectors. The average certified grade for the 1885 nickel is only VF25 and most collectors would be delighted to obtain a representative in that condition. Advanced Registry Set builders, by contrast, pursue examples like this Superb Gem, which is unsurpassed at both services. Fully struck and highly lustrous surfaces display melded shades of orange, yellow, blue, green, rose, and violet patina throughout, lending extraordinary eye appeal to both sides in equal measure. Population: 8 in 67, 0 finer (11/23). NGC ID# 2773, PCGS# 3846

BUFFALO NICKELS

1918/7-D Buffalo Nickel, AU50
Important Overdate Variety

3017 1918/7-D FS-101 AU50 NGC. This piece shows light wear but retains a full horn and bold overdate feature. Pewter-gray patina is the natural color for this issue in circulated condition, and the surfaces are problem free. The 1918/7-D Buffalo nickel is one of three major *Guide Book* varieties, and it is the second most challenging issue in the series for a complete *Guide Book* set. Only the 1916 doubled die variety is rarer overall.

From The Riccolo Collection.

NGC ID# 22RJ, PCGS# 38446 Base PCGS# 3939

1919-S Buffalo Nickel, MS66
Major Condition Rarity
Among the Finest Known

3018 1919-S MS66 NGC. This is a slightly better San Francisco issue in high grade. Mint State 1919-S Buffalo nickels are plentiful as fine as MS64, but Gems are scarce, and finer pieces are notably rare. This is one of just four MS66 coins at NGC (one of which is Plus designated), with none finer; PCGS also lists four coins at this level with none finer (11/22). Satiny, amber-gold luster illuminates exceptionally clean surfaces, delivering pleasing eye appeal. The bison shows soft detailing due to die wear, while the obverse has slight softness on the hair just above the braid. This issue is famously a softly struck coin, and the present example is not unusual in that regard. Census: 4 in 66 (1 in 66+), 0 finer (11/23). NGC ID# 22RN, PCGS# 3943

1937-D Buffalo Nickel, MS64+
Three-Legged *Guide Book* Variety

- 3019** 1937-D Three-Legged, FS-901, MS64+ PCGS. The 1937-D Three Legged Buffalo nickel is a sought-after *Guide Book* and *Cherrypickers'* variety, caused by excessive die polishing to remove clash marks on the reverse die. This Plus-graded Choice specimen exhibits well-detailed design elements, with a touch of the usual softness on the bison's shoulder. The well-preserved lustrous surfaces are enhanced by attractive shades of lime-green and bluish-gray toning. NGC ID# 22SX, PCGS# 38475 Base PCGS# 3982

1937-D Three-Legged Nickel, MS65
Famous *Guide Book* Variety

- 3020** 1937-D Three-Legged, FS-901, MS65 NGC. Buffalo nickel coinage at Denver in 1937 totaled more than 17.8 million coins. Although this mintage paled in comparison to the 79 million coins struck at Philadelphia, Denver produced its coinage with die pairs that were often stretched past their normal life span. One such die was became so heavily eroded that it was aggressively lapped to remove metal flowlines. The lapping mostly effaced the bison's forward right leg, creating what is now known as the 1937-D Three-Legged nickel. The variety is one of the key acquisitions for collectors of the *Guide Book* series, surpassed in scarcity only by the 1916 doubled die and 1918/7-S overdate.

This Gem example displays satiny mint luster cast in delicate champagne and light rose-gold hues. The bison's shoulder exhibits modest softness, but the remainder of the design is well brought up. No major abrasions distract from the eye appeal.

From The Riccolo Collection.

NGC ID# 22SX, PCGS# 38475 Base PCGS# 3982

EARLY HALF DIME

1797 Half Dime, XF45+
13 Stars, V-1, LM-4
Challenging Guide Book Variety

- 3021** 1797 13 Stars, V-1, LM-4, R.5, XF45+ NGC. The LM-4 variety ranks among the scarcest of four 1797 die pairs and is the only variety with two large 7s in the date. It is also the only 1797 half dime variety with 13 stars — the other three varieties have either 15 or 16 stars. On the reverse, the wreath displays 11 berries in a five inner berries, six outer berries arrangement, also exclusive to the LM-4 variety. All of the other 1797 varieties have but three berries. This is a high-end, Choice XF example with the NGC Plus designation. The coin is sharply struck with smooth, slightly glossy surfaces. Minor obverse die clashing is seen, as usual for this early half dime issue. High-point wear is minimal for the grade, with the eagle well-defined and sharp definition throughout the obverse elements. Pleasing bluish-gray toning allows bits of silver luster to shine through. This coin certainly ranks among the finest LM-4 examples known. Census: 1 in 45+, 3 finer (10/23). NGC ID# 22ZZ, PCGS# 38600 Base PCGS# 4260

EARLY DIMES

1796 JR-6 Dime, AU53
Well-Struck and Attractively Toned

- 3022** 1796 JR-6, R.3, AU53 PCGS. The 1796 date is always in demand as the first year of regular issue federal dimes. Six die marriages combine to account for a reported 22,135-piece mintage. JR-1 is by far the most available variety, accounting for more than half of the 1796 production and at least 50% of all surviving 1796 dimes. This JR-6 example represents the second-most-available 1796 die pair, although it remains scarce in all grades. A heavily cracked obverse die shows die chipping along the numerous cracks, especially through the date and a long, curving crack from star 8 through Liberty's hair and neck to the rim below 9 in the date. This sharply struck dime retains bold definition throughout both sides. Semireflective fields display golden-gray toning and blue accents, with only minimal abrasions. A few short adjustment marks at the upper-right obverse rim extend into TY of LIBERTY and two adjacent stars, but no further. Soft Mint luster remains beneath the toning for strong eye appeal.

From The Kankakee Collection.

NGC ID# 236B, PCGS# 38747 Base PCGS# 4461

MERCURY DIMES

1916-D Mercury Dime, XF45
Strong Band Definition

- 3023 1916-D XF45 PCGS.** Light lilac patina accents the satiny surfaces of this Choice XF 1916-D Mercury dime. The strike is bold, and only light wear is seen. The fasces bands are almost fully separated. A loupe reveals some small marks on the Liberty portrait that accompany the grade but are not bothersome to the unaided eye.

From The Riccolo Collection.

NGC ID# 23GY, PCGS# 4906

1927-S Mercury Dime, MS67
Sole Finest Non-Full Bands Coin at PCGS

- 3024 1927-S MS67 PCGS. CAC.** The 1927-S Mercury dime is scarcer than many other issues from the 1920s in Mint State. Any coin grading finer than MS65 is rare, regardless of the sharpness of the fasces bands. This is the sole finest non-Full Bands coin at PCGS and CAC, and it is numerically equaled by a lone NGC coin in the same grade. PCGS reports MS67 Full Bands examples that are arguably finer. Brilliant, satiny mint luster complements the pristine surfaces. The fasces bands show near-full definition. Population: 1 in 67, 0 finer. CAC: 1 in 67, 0 finer (11/23). NGC ID# 23HW, PCGS# 4964

1938-S Dime, MS68 Full Bands
Top-Grade Registry Candidate

- 3025 1938-S MS68 Full Bands PCGS.** The 1938-S Mercury dime is rare in this lofty grade, and no numerically finer Full Bands coins are known. This piece displays satiny mint luster with antique-gold and amber toning in the left-hand margins. The strike is sharp, and each side is pristine. Population: 15 in 68 (1 in 68+) Full Bands, 0 finer (11/23).

NGC ID# 23JP, PCGS# 5015

BUST QUARTER

1815 B-1 Quarter Dollar, CACG-Certified MS67
 The Finest Certified 1815 Quarter Dollar
Early Quarter Dollars of the United States Mint Plate Coin

3026 1815 B-1, R.1, MS67 CACG. Ex: Col. Green. Coinage at the Philadelphia Mint was limited in 1815 to quarter dollars, half dollars, and half eagles. The copper supply was exhausted the previous year with no new planchets shipped from England due to trade embargos during the War of 1812. The 89,235 quarters minted in 1815 were from a single die pair, as were the 47,150 half dollars, and the 635 half eagles.

The 1815 quarters represented the first appearance of John Reich's Capped Bust design for the denomination. The Reich design appeared earlier on half dollars in 1807 and dimes in 1809. Half dimes with the new design first appeared more than a decade later in 1829, and the design never appeared on silver dollars.

This early die state piece is the *Early Quarter Dollars of the United States Mint* plate coin and it is the finest certified 1815 quarter. NGC currently claims one other MS67 example, but that coin has traditionally been ranked second to the "Col." Green-Eric P. Newman example. The Newman coin until recently was housed in an MS67+★ NGC holder, and its residence now in an MS67 CACG holder affirms its remarkable standing at the top of the Condition Census. PCGS has never certified an 1815 quarter finer than MS66 (11/23).

The obverse of this original, richly toned, and eye-appealing specimen exhibits light champagne toning, with interior rings of blue, magenta, and orange-gold around a light silver center. The reverse also displays light silver at the center, with peripheral russet, blue, and gold toning. This is a stunning example of the first year Capped Bust quarter dollar.

Ex: "Colonel" E.H.R. Green; Green Estate; Partnership of Eric P. Newman / B.G. Johnson d.b.a. St. Louis Stamp & Coin Co.; Eric P. Newman @ \$12.50; Eric P. Newman Numismatic Education Society (Heritage, 11/2013), lot 33335; Dallas Signature (Heritage, 2/2021), lot 3041; Dallas Signature (Heritage, 8/2022), lot 3912. NGC ID# 23RG, PCGS# 38942 Base PCGS# 5321

PROOF SEATED QUARTER

1854 Arrows Quarter, PR65
Elusive Type as a Proof

3027 1854 Arrows PR65 NGC. Accounts of the precise rarity of the 1854 Arrows quarter proof issue vary to a certain extent, but all agree that it is very rare at a minimum, with no more than 12 to 15 known (according to David Akers, writing for the Pittman catalog in 1998) or around 10 known (according to Walter Breen). PCGS CoinFacts estimates 10 to 15 pieces known. This is a desirable Gem specimen of its immensely challenging date. Light champagne toning graces beautifully mirrored fields and fully struck devices alike. The reverse, which displays a degree of contrast, also shows a tiny contact mark between the M of AMERICA and the eagle's wing. Census: 2 in 65, 2 finer (11/23).

Ex: Long Beach Signature (Heritage, 9/2009), lot 591; Central States Signature (Heritage, 4/2021); Central States Signature (Heritage, 4/2021), lot 5024.

NGC ID# 23WV, PCGS# 5550

BARBER QUARTER

1898-S Barber Quarter, MS68
Pristine and Visually Exceptional
The Sole Finest Example at PCGS

3028 1898-S MS68 PCGS. The 1898-S Barber quarter is significantly scarcer than both its New Orleans and Philadelphia counterparts, a fact that becomes all the more apparent in Mint State, particularly the high end of that range. We have seen a Mint State coin on only 44 prior occasions, all grades tallied, most of which were coins grading no finer than MS65. The only example we have previously offered that is in any way close to the quality of the current specimen was a lone MS67 PCGS CAC coin that we sold in the Eugene H. Gardner Collection (Heritage, 6/2014), lot 30425, which realized \$18,800.

The present coin is finer than the Gardner piece. It is the sole finest 1898-S Barber quarter at PCGS, and it is tied with a lone NGC specimen in the grade for finest known overall. For Registry collectors, there is simply no alternative. Glistening, frosty mint luster cascades over virtually flawless surfaces, with vivid ocean-blue, lavender, mint-green, and light golden hues adorning the eye appeal. A sharp strike rounds out an essentially perfect Barber quarter. Population: 1 in 68, 0 finer (10/23).

NGC ID# 23YF, PCGS# 5621

STANDING LIBERTY QUARTERS

1916 Standing Liberty Quarter, AU58
Lustrous Original Surfaces

3029 1916 AU58 NGC. High-end circulated examples of the first-year key date are much more elusive than the typically encountered well-worn or impaired coins. This near-Mint example displays original, satiny mint luster throughout each side, muted only slightly on the high points of the devices by trivial handling friction. Delicate champagne, chestnut, and blue-green hues combined over iridescent surfaces. Eye appeal is outstanding for collectors who appreciate blatant originality.

From The Riccolo Collection.
NGC ID# 242Y, PCGS# 5704

1918/7-S Quarter Dollar, AU55
Exceptional Surfaces, CAC Approved
Rare Quality Within the Grade

3030 1918/7-S FS-101 AU55 PCGS. CAC. The 1918/7-S is by far the most elusive Standing Liberty quarter issue, particularly in high grade. Although often compared to the 1916 key date, the overdate is actually significantly scarcer in high grade, and CAC-approved pieces in any grade are rare. This is an honest AU55 specimen. Ample satin luster remains throughout each side, while just a brush of high-point friction is seen over the design elements. A delicate champagne tinge warms the otherwise brilliant surfaces. The only notable abrasion is a thin linear mark diagonally across Liberty's knee, though it is unseen without a loupe. For the advanced collector assembling a high-end AU Guide Book set of Standing Liberty quarters, it will be incredibly difficult and time-consuming to locate a better 1918/7-S representative.

From The Riccolo Collection.
PCGS# 395949 Base PCGS# 5726

EARLY HALF DOLLARS

1795 O-125 Half Dollar, AU50
Album Toned, Bold Central Motifs

- 3031** 1795 Two Leaves, O-125, T-13, Low R.4, AU50 NGC. Tompkins Die State 2/1. Concentric rings of sea-green, blue, deep-violet, and silver-rose toning fill both sides of this colorful Overton-125 half dollar. Traces of mint luster remain along the margins and within the central motifs. The 9x8 berries reverse with three inside berries in a row beneath the eagle's right (facing) wing and no berries on the outside below the wing is unique to the O-125 die pair. The obverse die is shared with the even scarcer O-124 (T-12) die pair. As often seen on this scarce variety, the lower-left stars are weakly struck as are the dentils between 1 in the date and star 1. Faint die clashing exists near Liberty's chin. The central motifs are sharper than the peripheral elements, with light wear at Liberty's upper hair strands. the eagle is bold, with a few breast feathers still visible. Although scattered light marks nestle beneath the toning, this About Uncirculated example offers excellent eye appeal throughout both sides.

NGC ID# 24E7, PCGS# 39241 Base PCGS# 6052

1795 Two Leaves Half Dollar, AU55
O-125 Early Die State

- 3032** 1795 Two Leaves, O-125, T-13, Low R.4, AU55 NGC. Powder-blue and russet-brown toning enrich the obverse. The reverse is cream-gray. This is an attractive Choice AU example of the popular Flowing Hair half dollar, the first design type of the denomination. A few delicate obverse hairlines are present, but no marks are distracting. Luster is plentiful throughout the wreath and plumage. Overton-125 is a "Hidden Star" variety that places the final star beneath the bust tip. This coin corresponds to Tompkins' "perfect" Die State 1/1, except the reverse shows a clash mark through the leaf pair west of the eagle's stand. Die rust is prevalent on the obverse field near the profile.

NGC ID# 24E7, PCGS# 39241 Base PCGS# 6052

CONFEDERATE STATES OF AMERICA

1861 Scott Restrike CSA Half Dollar
Breen-8002, MS61

3033 1861 Scott CSA Restrike, Breen-8002, Bertram-B861-267, MS61 PCGS. CAC. When the chief coiner's specimen of the original Confederate half dollar came to the attention of Philadelphia collector Charles E. Mason, Jr. in 1879, he bought it from the coiner, along with the reverse die used to strike the Confederate halves. Mason in turn sold the coin and die to New Yorker J.W. Scott, who manufactured his own "Confederate" halves by planing down the reverses of genuine 1861-dated U.S. half dollars and stamping the blank sides with the Confederate reverse die. This process created the flattened obverses which have become a signature of the Scott Restrikes, and the characteristic is on full display with the present piece. Otherwise, the coin is normal as can be with pale golden luster, a few streaks of darker toning at the margins of the Liberty side, and no wear on the Confederate devices.

Ex: *Central States Signature* (Heritage, 4/2011), lot 5148.
NGC ID# ERJ5, PCGS# 340402

WALKING LIBERTY HALF DOLLARS

1916-S Half Dollar, MS65+
Beautifully Iridescent Luster

3034 1916-S MS65+ PCGS. The 1916-S half dollar, part of the inaugural coinage of Adolph Weinman's Walking Liberty design, saw a production of only 508,000 coins. This mintage was the lowest among the three active mints that year for the new type, making the 1916-S the scarcest of the first-year issues, particularly in high grade.

The present coin is among just a handful of Gems at PCGS with the coveted Plus designation. Glistening, frosty mint luster and fully struck design elements underscore the coin's high quality, while delicate iridescence throughout light champagne and powder-blue toning adds significant visual appeal. Clean fields and similarly well-preserved devices add all the more to this coin's aesthetic attributes. The 1916-S Walker is rarely found in finer numeric grades, and in our experience is rare in any grade with the amount of eye appeal that the current coin provides. Population: 13 in 65+, 22 finer (10/23).

NGC ID# 24PN, PCGS# 6568

1918-S Half Dollar, MS65
Seldom Offered This Fine

3035 1918-S MS65 NGC. While plentiful in lower grades, the 1918-S is scarce at the Gem level. A number of years ago, this issue was even considered rare this fine, though the advent of third party grading has made the survivorship in this condition better known. The current coin displays brilliant, satiny mint luster and is well struck in the centers, with no bothersome abrasions. Finer 1918-S half dollars are rare. Census: 39 in 65, 3 finer (11/23). NGC ID# 24PX, PCGS# 6576

1919-S Half Dollar, MS65
Semikey Branch Mint Issue

3036 1919-S MS65 NGC. This San Francisco issue is among the more challenging acquisitions in the series for Registry collectors. Although not as rare in Gem condition as the Denver issue of this year, it is scarce in this grade, with only infrequent appearances at auction. Finer examples are rare. This current coin displays brilliant, satiny mint luster. Liberty's head and branch hand show slight strike softness, but overall definition is pleasing. The fields show die polishing striations, as is often seen on this issue. An excellent Registry coin candidate. Census: 18 in 65 (1 in 65+), 10 finer (11/23). NGC ID# 24R2, PCGS# 6579

**1941-D Walking Liberty Half, MS67+
Exceptionally Well Preserved**

- 3037 1941-D MS67+ PCGS.** While the 1941-D half dollar is plentiful in MS67, Plus-designated pieces in this grade are scarce, and finer coins are notably rare. This Registry-grade coin displays original, pristine mint luster with a delicate ivory-white hue. Liberty's branch hand shows slight strike softness, but the overall definition is excellent. Eye appeal is certainly outstanding. Population: 47 in 67+, 6 finer (11/23). NGC ID# 24S4, PCGS# 6612 Base PCGS# 6612

**1942 Half Dollar, MS68
Frosty and Pristine**

- 3038 1942 MS68 NGC.** This remarkably high-grade 1942 Walker is about as flawless as it gets for the series. Impressive sharpness characterizes the central devices, and frosty, original mint luster glistens across untouched surfaces. Much of each side is brilliant, save for a tinge of golden color around the obverse borders. Eye appeal is simply outstanding. The 1942 is rarely offered in this grade and is unknown numerically finer. Census: 13 in 68, 0 finer (11/23). NGC ID# 24S6, PCGS# 6614 Base PCGS# 6614

**1942-S Half Dollar, MS67
Among the Finest Certified**

- 3039 1942-S MS67 NGC.** This Superb Gem is beautifully preserved, with brilliant, satiny mint luster and well-defined design elements. The fields are especially clean. Although the 1942-S Walker is plentiful in lower grades, the date becomes rare in MS67 and is unknown numerically finer. Census: 29 in 67, 0 finer (11/23). NGC ID# 24S8, PCGS# 6617

FRANKLIN HALF DOLLARS

**1948 Franklin Half Dollar, MS67+
CAC-Approved Full Bell Lines Example**

- 3040 1948 MS67+ Full Bell Lines PCGS. CAC.** The Franklin design was introduced on the half dollar in 1948 and the Philadelphia Mint struck a well-made production of just over 3 million pieces. Today, the issue is decidedly elusive at the MS67 grade level, with the Full Bell Lines designation, and only one coin has been certified finer by either of the leading grading services (11/23). This delightful Superb Gem offers sharply detailed design elements throughout. The impeccably preserved surfaces radiate vibrant mint luster, with highlights of sea-green and amber toning. Overall eye appeal is terrific and the high quality within the grade is confirmed by CAC. This coin should find a home in the finest collection or Registry Set. Population: 51 in 67 (12 in 67+) Full Bell Lines, 1 finer. CAC: 12 in 67, 0 finer (11/23). NGC ID# 24SR, PCGS# 86651

**1949-S Franklin Half Dollar, MS68
The PCGS Plate Coin**

- 3041 1949-S MS68 PCGS. CAC.** The PCGS Plate Coin and the sole finest example at that service with or without Full Bell lines should command considerable attention from devoted Franklin half dollar enthusiasts. Eye appeal is absolutely spectacular with original shades of orange, yellow, blue, and lavender patina over each side. Radiant frosty luster shines through the attractive overlay. Population: 1 in 68, 0 finer. CAC: 2 in 68, 0 finer (11/23). NGC ID# 24SV, PCGS# 6655

1952-D Half Dollar, MS67 Full Bell Lines
Tied for the Finest Certified

- 3042 1952-D MS67 Full Bell Lines PCGS.** The majority of certified 1952-D half dollars are designated as Full Bell Lines and that is unsurprising, as submissions are always value-based. PCGS has examined nearly 7,000 examples of this issue, mostly in grades below MS66. Grading totals at NGC parallel those at PCGS. This piece is an amazing Superb Gem with a bold strike, and it is tied for the finest that either service has examined. Both sides have brilliant, frosty luster within a light gold-toned frame. This is an exceptional coin that will enhance a top level Registry set. Population: 9 in 67 Full Bell Lines, 0 finer (11/23). NGC ID# 24T4, PCGS# 86662

1954-D Franklin, MS67 Full Bell Lines
Top-Grade Registry Coin

- 3043 1954-D MS67 Full Bell Lines PCGS.** This Denver issue is among the better-struck dates in the series from a branch mint and is more often seen with Full Bell Lines than without, although the majority of said coins grade no finer than MS65. At the Superb Gem level, the 1954-D Franklin half is rare. This piece is tied for the finest certified. Glistening, satiny mint luster bathes this coin in luminous champagne-gold warmth, while pronounced sharpness characterizes the devices. A loupe fails to find notable abrasions. For the Registry collector, this coin is about as good as it gets for the 1954-D issue. Population: 8 in 67 Full Bell Lines, 0 finer (10/23). NGC ID# 24TA, PCGS# 86668

PROOF FRANKLIN HALF DOLLARS

1950 Franklin, PR67+ Cameo
Brilliant and Well Contrasted
Tied for Finest Cameo at PCGS

- 3044** 1950 PR67+ Cameo PCGS. CAC. The five-piece proof sets issued from 1936 to 1942 saw a suspension from 1943 to 1949. As a result, the first two years of coinage for the Franklin half dollar were not augmented with a proof issue for collectors. This changed in 1950 when proof set production resumed at Philadelphia. More than 51,000 proof half dollars were struck in 1950 and distributed in five-denomination sets. Surviving examples of the issue are plentiful today, although most lack appreciable cameo contrast. This piece — a brilliant coin with virtually flawless mirrors and softly frosted devices — is tied for the finest Cameo example at PCGS, and it is a rarity as such. Sharp detail adds to the eye appeal, while the pristine surfaces beg consideration from Registry collectors. Population: 27 in 67 (5 in 67+) Cameo, 0 finer. CAC: 21 in 67, 1 finer (10/23). NGC ID# 27VA, PCGS# 86691

1951 Franklin Half Dollar, PR67
Rare Deep Cameo Example

- 3045** 1951 PR67 Deep Cameo PCGS. The Philadelphia Mint struck a small production of 57,500 proof Franklin half dollars for collectors in 1951. Unfortunately, most survivors have shallow mirrors and examples with Deep Cameo contrast are decidedly elusive. Also, the Mint's cellophane packaging was not suitable for long-term storage.

This spectacular Superb Gem displays virtually pristine brilliant surfaces throughout. The sharply detailed design elements have a rich coat of mint frost that contrasts profoundly with the deeply mirrored fields to produce a startling cameo effect when the coin is tilted in the light. Eye appeal is outstanding. This coin will be a welcome addition to the finest collection or Registry Set. Population: 7 in 67 (2 in 67+) Deep Cameo, 0 finer (11/23). NGC ID# C2BE, PCGS# 96692

1953 Half Dollar, PR68 Deep Cameo
Registry Set Essential

- 3046** 1953 PR68 Deep Cameo PCGS. CAC. The Philadelphia Mint increased production of proof Franklin half dollars in 1953 to 128,800 pieces. Some modest improvements in quality were accomplished and problems with hairlines are seen less often than on the 1952 issue. Unfortunately, some of the 1953 proofs were struck from worn dies and examples with Deep Cameo surfaces are rare. This magnificent PR68 specimen offers sharply detailed design elements, with a rich coat of mint frost that contrasts profoundly with the deeply mirrored fields, creating an intense cameo effect. The brilliant surfaces are impeccably preserved, with terrific eye appeal, and the high quality within the grade is confirmed by CAC. This coin is tied with one other specimen for finest-certified Deep Cameo example at PCGS (11/23), but there is a single PR69 example with no Cameo designation. This coin is pictured on PCGS CoinFacts. Population: 2 in 68 Deep Cameo, 0 finer. CAC: 2 in 68, 0 finer (11/23). NGC ID# 27VD, PCGS# 96694

EARLY DOLLARS

1795 Flowing Hair Dollar, Appealing VF35
Three Leaves, B-5, BB-27
Ideal Collector Coin

- 3047** 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, VF35 NGC. CAC. Bowers Die State III. Two-tone toning includes light-tan devices set against brownish-gray fields. Iridescent colors exist beneath the smooth, minimally abraded surfaces. The BB-27 die pair far outnumbers all Flowing Hair varieties, regardless of Two Leaves or Three Leaves beneath the eagle's wings. There are no adjustment marks, and this Choice moderately worn, midgrade example has earned the always important CAC endorsement. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

1795 B-15, BB-52 Draped Bust Dollar, XF45
Bust Centered, First Year of the Type

3048 1795 Draped Bust, Centered, B-15, BB-52, R.2, XF45 PCGS. CAC. Bowers Die State IV. The BB-52 variety shows the portrait of Liberty properly centered on the planchet, with the highest wave of hair located under the E of LIBERTY. The obverse is paired with a reverse showing six berries on the olive branch and a leaf under the A of STATES. This example is richly toned with bluish-gray fields and tan toning on the central motifs. Bright silver luster surrounds raised elements. Light rub on the high points confirms the Choice XF grade, yet sharp definition remains on the hair strands, stars, and eagle to suggest an even finer level. Abrasions are few and there are no discernible adjustment marks. Population: 4 in 45, 13 finer (10/23).

Ex: FUN Signature (Heritage, 1/2017), lot 4528.

NGC ID# 24X2, PCGS# 39995 Base PCGS# 6858

1797 Draped Bust Dollar, AU53
B-1, BB-73, 9x7 Stars
Large Letters Reverse

3049 1797 9x7 Stars, Large Letters, B-1, BB-73, R.3, AU53 PCGS. Bowers Die State I. The resilient Small Eagle reverse was in service for four years (1795 through 1798), and the Large Letters variant did not fail until after the 1798 Small Eagle, 13 Stars variety was struck. The reverse die is the same as the one used to strike the 1797 BB-73 dollars, suggesting that at least some (or perhaps all) of the 1797-dated pieces were struck in 1798. Several 1797 examples exist that were struck from a terminal state of the dies, yet there are no 1798 Small Eagle coins known in a similar advanced die state.

Population figures indicate many more 1797 dollars were produced than the reported mintage of 7,776 pieces (David Bowers estimates as many as 60,000 pieces). The Mint was not overly concerned about which dates were delivered in a calendar year, and the main focus was to get the maximum use of its dies regardless of date. With the Mint closed for much of 1797 due to yellow fever, it makes sense most of the 1797 mintage was struck in 1798.

The present coin represents the earliest state of the dies, with a tapered, fully rounded "pellet" die lump beneath star 9. There are no die cracks or die lapping visible that would indicate a more advanced state of the dies. The coin is bright, with silver-white surfaces except for a few dark toning flakes at the margins among the stars and legends. Scattered marks from circulation and light wear define the assigned grade. Traces of original mint luster remain among the devices. Population: 17 in 53, 16 finer (11/23).

Ex: Beverly Hills Signature (Heritage, 11/2014), lot 3785; Long Beach/Summer FUN Signature (Heritage, 7/2023), lot 3092.

GOBRECHT DOLLARS

1836 Gobrecht Dollar, AU Details
Judd-60 Original

- 3050** 1836 Name on Base, Judd-60 Original, Pollock-65, R.1 — Corroded, Scratched — ANACS. AU Details, Net PR40. Silver. Plain Edge. Die Alignment I (center of Liberty's head is opposite the DO in DOLLAR). Die State C. The rim nickels over the second T in STATES are weakly seen because of the corrosion, but we are fairly certain that die state is correct, especially since there is no angling die clash mark above the eagle's wing. Brilliant from cleaning, there are several prominent scratches on the obverse and a couple of marks in the reverse fields, as well as extensive abrasions throughout. Even wear covers the high points of the design on both sides.

1836 Gobrecht Dollar, PR45
Judd-60 Original

- 3051** 1836 Name on Base, Judd-60 Original, Coin Alignment, Pollock-65, R.1, PR45 PCGS. Silver. Plain Edge. Die Alignment I (center of Liberty's head is opposite the DO in DOLLAR). Die State A. This die state is characterized by die chips in the dentils above the last A in AMERICA. This early strike was produced in the final week of 1836. The obverse is bright from an old cleaning, perhaps just a wipe, with deep russet-gray around the margins. The reverse, on the other hand, displays even medium-gray patina throughout. Traces of rub are evenly distributed over the high points on both sides. Minimal abrasions are present, none worthy of mention. NGC ID# BLWT, PCGS# 11225

SEATED DOLLAR

1859-S Seated Liberty Dollar, MS61
Only 20,000 Pieces Struck

3052 1859-S MS61 NGC. OC-1, R.2. Osburn-Cushing Die State c/d. Only 20,000 Seated Liberty dollars were struck in 1859 at the San Francisco Mint, and most of these were used in foreign trade. Examples in all Mint State grades remain rare today. This example is sharply detailed and partially prooflike, with subtle touches of golden toning. Die polishing has removed repunching at the base of 1 and 8 in the date. A scattering of minor, grade-consistent abrasions are seen on both sides, yet eye appeal is strong. Census: 7 in 61, 10 finer (10/23).

Ex: Long Beach Signature (Heritage, 9/2010), lot 4359.

From The Riccolo Collection.

NGC ID# 24YZ, PCGS# 6948

PROOF SEATED DOLLAR

1866 Seated Dollar, PR65 Ultra Cameo
With Motto, White and Beautiful

3053 1866 Motto PR65 Ultra Cameo NGC. OC-P1, Low R.4. Osburn-Cushing Die State a/a. 1866 was the first year of the Motto silver dollar. The proof mintage was only 725 pieces, and Osburn-Cushing only estimate 500 survivors, most of which are the OC-P2 die pair. The rarer OC-P1 can be spotted at a glance by its date location, placed further left than OC-P2. This is a fully brilliant specimen with ice-white legends and devices. The fields are deeply mirrored, and the cameo contrast is stark. A narrow vertical pod-shaped streak rests on the upper-right obverse field. Census: 1 in 65 Ultra Cameo, 6 finer (11/23).

NGC ID# 252M, PCGS# 97014

MORGAN DOLLARS

1878 7TF Morgan, MS65
Deep Mirror Prooflike Example
Reverse of 1879

- 3054 1878 7TF Reverse of 1879, MS65 Deep Mirror Prooflike PCGS.** Among the few finest Deep Mirror Prooflike seven tailfeathers 1878 Morgan dollars certified. The E in the obverse peripheral legend is faintly doubled, as are the 8s in the date; the tip of the bust truncation points to a dentil. This Gem Reverse of 1879 Morgan displays seemingly infinite depth of mirroring in the fields and has stark white-on-black contrast with a hint of champagne toning. A few small marks on the obverse are all that limit the grade. Razor-sharp detail characterizes Liberty's hair curls and the eagle's talons. Finding a more appealing circulation strike may be prohibitively difficult. Population: 6 in 65 (3 in 65+) Deep Mirror Prooflike, 0 finer (11/23).
Ex: Central States Signature (Heritage, 4-5/2016), lot 4696; Central States Signature (Heritage, 4/2020), lot 3973; Dallas Signature (Heritage, 11/2021), lot 3606.
NGC ID# 253L, PCGS# 97077

1878-S Morgan Dollar, MS67
Registry-Grade Example

- 3055 1878-S MS67 PCGS.** The Morgan dollar was first produced in 1878 and the San Francisco Mint struck a substantial mintage of more than 9.7 million pieces. As might be expected, the issue is relatively available in high grade today and it is a popular choice of branch mint type collectors. This spectacular Superb Gem is a strong Registry Set contender, with sharply detailed design elements and virtually flawless brilliant surfaces that radiate vibrant mint luster from both sides. Eye appeal is terrific. Population: 46 in 67 (5 in 67+), 1 finer (11/23).
NGC ID# 253R, PCGS# 7082

1879 Morgan Dollar, MS65 Deep Mirror Prooflike
Strongly Contrasted

- 3056 1879 MS65 Deep Mirror Prooflike PCGS.** Although plentiful overall, the 1879 Morgan dollar is scarce in high grade with Deep Mirror Prooflike surfaces. This Gem example is a rarity. Pronounced cameo contrast on each side complements amber, gold, blue, and lilac border toning that perfectly frames each periphery. Liberty's cheek shows only trivial grazes, and the mirrored fields have only unobtrusive marks, none out of line for the grade. Finer Deep Mirror Prooflike pieces are great rarities and will be out of reach for most collectors. Population: 8 in 65 (1 in 65+) Deep Mirror Prooflike, 4 finer (11/23).
NGC ID# 253S, PCGS# 97085

1879-CC Dollar, MS62
White-on-Black Contrast

- 3057** 1879-CC MS62 NGC. VAM-4. Ex: Tahoe Tavern Casino Collection. The right C in the mintmark is repunched. The 1879-CC is the rarest Morgan dollar issue from the first coinage era (1870-1885) of the Carson City facility. The mintage is multiples of the 1881-CC and 1885-CC, but the latter two issues emerged from the GSA hoard in far greater numbers than the 1879-CC. The present brilliant and well-struck example exhibits blatant white-on-black contrast, though it has not been designated as Prooflike by NGC. The obverse displays marks consistent with the MS62 grade. NGC ID# 253T, PCGS# 7086

1879-CC Dollar, MS63
Elusive Nevada Mint Semikey

- 3058** 1879-CC MS63 PCGS. Normal mintmark. An abbreviated mintage of only 760,000 pieces was struck due to lack of silver bullion at the Carson City Mint. This is a normal mintmark example, although repunching on the mintmark's second C exists. Brilliant and semireflective fields surround heavily frosted devices, making this Select Uncirculated Morgan dollar both visually impressive and technically appealing.
From The Riccolo Collection.
NGC ID# 253T, PCGS# 7086

1879-CC Morgan Dollar, MS63+
Low-Mintage Carson City Semikey

- 3059** 1879-CC MS63+ PCGS. The 1879-CC Morgan dollar claims a small mintage of just 756,000 pieces, and the issue was not heavily represented in the GSA sales of the 1970s, making it the second most elusive Morgan dollar from the famous Carson City Mint. This Plus-graded Select specimen displays sharply detailed design elements and lightly marked lustrous surfaces with outstanding eye appeal.
From The Tien's Treasure Collection.
NGC ID# 253T, PCGS# 7086

1879-CC Dollar, MS64
'Capped Die' VAM-3

- 3060** 1879-CC Capped Die, VAM-3, MS64 NGC. A Top 100 Variety. The top of the 18 in the date is repunched, but the most unusual feature of the "Capped Die" *Guide Book* entry is the mintmark. It is surrounded by myriad tiny chips, apparently painstakingly entered in the reverse die to obscure the fact that the wrong-sized mintmark punch was initially used. It was Leroy Van Allen who first concluded (in the September 1965 *Numismatic Scrapbook*) that VAM-3 is a Large Over Small CC variety. The present near-Gem is virtually brilliant, and displays vibrant cartwheel luster. The surfaces are surprisingly smooth, even for the lofty MS64 level. NGC ID# 253T, PCGS# 133869 Base PCGS# 7088

1879-CC Morgan Dollar, MS63
Scarce Deep Prooflike Example, VAM-3

3061 1879-CC Capped Die, VAM-3, MS63 Deep Prooflike NGC. A Top 100 Variety. The Mint's crude attempt to disguise the large over small mintmark makes the 1879-CC so-called Capped Die variety (VAM-3) about equally sought by collectors compared to its Normal Mintmark counterpart. With deeply mirrored fields and strong contrast against the coin's frosted devices, the 1879-CC is extremely scarce regardless of the mintmark variety. This is a brilliant Capped Die Deep Prooflike example that displays only a few tiny field marks and light luster grazes on Liberty's cheek and neck. A slightly soft strike over the ear and the eagle's breast is typical of the die pair. The strike is otherwise sharp the dramatic field/device contrast provides plenty of eye appeal.

From The Riccolo Collection.

PCGS# 40777 Base PCGS# 97089

1880-CC Morgan Dollar, MS67
Extremely Rare Any Finer

3062 1880-CC MS67 NGC. Due to a surprising shortage of bullion, the Carson City Mint struck a small production of only 591,000 Morgan dollars in 1880. More trouble ensued when assayers tested the output of the Carson City facility. It was then found that 96,000 Morgan dollars from the 1880 mintage did not meet legal standards and the coins were melted. Many of the remaining coins were held in Mint and Treasury vaults for decades until they were offered in the GSA sales of the 1970s, making the issue reasonably available to present-day collectors. The issue is still elusive at the MS67 grade level, however, and finer coins are virtually unobtainable. This spectacular Superb Gem exhibits sharply detailed design elements in most areas, but a touch of softness is evident on the hair above the ear, due to some die striations that were not completely struck out. The impeccably preserved brilliant surfaces are lustrous and appealing. Census: 33 in 67 (1 in 67+), 0 finer (11/23). NGC ID# 2542, PCGS# 7100

1884-S Morgan Dollar, MS62
Challenging in Mint State

- 3063 1884-S MS62 PCGS.** The 1884-S Morgan dollar boasts a mintage of 3.2 million pieces, which, although significant, represented a decline in silver dollar production from the 6.2 million examples struck the previous year at that Mint. The 1884-S does not stand out in lower circulated grades, as such coins are plentiful and known with a wide range of eye appeal, but it begins to command a premium at the XF and AU levels, and it is notably scarce in Mint State compared to most other issues. It is even significantly scarcer in Mint State than the 1883-S, despite the two dates being considered “twins” in traditional numismatic lore. Examples of the 1884-S grading finer than MS62 are especially elusive and quickly climb out of reach for most collectors.

This MS62 coin displays brilliant, satiny mint luster and an above-average strike, with only slight softness noted on the eagle's breast feathers. Light handling marks and perhaps a few hairlines limit the numeric grade, but eye appeal is generally excellent for the grade.

NGC ID# 254P, PCGS# 7156

1887 Silver Dollar, MS67+
Rare With a Plus Designation

- 3064 1887 MS67+ NGC.** The 1887 Morgan dollar is plentiful overall and is even seen with regularity in MS67, but Plus-designated pieces in this grade are rare. We have previously handled an MS67+ coin on only 17 occasions, and finer pieces are prohibitively rare. This well-struck example displays luminous satin luster with vivid orange-gold, violet, and ocean-blue toning on the obverse. The reverse is mostly brilliant but with an orange-gold border. No major abrasions are seen. NGC lists only eight finer non-Prooflike pieces (10/23). NGC ID# 254Y, PCGS# 7172

1893-S Morgan Dollar, VF30
Highly Collectible Midgrade Example

- 3065 1893-S VF30 PCGS.** A bit of silver luster shimmers on the reverse, while the obverse displays an evenly distributed silver-gray patina that is not too dark, not too light — just right for this VF30 example. Smooth wear minimizes the few marks and abrasions, only seen under magnification. Legions of Morgan dollar collectors search out high-quality, midgrade examples such as this coin. A strong bid will be required.

From The Riccolo Collection.

NGC ID# 255U, PCGS# 7226

1893-S Morgan Dollar, XF40
High-End Original Surfaces

3066 1893-S XF40 PCGS. The series-low 100,000-piece mintage makes the 1893-S the single most-coveted circulation strike among all Morgan dollars, especially in grades XF or finer. This example commands attention with its smooth, attractive surfaces and golden-gray toning that greatly enhance its visual appeal. While scattered light field abrasions speak to its journey through time, the strong rims and well-defined dentils underscore the coin's robust strike and preservation. PCGS reports moderate availability at the XF40 level, this coin stands out for its original eye appeal. We note a faint reeding mark on Liberty's jawline but no overly concerning marks, providing above-average quality for the grade. Finer examples become significantly more expensive. NGC ID# 255U, PCGS# 7226

1893-S Silver Dollar, XF45
Famous Key Circulation Strike

3067 1893-S XF45 PCGS. PCGS estimates just under 10,000 1893-S Morgan dollars survive from the 100,000-piece mintage. More than half of those survivors are certified VF or less, with a dramatic decline in the number of certified pieces at each grade level higher than VF. This Choice XF example approaches About Uncirculated sharpness and surface quality, with reflective fields and only isolated high-point wear. A thin veneer of golden-gray toning covers each side, allowing glimpses of silver luster to shine through. Liberty's cheek and neck show minimal tiny marks when viewed with a loupe. The smooth fields have only a few faint hairlines and minor abrasions and the eye appeal is excellent.

From The Riccolo Collection.
NGC ID# 255U, PCGS# 7226

1903 Morgan, MS65 Deep Prooflike
Tied for Finest Deep Prooflike Example

3068 1903 MS65 Deep Prooflike NGC. Q. David Bowers, in *A Guide Book of Morgan Dollars*, fifth edition, observes: "Prooflike [1903 dollars] are seen at widely scattered intervals and do not have high contrast." In our experience, this statements rings true in terms of coins seen at auction. This reality also means that Deep Prooflike pieces are rare in any grade.

The present example is Registry-quality for collectors assembling Deep Prooflike sets. Brilliant surfaces showcase satiny devices and mirrorlike fields, comprising the low-contrast form of eye appeal for which this issue is known. Detail is sharp, and no major abrasions are seen. Census: 4 in 65 Deep Mirror Prooflike, 3 finer (11/23). NGC ID# 256R, PCGS# 97285

PROOF MORGAN DOLLARS

1880 Morgan Dollar, PR67 Cameo
Dramatic Field/Device Contrast

3069 1880 PR67 Cameo NGC. The Philadelphia Mint originally struck a generous mintage of 1,440 proof Morgan dollars for collectors in 1880, but 85 of those proofs went unsold and were melted after the end of the year. Still, the net mintage of 1,355 pieces makes the 1880 proof Morgan dollar one of the more available proofs of the decade. Fortunately for collectors, the issue was well-produced and many examples have a sharp strike and exceptional Cameo surfaces. This delightful Superb Gem is a case in point, with razor-sharp definition on all of the design elements, and deeply mirrored fields that contrast boldly with the richly frosted devices to create a stunning cameo effect. The brilliant surfaces are impeccably preserved and eye appeal is terrific. Census: 24 in 67 Cameo (1 in 67+, 2 in 67★), 15 finer (11/23). NGC ID# 2724, PCGS# 87315

1883 Morgan Dollar, PR67
White-on-Black Contrast

3070 1883 PR67 NGC. VAM-22. Light orange-gold patina adorns otherwise brilliant surfaces. This intricately struck Superb Gem displays substantial white-on-black contrast, and would likely be designated as Cameo were it not housed within an older generation holder. The eye appeal is imposing, and the preservation is exemplary. VAM-22 is a proof-only variety of interest for its lump on Liberty's lower cheek. The reverse is distinguished by fine die lines west of the eagle's right (facing) ankle. Only 1,039 proofs were struck, and most survivors are clustered in PR62 to PR65 grades. NGC ID# 27Z7, PCGS# 7318

1886 Morgan Dollar, PR67
CAC-Approved Registry-Grade Example

3071 1886 PR67 PCGS. CAC. The Philadelphia Mint struck 891 proof Morgan dollars for collectors in 1886, but five of those pieces were never distributed, leaving a net mintage of just 886 coins. Interestingly, the net mintage matches the post-Millennium portion of the date. The coins were delivered in quarterly batches of 360, 165, 100, and 261 pieces. High-quality proofs of 1886 are more difficult to locate than proofs of earlier years, perhaps because the Mint's resources were strained by having to produce over 20 million business-strike Morgan dollars that year. This spectacular Superb Gem proof is among the finest certified examples. A few Plus-graded specimens are extant, and a handful of Cameo and Deep Cameo Superb Gems exist, but no coins have been certified in higher numeric grades by either of the leading grading services (11/23). This coin offers sharply detailed design elements throughout and the impeccably preserved surfaces include deeply reflective fields, under attractive shades of cerulean-blue and lime-green toning. Eye appeal is terrific and the high quality within the grade is confirmed by CAC. Population: 5 in 67 (2 in 67+), 0 finer. CAC: 3 in 67, 0 finer (11/23). NGC ID# 27ZE, PCGS# 7321

1888 Morgan Dollar, PR67 Cameo
Outstanding Contrast and Eye Appeal

- 3072 1888 PR67 Cameo NGC.** According to Mint records, the Philadelphia Mint struck 833 proof Morgan dollars in 1888, with the coins delivered in three batches of 432 pieces in March, another 100 in September, and 300 more in December. A single example was also struck specifically for inclusion in the Mint Cabinet at an undetermined date. Two pairs of dies were used to strike the proofs. Contemporary numismatists complained that the 1888 proofs were not as well-produced as those of previous years, with many examples softly struck in the centers and having shallow mirrors in the fields. As might be expected, the 1888 proof Morgan dollar is an extremely rare issue at the PR67 grade level, and examples with Cameo surfaces are even more elusive. This spectacular Superb Gem proof exhibits unusually sharp definition on all design elements, and the fields are deeply mirrored, creating intense field/device contrast. The brilliant surfaces are virtually pristine and eye appeal is terrific. This coin should find a home in the finest collection or Registry Set. Census: 5 in 67 Cameo (1 in 67★), 0 finer (11/23). NGC ID# 27ZH, PCGS# 87323

1890 Dollar, PR67 Cameo
Brilliant Contrasted Proof

- 3073 1890 PR67 Cameo PCGS. CAC.** The proof 1890 Morgan dollar comes from a mintage of only 590 pieces, marking the lowest annual production of proofs for the series outside of the 1878 and 1921 dates. The issue is about as collectible as any other proof, and that includes it being conditionally scarce at the Superb Gem level, regardless of the degree of cameo contrast. This PR67 Cameo example displays brilliant surfaces with deep, watery mirrors and satiny devices. The strike is sharp, as is expected of a coin in this lofty grade. Population: 9 in 67 Cameo, 1 finer. CAC: 3 in 67, 1 finer (10/23). NGC ID# 27ZK, PCGS# 87325

PEACE DOLLAR

1926-S Peace Dollar, MS66+
Frosty and Radiant

- 3074 1926-S MS66+ NGC.** Many Peace dollar issues are challenging to locate in high grade, and such coins are often highly attractive when located. The 1926-S is such a date, where Premium Gems are scarce and finer pieces are rare. Moreover, the present coin — Plus designated by NGC — is visually exceptional and clean, with frosty, brilliant mint luster that upholds the reputation of Peace dollars for being eye-appealing in high grades. The strike is sharp, and overall eye appeal is outstanding. None are numerically finer at NGC, and just two coins are reported finer at PCGS. Census: 61 in 66 (7 in 66+, 2 in 66★), 0 finer (10/23). NGC ID# 257R, PCGS# 7369

ERROR

1976-S Bicentennial Quarter, PR67 Red
Struck Over a Struck Cent
Important Off-Metal Error

- 3075 1976-S Bicentennial Quarter — Overstruck on a Struck Cent, Double Denomination — PR67 Red NGC.** The Bicentennial quarter was the sole design change to the Washington quarter between its 1932 introduction and the 1999 advent of the state quarter series. It was struck in 1975 and 1976, though all examples bear 1976 dates. As a single-year type, off-metal specimens are very rare. In fact, a search of our online archives, which date to 1993, failed to find another proof Bicentennial quarter struck on a cent planchet. This mint error was struck aligned with the collar die at 6 o'clock. The types are complete, though Washington's hair is mostly indistinct. QUARTER DOLLAR is partial and blurry. LIBERTY is essentially absent. The San Francisco mintmark appears as a narrow triangle. The quarter date is bold. The width is greater than the height, which makes the coin somewhat oval. The cent undertype is visible as columns of the Lincoln Memorial on Washington's shoulder and forehead, and ONE CENT is faintly present on the left obverse border of the quarter.

GOLD DOLLARS

1855 Gold Dollar, MS66+
Short-Lived Type Two Design
CAC-Approved Quality

3076 1855 Type Two MS66+ NGC. CAC. The tiny Type One gold dollars were easily lost in pockets and coin purses. Accordingly, the Mint switched to the Type Two design in 1854, to correct the problem. The Type Two gold dollars featured the bust of an Indian Princess on the obverse and were struck on thinner, larger diameter planchets, making them easier to locate. Unfortunately, the thinner planchets resulted in many striking problems, and the design had to be adjusted again in 1856. The short-lived Type Two design is extremely popular with collectors today.

The 1855 gold dollar claims a substantial business-strike mintage of 758,269 pieces. As might be expected, the 1855 is one of the most plentiful Type Two issues overall, and one of only two dates collectible at the MS66 grade level. Premium Gem examples are nonetheless rare, and only a handful of finer pieces are known. Recent auction appearances of such coins are few and far between. Fortunately for collectors, the 1934 Baltimore Hoard included 215 examples of the 1855 gold dollar, virtually all in Mint State.

This coin is the sole Plus-graded MS66 example at NGC, where just four Superb Gems are reported finer (10/23). Luster is frosty and brilliant, with rich yellow-gold color. Light clash marks are seen in the fields, but only the faintest luster grazes are observed with a loupe. The 8 in the date is slightly soft at the top, but central strike sharpness is generally exceptional for the issue. Overall eye appeal is outstanding and the high quality within the grade is confirmed by CAC. Census: 8 in 66 (1 in 66+, 1 in 66★), 4 finer. CAC: 13 in 66, 5 finer (11/23). NGC ID# 25C4, PCGS# 7532

1855-D Gold Dollar, AU Details
Only 1,811 Coins Struck

3077 1855-D — Damaged — NGC Details. AU. Variety 7-I. Pinscratches and other signs of damage account for the Details grade. While those imperfections may be a liability for some collectors, others might consider them a benefit: the 1855-D would otherwise be unobtainable. The issue boasts a scant mintage of only 1,811 pieces and has one of the lowest survival rates in the series for this mint, which is estimated at only 75 to 100 examples in all grades. This coin is boldly struck from the usual clashed dies. Yellow-gold surfaces maintain a modicum of field reflectivity despite the scattered marks.

Ex: Public Auction Sale (Stack's, 3/2000), lot 441.

From The Estate of Charles W. Montgomery, Part II.

1875 Gold Dollar, MS63 Prooflike
Only 400 Pieces Struck

3078 1875 MS63 Prooflike NGC. All gold coins struck at the Philadelphia Mint in 1875, save for the double eagles, represent significant rarities. Only 100 eagles, 200 half eagles, 400 quarter eagles, and 400 gold dollars were struck — all on the same day in December. Three dollar coins were manufactured in proof format exclusively. With respect to the dollars, few examples are known finer than the present MS63 Prooflike representative. Well-struck design elements complement reflective fields and warm orange-gold color. Minimal handling marks are seen, with just a few faint hairlines limiting the grade. Census: 3 in 63 (1 in 63+) Prooflike, 5 finer (11/23).

NGC ID# 25DD, PCGS# 77576

EARLY QUARTER EAGLE

1802/'1 Quarter Eagle, BD-1, XF45
Pleasing Color and Surfaces, CAC Approval

3079 1802 BD-1, R.4, XF45 PCGS. CAC. Bass-Dannreuther Die State a/b. Today, most researchers believe no vestiges of an underdigit 1 exist on any 1802 quarter eagles. This is a Choice XF BD-1 example — the most frequently seen of three 1802 die marriages needed to strike a small, 3,035-piece quarter eagle production for the date. Smooth, lightly worn olive-gold surfaces show a few grade-consistent marks, plus three or four well-hidden adjustment marks that angle downward through the eagle's right (facing) wing. A diagnostic spike (or die line) bridges the gap between the upper-left shield corner and the adjacent wing edge to confirm the BD-1 die variety. This same reverse die also struck 1802 JR-3 and 1803 JR-2 dimes. CAC endorsement assures the coin's high quality within its grade. PCGS Population (for the variety): 1 in 45, 2 finer (10/23). PCGS# 45506 Base PCGS# 7650

LIBERTY QUARTER EAGLE

1878 Quarter Eagle, MS68
One of the Two Finest Pieces Known

3080 1878 MS68 NGC. The 1878 is a common date from the 1870s, although it becomes conditionally scarce in MS65 and is rare finer. The Condition Census consists of six MS67 coins at NGC and PCGS combined, with an MS68 (the current coin) and an MS68★ at NGC (6/23). Thus, this high-end piece represents the finest quality available for this date and is an outstanding type coin for collectors seeking a date other than the late-series issues most often acquired for such purposes. The strike is sharp, and frosty rose-gold luster complements near-flawless preservation. A small coppery alloy spot to the right of the date and another at the E in AMERICA serve as pedigree markers and attest to the originality of the surfaces. Census: 2 in 68 (1 in 68★), 0 finer (11/23). NGC ID# 25KY, PCGS# 7828

PROOF INDIAN QUARTER EAGLE

1910 'Bright' Quarter Eagle, PR66
Richly Toned

- 3081 1910 PR66 PCGS.** Of the 682 proof quarter eagles struck in 1911, only 90 to 110 examples are believed to have survived to the present day (according to John Dannreuther). Apparently, the large mintage of proofs this year was due to speculators who believed no quarter eagles would be produced that year (they were, though, all in the fourth quarter). Since the collectors who had overordered proofs simply spent their excess proofs as regular coinage. The surfaces are bright throughout; however, what is unusual with this proof is rather than the uniform yellow-gold color usually seen, this piece is covered in rich reddish-gold patina with lilac in the recessed area on the Native American's neck. This suggests that this particular coin may have resided for many years in the Mint-issued sulphur envelope, as proof sets were packaged in these years. An interesting and vividly colored matte proof quarter eagle. Population: 15 in 66 (3 in 66+), 2 finer (11/23). NGC ID# 289J, PCGS# 7959

THREE DOLLAR GOLD PIECES

1862 Three Dollar, Sharp AU58
Rare CAC-Approved Example

- 3082 1862 AU58 PCGS. CAC.** This is a remarkably sharp example, showing bold definition on the headdress and the wreath bowknot despite a touch of high-point friction that prevents Mint State classification. Original honey-gold patina retains luster in the fields, while scattered abrasions accompany the aforementioned wear. Only a dozen coins in this grade are CAC endorsed. However, few CAC-approved coins ever appear on the market. Our Auction Archives show only a dozen prior appearances of CAC coins regardless of grade. This near-Mint CAC coin is especially important. Population: 34 in 58 (2 in 58+), 49 finer. CAC: 12 in 58, 12 finer (11/23). NGC ID# 25MH, PCGS# 7983

1862 Three Dollar Gold, MS62
CAC-Approved Condition Rarity

- 3083** 1862 MS62 PCGS. CAC. The 1862 three dollar piece is scarce in any Mint State grade, and CAC-approved examples are notably rare. We have previously handled a CAC-approved Uncirculated coin on only six occasions. For advanced collectors of this series, these elusive high-end coins are an essential acquisition regardless of the grade being sought out. In MS62, this piece is one of just five coins with the coveted green label on the holder. The strike is sharp, and satiny orange-gold surfaces produce ample eye appeal with limited abrasions overall. Population: 13 in 62, 26 finer. CAC: 5 in 62, 7 finer (11/23).
NGC ID# 25MH, PCGS# 7983

1878 Three Dollar Gold Piece, MS65
Lustrous, Colorful Example

- 3084** 1878 MS65 NGC. The 1878 three dollar gold piece was produced in large quantity in anticipation of paper bill redemptions that never occurred. Many 1878 three dollar gold pieces remained undistributed in bank vaults around the country. Some high-grade examples were later purchased at a premium by well-connected coin dealers and collectors. Relatively few ever circulated. The issue was well-produced and its availability in high grade makes it a favorite choice of type collectors. This well-detailed Gem displays virtually flawless orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. NGC has graded 61 numerically finer examples (3/23).
NGC ID# 25MZ, PCGS# 8000

EARLY HALF EAGLES

1806 Capped Bust Right Half Eagle, AU55
Knob 6, 7x6 Stars, BD-6 Variety

- 3085** 1806 Knob 6, 7x6 Stars, BD-6, R.2, AU55 NGC. Bass-Dannreuther Die State a/b. The Philadelphia Mint struck 64,093 Capped Bust Right half eagles in 1806, with six die varieties known for the date. This coin represents the BD-6 variety, identified by the Knob 6 in the date. The BD-6 is a relatively plentiful variety, with a surviving population of 600-900 examples in all grades. This impressive Choice AU specimen exhibits well-detailed design elements, with a touch of softness on the central obverse, due to some die striations the were not completely struck out and dramatic clash marks on the reverse. The pleasing orange-gold surfaces are lightly abraded.
NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

1807 Bust Left Five Dollar, MS61
BD-8, First-Year Type Coin

3086 1807 Bust Left, BD-8, R.2, MS61 NGC. Bass-Dannreuther Die State d/b. Liberty's hair is clashed from the horizontal shield lines. 1807 was the first year of John Reich's Capped Bust Left, a scarce and attractive design type that continued through 1812. All six dates of the series are collectible, though some of the die marriages within that span are out of reach for most numismatists. Mint State examples of the type are desirable and always in demand. This olive-gold example shows substantial luster and a sharp strike. The fields exhibit minor marks, but none are worthy of individual mention. NGC ID# CKLH, PCGS# 507607 Base PCGS# 8101

1810 BD-4 Half Eagle, MS64
Large Date, Large 5

3087 1810 Large Date, Large 5, BD-4, R.2, MS64 NGC. Bass-Dannreuther Die State a/a. A splendid near-Gem that offers an intricate strike and vibrant mint luster. The fields show a few scattered small strike-throughs, but abrasions of any notice are absent. Struck from moderately rotated dies. Most early Federal gold coins were exported and melted, and many survivors were cleaned or used in jewelry. Type coins of the present quality are seldom encountered, and certain to command spirited bidding at auction. Encapsulated in a circa-2000 holder. Census: 25 in 64 (1 in 64+), 5 finer (11/23). NGC ID# BFXP, PCGS# 507598 Base PCGS# 8108

CLASSIC HALF EAGLE

1838-C HM-2 Half Eagle, AU53
Scarce Die Marriage, One-Year Type

3088 1838-C HM-2, R.5, AU53 NGC. The 1838-C is a key date in the Classic Head half eagle series and a prized offering for Charlotte gold specialists. Two die pairings accomplished the 17,179-piece Charlotte mintage. This HM-2 die variety is readily identified by a heavy, bisecting die crack that parallels the eagle's right (facing) wing and runs through the shield to the rim below the middle leaf pair. Only a handful of known survivors lack the die crack, indicating the die breakage was early, sudden, and severe. The 5 in 5 D was entered too high and repunched lower. The HM-2 variety shares its obverse die with the HM-1 variety. This About Uncirculated example displays original olive-gold color with bits of mint luster on each side. The strike is characteristically weak on the reverse from die lapping, although the strike is stronger on the obverse. Light abrasions dot the surfaces, with a solitary deep mark on the neck truncation. NGC Census (both varieties combined): 8 in 53, 25 finer (11/23).

NGC ID# 25S5, PCGS# 765269 Base PCGS# 8177

LIBERTY HALF EAGLES

1845-O Half Eagle, MS61
Lustrous Yellow-Gold Surfaces

3089 1845-O MS61 NGC. **Variety 1.** Much scarcer than the Charlotte or Dahlonega 1845 half eagles, this Mint State example is one of 41,000 pieces struck at the New Orleans Mint. The 1845-O is one of that facility's better efforts in terms of strike, with only minor weakness on the eagle's right shield and the adjacent wing junction, leg, and talons. A single die pair struck the entire 1845-O mintage. Semireflective fields surround the raised elements. Lightly abraded, lustrous yellow-gold surfaces display a touch of orange color at the rims for excellent eye appeal. Doug Winter estimates only eight to 10 examples exist in all Mint State grades combined, although the grading services report a few more than that. Census: 8 in 61, 6 finer (10/23).

NGC ID# 25TD, PCGS# 8225

1851 Five Dollar Liberty, MS63
Rare High-End Example

3090 1851 MS63 NGC. Among No Motto Liberty half eagles, the 1851 is relatively plentiful, although examples are still scarce in Mint State, strictly speaking. This MS63 coin is near the Condition Census, with NGC and PCGS reach reporting only four numerically finer pieces (10/23). Satiny sun-gold luster complements well-defined motifs. Light hairlines limit the numeric grade, but no overt abrasions are evident. Eye appeal is excellent. Census: 12 in 63, 4 finer (10/23). NGC ID# 25U5, PCGS# 8246

1853-D Liberty Half Eagle, MS64+
CAC-Approved Quality
Tied for Finest Certified

3091 1853-D MS64+ PCGS. CAC. Variety 34-Y. Large D. According to Mint records, the Dahlonega Mint struck 89,678 Liberty half eagles in 1853, a modest mintage in absolute terms, but quite generous in the context of the series. In his 2013 series reference, Doug Winter states five die varieties are known for the date. This coin represents Variety 34-Y, with the mintmark positioned closer to the branch than the feather tip and its upright centered over the left edge of the E in FIVE. The 1853-D has a relatively high survival rate and experts consider it the most available half eagle from the Dahlonega Mint. Southern gold collectors often seek an example for type purposes, as it is also the most available Dahlonega half eagle in high grade.

Few collectors systematically collected branch mint issues before Augustus Heaton published his landmark treatise on mintmarks in 1893. As a result, 19th century auction appearances of the 1853-D were few and far between. An early 20th century appearance was in lot 415 of the Charles W. Cowell Collection (B. Max Mehl, 11/1911), "1853 Large D high over E. Fine. Strong impression." Mehl's observations on the mintmark were unusually precise, for the time. The mintmark size is a controversial issue today, as PCGS has certified nine examples with a Medium D designation, but many experts doubt the variety really exists.

We believe the present coin first surfaced in lot 1140 of the James A. Stack Collection (Stack's, 10/1994), though the plate match is somewhat tentative:

"1853 'D' Brilliant Uncirculated. Deep impression of the dies, enriched by assertive gold luster. Here is a date of which only 'a small quantity of Uncirculated specimens' are known, as Akers writes. (SEE COLOR PLATE)."

The lot realized \$8,500, a strong price for the time. When this same coin recently appeared in a David Lawrence Rare Coin internet auction in March 2023, it realized a record price for the issue of \$86,500, illustrating how collector demand for Dahlonega gold has increased in recent years.

The coin offered here is tied with one other MS64+ example at PCGS for finest-certified honors. Like many examples of this issue, the central devices are sharply rendered, but a touch of softness is evident on some star centers and the dentilation is weak in some areas. The well-preserved, lemon-gold surfaces radiate vibrant mint luster from both sides, with some hints of olive at the peripheries. Overall eye appeal is outstanding and the high quality within the grade is confirmed by CAC. We expect intense competition from series specialists and Registry Set enthusiasts when this lot is called. Population: 4 in 64 (2 in 64+), 0 finer. CAC: 2 in 64, 0 finer (11/23).

Ex: Possibly James A. Stack Collection (Stack's, 10/1994), lot 1140, realized \$8,500; Internet Auction #1263 (David Lawrence Rare Coins, 3/2023), lot 7333, realized \$86,500. NGC ID# 25UF, PCGS# 8255

1865 Half Eagle, XF40
Only 30 to 40 Pieces Known

- 3092 1865 XF40 PCGS.** Although Philadelphia mintages of half eagles were high at the onset of the Civil War, production soon dropped once Federal paper money was issued, and could not be redeemed for specie. In 1865, only 1,295 fives were coined for commerce at Philadelphia, the lowest Civil War mintage of the denomination. Examples in any grade are rare. PCGS estimates only “30 to 40 [are] known.” The present olive-gold representative shows wear on the wingtips, but noticeable luster beckons from the design elements, and the sole reportable abrasion is a small roundish obverse dig at 12:30. Population: 8 in 40, 18 finer (11/23). NGC ID# 25VW, PCGS# 8298

1881 Five Dollar, MS66
Few Are Certified Finer

- 3093 1881 MS66 NGC.** No Liberty Head half eagle has a higher mintage than the 5.7+ million-piece production dated 1881. In a three-year span from 1880 to 1882 the Philadelphia Mint struck more than 11.3 million half eagles, topping the combined half eagle production from all mints over the previous 40 years by some 2 million pieces. This is a frosty 1881 example with a razor-sharp strike and bright mint luster. Bits of Mint grime confirm the original Premium Gem peach-gold and rose surfaces. Census: 16 in 66 (1 in 66+, 2 in 66★), 1 finer (11/23). NGC ID# 25XD, PCGS# 8354

1882-CC Half Eagle, MS61
Rare in Mint State

- 3094** 1882-CC MS61 PCGS. CAC. Variety 1-A. Mint State Carson City half eagles from the second period of coinage (1889 through 1893) are often available at auction, but Old West fives struck during the first era of operation (1870 to 1885) are seldom seen in Uncirculated condition, and rarely found bearing a coveted CAC seal. The present peach-gold representative displays ample luster and a good strike. The surfaces are original and show only moderate contact for the MS61 level. From a late die state with a delicate crack through the upper left stars and a clash mark below the eagle's beak. Population: 22 in 61, 13 finer. CAC: 5 in 61, 2 finer (11/23). NGC ID# 25XH, PCGS# 8359

1883-CC Five Dollar, AU55
Better Carson City Half Eagle

- 3095** 1883-CC AU55 PCGS. Variety 1-A. The 1883-CC becomes scarce in grades finer than XF from a small mintage of only 12,598 pieces. A single die pair is known for the issue. This is a Choice About Uncirculated example with pleasing green-gold color and far fewer abrasions than expected for the grade. Pale-orange accents are seen. Soft mint luster remains around the sharply struck devices and marks are limited to a few tiny obverse ticks. Population: 24 in 55 (1 in 55+), 31 finer (10/23).
From The Kankakee Collection.
NGC ID# 25XL, PCGS# 8362

1899 Half Eagle, MS67
Nearly Flawless Registry Candidate

3096 1899 MS67 PCGS. With a mintage of 1.7 million coins and a surviving population in the tens of thousands, it comes as little surprise that the 1899 half eagle is considered a plentiful date. Even the average certified representative falls between MS62 and MS63, and examples can be found with little trouble all the way up to and including MS65.

That said, this Superb Gem still manages to distinguish itself from nearly every other survivor in terms of both technical and visual quality. The surfaces are practically flawless, fully struck, and frosty with gorgeous orange and peach-gold color. Population: 6 in 67 (2 in 67+), 0 finer (11/23).
NGC ID# 25YS, PCGS# 8398

INDIAN HALF EAGLES

1908 Indian Half Eagle, MS65
Exemplary CAC-Approved Type Coin
Seldom Seen Finer

3097 1908 MS65 PCGS. CAC. The 1908 Indian half eagle marked a transition from Christian Gobrecht's long-running Liberty Head design to Bela Lyon Pratt's innovative sunken relief models featuring a Native American profile and a perched eagle. The new design was introduced with a mintage of 577,845 pieces its first year at Philadelphia, yielding adequate numbers of the new coin for both commercial needs as well as the anticipated numismatic interest. Many pieces were preserved for their novelty value by the public, yielding a supply of median-level Mint State coins today, while contemporary numismatists sought out high-grade pieces for their collections — high-end Gem or better pieces known today likely come from the latter group of individuals.

The current coin exhibits luminous, satiny mint luster with rich sunset-gold color and remarkably clean fields. The strike is razor-sharp, even on the lower headdress feathers — an area prone to weakness on this type. Exceptional eye appeal well deserves its CAC endorsement. CAC: 62 in 65, 13 finer (10/23).

From The William K. Harter Collection, Part II.
NGC ID# 28DE, PCGS# 8510

1909-O Half Eagle, MS62
Singular Key to the Series
Satin Orange-Gold Example

3098 1909-O MS62 NGC. Variety 1. Collectors seek out the 1909-O half eagle as the singular key to the Indian Head half eagle series, as well as the final New Orleans Mint gold issue. Just 34,500 coins were struck — the lowest total in the set — making the issue all the more desirable.

Soft, satiny luster shimmers over this eye-appealing Uncirculated example. Each side showcases warm orange-gold color with occasional green-gold accents. The mintmark is strong, as are the headdress and eagle's feathers. There are just a few small marks in the upper-right reverse field. Census: 34 in 62, 17 finer (11/23). NGC ID# 25ZK, PCGS# 8515

1911-D Five Dollar, MS62
Low-Mintage Denver Semikey

3099 1911-D MS62 NGC. The 1911-D Indian half eagle is a prominent semikey date in the series, seldom seen in any Mint State grade. It is many times scarcer in Mint State than the highly heralded 1911-D quarter eagle. This collectible lower-end example displays grade-consistent abrasions but is undeniably original in its patina, and it has pleasing design definition to boost the eye appeal. The scarcity of finer coins heightens the appeal of this piece. The 1911-D five owes much of its scarcity to a limited mintage of only 72,500 coins, combined with a high attrition rate. NGC ID# 28DR, PCGS# 8521

LIBERTY EAGLES

1842 Ten Dollar Liberty, MS61
Elusive Small Date Variant

3100 1842 Small Date MS61 NGC. The 1842 ten dollar production is divided between the Small Date and Large Date varieties (18,623 versus 62,884 pieces, respectively), and the Small Date is by far the scarcer issue overall. Moreover, while both issues are conditionally rare in Mint State, the Small Date variant is almost entirely limited to the MS60 and MS61 grades, while the Large Date is represented by a few pieces as fine as MS64 and MS65.

The design elements are well-defined and each side shows satiny straw-gold luster with semiprooflike reflectivity in the fields. A bisecting die crack extends from the eagle's left (facing) wingtip, across the shield, toward the opposite border. Scattered abrasions define the grade. This Small Date coin is tied with five others as the finest at NGC, while PCGS reports one coin in MS62, another in MS62+, and a single MS63 (6/23).

Ex: Long Beach Signature (Heritage, 6/2015), lot 4286; Long Beach Signature (Heritage, 6/2018), lot 3203; FUN Signature (Heritage, 1/2019), lot 5773; Central States Signature (Heritage, 4/2020), lot 4480; Long Beach / Summer FUN Signature (Heritage, 7/2023), lot 3236. NGC ID# 262L, PCGS# 8585

1855-O Ten Dollar, AU55+
Low-Mintage New Orleans Issue

3101 1855-O AU55+ NGC. Variety 1. The 1855-O is a better New Orleans issue with a meager mintage of 18,000 pieces. A majority of survivors are in VF to AU55 grades, and NGC has yet to certify any examples as Mint State. The present antebellum ten displays pleasing luster within the plumage, legends, and stars. Only a slight obverse rim nick at 11 o'clock merits passing mention. Census: 18 in 55 (2 in 55+★), 11 finer (11/23). NGC ID# 263M, PCGS# 8617

1864-S Ten Dollar, XF40
The Rarest S-Mint Ten
Second Rarest Liberty Ten

3102 1864-S XF40 NGC. During its early years of operation, the San Francisco Mint mostly concentrated on double eagle production, as that was the most convenient way to convert the massive amounts of bullion from the California gold fields into coinage, which was desperately needed in the expanding regional economy. Mintages of other gold denominations tended to be small, often struck to satisfy the requests of bullion depositors who had a specific need for the coins. Following this trend, the San Francisco Mint struck a minuscule mintage of 2,500 Liberty eagles in 1864. The coins were released into circulation and circulated heavily in the hard-money economy of the Western United States at a time when gold coinage was seldom seen in circulation in the East. As a result, the 1864-S is a formidable rarity today and examples are even more difficult to locate than the tiny production total would suggest. In fact, the 1864-S is the rarest ten dollar from the San Francisco Mint and the second-rarest issue of the whole Liberty eagle series, behind the legendary 1875 Philadelphia issue. PCGS CoinFacts estimates the surviving population at 22 to 26 examples in all grades. NGC and PCGS have combined to certify 40 examples between them, obviously including some resubmissions and crossovers (11/23). No Mint State examples are known, with the finest being two AU55+ coins at PCGS (11/23).

Despite the obvious rarity of the issue, the 1864-S remains something of a sleeper in the series, and its elusive nature is largely unappreciated, outside of series specialists. Q. David Bowers notes:

“By any serious reckoning, the 1864-S eagle should be famous as one of America’s premier gold rarities. Indeed, the 1864-S eagle is a rarity of legendary proportions, although this fact is hidden from all who do not delve into specialized references.”

The 1864-S began appearing at auction as early as lot 642 of the Charles W. Cowell Collection (B. Max Mehl, 11/1911). In the section of the catalog devoted to eagles of the San Francisco Mint, Mehl noted:

“1864 Medium S over EN. Very good. Extremely rare. Rarest eagle of this mint, and I believe this is the first specimen offered at auction.”

The lot realized \$16, a strong price at the time. Despite its status as a sleeper, collector demand for the 1864-S eagle has increased auction prices realized for the issue exponentially over the years. Recent sales include the XF40 PCGS example sold in lot 4264 of the Long Beach Signature (Heritage, 2/2018), which realized \$114,000.

The present coin is a handsome XF specimen that shows some light wear on the design elements, but most interior detail remains intact. As often seen on this issue, some softness is evident on the star centers. The surfaces exhibit relatively few marks for the grade, the most conspicuous being a narrow line above the ST in STATES. Highlights of orange-gold and powder-blue luster are evident within the reverse legend and other protected regions. The overall presentation is most attractive for this 19th century gold rarity. Auction appearances of the 1864-S are few and far between and it may be years before a comparable specimen becomes available. The discerning collector will bid accordingly. Census: 1 in 40, 4 finer (11/23).

NGC ID# 264E, PCGS# 8640

1869-S Ten Dollar, AU58
6,430 Pieces Struck, Few Survive

3103 1869-S AU58 NGC. The 1869-S is one of the unappreciated rarities within the Liberty ten series. The mintage was low — only 6,430 pieces struck — and only a handful of Mint State coins exist. The few near-Mint examples are the next best thing, with about a dozen coins that qualify for the AU58 grade. This is a minimally marked, straw-gold 1869-S, with partially lustrous and attractive surfaces. The central strike is sharper than the peripheries as seen by rounding at the obverse stars. Only a trace of actual wear can be discerned. Census: 5 in 58, 1 finer (11/23). NGC ID# 264S, PCGS# 8656

1872 Liberty Ten, AU55
Underappreciated and Rare

3104 1872 AU55 NGC. The ten dollar Liberty series abounds with underrated issues, but the 1872 must be considered among the most underrated. From a tiny commercial mintage of 1,620 pieces, NGC and PCGS combined have certified a scant 69 pieces, including crossovers and some duplicate submissions. PCGS states “40 to 60 known,” which makes it slightly rarer than the 1870-CC, with a PCGS estimate of “45 to 60 known.” The 1870-CC trades for six figures at the AU50 level, but the rarer 1872 can be obtained for a small fraction of the price, when one becomes available. The present sea-green and rose-gold example is well defined and partly lustrous. The surfaces exhibit the expected number of distributed marks. Census: 9 in 55, 3 finer (11/23). NGC ID# 264Z, PCGS# 8663

1877 Ten Dollar Liberty, AU58
Only 797 Coins Struck
Nearly Unsurpassed Condition

3105 1877 AU58 NGC. The 1877 ten dollar gold piece claims one of the lowest mintages in the entire Liberty Head series. Only 797 coins were struck. That total is higher than just two other issues: the 1875 (100 coins) and the 1876 (687 coins). PCGS CoinFacts estimates that a scant 50 representatives survive in all grades, with the average certified example falling between AU50 and AU53 at both services combined.

This impressive near-Mint offering showcases a moderate degree of field reflectivity despite scattered bagmarks. Design detail is good if not complete, though wear is virtually unseen. The eagle's feathers, talons, and fletchings are notably bold, while the olive leaves, obverse stars, and Liberty's curls lack a bit of sharpness. A remarkable Philadelphia Mint rarity in nearly unsurpassed condition. Census: 10 in 58, 0 finer (11/23). NGC ID# 265F, PCGS# 8677

1877-CC Eagle, AU Details
Scarce Low-Mintage Issue

3106 1877-CC — Cleaned — NGC Details. AU. Variety 1-A. The CC eagles struck between 1877 and 1879 provide nearly as great a collecting challenge “as scoring the three-piece group of eagles from the Carson City Mint’s earliest years, which consists of the dates 1870-CC, 1872-CC, and 1873-CC” (Goe, 2020). In the case of this specific issue, only 3,332 coins were struck and merely 70 to 80 pieces are thought to exist. Strike weakness can be problematic for the 1877-CC ten. That is apparent here over Liberty’s ear, where the curls are flat. A similar effect occurs in the central reverse. However, this AU Details representative shows minimal evidence of circulation, and the noted cleaning does not overly distract.

1880-CC Ten Dollar Liberty, AU58
Elusive Branch Mint Issue

3107 1880-CC AU58 NGC. Variety 1-B. The Carson City Mint struck a tiny production of 11,190 eagles in 1880, making the issue elusive in all grades today. The coins were released into circulation at the time of issue and few high-quality examples were saved for numismatic purposes, making high-grade specimens especially hard to locate today. This impressive near-Mint example displays just a trace of friction on the high points of the strongly impressed design elements, and the lightly abraded orange-gold surfaces retain much original mint luster in the sheltered areas. Census: 42 in 58 (2 in 58+), 15 finer (11/23). NGC ID# 265T, PCGS# 8688

1881 Liberty Eagle, MS65
Ultimate Condition Rarity in the Series

3108 1881 MS65 NGC. The Philadelphia Mint produced massive mintages of half eagles and eagles in 1881, with many of those coins exported and numerous repatriated examples in recent decades. Only a handful of 1881 eagles have achieved Gem status from either PCGS or NGC despite the proliferation of coins in lesser grades. This is a lustrous and frosty MS65 survivor — fully struck on both sides, with only a few light marks and rose highlights across the light, yellow-gold surfaces. Traces of bag grime confirm the coin's original coloration and mint-fresh look. PCGS reports just two MS65 pieces and none finer, while NGC has an identical population of two MS65 examples (including this coin) and none finer (11/23). NGC ID# 265W, PCGS# 8691

1883-CC Ten Dollar, AU55
Prooflike Fields, Rarely Seen Finer

3109 1883-CC AU55 PCGS. Variety 2-C. With a mintage of only 12,000 pieces, the 1883-CC ten is scarce in all grades and extremely rare in Mint State, with most such pieces showing heavy abrasions. This Choice AU representative is a more affordable alternative. The fields have light chatter but are nonetheless deeply reflective, and the design elements show trivial wear. Bright yellow-gold color blankets each side. Population: 21 in 55 (1 in 55+), 26 finer (10/23).

Ex: Central States Signature (Heritage, 4-5/2016), lot 5906.

From The Kankakee Collection.

NGC ID# 2667, PCGS# 8700

1890-CC Eagle, MS62+
Frosty Peach-Orange Surfaces
Great Nevada Mint Type Coin

3110 1890-CC MS62+ NGC. Variety 1-A. The 1890-CC has a reputation for being a great type-coin issue. The Nevada mint manufactured 17,500 eagles in 1890, and Rusty Goe (2020) estimates that 550 to 650 of them still survive. That includes 150 to 187 examples in Mint State, though few surpass this esteemed grade level. Goe notes that coins in this grade (without the Plus designation) "typically possess attractive color, have moderate to radiant luster, and are nearly fully struck on their highpoints." That is certainly true here. Indeed, mint frost swirls uninhibited over delightful peach-orange surfaces. Perhaps the only trait standing in the way of a full Select assessment is the presence of a spot of "vault grease" on Liberty's cheek, though to this cataloger's mind it speaks to the coin's originality. Census: 41 in 62 (2 in 62+, 1 in 62★), 8 finer (11/23).

NGC ID# 266S, PCGS# 8718

1900 Ten Dollar Liberty, MS65+
CAC-Approved Quality

3111 1900 MS65+ PCGS. CAC. The Philadelphia Mint struck an adequate business-strike production of 293,840 Liberty eagles in 1900, but the issue is definitely elusive at the MS65 grade level, and finer coins are condition rarities. This Plus-graded Gem exhibits sharply detailed design elements and well-preserved greenish-gold surfaces, with vibrant mint luster and outstanding eye appeal. The high quality within the grade is confirmed by CAC. Population: 40 in 65 (4 in 65+), 5 finer. CAC: 8 in 65, 1 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 267M, PCGS# 8745

1901-O Ten Dollar, MS65
Conditionally Rare At This Grade

3112 1901-O MS65 NGC. Variety 2. The 72,041-piece mintage makes the 1901-O an available O-mint Liberty Head eagle. Much of the mintage was used for foreign transactions, so numerous examples continue to return from foreign holdings. Few of those pieces exceed MS62 condition, making this Southern Mint issue an important rarity in Gem or finer grades. PCGS and NGC combined report less than a half dozen grading events at the MS65 level or finer. Doug Winter writes: "This date may well be unique in Gem. I have never seen or heard of the NGC MS65. I am assuming the 'second' NGC MS66 is the same coin as the PCGS MS66."

This example may well be the missing NGC coin certified MS65 noted by Winter, or perhaps it is a second example indicated by the current NGC population figures. Smooth and frosty orange-gold surfaces radiate cartwheel mint luster. The sharply struck devices are essentially mark-free, while the surrounding fields show only a few minor, light abrasions and a tiny mark above the eagle's head. The coin displays a heavy die crack through the left (facing) wingtip and a diagnostic die line curves down through the Y in LIBERTY to confirm the Variety 2 die pair. Census: 2 in 65, 2 finer (10/23).
NGC ID# 267R, PCGS# 8748

INDIAN EAGLE

1910-S Ten Dollar Indian, MS64
Conditionally Scarce

3113 1910-S MS64 PCGS. A richly colored orange-gold example with a touch of steel-blue color noted on the high points of the reverse. A few wispy facial blemishes and a shallow mark in the lower-left obverse field stand in the way of a Gem rating. Both sides display excellent sharpness for this conditionally scarce S-mint. In terms of total number of coins extant, the 1910-S is the most common S-mint Indian eagle after the 1916-S. Its numbers dwindle quite rapidly as one progresses past the AU58 level. Population: 43 in 64 (6 in 64+), 4 finer (11/23).

Ex: *FUN Signature* (Heritage, 1/2006), lot 3551; *Long Beach / Summer FUN Signature* (Heritage, 7/2023), lot 3270.
NGC ID# 268D, PCGS# 8867

LIBERTY DOUBLE EAGLES

1850-O Double Eagle, AU50
First-Year New Orleans Issue

3114 1850-O AU50 PCGS. Variety 1. Much of the gold used to produce double eagles in 1850 came from the large gold deposits from California miners and banks. While local private assayers such as Moffat & Co. produced gold coinage for local commerce, most of the gold mined in California prior to the opening of the San Francisco Mint in 1854 was shipped to New Orleans and Philadelphia for coinage.

This is a collectible example of the first double eagle issue struck at the New Orleans Mint. Rich orange-gold patina complements remnants of luster in the fields. Detail is strong, and wear is light. Population: 32 in 50, 57 finer (11/23).
NGC ID# 268G, PCGS# 8903

1856-S No Motto Twenty, MS63
Ex: S.S. Central America

3115 1856-S MS63 PCGS. Variety-170. Ex: S.S. Central America. SSCA 5785. No Serif, Left S. More than 1,000 examples of the 1856-S were recovered from the so-called Ship of Gold, greatly enhancing the accessibility of this early San Francisco issue. That is particularly true in Mint State. Doug Winter proposes 400 to 500+ Uncirculated pieces in the marketplace.

This one is awash in vibrant frosty luster typical of the *Central America* find. Each side presents warm golden-orange color and razor-sharp strike definition. Superficial grazes appear on Liberty's cheek, while the fields are relatively clean. Terrific visual appeal. NGC ID# 2692, PCGS# 8919

1861 Double Eagle, Lustrous MS62
Ex: S.S. Republic, CAC Endorsed

3117 1861 MS62 NGC. CAC. Ex: S.S. Republic. The frosty, yellow-gold surfaces show remarkably few marks for the assigned MS62 grade. Housed in NGC's *S.S. Republic* holder, this lustrous example is CAC endorsed for high quality within its grade. The coin displays a sharp strike and the expected finely grained surfaces typical of the more than 51,000 gold and silver coins recovered from the seabed. Beautifully conserved, this is an ideal Mint State Type One twenty and an exemplary relic from that famous shipwreck. Census: 76 in 62 (2 in 62+), 55 finer. CAC: 30 in 62, 21 finer (10/23). NGC ID# 269G, PCGS# 8932

1859-S No Motto Twenty Dollar, MS60
Original Surfaces

3116 1859-S MS60 PCGS. Medium S. Doug Winter suggests that 60 to 70 examples of the 1859-S double eagle exist in Uncirculated condition. Glowing mint frost illuminates green and reddish-gold surfaces, speaking to the originality of the surfaces. Characteristically struck for the issue. Population: 13 in 60, 46 finer (11/23). NGC ID# 269C, PCGS# 8928

1861-O Double Eagle, XF45
Important Civil War-Era Issue

- 3118 1861-O XF45 NGC. Variety 1-A.** This New Orleans issue is famous for its unusual circumstance of being struck by three different authorities in the early stages of the Civil War. A total production of 17,741 double eagles consists of 5,000 pieces struck under U.S. authority, 9,750 pieces by the State of Louisiana, and 2,991 pieces by the Confederate States of America. Although theories abound about how to identify the coins by physical characteristics, no confirmed way exists to confirm which authority issued which coins. This Choice XF example is peppered by small marks and abrasions, yet retains substantial luster throughout the bright, orange-gold surfaces. We note weakness at the date numerals, as often seen on many 1861-O twenties. Census: 21 in 45, 75 finer (11/23). NGC ID# 269J, PCGS# 8934

1861-O Double Eagle, AU55
Famous New Orleans Key

- 3119 1861-O AU55 NGC. Variety 1.** The 1861-O is famous for being the final New Orleans double eagle until 1879 and for having been struck under the authority of three different governments. This piece features a weak date and lacks the die crack typically associated with the Confederate products. Bright yellow-gold surfaces exhibit a bit of use, including light rub and peppered marks. However, these imperfections are relatively minor when one considers the ultimate rarity of the issue. Only 17,741 coins were minted and perhaps 150-175 examples are extant per Doug Winter. Census: 16 in 55 (1 in 55★), 20 finer (11/23). NGC ID# 269J, PCGS# 8934

1867 Double Eagle, MS62
A Rare Issue Any Finer

- 3120 1867 MS62 PCGS.** Although 1867 double eagles are moderately available up to the MS62 grade, the issue is surprisingly rare any finer. Overseas hoards have failed to add many examples above MS61. This is a highly lustrous 1867 that displays smooth, minimally abraded surfaces and radiates eye appeal. Mint-green and reddish-gold accents embellish the vibrant, orange-gold coloration. PCGS reports only six numerically finer examples, plus five in 62+ (10/23).
NGC ID# 269Z, PCGS# 8951

1876-CC Twenty Dollar, AU58
Collectible Carson City Product

- 3121 1876-CC AU58 NGC. Variety 2-C.** Die lines appear within the dentils below 8 and 6 in the date, and the second C in the mintmark is left of the edge of the second T in TWENTY. This near-Mint example of the collectible 1876-CC double eagle boasts original khaki-gold color along with peach-orange accents and frosty luster around the relief elements. Although strike definition and scattered marks are typical, both sides possess good eye appeal.
NGC ID# 26AW, PCGS# 8977

1878-CC Double Eagle, AU58
Low-Mintage Western Issue
Rare in This High Grade

- 3122 1878-CC AU58 PCGS. Variety 1-A. Ex:** The Fairmount Collection. This is the usual die pair with a raised diagonal die line on Liberty's neck and a widely spaced mintmark with die scratches from the dentils below the D. With a mintage of 13,180 coins, the 1878-CC provides a major challenge in any grade. In his recent Carson City reference, Rusty Goe speculated that 475 to 550 coins survive, the vast majority of which fall into the XF-AU range. Only seven to 10 examples exist in Mint State, and possibly fewer than 25 pieces remain in AU58 condition.
This Borderline Uncirculated offering is wholly original with superb red and green-gold surfaces. Frosty luster remains, glowing softly around boldly struck design features. Population: 22 in 58, 8 finer (11/23).
NGC ID# 26B4, PCGS# 8986

1878-S Twenty Dollar Liberty, MS63
A Rarity in This Grade

- 3123 1878-S MS63 PCGS.** This early Type Three San Francisco issue is similar in overall availability to its Philadelphia counterpart, but in MS63 it is significantly scarcer, with barely more than two dozen pieces reported at PCGS and NGC combined; only two examples are reported numerically finer (11/23). This Select coin displays a sharp strike and vibrant cartwheel luster, with rich orange-gold patina. Light abrasions on each side define the grade, but none are individual obtrusive. Eye appeal is pleasing. This is only the 14th time we have handled an 1878-S twenty in MS63 since our Permanent Auction Archives began in 1993. Population: 17 in 63 (1 in 63+), 1 finer (11/23).
NGC ID# 26B5, PCGS# 8987

1879-CC Double Eagle, AU53
Better Carson City Issue

- 3124 1879-CC AU53 NGC. Variety 1-A,** the early die state with complete tail feathers. The 1874-CC through 1876-CC double eagle issues had mintages that exceeded 100,000 pieces. By 1879, however, gold production dwindled at Carson City, and a mere 10,708 twenties were issued that year. Among CC-mint double eagle issues, only the 1870-CC, 1885-CC, and 1891-CC have lower mintages. A majority of 1879-CC survivors are in XF and AU grades. The present example offers a good strike and substantial sun-gold luster. Liberty's face has the expected quantity of small marks, but the reverse is minimally abraded, and the obverse field is also relatively smooth.
NGC ID# 26B7, PCGS# 8989

1890-CC Double Eagle, MS62
 Scarcer Early Die State
 Only One Coin Finer at NGC

3125 1890-CC MS62 NGC. Variety 1-A. The second C is mostly left of the D below. This is a relatively scarce early die state representative without lapping on the right side of the tailfeathers. The Carson City branch mint manufactured 91,209 twenty dollar gold pieces in 1890, making this one of the most collectible issues from the popular Nevada facility.

This MS62 coin represents the highest obtainable grade for the 1890-CC twenty, at least for most collectors. Honey-gold surfaces glisten with frosty mint luster and show pleasing green-gold accents. Light bagmarks and a few hairlines are typical. Census: 62 in 62 (2 in 62+, 3 in 62★), 1 finer (11/23). NGC ID# 26BY, PCGS# 9014

1891-CC Twenty, AU55
 Rich Coloration and Well Struck

3126 1891-CC AU55 PCGS. CAC. Variety 1-A. Only one die pair was used to strike the 5,000 coins in Carson City in 1891. The surfaces display rich patina and are unquestionably original. The strike is boldly brought up in all areas. Some of the original luster remains; enough, in fact, to reveal traces of modest brightness in the fields when viewed at direct angles. Scattered abrasions are consistent with a CC-mint twenty at this grade level, and most are somewhat subdued by the original texture.

Ex: Aaron Bliss Collection / FUN Signature (Heritage, 1/2003), lot 9087.

NGC ID# 26C3, PCGS# 9017

1892 Twenty Dollar, AU58
Mintage of Only 4,430 Coins

3127 1892 AU58 NGC. With only 4,430 coins struck, it is not unusual to encounter examples of the 1892 double eagle with semiprooflike fields. That is, when survivors are found. This is a predictably challenging issue in any grade. It is most likely that less than 10% of the original mintage, and perhaps even fewer, still exist.

This nearly Mint State offering displays a combination of field reflectivity and luster, which blend seamlessly throughout the warm yellow-gold surfaces. The design is fully detailed and shows only the faintest evidence of high-point friction. Census: 30 in 58, 38 finer (11/23).

NGC ID# 26C5, PCGS# 9019

1893-CC Twenty Dollar, MS60
Old Green Label Holder

3128 1893-CC MS60 PCGS. Variety 2-A. The 1893-CC marked the end of double eagle coinage at Carson City before the Nevada branch mint ceased coinage production. Only 18,402 pieces were struck, but the issue remains relatively collectible — even in Mint State — due to a number of coins being repatriated from European holdings in recent decades. This entry-level Uncirculated coin displays a sharp strike and radiant prairie-gold luster. Scattered abrasions define the grade, but the overall eye appeal is far above expectations for the grade, with no high-point friction seen. Housed in an old green label holder.

NGC ID# 26C9, PCGS# 9023

1894 Double Eagle, MS65+
One of the Finest Available Survivors
Only One Coin Graded Higher

3129 1894 MS65+ NGC. Collectors will have little trouble locating an example of the 1894 double eagle (1.3 million coins struck) in MS62 or even MS63 condition. On average, a certified representative is apt to grade between MS61 and MS62, yet the 1894 becomes challenging (and scarce) in Choice Uncirculated condition. Those who demand the best will want one of the few known Gems, like the one offered here.

Each element of the design is fully brought up. Deeper orange and lighter peach-gold hues combine with swirling mint frost throughout. The Plus designation from NGC affirms this coin's outstanding quality for the grade. Census: 8 in 65 (1 in 65+, 1 in 65+★), 1 finer (11/23).

NGC ID# 26CB, PCGS# 9025

PROOF LIBERTY DOUBLE EAGLE

1881 Liberty Double Eagle, Impaired Proof
Rare Date in All Formats

3130 1881 — Altered Surface — NCS Details. Proof. JD-1, High R.5.

Despite a healthy increase in the number of proof double eagles struck, surprisingly few 1881 proofs are confirmed today. The proof mintage in 1880 was 36 pieces, while the Mint reports 61 proofs dated 1881. The accompanying 1881 circulation strike mintage was only 2,199 double eagles. With such a small circulation strike mintage, one would expect an increase in the number of proofs saved — but that is clearly not the case. John Dannreuther estimates only 18 to 22 proofs survive and PCGS suggests only 40 to 60 circulation strikes exist in all grades combined. The 1881 twenty remains an important rarity in either format.

This 1881 proof retains strong contrast between the sharply struck, well-frosted motifs and mirrored fields. A scattering of tiny lumps and digs exist in the lower obverse fields, which in turn received a heavy-handed attempt to smooth them away. The resultant polishing leaves behind faint hairlines and light abrasions. A diagnostic die line in the eagle's tailfeathers angles outward from the lowest arrow shaft and confirms that this coin is indeed a proof. Despite its impairment, we expect many bids when the lot is called.

From The Riccolo Collection.

HIGH RELIEF DOUBLE EAGLES

MCMVII High Relief Double Eagle, MS65
 Scarcer Flat Rim Variant
 The Last High Relief Variant of the Design

3131 1907 High Relief, Flat Rim, MS65 PCGS. Although Augustus Saint-Gaudens' 1907 High Relief double eagle was ultimately shelved by the Mint as unsuitable for mass coinage and replaced by a radically lower-relief version, the Mint did not initially resort to that extreme but attempted to make the High Relief coin work, at the request of President Roosevelt. The High Relief issue itself was a soft compromise on Saint-Gaudens' original Ultra High Relief design. To try and alleviate stacking problems, a wide rim was added to the design, and the motifs were slightly modified so as not to strike up on a more elevated plain than that rim. While these changes helped somewhat, they were not a perfect fix. Chief among the remaining concerns was a fin of metal that was getting squeezed between the dies and the collar during striking, producing a "wire rim" of inconsistent height around the perimeter of each coin. This prohibited reliable stacking, essentially rendering the new coins unsuitable for banking needs. Changes to the planchet preparation late in the production of High Relief coins mostly removed the problem, and coins struck during the late period are known today as Flat Rim specimens. Flat Rim coins are scarcer than their Wire Rim counterparts and in high grade are widely sought after.

This Gem Flat Rim coin displays luminous, satiny mint luster with rich autumn-sun and orange-gold patina. The surfaces emit a subtle glow about the devices, and the strike is sharp throughout. Eye appeal is exceptional.

From The William K. Harter Collection, Part II.
 NGC ID# 26F2, PCGS# 9136

1907 High Relief Double Eagle, MS65+
 Saint-Gaudens' Iconic Design
 Scarcer Flat Rim Variety

3132 1907 High Relief, Flat Rim, MS65+ PCGS. Extensive conversations between President Theodore Roosevelt and master sculptor Augustus Saint-Gaudens on the mundane state of the country's coinage led to a *Renaissance of American Coinage*, as chronicled by Roger Burdette, in the early 20th century. The leading edge of that Renaissance was the iconic design for the double eagle, which Saint-Gaudens created in 1907, incorporating Roman Numerals in the date and the same kind of high relief design elements used on ancient Greek coinage. Many numismatists consider the 1907 High Relief double eagle the most beautiful American coin design and examples are eagerly sought by series specialists and advanced type collectors.

Unfortunately, despite the acknowledged beauty of the design, the high relief of the design elements proved completely unsuitable for modern high-speed coinage. Every coin had to be struck three times on the heavy medal press to fully bring up all the features of the design, with the planchets annealed between striking to prevent breakage. It required 12 minutes to strike a single coin under these conditions. By working round-the-clock overtime shifts, the Philadelphia Mint was able to strike a small mintage of 12,367 examples of the design by the end of the year, enough to satisfy Roosevelt's desire to showcase the design for posterity. Subsequently, Chief Engraver Charles Barber modified the design for regular coinage, lowering the relief until the details could be brought up with just a single blow from the coin press and substituting Arabic Numerals in the date.

About 75-80% of High Reliefs show a high fin, or Wire Rim, around the circumference of the coin, caused by metal extruding through the narrow gap between the collar and the dies during the striking process. This was considered a flaw by contemporary numismatists and bank tellers, who feared the coins would not stack properly and might wear down quickly and become undervalued. The Mint technicians worked hard to eliminate the fin, by adjusting the dimensions and upset angle of the planchets, and finally succeeded in producing a satisfactory Flat Rim variant of the design. Only coins struck between the middle of December and the end of the year show this desirable feature.

This Plus-graded Gem displays the three dimensional sculptural design elements expected of this issue, with sharp definition on all devices. The impeccably preserved yellow and orange-gold surfaces radiate vibrant mint luster throughout, with terrific eye appeal. As might be expected, this sought-after issue becomes elusive at the MS65 grade level, and finer coins are definitely scarce. We expect intense competition from series specialists when this lot is called.

From The William K. Harter Collection, Part II.

NGC ID# 26F2, PCGS# 9136

SAINT-GAUDENS DOUBLE EAGLES

1907 Saint-Gaudens Double Eagle, MS66+
High-Quality First-Year Type Coin

- 3133 1907 MS66+ NGC.** Despite its acknowledged beauty, Augustus Saint-Gaudens' majestic High Relief double eagle design proved unsuitable for high-speed modern coinage when it debuted in 1907. Accordingly, Chief Engraver Charles Barber modified the design to make regular coinage possible by lowering the relief and changing the date to Arabic Numerals. The Philadelphia Mint struck 367,667 examples of the new design before the end of the year. This was the first version seen by most of the general public and the issue was widely saved, making it relatively available in high grade today. Collectors prize the 1907 Saint-Gaudens double eagle as an important first-year type coin. Even at the MS66 grade level, the 1907 issue can be located with a little patience, but finer coins are rare. This Plus-graded Premium Gem exhibits razor-sharp definition on all of the design elements and the impeccably preserved orange-gold surfaces radiate vibrant mint luster, with outstanding eye appeal. NGC has graded nine numerically finer examples (11/23). NGC ID# 26F5, PCGS# 9141

1908-D No Motto Twenty, MS65+
Few Seen Finer

- 3134 1908-D No Motto MS65+ PCGS.** The fine-grained surfaces on this 1908-D No Motto twenty show a somewhat mattelike texture as a result, displaying lovely apricot-orange color and a bold strike in addition. A few small marks on Liberty's right (facing) calf are far from overt, but overall the surfaces are quite well-maintained. Population: 6 in 65+, 16 finer (10/23).
Ex: Summer FUN Signature (Heritage, 7/2013), lot 3440.
From The William K. Harter Collection, Part II.
NGC ID# 26F7, PCGS# 9143

1908 Motto Double Eagle, MS65
Scarce in This Grade

1908-S Double Eagle, MS65
Better Date, Conditionally Rare
Eye-Appealing Mint Luster

3135 1908 Motto MS65 PCGS. The 1908 With Motto double eagle marked the reinstatement of the motto IN GOD WE TRUST to the design of the United States' largest gold denomination after it had been omitted by Augustus Saint-Gaudens and President Roosevelt during the design process for the coin in 1907. While the motto — born out of the emotional impact of the Civil War — had been in use on many denominations since 1864, there had never been a legislative mandate for it. In 1908, Congress initiated one, and the design of the double eagle was immediately updated to include the motto on the reverse along the sun's crest.

For collectors, the With Motto Philadelphia issue is significantly scarcer in high grade than its No Motto counterpart. The present coin displays vibrant, satiny mint luster with deep, original orange-gold patina. Clean fields and a bold strike add to the eye appeal, while a few minor marks on the high points of the devices are not bothersome for the grade. Population: 91 in 65 (5 in 65+), 21 finer (10/23).

From The William K. Harter Collection, Part II.
NGC ID# 26F8, PCGS# 9147

3136 1908-S MS65 NGC. The 1908-S double eagle boasts the lowest mintage in the With Motto Saint-Gaudens series (22,000 coins). This is a sought-after semikey date, universally scarce in any Mint State grade. The majority of the Uncirculated survivorship resides in MS61 to MS64, and the date becomes notably rare at the Gem grade level, with few finer pieces known.

This Gem coin is visually exceptional. Radiant wheat-gold luster rolls freely around each side, revealing virtually flawless fields and even well-preserved wing feathers on the eagle. The high points of Liberty's figure exhibit the only mentionable contact marks, which are minor. NGC-certified coins represent a minority of the MS65 1908-S twenties we have seen. Census: 8 in 65, 6 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FA, PCGS# 9149

1909 Twenty Dollar, MS65
Scarce Issue, Strong Eye Appeal

3137 1909 MS65 PCGS. The 1909 Saint-Gaudens double eagle splits a reported mintage of 161,282 pieces with its 1909/8 counterpart. Based on research by Roger Burdette, seven obverse and twelve reverse dies were created for 1909 twenty dollar production. Two reverse dies were not used, however.

The 1909 has never been fully appreciated for the conditionally scarce coin that it truly is, despite the hoard of a few hundred pieces discovered in the early 1980s that made lower Mint State coins more available. This issue can be located through MS63 with patience and searching, but near-Gems are scarce and higher-grade examples are very difficult to come by. Indeed, PCGS and NGC have certified just 27 examples in MS65, and 11 specimens finer (10/23). A number of these are undoubtedly resubmitted coins in the hope of achieving a higher grade.

The lustrous, yellow-gold surfaces of this Gem exhibit sharply-struck design elements. Liberty's facial features, fingers on both hands, and toes are bold, as are the panes of the Capitol building and the eagle's plumage. A few minute marks are consistent with the designated grade, and the only alloy spot is light in hue and located just below the CA in AMERICA. This is a pleasing specimen that will capture the attention of collectors of Saint-Gaudens coinage. Population: 24 in 65 (5 in 65+), 7 finer (10/23). Ex: Long Beach Signature (Heritage, 9/2013), lot 6910, where it sold for \$30,550.

From The William K. Harter Collection, Part II.
NGC ID# 26FB, PCGS# 9150

1910 Double Eagle, MS65
Rare Any Finer

3138 1910 MS65 PCGS. Mint luster is softly frosted over each side, typical of a high-grade Philadelphia Saint. The surfaces exhibit uniform orange-gold color and bold strike definition. Small bagmarks appear only under strong magnification and do not detract. PCGS reports a mere nine numerically finer grading events (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 9154

1910 Saint-Gaudens Double Eagle, MS65
Seldom Encountered Finer

3139 1910 MS65 PCGS. The 1910 Saint-Gaudens double eagle claims an adequate mintage of 482,000 pieces, but the issue becomes somewhat scarce at the MS65 grade level, and finer coins are rare. This spectacular Gem displays warm greenish-gold surfaces, with vibrant mint luster and no mentionable distractions. The design elements are sharply detailed and eye appeal is outstanding. PCGS has graded nine numerically finer examples (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 9154

1910-D Double Eagle, MS66
Only Two Numerically Finer at PCGS

3140 1910-D MS66 PCGS. Each side boasts dazzling satin luster, swirling over virtually unabraded peach and orange-gold surfaces. The columns on the Capitol dome are fully defined, and the rest of the strike is just as sharp throughout. The 1910-D Saint-Gaudens double eagle is collectible in most grades but poses a real challenge in Premium Gem condition. Of the more than 9,000 examples of this early Denver Mint issue graded at PCGS, there are only two submissions numerically finer than the one offered here. An equal number is reported at NGC (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FG, PCGS# 9155

1910-S Twenty, Lustrous MS65
Challenging in High Grade

3141 1910-S MS65 PCGS. The 1910-S double eagle is much more elusive in high grade than its mintage of more than 2.1 million pieces would suggest. Examples are only occasionally available in MS65, and they are rare finer with just 15 such pieces reported at PCGS (11/23). This coin displays radiant sun-gold luster and a bold strike, with only minor handling marks seen under a loupe.

From The William K. Harter Collection, Part II.
NGC ID# 26FH, PCGS# 9156

1910-S Double Eagle, MS65
Few Pieces Known Finer

3142 1910-S MS65 PCGS. Despite a mintage of more than 2.1 million coins, the 1910-S double eagle is elusive in high grade. MS65 coins are the finest typically available, and PCGS lists only 15 numerically finer specimens (11/23). This coin displays vibrant wheat-gold mint luster with minimal surface marks. Only slight softness affects localized portions of the devices.

From The William K. Harter Collection, Part II.
NGC ID# 26FH, PCGS# 9156

1911 Twenty Dollar, MS65
Strong Mint Luster

3143 1911 MS65 PCGS. Like several other Philadelphia issues from this period, the 1911 Saint-Gaudens double eagle is moderately available in grades through MS64, but the Gem condition barrier is broken by very few examples. The present coin is not only certified MS65, but is also firmly near the upper end of that numeric grade, with beautifully preserved surfaces that are seemingly devoid of noticeable flaws. The strike is crisp throughout, with special attention given to Liberty's left (facing) fingers, which are sharply delineated. The 1911 double eagle is seen with varying degrees of luster with the majority being somewhat below average in eye appeal, but this remarkable coin is refreshingly vibrant and frosty. Genuinely rare this high-end. Population: 71 in 65 (16 in 65+), 26 finer (10/23).

Ex: Houston Money Show Signature (Heritage, 12/2014), lot 3904.

From The William K. Harter Collection, Part II.

NGC ID# 26FJ, PCGS# 9157

1911 Double Eagle, MS65
Lovely, Conditionally Scarce Example

3144 1911 MS65 PCGS. The 1911 double eagle had a mintage of 197,250 business strikes, and examples are reasonably available through the Select and Choice Mint State grade levels. Gems are scarce, however, and the two major services have only seen a combined total of 117 MS65 pieces, with a mere 42 coins graded even higher.

This is a lovely coin with strong eye appeal. Vibrant luster and smooth, mattelike surfaces are seen on each side. Fully struck, with complete definition on the Capitol building, Liberty's hair tresses and fingers, and the eagle's breast feathers. Population: 71 in 65 (16 in 65+), 26 finer (10/23).

Ex: Central States Signature (Heritage, 4/2014), lot 5858, where it brought \$17,625.

From The William K. Harter Collection, Part II.

NGC ID# 26FJ, PCGS# 9157

1911-D Double Eagle, MS66+
Beautiful Denver Mint Twenty

1911-D/D Twenty Dollar, MS66+
High-End Repunched Mintmark Coin

3145 1911-D MS66+ PCGS. The 1911-D has a reputation for being one of the more plentiful issues in the series. Denver officials coined 846,500 twenty dollar gold pieces in 1911, examples of which remain readily accessible through MS65 and even this lofty grade, though Plus-designated Premium Gems total just a few dozen pieces. Anything finer is a major rarity, including the 13 numerically superior submissions at PCGS (11/23). This coin enjoys radiant satin mint luster that washes over smooth golden-orange surfaces. Liberty's face and torch fingers, as well as the Capitol and other design elements show bold detail. NGC ID# 26FK, PCGS# 9158

3146 1911-D/D FS-501 MS66+ PCGS. The mintmark is boldly repunched on this variety. While FS-501 is plentiful in low and middle Mint State grades, the variety is notably scarce in MS66 and is a major rarity any finer. This is one of just 13 Plus-designated Premium Gems at PCGS, where a single Superb Gem example is reported finer; NGC lists five numerically finer specimens (10/23). Frosty, vibrant orange-gold mint luster adorns luminous surfaces, while a loupe reveals only a few trivial abrasions upon close examination. Eye appeal is excellent, complemented by a sharp strike. Population (FS-501): 79 in 66 (13 in 66+), 1 finer (10/23). NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

1911-D/D Saint-Gaudens Twenty, MS66
Repunched Mintmark, FS-501, None Finer at PCGS

3147 1911-D/D FS-501 MS66 PCGS. CAC. The FS-501 Repunched Mintmark variety was discovered by Walter Breen in the 1950s, yet its status as a *Cherrypickers'* variety gave it a boost in status. Different degrees of mintmark repunching exist on the 1911-D, yet the FS-501 designation is granted only to the full-fledged spread of about 25% between the original punch and the stronger D. This lustrous Premium Gem displays vibrant sun-gold color and a razor-sharp strike over smooth, frosty surfaces. A CAC-endorsed example, tied for finest at PCGS. Population: 75 in 66 (13 in 66+), 1 finer. CAC: 30 in 66, 0 finer (10/23).

Ex: ANA Signature (Heritage, 8/2016), lot 6136.

From *The William K. Harter Collection, Part II*.

NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

1911-S Twenty Dollar, MS66
Only One Coin Numerically Finer

3148 1911-S MS66 PCGS. Rich orange-gold and lighter yellow-gold hues intermingle across the pristine, satiny surfaces of this Premium Gem 1911-S double eagle. The strike is bold overall, save for a touch of softness on the top of the torch. The fields are especially clean. This San Francisco issue is much scarcer than its Denver counterpart. It is seldom seen in MS66, and PCGS reports only a single Superb Gem coin finer; no higher-grade pieces are reported at NGC, making the current offering a strong candidate for a high-ranking Registry Set. Population: 63 in 66 (3 in 66+), 1 finer (11/23). NGC ID# 26FL, PCGS# 9159

1912 Saint-Gaudens Twenty, MS65
Challenging in High Grade

3149 1912 MS65 PCGS. Double eagles were exclusively minted at the Philadelphia Mint in 1912, with a total coinage of just 149,750 pieces. Despite this limited production, the 1912 is collectible and is often seen in lower Mint State grades and as fine as MS64, though it becomes scarce in MS65 and is a major rarity in higher grades, with only 15 such coins reported at PCGS and NGC combined (11/23). The present coin displays vibrant cartwheel luster and rich orange-gold color with hints of lilac. Boldly struck devices add to the eye appeal, and while there are a couple of faint grazes noted in the left obverse field, the surfaces remain mostly clean. Population: 49 in 65 (6 in 65+), 13 finer (10/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FM, PCGS# 9160

1912 Double Eagle, MS65
Conditionally Elusive

3150 1912 MS65 PCGS. The 1912 is one of the more conditionally challenging Philadelphia issues in the Saint-Gaudens double eagle series at the Gem level. Such coins are scarcely seen, and demand surpasses the available quantity. As no branch mint twenties were coined in 1912, the Philadelphia issue is the only option for the date collector.

In 1912, New Mexico and Arizona joined the Union as the 47th and 48th states. The circle of stars around the obverse periphery of the double eagle was thus increased, with two new stars added below the date. This design change is little known to many novices.

This Gem 1912 boasts vibrant rose-gold luster and impressively sharp detail. Liberty's knee shows trivial stacking contact, but there are no other mentionable abrasions. A frosty cartwheel effect grants superb eye appeal. Population: 49 in 65 (6 in 65+), 13 finer (10/23).

Ex: Long Beach Signature (Heritage, 9/2015), lot 4262.

From The William K. Harter Collection, Part II.
NGC ID# 26FM, PCGS# 9160

1912 Twenty Dollar, MS65
Condition Rarity, CAC Approved

3151 1912 MS65 PCGS. CAC. The 1912 double eagle's primary source of survival was in the form of gold reserves, both in American banks as a federal reserve and in European banks as part of normal commercial trade. After performing new research into the matter, Roger Burdette suggests that at least 115,000 1912 twenties were shipped to foreign banks. These coins "were either melted or repeatedly counted and rebagged." This excessive jostling of the heavy, soft gold coins resulted in extensive bagmarks for the pieces that survived to return to American collectors in recent years. The certified population of 1912 double eagles is thus concentrated in the MS61 to MS64 grade range and falls off at the top end of that spectrum. True Gems are scarcely seen, and finer pieces are rare. This is an issue that the Smithsonian Institution lacks representation of. The present Gem is CAC-approved and as such is quite a rarity within the MS65 grade level. Population: 49 in 65 (6 in 65+), 13 finer. CAC: 8 in 65, 4 finer (10/23).

Ex: New York Signature (Heritage, 10-11/2016), lot 5619, where it realized \$25,850.

From The William K. Harter Collection, Part II.
NGC ID# 26FM, PCGS# 9160

1913 Double Eagle, MS65
Low-Mintage Issue
None Finer at PCGS

3152 1913 MS65 PCGS. The 1913 Saint Gaudens double eagle claims a smallish mintage of 168,780 pieces, making the issue slightly scarce in all Mint State grades today. The population drops off drastically at the MS65 level, however, at which point the 1913 becomes one of the leading condition rarities of the entire series. The 1913 is actually more elusive in Gem-or-better grades than more famous dates like the 1929, 1931, and 1932.

Because of the high intrinsic value of each individual coin, collecting date runs of business-strike double eagles was virtually unheard of in the early 20th century. A few collectors, like Virgil Brand, did acquire proof examples from the Philadelphia Mint every year to keep their collections current, but few regular-issue examples were saved. It was only in the late 1930s, when clever numismatists like Louis Eliasberg and Dr. Charles W. Green began to save large denomination gold coins as a legal means of investing in gold that the collection of double eagles became widespread. The 1913 double eagle had been circulating for two decades before this interest developed, explaining why so few high-quality pieces were saved for present-day collectors. When B. Max Mehl offered Dr. Green's example of the 1913 in lot 787 of his April 1949 mail bid sale, it realized \$50.50, considered a good price at the time.

The present coin exhibits razor-sharp definition on all design elements. The well-preserved orange-gold surfaces are accented with hints of rose and vibrant mint luster radiates from both sides. A minor scratch on Liberty's torch arm and a few scattered marks in the left obverse field do not detract from the outstanding eye appeal of this delightful Gem. This coin should find a home in the finest collection or Registry Set. Population: 17 in 65 (3 in 65+), 0 finer (10/23).

Ex: National Money Show Signature (Heritage, 2-3/2014), lot 4318.

From The William K. Harter Collection, Part II.
NGC ID# 26FN, PCGS# 9161

1913-D Twenty Dollar, MS65
Rare CAC-Endorsed Example

1913-D Saint-Gaudens Double Eagle, MS66
Top-Grade Registry Set Contender

3153 1913-D MS65 PCGS. CAC. Although modest for the series, the mintage of the 1913-D Saint-Gaudens double eagle (393,500 coins) was the highest of any mint that year for this denomination. Appropriately, high-grade examples of the Denver issue are more often available for date collectors than examples of the Philadelphia or San Francisco issues. Despite this, CAC-approved Gem 1913-D twenties number only 18 pieces, and higher-grade examples of the issue are comparatively rare even without CAC. This coin displays a bold strike and satiny orange-gold luster, yielding a strong cartwheel effect. A few trivial marks seen beneath a loupe are not out of line for the grade. CAC: 18 in 65, 2 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FP, PCGS# 9162

3154 1913-D MS66 NGC. The Denver Mint struck a fairly modest mintage of 393,500 Saint-Gaudens double eagles in 1913, but the production was still greater than the outputs of the San Francisco and Philadelphia facilities that year. Accordingly, the 1913-D is a popular choice with date collectors. This spectacular Premium Gem is among the finest survivors of the issue. Both PCGS and NGC have graded a single MS66 specimen with the Plus designation, but no coins have been certified in higher numeric grades (11/23). The design elements are sharply detailed and the lustrous orange-gold surfaces are impeccably preserved. Overall eye appeal is terrific. This coin will be a welcome addition to the finest collection or Registry Set. Census: 13 in 66 (1 in 66+), 0 finer (11/23).

NGC ID# 26FP, PCGS# 9162

1913-S Saint-Gaudens Twenty, MS65
Low-Mintage Issue, Rare This Fine

- 3155 1913-S MS65 NGC.** The San Francisco Mint struck a memorably small production of just 34,000 Saint-Gaudens double eagles in 1913, the third-lowest business-strike mintage of the series. The coins were all delivered in a single batch on December 31. Fortunately for collectors, the issue has a fairly high survival rate and is not as elusive as the tiny production total would suggest. The issue is decidedly rare at the MS65 grade level, however, and finer coins are virtually unobtainable. This spectacular Gem displays well-detailed design elements, with just a touch of the usual softness on the Capitol and lower stars. The well-preserved orange-gold surfaces are lustrous and appealing. Census: 9 in 65, 0 finer (11/23). NGC ID# 26FR, PCGS# 9163

1914-D Saint-Gaudens Twenty, MS66
Rare Any Finer

- 3156 1914-D MS66 NGC.** From a mintage of 453,000 pieces, the 1914-D Saint-Gaudens double eagle can only be called scarce at the MS66 grade level, but finer coins are virtually unobtainable. This spectacular Premium Gem offers sharply detailed design elements throughout and the vivid orange-gold surfaces are awash in vibrant mint luster. No mentionable distractions are noted and overall eye appeal is outstanding. Census: 72 in 66 (5 in 66+), 2 finer (11/23). NGC ID# 26FT, PCGS# 9165

1915 Twenty Dollar, MS65
Conditionally Challenging

3157 1915 MS65 PCGS. This Philadelphia double eagle issue is a middle-availability date with a production of 152,000 coins. The certification total at PCGS (for problem-free submissions) stands at 2,561 pieces, and the average certified assessment that falls just shy of MS62. Gem Uncirculated is the highest grade level for which collectors could even dream of owning an example of the 1915, though the vast majority of double eagle specialists would be priced out above the near-Gem level. Straw-gold color melds with vibrant frosty luster. Eye appeal is excellent as a result. Additionally, every element of the design is crisp. Population: 59 in 65 (6 in 65+), 3 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FV, PCGS# 9167

1915 Saint-Gaudens Twenty, MS65
Challenging Low-Mintage Issue

3158 1915 MS65 PCGS. The Philadelphia Mint struck a small business-strike production of 152,000 Saint-Gaudens double eagles in 1915, making the issue elusive in high grade today. Unlike many coins in the series, a significant number of 1915 twenties were used in domestic circulation and an unusual number of survivors show signs of circulation. Other coins were used in overseas trade, and some lower Mint State specimens have been repatriated from foreign holdings over the years. The 1915 is definitely a scarce issue at the MS65 grade level, and finer coins are prime condition rarities. This spectacular Gem exhibits razor-sharp definition on all design elements, and the virtually pristine orange-gold surfaces radiate vibrant mint luster, with terrific eye appeal. Population: 59 in 65 (6 in 65+), 3 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FV, PCGS# 9167

1923-D Saint-Gaudens Twenty Dollar, MS67
Exceptional Denver Mint Type Coin

- 3159 1923-D MS67 PCGS.** The 1923-D Saint-Gaudens double eagle claims a substantial mintage of more than 1.7 million pieces. Mint delivery records are incomplete, but Roger W. Burdette believes there were about 36 deliveries, spaced throughout the year. Many coins were used to settle large accounts in foreign trade and large numbers of relatively high-quality examples have been repatriated from Latin American holdings in recent times. The 1923-D is the only really available branch mint issue of the 1920s in high grade, making it a popular choice with type collectors. This spectacular Superb Gem exhibits sharply detailed design elements and virtually flawless orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. Population: 98 in 67 (1 in 67+), 0 finer (11/23). NGC ID# 26G6, PCGS# 9176

1924-D Twenty Dollar, MS64
Rarely Seen Finer

- 3160 1924-D MS64 NGC.** In the late 1930s and early 1940s, when collecting large denomination gold coins first became popular in this country, the 1924-D Saint-Gaudens double eagle was considered a great rarity, despite its large mintage of more than 3 million pieces. Most of the large production was held in Mint or Treasury vaults until the Gold Recall of 1933 took effect, and subsequently melted. Luckily, a small portion of the mintage was used to settle accounts in foreign trade, and a number of examples were discovered and repatriated in later years, augmenting the meager supply for collectors. Today, the 1924-D is still somewhat scarce at the MS64 grade level, however, and finer coins are rare. This attractive Choice specimen exhibits sharply detailed design elements and lustrous orange-gold surfaces, with only scattered, minor signs of contact. Census: 91 in 64 (3 in 64+), 9 finer (11/23). NGC ID# 26G8, PCGS# 9178

1924-S Double Eagle, MS62
Well Struck and Appealing for the Grade

3161 1924-S MS62 NGC. The Capitol building shows some softness, but the border stars, torch, and central devices all exhibit above-average definition. Frosty wheat-gold luster adorns each side, and grade-limiting abrasions are light and unobtrusive. The 1924-S double eagle is challenging in Mint State despite a mintage of more than 2.9 million coins.

Ex: *The Set Shahbadian Collection* (Bowers and Merena, 1/1996), lot 2207.

From *The Estate of Charles W. Montgomery, Part II*.
NGC ID# 26G9, PCGS# 9179

1925-D Saint-Gaudens Twenty, MS64
Scarce Due to Melting

3162 1925-D MS64 NGC. The 1925-D Saint-Gaudens double eagle claims a substantial mintage of more than 2.9 million pieces, but the vast majority of those coins were melted in the 1930s under President Roosevelt's Gold Recall order. Roger W. Burdette estimates the surviving population at about 1,000 pieces in all grades. In his standard series reference, Burdette writes:

"Analysis of auction and authentication records leads to the conclusion that nearly all known 1925-D double eagles came from European sources, possibly the Merkers Mine hoard. The few genuinely circulated coins are probably from the Cashier's holdings as the result of payments for gold deposits."

This impressive near-Gem example displays frosty orange-gold luster with peach and rose hues. The devices are sharply struck, and no singular abrasions are worthy of mention. Finer pieces are remarkably rare. Census: 93 in 64 (5 in 64+, 2 in 64★), 9 finer (11/23).

NGC ID# 26GB, PCGS# 9181

1926-D Twenty Dollar, MS61
Heavily Melted, Scarce in Mint State

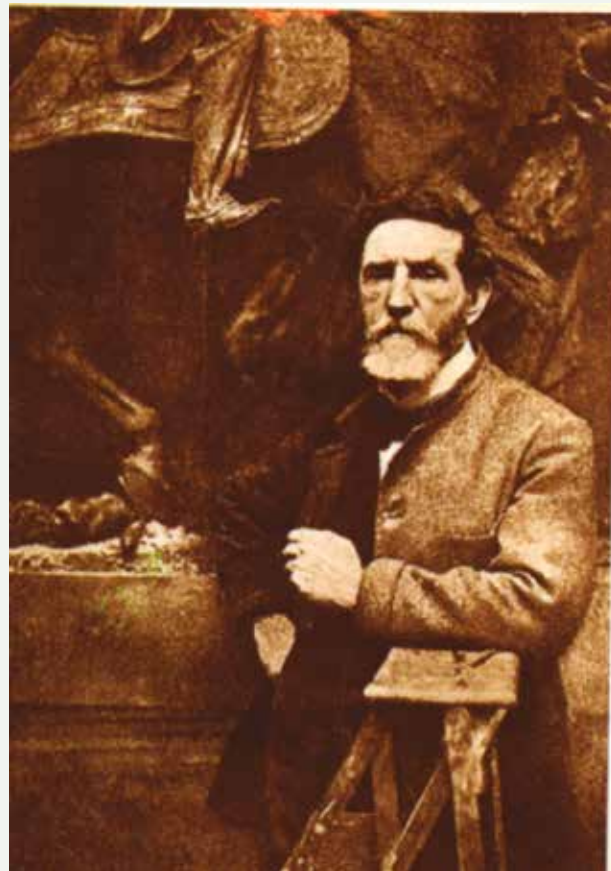

3163 1926-D MS61 NGC. The 1926-D double eagle boasts a mintage of 481,000 coins, a sharp decline from the seven-figure mintages of the preceding three years at the Denver Mint. However, it is not the reduced mintage that makes this date elusive, but rather the heavy melting that took place circa 1934-1935 under the directive of President Roosevelt's Gold Recall order. Much of the 1926-D production was destroyed, and today even low-end Mint State coins are elusive.

This example showcases boldly struck design elements complemented by satiny wheat-gold mint luster. A luminous cartwheel effect adorns each side. As expected for the grade, there are scattered light abrasions present on each side, though they pose limited visual impact to the unaided eye. Census: 16 in 61 (1 in 61+), 77 finer (11/23).

Ex: Herbert D. Spencer Collection (Bowers and Merena, 6/1996), lot 1586.

From *The Estate of Charles W. Montgomery, Part II*.
NGC ID# 26GE, PCGS# 9184

1927-S Saint-Gaudens Double Eagle, MS64
Elusive Branch Mint Issue
Seldom Seen Finer

3164 1927-S MS64 PCGS. The San Francisco Mint struck a substantial mintage of more than 3.1 million Saint-Gaudens double eagles in 1927, but the 1927-S is an elusive key to the popular series today. The coins were delivered in 139 separate batches from January 5 through October 31, but few were ever shipped to banks or Federal Reserve Banks for distribution. After Assay Commission proceedings, Mint cashiers retained about 169 examples, which may have been paid out in everyday transactions. A relatively small number of coins was apparently used to settle accounts in foreign trade, but the great bulk of the mintage was held in government storage until the Gold Recall of 1933 took effect. Afterward, the coins in government custody were melted and stored as gold bars at the Fort Knox Bullion Depository. Roger W. Burdette estimates the surviving population at just 300 examples in all grades today.

When collecting large denomination gold coins first became popular in the 1940s, the 1927-S was believed to be even more elusive than it is today. At that time, numismatists considered it the fourth-rarest Saint-Gaudens double eagle, behind the 1924-D, 1926-S, and the 1926-D. Prominent coin dealer B. Max Mehl thought only three or four examples of these issues were extant after the massive meltings of the 1930s, but rarity rankings changed rapidly in later years. As noted above, some 1927-S double eagles were used in foreign trade during this time frame, putting them safely out of reach of the government recall. Small numbers of 1927-S double eagles remained safely ensconced in foreign holdings for decades. When international trade resumed after World War II, coin dealers found many exported Saint-Gaudens double eagles had survived in European and Latin American banks. Enterprising dealers with good European connections, like Paul Wittlin and Jim Kelly, began repatriating those coins in a big way in the 1950s, significantly increasing the supply of some formerly elusive issues, like the 1924-D, 1926-S, and 1926-D. However, only a relatively small number of 1927-S double eagles ever surfaced in foreign holdings, and it is still acknowledged as a major rarity today. The issue is especially elusive in grades above the MS64 level.

The present coin is an impressive Choice example, with sharply detailed design elements throughout. Liberty's facial features are sharply rendered and the columns in the Capitol are easily distinguished. The pleasing orange-gold surfaces are well-preserved and show only scattered, minor signs of contact. Vibrant mint luster radiates from both sides, adding to the outstanding eye appeal. This coin should find a home in a fine collection of Saint-Gaudens double eagles. Population: 10 in 64, 11 finer (11/23). NGC ID# 26GJ, PCGS# 9188

1928 Saint-Gaudens Double Eagle, MS67+
Exceptional Type Coin

- 3165** 1928 MS67+ NGC. The 1928 Saint-Gaudens double eagle brings collectors one of their greatest advantages when seeking a high-end type coin. This issue is among the most plentiful dates in the series, making even Superb Gem examples such as the present coin accessible, and it also boasts a reputation for strong eye appeal manifested in radiant, frosty luster and rich hues of orange-gold, peach, and yellow. This example checks all of these eye appeal boxes and combines those attributes with pristine surfaces that show largely untouched fields and even well-preserved devices. The strike is sharp, and the overall presentation lacks nothing. No numerically finer pieces are known (11/23).
NGC ID# 26GK, PCGS# 9189

COMMEMORATIVE GOLD

1903 Louisiana Purchase Gold Dollar, MS68
McKinley Obverse, Top-Grade Rarity

- 3166** 1903 Louisiana Purchase, McKinley Gold Dollar MS68 NGC. The McKinley version of the 1903 Louisiana Purchase Expo gold dollar is generally available in any grade, although Superb Gem examples are conditionally scarce. This MS68 coin is tied for the finest known, and it is a rarity as such. NGC lists only 12 coins in this grade, while PCGS reports just seven; neither service has seen a finer coin or even awarded a Plus designation to one of these.
This coin displays a sharp strike and seemingly flawless orange-gold luster. Satin surfaces glow beneath a light, providing all of the eye appeal expected of a top-grade Registry coin. Census: 12 in 68, 0 finer (11/23).
NGC ID# BYLE, PCGS# 7444

1915-S Pan-Pac Quarter Eagle, MS67
None Numerically Finer

- 3167** 1915-S Panama-Pacific Quarter Eagle MS67 PCGS. The frosty butter-gold luster of this Superb Gem is pristine on each side, with even the high points of the devices well preserved. PCGS has certified less than half the number of coins as NGC in MS67, and none are numerically finer at this service (11/23). This piece is visually outstanding and displays a bold strike. Population: 75 in 67 (9 in 67+), 0 finer (11/23). NGC ID# BYLP, PCGS# 7450

1915-S Panama-Pacific Round Fifty Dollar, MS63+
King of the Pan-Pac Commemoratives

3168 1915-S Panama-Pacific 50 Dollar Round MS63+ NGC. The crown jewels of the 1915 Panama-Pacific commemoratives are without question the fifty dollar gold pieces — one struck in round format, the other octagonal in shape. Farran Zerbe headed the Coin and Medal Department of the Panama-Pacific International Exposition held in San Francisco. Authorized by the Congressional Act of January 16, 1915, the official Panama-Pacific Exposition commemoratives included a silver half dollar, a gold dollar, a gold quarter eagle, and the two fifty dollar gold pieces. These coins could circulate at face value but seldom did, since they were sold well above face value as mementos to support the Exposition. The lower denominations include the S mintmark, while the fifty dollar gold pieces lack a mintmark.

Congress was slow to enable the Panama-Pacific commemoratives and the coins were not available for sale at the Exposition until about three months after the opening. The event drew about 19 million visitors between February and December 1915, so the late arrival of the commemorative coins did not help their sale. A maximum authorized mintage for the round and octagonal fifties was 1,500 pieces of each format, but their high price of \$100 each was an added obstacle. Only 483 round fifties were distributed and 645 octagonals were sold. Today, the round Pan-Pac fifties are especially rare in any grade. The present example is a gleaming, high-end Select Uncirculated coin with vibrantly lustrous, yellow-gold surfaces. Two tiny marks are seen on Liberty's neck and a thin, short mark exists in the field opposite the chin. A few faint hairlines are microscopic in nature. This coin's strike is sharp throughout the attractive, satiny surfaces that are characteristic of these large and impressive gold coins. Pleasing orange accents at the margins support its outstanding eye appeal.

From The Mercury Rising Collection.

1922 Grant No Star Gold Dollar, MS68
Among the Finest Coins at Both Services

- 3169** 1922 Grant Gold Dollar, No Star, MS68 NGC. This important Registry coin displays softly frosted straw-gold mint luster with hints of mint-green color on the reverse. The strike is sharp, and the surfaces are beautifully preserved. The only evidence of contact is minor, located on the back of Grant's hair. NGC and PCGS combined report only 16 1922 No Star Grant gold dollars in MS68, with none numerically finer (11/23). NGC ID# BYLN, PCGS# 7458

1922 Grant Gold Dollar, MS68
No Star Variety, Tied for Finest

- 3170** 1922 Grant Gold Dollar, No Star, MS68 PCGS. This Grant No Star gold dollar is tied for finest with only one other example at PCGS (11/23), so we expect spirited competition from advanced gold commemorative collectors for this lot. Each side is predictably unabraded, fully struck, and frosty with profound, eye-catching orange-gold color. Copper and sky-blue accents at the central reverse heighten the appeal even further. NGC ID# BYLN, PCGS# 7458

1922 Grant Gold Dollar, MS68
With Star, None Numerically Finer

- 3171** 1922 Grant Gold Dollar, With Star, MS68 NGC. Scintillating mint frost and rich golden-orange color characterize each side of this pristine Grant With Star gold dollar. Fully struck devices appear throughout, and heavy die polish occurs in the fields. A superb example of this popular classic gold commemorative issue. Census: 18 in 68 (2 in 68+, 1 in 68+★), 0 finer (11/23). NGC ID# BYPS, PCGS# 7459

PROOF COMMEMORATIVE GOLD

1903 Louisiana Purchase/Jefferson
Gold Dollar, PR65 Cameo

- 3172** 1903 Louisiana Purchase Jefferson Gold Dollar PR65 Cameo PCGS. Per Walter Breen's *Proof Encyclopedia*, the first 100 coins each struck of the Louisiana Purchase/McKinley and Jefferson gold dollars were proofs, accompanied by "framed affidavits" certifying their status and signed by Mint officials. This deeply mirrored, nicely contrasted example of the Jefferson type shows far more detail on the hair, face, collar, and coat than normally seen on the circulation strikes. Bright lemon-yellow surfaces host reflective fields and perceptibly frosted devices. An extremely attractive piece. Population: 8 in 65 Cameo, 6 finer (11/23). Ex: FUN Signature (Heritage, 1/2014), lot 5614; Long Beach Signature (Heritage, 2/2022), lot 3393. NGC ID# BYMF, PCGS# 87482

MODERN BULLION COINS

1995-W Silver Eagle, PR70 Deep Cameo
Unimprovable Quality, Key to the Set

- 3173** 1995-W Silver Eagle PR70 Deep Cameo PCGS. The 1995-W proof Silver Eagle takes the fourth spot among the *100 Greatest U.S. Modern Coins* according to Scott Schechter and Jeff Garrett's 2011 ranking. Calling it "The King of the Silver Eagles," they note that this issue is "one of the most coveted and important of all modern U.S. coins." Only 30,125 examples were struck, and they were initially available exclusively in 10th anniversary bullion sets with each of the Gold Eagle denominations. This perfectly preserved Deep Cameo proof showcases jet-black fields surrounding thickly frosted relief elements. Unimprovable quality. NGC ID# 26K2, PCGS# 9887

1995-W Silver Eagle, PR70 Ultra Cameo
Limitless Fields, Amazing Contrast

- 3174** 1995-W Silver Eagle PR70 Ultra Cameo NGC. Insert signed by The Honorable Mike Castle and the late Miles Standish. Schechter and Garret (2011) write of this issue: "To say that the 1995-W is the 'key' to the series is an understatement. Its small mintage of 30,125 is dwarfed by that of every other Proof silver eagle in the series. Its value is nearly equal to that of all the other coins in the series combined." For those reasons, it ranks fourth place among the *100 Greatest U.S. Modern Coins*. Stark contrast exists between the seemingly limitless fields and the fully struck, thickly frosted relief elements that appear to float above them. NGC ID# 26K2, PCGS# 9887

TERRITORIAL GOLD

1849 Moffat & Co. Ten Dollar, XF40
Early Gold Rush Issue, K-6a

- 3175** 1849 Moffat & Co., "Ten Dol." XF40 NGC. K-6a, R.5. The firm of Moffat & Co. was among the first to convert gold dust into a readily accessible form of currency. In the earliest days of the Gold Rush gold dust was used but required scales, plus the dust could be less-than-pure. John Moffat's company first assayed this gold dust and converted it into small ingots that were valued between \$9 and \$260. Then he took the next logical step and standardized the assayed bullion into coin form. The result were five and ten dollar gold pieces dated 1849. Moffat's reputation was impeccable and his coins circulated freely in California. This example obviously spent a considerable amount of time in the channels of commerce and it shows even wear over the design elements. Slight reddish patina is noted around the design elements and there are no large or noticeable abrasions. Listed on page 408 of the 2024 *Guide Book*. Census: 2 in 40, 17 finer (11/23). NGC ID# ANJ8, PCGS# 10246

1852 Humbert Ten, AU58
K-10, Sharply Struck

- 3176** 1852 Humbert Ten Dollar AU58 NGC. K-10, R.5. In 1852, the San Francisco Assay Office was finally authorized to strike denominations of less than fifty dollars. Several die marriages of tens were strike during 1852, both before and after John Little Moffat's exit led to a reorganization of the Assay Office management. All varieties are scarce to rare. No wear is readily evident on this impressive semiprooflike apricot-gold example. The eagle's wings and breast feathers are fully defined. Even the claws above the shield show complete detail. Moderate marks are east of the eagle's tail, west of the 1 in the date, and above the O in CALIFORNIA. Certified in a prior generation holder. Listed on page 410 of the 2024 *Guide Book*. Census: 7 in 58, 5 finer (11/23). NGC ID# ANGG, PCGS# 10187

1852 Assay Office Fifty Dollar
K-13, 887 Thous., AU Details

- 3177** 1852 Assay Office Fifty Dollar, 887 Thous. — Repaired — PCGS Genuine. AU Details. K-13, High R.4. Kagin-13 features the later border legend: UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA. The fineness is 887 Thous. Production occurred in 1852 after the U.S. Assay Office was reorganized under principles Curtis, Perry, and Ward. Examples of K-13 are relatively available in the context of U.S. Assay Office gold issues, with an estimated 110 to 150 pieces known. Most of these coins are low-grade and/or impaired.

The current AU-level piece displays faint tooling in the obverse fields from an attempt to repair the heavy abrasions to which these large gold ingots were subjected. Detail is generally strong and wear light, though scattered abrasions are apparent. Each side displays bright yellow-gold patina. Listed on page 411 of the 2024 *Guide Book*.

Ex: Mail Bid Sale (Coin Galleries, 2/1996), lot 3026.

From *The Estate of Charles W. Montgomery, Part II*.

1852 Wass Molitor Ten, XF45
Large Head, K-4 Variety

- 3178** 1852 Wass Molitor Ten Dollar, Large Head, XF45 PCGS. K-4, High R.4. Ex: S.S. Central America, 2-A, Large Head, SSCA 7634. Wass, Molitor & Co. was primarily an assay firm, but they occasionally issued coinage to fill a specific need. The firm's coinage had a stellar reputation and was widely accepted in the regional economy. Three die pairs are known among 1852 Wass Molitor tens, but the broad bust and wide date identify the K-4 variety. This peach-gold Choice XF example is typically struck and displays glimmers of luster within the legends and motifs. A die crack extends from the base of the bust tip to star 1. Another crack is evident through stars 12 and 13 and the 2 in the date. The orange-gold surfaces show scattered small marks, as expected with the issuer. Listed on page 416 of the 2024 *Guide Book*.
Ex: Dallas Signature (Heritage, 4/2020), lot 4804.
NGC ID# ANJN, PCGS# 10348

PATTERNS

1852 'Ring' Dollar in Gold
Judd-145 Thick, PR62
One of the Few Affordable Gold Patterns

- 3179** 1852 Gold Dollar, Judd-145 Thick, Pollock-173, Low R.6, PR62 NGC. An annular pattern with a wide opening that restricts the legends to the date, denomination, and country name. Room is found on the lower half of the reverse for a wreath ornament. Struck in gold with a plain edge. The issued gold dollar was essential to commerce in 1852, since silver coins were hoarded at the time. The gold dollar was a small piece and easily lost. This annular pattern was intended to provide the gold denomination in a larger, more convenient form. Each side is bright and deeply mirrored yellow-gold with minimal surface problems.
Ex: Public Auction Sale (Stack's, 5/2002), lot 308.
From The Estate of Charles W. Montgomery, Part II.
NGC ID# 299B, PCGS# 11602

1852 Gold Dollar, Struck in Gold
Judd-145 Thick, PR64

- 3180** 1852 Gold Dollar, Judd-145 Thick, Pollock-173, Low R.6, PR64 NGC. An annular pattern with a wide opening that restricts the legends to the date, denomination, and country name. Room is found on the lower half of the reverse for a wreath ornament. Struck in gold with a plain edge.

The discovery of gold at Sutter's Mill in 1848 led not only to the great migration west to California and the rush for the yellow metal that followed, it also resulted in the introduction of two new coinage denominations. The gold dollar debuted for circulation in 1849 and the double eagle in 1850. The dollars proved popular in circulation, but their diminutive size posed a practical problem as far as usability was concerned. As a result, several gold dollar patterns were struck in 1852 with perforated annular designs, which increased the coin's diameter without affecting its intrinsic value. Judd-145 is one of those patterns. The surfaces are highly reflective with no obvious or detracting contact marks.

Ex: Pre-Long Beach Sale (Superior, 2/2000), lot 877.

From The Estate of Charles W. Montgomery, Part II.
NGC ID# 299B, PCGS# 11602

1857 Quarter Eagle
Judd-189, PR60 Gilt
Ex: Judd Plate Coin

- 3181** 1857 Quarter Eagle, Judd-189, Pollock-226, Low R.7, PR60 Gilt NGC. Ex: Judd Plate Coin. The obverse is essentially the same as the three cent nickel of 1865 with the date (1857) below and 13 stars around. The reverse shows a small, spread-wing eagle with UNITED STATES OF AMERICA around and \$2 1/2 D at the bottom. Struck in copper, gilt, with a reeded edge. This is just the second Judd-189 we have sold in any of our auctions following an example we offered in September 2020. However, that piece was not gilt as seen here. The gilt surface is bright and complete with only minor imperfections.

From The Estate of Charles W. Montgomery, Part II.
NGC ID# AZNR, PCGS# 11830

1858 Transitional Indian Cent in Copper-Nickel
Judd-212, PR67 Cameo

- 3182** 1858 Indian Cent, Judd-212, Pollock-263, Snow-PT25, R.4 PR67 Cameo PCGS. Similar to the Indian cent design as issued in 1860, but with a broad, ornamented shield at the top of the reverse. Struck in copper-nickel with a plain edge. The centered date, broad bust tip Pollock and Snow variant of Judd-212. Judd-212 is one of the more available patterns, and often associated with the Indian cent series. It has numerous design similarities to the adopted cent of 1860, yet enough differences to make it an interesting purchase. This is a bright example with deeply reflective fields and strong contrast on each side.

From The William K. Harter Collection, Part II.
NGC ID# 29BU, PCGS# 811895

1864 Half Dollar in Aluminum
Judd-395, PR65 Cameo
The Finer of Two Known, Ex: Simpson

- 3183** 1864 Half Dollar, Judd-395, Pollock-463, R.8, PR65 Cameo PCGS. Ex: Simpson. Originally described as a regular die trials striking for the half dollar. Struck in aluminum with a reeded edge. However, as with most off-metal strikings, this was most likely produced for sale by Mint personnel to favored customers. Only two examples are known of this rarity, this PR65 Cameo and a PR64 (3/23).

This is a magnificent aluminum pattern. The fields are deeply mirrored with thick mint frost over the devices, as often seen on aluminum patterns. This is a rare opportunity to acquire the finer of only two known examples of this unusual off-metal striking.
Ex: Bob R. Simpson Collection, Part II (Heritage, 11/2020), lot 3136; The Atherton Collection of U.S. Pattern Coins / Central States Signature (Heritage, 5/2023), lot 3383.

End of Session One

SESSION TWO

COLONIALS

1652 Oak Tree Sixpence, XF45
Noe-16, Salmon 1-A
Scarce IN On Reverse *Guide Book* Variety

- 3184** 1652 Oak Tree Sixpence, IN on Reverse, XF45 NGC. Noe-16, W-360, Salmon 1-A, R.5. 35.5 grains. The scarce Salmon 1-A is the sole die marriage of the Oak Tree Sixpence, IN On Reverse, *Guide Book* variety. Noe-19 also has IN on the reverse, but is widely believed to be a 19th century copy. This slate-gray and gunmetal-blue Noe-16 example has a bold date side, save for a softly struck NGLA. SAT is opposite on the tree side, and is also softly impressed, though the other letters and the tree are otherwise mostly bold. Listed on page 36 of the 2024 *Guide Book*. NGC ID# 2ARG, PCGS# 45359 Base PCGS# 19

(1785) Bar Copper, W-8520, VF30
Green Label Holder

- 3185** (1785) Bar Copper VF30 PCGS. Rulau-E-NY-621, Breen-1145, W-8520, R.4. The iconic Bar copper or "cent" is a token that circulated in New York during late 1785, according to a much-quoted contemporary newspaper report in the *New Jersey Gazette*. The maker is unknown, although Thomas Wyon of Birmingham, England, is a leading candidate. This is a midgrade example with clear letters and bold bars. The high points are tan-brown, while the moderately granular fields display steel-blue shades and minor obverse marks. Housed in an old green label holder. Listed on page 72 of the 2024 *Guide Book*.
Ex: Baltimore Auction (*Stack's Bowers*, 5/2019), lot 3251; Internet Auction #1092 (*David Lawrence*, 11/2019), lot 8000.
NGC ID# 2B5J, PCGS# 599

1794 Talbot, Allum & Lee Cent, XF40
W-8560, Without New York
Terminal Die State

- 3186** 1794 Talbot, Allum, & Lee Cent, Without NEW YORK, XF40 PCGS. Fuld-1, W-8560, R.5. Talbot, Allum, & Lee was a partnership formed in 1794. Their New York City store was located at 241 Walter Street. Tokens were struck for the firm by Peter Kempson's private mint in Birmingham, England. Tokens of the firm are dated 1794 and 1795. Most are common except for the 1794 Fuld-1, which lacks the inscription NEW YORK. This is a late die state example, showing a large retained obverse die break across the right border. Each side is smooth and well detailed, with medium brown toning and moderate build-up in protected areas. Listed on page 74 of the 2024 *Guide Book*. Population: 4 in 40, 4 finer (11/23).
NGC ID# 2B62, PCGS# 637

HALF CENTS

1795 C-1 Half Cent, XF40
Lettered Edge, With Pole

- 3187** 1795 Lettered Edge, C-1, B-1, R.2, XF40 NGC. Manley Die State 1.0. Cohen-1 is the 1795 Lettered Edge, With Pole *Guide Book* entry, distinct from its Lettered Edge, Punctuated Date C-2a successor. This is a better-grade example with olive-green fields and lilac-tinged high points. The merged dentils near the ED in UNITED are customary for C-1. The F in OF shows a gray spot and has a pair of thin vertical field lines nearby.
NGC ID# 2224, PCGS# 35067 Base PCGS# 1009

1804 Half Cent, MS64 Red and Brown
Plain 4, No Stems, C-13

- 3188** 1804 Plain 4, No Stems, C-13, B-10, R.1, MS64 Red and Brown PCGS. CAC. Manley Die State 2.0 with indistinct dentils on the obverse and upper reverse. Although Cohen lists 13 varieties, C-13 is promptly attributed by its Plain 4 and absent stems. This boldly struck near-Gem retains ample brick-red, although the portrait and fields are gunmetal-gray. Refreshingly free from abrasions. Ex: ANA Signature (Heritage, 8/2015), lot 3060; Long Beach Signature (Heritage, 6/2016), lot 4260.

LARGE CENTS

1793 Chain Cent, VG Details
S-3, Short-Lived Type

- 3189** 1793 Chain, AMERICA, S-3, B-4, Low R.3 — Damaged — NGC Details. VG. Breen Die State I. The "Leaning R" variety, which shows the R in LIBERTY entered high relative to the other letters. This deep brown example has readable legends, though the 1 in the date is faint. The surfaces are slightly granular. The obverse rim displays slight knocks at 3 and 10 o'clock, and a few small spots near 7 o'clock. The obverse shows a few thin moderate marks, and a scuff impacts the lower right portion of the O in ONE.
From The Washington Corner Collection.

1793 Chain Cent, VG Details
S-3, Clear Legends

- 3190** 1793 Chain, AMERICA, S-3, B-4, Low R.3 — Corrosion — NGC Details. VG. Breen Die State III. The Chain cent was the first type struck at the fledgling Philadelphia Mint, and soon gave way to the Wreath design. Numismatic legend has it that the chain was replaced because it was "a bad omen for Liberty," as stated in a much-quoted March 18, 1793 article in *Claypoole's Daily Advertiser*. The present deep olive-brown example displays evenly granular fields, and the surfaces are moderately glossy, possibly from a wipe. But no marks are of any notice, and the legends are surprisingly sharp except for the base of the date.
From The Washington Corner Collection.

1793 Wreath Cent, S-6, VG8
Vine and Bars Edge

- 3191** 1793 Wreath, Vine and Bars Edge, S-6, B-7, R.3, VG8 PCGS. Breen Die State I, bulge faint. Extensive wear and slight granularity may obscure the faint die state attributes of later states. This piece has even chocolate-brown patina and retains bold outlines around the devices. Border legends remain clear despite the field and border dentils merging from wear. A few old rim nicks appear above the RTY in LIBERTY and E in UNITED.
From The Riccolo Collection.

1869 Cent, MS65 Red and Brown
CAC Approved

- 3203 1869 MS65 Red and Brown PCGS. CAC. Much of this coin displays copper-orange or golden luster, though wisps of chestnut and amber toning prevent a full Red designation. Few Gems in the Red and Brown category are CAC endorsed, and this piece is quite appealing with sharp devices and satiny mint luster. CAC: 42 in 65, 3 finer (10/23).
NGC ID# 227T, PCGS# 2095

1869/69 Cent, MS65 Red and Brown
Snow-3 Repunched Date, FS-301
CAC-Approved Registry Candidate

- 3204 1869/69 Snow-3, FS-301, MS65 Red and Brown PCGS. CAC. Eagle Eye Photo Seal, card included. Snow-3 shows repunching on the top of the 69 in the date and is most prominent on the 9. Examples are elusive in Gem Red and Brown condition, and this is the only attributed Snow-3 coin in this grade reported with CAC endorsement (11/23). Bold devices complement satiny mint luster, with chestnut-brown and orange-gold hues dominating each side. A few scattered pepper specks are seen with a loupe, as usual. Population (FS-301, Snow-3): 25 in 65 (1 in 65+) Red and Brown, 5 finer. CAC: 1 in 65, 0 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 227T, PCGS# 37475 Base PCGS# 2095

1869/69 Snow-3 Indian Cent
Repunched Date, MS66 Red and Brown

- 3205 1869/69 Snow-3, FS-301, MS66 Red and Brown PCGS. CAC. Eagle Eye Photo Seal, card included. Repunching appears at the tops of the 69 in the date on this variety. The current Premium Gem is a rarity in this grade with Red and Brown surfaces. Much of each side displays copper-red color with tendencies toward burgundy that prevent a full Red designation. The strike is sharp, and just a few tiny specks are discernible with a loupe. Population: 5 in 66 Red and Brown, 0 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 227T, PCGS# 37475 Base PCGS# 2095

1870 Indian Cent, MS65 Red
Snow-10, Minor Reverse Die Doubling
Scarce in This Grade

- 3206 1870 MS65 Red PCGS. Snow-10. Eagle Eye Photo Seal, card included. Snow-10 shows minor die doubling on ONE CENT. As a date, the 1870 Indian cent is scarce in Gem Red condition, and finer Red coins are notably rare. This satiny example displays blatantly original luster with lovely rose and golden-tan hues. The strike is sharp, and there are no major abrasions. A single tiny pepper speck to the right of the E in ONE serves as a pedigree marker. Population: 55 in 65 (16 in 65+) Red, 11 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 227U, PCGS# 2099

1872 Cent, MS66 Brown
Shallow N, FS-901
Retained Reverse Cud

- 3207 1872 Shallow N, FS-901, Snow-10a, MS66 Brown PCGS. CAC. Eagle Eye Photo Seal, card included. The Shallow N in ONE identifies the FS-901 designation, while two small die defects on the T in CENT identified the Snow-10a die pair. Satiny luster engulfs this piece in blended brown and olive-gold hues. The strike is sharp, and each side is pristine. A heavy retained cud appears along the lower left reverse border, identifying the later die state for this variety. Population: 2 in 66 Brown, 0 finer. CAC: 1 in 66, 0 finer (10/23).
From The William K. Harter Collection, Part II.
PCGS# 404546 Base PCGS# 2103

**1873 Snow-1 Indian Cent, MS62 Brown
Coveted Doubled LIBERTY Variety**

- 3208 1873 Doubled LIBERTY, Snow-1, FS-101, MS62 Brown PCGS. CAC.** The obverse Liberty portrait is boldly die doubled on this variety, with the doubling on LIBERTY almost discernible to the unaided eye. This Mint State coin displays a sharp strike and satiny, somewhat glossy luster. Copper-orange undertones accent the walnut-brown toning over much of each side. A thin linear strike-through in the left obverse field between the E and Liberty's nose should not be mistaken for a scratch.
NGC ID# 227X, PCGS# 37504 Base PCGS# 2115

**1877 Indian Cent, AU58
Attractive Key Date Specimen**

- 3209 1877 AU58 PCGS. CAC.** Every serious Indian cent collector needs an example of this important key date in the series. Without breaking the bank, this attractive near-Mint coin might be the ideal selection for someone seeking to complete a business strike collection. The coin's rich reddish-brown coloration is deep and uniform over both sides. High-point friction is not excessive for the grade, and a single abrasion on Liberty's chin is the only noticeable surface flaw.
Ex: ANA Signature (Heritage, 8/2014), lot 3113.
NGC ID# 2284, PCGS# 2127

**1880 Clashed Reverse Cent
MS65 Red, Snow-1, FS-101**

- 3210 1880 Doubled Die Obverse, Clashed Reverse, Snow-1, FS-101, MS65 Red PCGS. CAC.** Eagle Eye Photo Seal, card included. An example of the Off-Center Clashed Reverse variety, which also shows slight doubling on LIBERTY. The reverse shows a widely off-center clash mark in the area around NE, where the obverse die came in contact. Lustrous orange-gold surfaces display sharply struck design elements. Nicely preserved throughout.
Ex: ANA Signature (Heritage, 8/2007), lot 139; FUN Signature (Heritage, 1/2009), lot 343.
From The William K. Harter Collection, Part II.
PCGS# 37515 Base PCGS# 2138

**1887 Indian Cent, MS66+ Red
Beautifully Pristine**

- 3211 1887 MS66+ Red PCGS.** This is a pristine, satiny Premium Gem 1887 Indian cent, showing rich copper-red luster with no bothersome spots or abrasions of note. The 1887 is seldom offered in this grade, and finer examples are rare. The Plus designation on this piece adds to its appeal and sets it apart from the majority of its peers. Population: 48 in 66 (13 in 66+) Red, 3 finer (10/23).
NGC ID# 228F, PCGS# 2159

**1888/7 Indian Cent, XF40
Important Guide Book Overdate
FS-301, Snow-1**

- 3212 1888/7 Snow-1, FS-301, XF40 PCGS.** Eagle Eye Photo Seal, card included. This overdate is a rare and sought-after variety in the Indian cent series, discovered by Jim Ruddy in 1970. The lower tip of a 7 is visible at the base of the final 8, while a small obverse rim cud at 9 o'clock confirms the attribution. This piece displays uniform chocolate-brown patina with light wear and problem-free surfaces. Population (Snow-1, FS-301): 6 in 40, 18 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 228G, PCGS# 37543 Base PCGS# 2169

**1894/1894 Cent, MS65 Brown
Snow-1 Repunched Date, CAC Approved**

- 3213 1894/1894 Repunched Date, Snow-1, FS-301, MS65 Brown PCGS. CAC.** Eagle Eye Photo Seal, card included. This Gem example is tied with one other Snow-1 coin for finest Brown example of the variety at PCGS. Some Red and Red and Brown coins are finer. Satiny luster yields chestnut-brown and olive-gold patina over well-defined motifs. No carbon spotting is seen. Population: 2 in 65 Brown, 0 finer. CAC: 2 in 65, 0 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 228N, PCGS# 37582 Base PCGS# 92187

1909-S Indian Cent, MS65 Red and Brown
CAC Approved

- 3214 1909-S MS65 Red and Brown PCGS. CAC.** Eagle Eye Photo Seal, card included. The 1909-S is a key date in the Indian cent series and is scarce in Gem Red and Brown condition with CAC approval. This piece displays satiny copper-orange luster with subtle elements of chestnut-brown toning. The upper headdress feathers are soft per usual, and a few faint pepper specks are seen with a loupe. Eye appeal is excellent for the grade. CAC: 93 in 65, 9 finer (10/23).
From The William K. Harter Collection, Part II.
NGC ID# 2298, PCGS# 2239

PROOF INDIAN CENTS

1876 Indian Cent, PR67 Red and Brown
Among the Finest Certified

- 3215 1876 PR67 Red and Brown NGC.** From a fairly generous Centennial mintage of 1,150 pieces, the 1876 proof Indian cent is decidedly rare at the PR67 grade level. This delightful Superb Gem exhibits sharply detailed design elements and deeply reflective fields on both sides. The flawless surfaces show a mix of light brown, crimson, and original red patina. Housed in a circa-2000 holder. Census: 6 in 67 (1 in 67★) Red and Brown, 0 finer (11/23).
PCGS# 2316

1877 Cent, PR65 Red and Brown
Old Green Label Holder

- 3216 1877 PR65 Red and Brown PCGS. CAC.** Eagle Eye Photo Seal, card included. This is a fully struck example with appreciably reflective fields and satiny devices. Blended copper-red, orange, gold, burgundy, and amber hues characterize each side. A few tiny specks are not bothersome. Housed in an old green label holder. Population: 92 in 65 (3 in 65+) Red and Brown, 15 finer. CAC: 33 in 65, 6 finer (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 229W, PCGS# 2319

LINCOLN CENTS

1909-S VDB Cent, MS66 Brown
Luminous and Attractive

- 3217 1909-S VDB MS66 Brown NGC.** The 1909-S VDB Lincoln cent is widely sought in Red or Red and Brown grades, although such coins bring collectors a plethora of quality trade-offs, including often carbon spots, insufficient Red color, or artificially brightened surfaces. High-end Brown examples are distinctly underappreciated. This Premium Gem glistens with satiny mint luster bathed in chestnut-brown, violet, and honey-gold colors. A few microscopic pepper specks are well hidden by the patina.
From The Riccolo Collection.
NGC ID# 22B2, PCGS# 2426

1909-S VDB Cent, MS64 Red and Brown
First-Year Lincoln Series Key

- 3218 1909-S VDB MS64 Red and Brown NGC.** The 1909-S VDB Lincoln cent is widely sought after in all grades. While high-end Red coins may be out of reach for many collectors, this near-Gem Red and Brown example offers excellent quality and eye appeal for more conservative series enthusiasts. Chestnut-brown and golden-copper hues blend over satiny mint luster and sharp design elements. Perhaps only two or three tiny pepper specks are discernible, none of which are obtrusive.
From The Riccolo Collection.
NGC ID# 22B2, PCGS# 2427

1909-S VDB Cent, MS65 Red and Brown
Pleasing for the Grade

- 3219 1909-S VDB MS65 Red and Brown NGC.** A satiny example with blended chestnut-brown and copper-orange hues. No major spots or abrasions interrupt the eye appeal, and the design elements are well defined. The S-VDB is the key date in the Lincoln cent series. While examples are often available, demand for Gem-quality pieces sustains competition at auction.
NGC ID# 22B2, PCGS# 2427

**1909-S VDB Cent, MS65+ Red and Brown
Debut Lincoln Series Key**

- 3220 1909-S VDB MS65+ Red and Brown NGC.** Close examination of this satiny Gem fails to reveal a single notable abrasion or spot, making the Plus designation awarded a barely adequate recognition of the coin's quality for the grade. Golden luster lies beneath original chestnut-brown toning that forms a woodgrain pattern over each side. The strike is sharp, and needless to say, eye appeal is outstanding.
NGC ID# 22B2, PCGS# 2427

**1909-S VDB Cent, MS64 Red
Collectible Full Red Example**

- 3221 1909-S VDB MS64 Red PCGS.** Satiny copper-gold luster characterizes the original surfaces of this near-Gem Red 1909-S VDB cent, and the design elements are well defined. A lone fleck is seen between the NT in CENT, but there are no obtrusive impairments. Eye appeal is pleasing for the grade.
NGC ID# 22B2, PCGS# 2428

**1909-S VDB Lincoln Cent, MS65 Red
Well Struck and Satiny**

- 3222 1909-S VDB MS65 Red PCGS.** Each side of this Gem Red 1909-S VDB cent displays natural copper-gold luster with deeper amber-orange tendencies. The strike is sharp, and eye appeal is excellent, with no bothersome spots or major abrasions. This key-date issue is often available in Gem Red condition, but demand for such coins remains unyielding.
NGC ID# 22B2, PCGS# 2428

**1909-S Lincoln Cent, MS66 Red
Few Finer Red Examples**

- 3223 1909-S MS66 Red PCGS.** Beautifully preserved, pristine mint luster adorns the amber-red surfaces of this Premium Gem example, complementing a bold strike and spotless surfaces. Full Red examples of this San Francisco issue are collectible but challenging to acquire in MS66, and PCGS reports only 11 Red coins numerically finer (11/23).
NGC ID# 22B4, PCGS# 2434

**1914-D Cent, MS64 Red and Brown
Pleasing Satin Surfaces**

- 3224 1914-D MS64 Red and Brown PCGS.** Moderate copper-red luster still clings to the protected portions of this near-Gem 1914-D Lincoln cent. The design elements exhibit bold definition, and the overall eye appeal is pleasing. Much of each side displays reddish-brown toning. A few tiny specks are not bothersome.
NGC ID# 22BH, PCGS# 2472

**1921 Cent, MS67 Red
Few Seen This Fine**

- 3225 1921 MS67 Red NGC.** This Philadelphia issue is among the more plentiful early dates in the Lincoln cent series, although full Red specimens are conditionally rare at the Superb Gem level. This piece is tied with one other for finest at NGC (11/23). Central strike sharpness is outstanding, while only slight weakness is seen around the rims due to die fatigue. Satiny copper-gold and orange hues adorn each side. Census: 2 in 67 Red, 0 finer (11/23).
NGC ID# 22C6, PCGS# 2533

1930-S Cent, MS67 Red
Rare Registry-Grade Example

- 3226** 1930-S MS67 Red NGC. This is a sharply struck, pristine copper-red example of the 1930-S Lincoln cent, showing no carbon spotting or bothersome abrasions. Eye appeal is excellent. This issue is rare in MS67 Red, and no numerically finer Red coins are known. Census: 35 in 67 Red, 0 finer (11/23).
Ex: Dallas Signature (Heritage, 10/2020), lot 7091.
NGC ID# 22CZ, PCGS# 2611

PROOF LINCOLN CENT

1910 Lincoln Cent, PR66+ Red
Sharp and Richly Colored

- 3227** 1910 PR66+ Red NGC. Broad, squared rims and fine matte surface texture leave no doubt as to this coin's proof origins. Each side displays deep pumpkin-orange color and is devoid of bothersome abrasions. A loupe reveals a few tiny specks on each side, particularly on the reverse. Census: 14 in 66 (1 in 66+) Red, 5 finer (11/23).
NGC ID# 22KT, PCGS# 3308

PROOF THREE CENT NICKELS

1882 Three Cent Nickel, PR66 Deep Cameo
Rare High-End and Contrasted Example

- 3228** 1882 PR66 Deep Cameo CACG. CACG reports a total of just five Deep Cameo 1882 proof three cent nickels with CAC green labels, plus this lone coin in a CACG holder. These numbers attest to the rarity of high-end examples in any grade. This piece is brilliant and sharp with stark white-on-black contrast. Eye appeal is outstanding.
NGC ID# 2764, PCGS# 93778

1886 Three Cent Nickel, PR68
Rare, Tied for Finest Known

- 3229** 1886 PR68 NGC. JD-1, R.1. A sharp, beautifully preserved proof with moderate field reflectivity and softly frosted devices. The coin is brilliant and eye-catching. Proof 1886 three cent nickels are rare in PR68, and none are known numerically finer. Only a lone PR68 Cameo NGC coin is arguably finer from an objective viewpoint. Census: 5 in 68 (2 in 68★), 0 finer (11/23).
NGC ID# 2768, PCGS# 3782

PROOF LIBERTY NICKELS

1886 Liberty Nickel, PR67+
Among the Finest at NGC

- 3230** 1886 PR67+ NGC. The 1886 circulation strike is a key date in the Liberty nickel series, leading many collectors to seek high-end proofs as an alternative for date sets. This Plus-designated Superb Gem displays reflective fields and satiny devices, both bathed in tan-gold toning. Several right-hand border stars are a trifle soft, but the wreath is well defined. Census: 22 in 67 (2 in 67+, 3 in 67★, 1 in 67+★), 0 finer (11/23).
NGC ID# 277U, PCGS# 3884

1893 Nickel, PR67 Cameo
Well-Contrasted Registry Candidate

- 3231** 1893 PR67 Cameo PCGS. The proof 1893 Liberty nickel is scarce in Superb Gem condition, regardless of the degree of contrast. This Cameo example displays a sharp strike and virtually brilliant surfaces, with only a hint of light champagne color. Stark contrast on each side produces strong visual appeal. Population: 26 in 67 (8 in 67+) Cameo, 1 finer (10/23).
NGC ID# 2783, PCGS# 83891

1902 Nickel, PR67 Cameo
Registry Set Quality

- 3232** 1902 PR67 Cameo PCGS. CAC. The proof 1902 Liberty nickel is a rarity with Cameo qualities, and this Superb Gem is among the finest known in this category. Ice-blue toning graces the mirrored fields and satiny devices, and the strike is sharp throughout. Eye appeal is excellent. CAC endorsement adds to the appeal. Population: 10 in 67 (1 in 67+) Cameo, 0 finer. CAC: 7 in 67, 0 finer (11/23). NGC ID# 278C, PCGS# 83900

1936 Buffalo Nickel, MS68
Rare Top-Grade Registry Coin

- 3235** 1936 MS68 NGC. The 1936 is a common date in the Buffalo nickel series, although only a few handfuls of coins are known as fine as MS68. This high-end Superb Gem displays brilliant, satiny mint luster and virtually flawless preservation. The bison's shoulder exhibits the usual strike softness, but the remainder of the design is well brought up. Census: 21 in 68 (1 in 68+, 1 in 68★), 0 finer (11/23). NGC ID# 22SS, PCGS# 3977

BUFFALO NICKELS

1918/7-D Buffalo Nickel, AU Details
Impressively Appealing

- 3233** 1918/7-D FS-101 — Cleaned — NGC Details. AU. The 1918/7-D Buffalo nickel is one of the three major *Guide Book* varieties in the series and a top acquisition for advanced series collectors. This AU-level piece displays satiny, lightly cleaned luster with muted golden toning. There are no obvious abrasions, and eye appeal is remarkably strong for a Details-graded piece. Moderate strike softness is seen as usual on the hair above the braid and on the bison's head and shoulder, but actual wear is virtually nonexistent.

1937-D Three-Legged Nickel, MS63
Important *Guide Book* Variety

- 3236** 1937-D Three-Legged, FS-901, MS63 PCGS. The bison's forward right leg was mostly effaced by die lapping on this variety. The borders and recesses of the design still show the extensive metal flow that the Mint employee was attempting to remove with the aggressive polishing. This *Guide Book* variety is highly sought after in all grades. The current coin displays satiny luster and warm golden toning, with no major abrasions of note. NGC ID# 22SX, PCGS# 38475 Base PCGS# 3982

1927-S Buffalo Nickel, MS65
Rare in Finer Grades

- 3234** 1927-S MS65 NGC. Satiny mint luster yields delicate golden toning, while no major abrasions distract from the eye appeal. This San Francisco issue is known for coming weakly struck from worn dies, although this piece exhibits better-than-average definition and die integrity. Only slight softness in the centers is noticed. Census: 31 in 65 (2 in 65+, 2 in 65★), 8 finer (11/23). NGC ID# 22SA, PCGS# 3962

1938-D Buffalo Nickel, MS68
Attractively Toned Final-Year Type Coin

- 3237** 1938-D MS68 PCGS. The 1938-D is a popular type coin, being the final date in the series and also readily available in most grades. This MS68 coin is among the finest certified. Rich autumn-gold and multicolor hues adorn each side, and the luster is satiny and unabraded. The usual strike softness on the bison's shoulder is not bothersome. Population: 62 in 68 (6 in 68+), 0 finer (11/23). NGC ID# 22SZ, PCGS# 3984

PROOF BUFFALO NICKEL

1936 Satin Finish Proof Nickel, PR68
Among the Finest at NGC

- 3238** 1936 Type One — Satin Finish PR68 NGC. This is a sharp, brilliant proof, beautifully preserved — a virtually flawless, ideal example of the one-off Satin Finish among proof Buffalo nickels. This coin is conditionally scarce and is among the finest numerically graded at NGC. PCGS reports four finer examples. Census: 46 in 68 (3 in 68+, 2 in 68★, 1 in 68+★), 0 finer (11/23). NGC ID# 278X, PCGS# 3994

JEFFERSON NICKELS

1941-D Nickel, MS68 Six Full Steps
None Certified Finer

- 3239** 1941-D MS68 Six Full Steps NGC. This stunning Superb Gem 1941-D Jefferson nickel is tied with two other coins for the finest NGC submissions that have earned the Six Full Steps designation (11/23). As expected for the designation, the design elements are bold and complete, with fully defined steps to Monticello's portico, including the all-important bottom step. Splashes of gold toning visit the brilliant and satiny surfaces of this lustrous beauty. NGC ID# 22TH, PCGS# 74011

1943-P Jefferson Nickel, MS68 Full Steps
Registry-Quality Example

- 3240** 1943-P MS68 Full Steps NGC. The 14-coin date and mintmark set of wartime composition coinage, including three Lincoln cents and 11 Jefferson nickels, is an achievable and historically-important collection for the novice or young collector to contemplate. This sharply detailed Superb Gem has five complete steps and a partial sixth step to Monticello. The satiny and highly lustrous surfaces exhibit splashes of gold and hints of blue toning. Census: 14 in 68 (1 in 68★) Full Steps, 0 finer (11/23). NGC ID# 22TP, PCGS# 84018

PROOF JEFFERSON NICKEL

1939 Jefferson Nickel, PR68
Reverse of 1938

- 3241** 1939 Reverse of 1938 PR68 PCGS. The steps of Monticello are indistinct on the Reverse of 1938 proof. This issue is rare in PR68, and only a single coin is designated Cameo (graded PR65 Cameo NGC). This PR68 coin is among the finest pieces available for Registry collectors. The strike is bold, and the reflective surfaces yield pleasing gold, lavender, and mint-green hues, with light rose accents. Population: 24 in 68 (3 in 68+), 0 finer (11/23). NGC ID# 22YB, PCGS# 4176

EARLY HALF DIMES

1794 Half Dime, V-3, LM-3, VF20
Lightly Toned, Well-Suited for a Type Set

- 3242** 1794 V-3, LM-3, R.4, VF20 PCGS. The leaf tip nearly to the center of U(NITED) with two berries under I in the same word attributes the very scarce 1794 V-3, LM-4 die pairing, much more available than LM-1, slightly more plentiful than LM-2, and scarcer than LM-4. (An example of the V-3, LM-3 is also known struck in copper with reeded edge as a pattern, cataloged as Judd-15, Pollock-19.) Extensive but even wear covers the rose- and gold-toned surfaces of this piece, which show a few dark spots and a few light scrapes on each side. Plenty of eye appeal remains on this piece, well-suited for a midgrade type set. Ex: Long Beach Signature (Heritage, 2/2016), lot 3756. NGC ID# 22ZT, PCGS# 38583 Base PCGS# 4250

1794 V-4, LM-4 Half Dime, VF30
Collectible First-Year Example

3243 1794 V-4, LM-4, R.4, VF30 PCGS. Four 1794 half dime varieties are known, none of which is common, though two of which are generally considered collectible with some patience — LM-4 is one of those two varieties and is ideal for date and type collectors. This is an elusive VF example with medium lilac-gray surfaces and moderate wear. Deeper russet and olive-green hues appear in the reverse fields and in the upper obverse margin around LIBERTY. This coin is in the early die state, before heavy cracks develop on the reverse.

From The Riccolo Collection.

NGC ID# 22ZT, PCGS# 38584 Base PCGS# 4250

1795 Half Dime, XF45
V-4, LM-10, Well Defined

3244 1795 V-4, LM-10, R.3, XF45 PCGS. Sea-green and sky-blue toning embraces this well-defined early silver type coin. Moderate field marks are on the reverse exergue and the field above the tail, but otherwise the quality is exceptional for the XF45 level. Flowing Hair half dimes were only struck in 1794 and 1795, and pleasing examples are always in demand.

NGC ID# 22ZV, PCGS# 38594 Base PCGS# 4251

1800 Half Dime, VF35
V-1, LM-1, Problem Free

3245 1800 V-1, LM-1, R.3, VF35 PCGS. Deep aquamarine, steel-blue, and lavender toning dominates this minimally marked and nicely detailed early type coin. Portions of the vertical shield bars are lightly brought up, but other design details are fairly sharp, especially the eagle's wings and banner. On 1800 half dimes, the 8 in the date was formed by a double impression of a small 0 punch. NGC ID# 2326, PCGS# 38601 Base PCGS# 4264

SEATED HALF DIMES

1837 Seated Half Dime, MS66
No Stars, Small Date

3246 1837 No Stars, Small Date (Flat Top 1) MS66 NGC. 1837 was the first year of the Seated half dime design, and the sole date that the No Stars subtype was coined at Philadelphia. Two date styles are known, with the Small Date moderately scarcer than the Large Date. The present Premium Gem offers semiprooflike fields. The borders display cobalt-blue and lavender toning. The open fields are pearl-gray. Both sides exhibit a partial wire rim. Census: 3 in 66, 4 finer (11/23). NGC ID# 232M, PCGS# 4312

1839-O Half Dime, MS64
No Drapery, Repunched Date

3247 1839-O No Drapery MS64 NGC. V-3A. V-3A was struck with the same obverse die as V-2 and Flynn-RPD-002. The 1 and 9 in the date are clearly repunched south. V-3 and V-3A lack the prominent die cracks seen on V-2. V-3A is noted for its widely rotated reverse; 77 degrees per the Clint Cummins website. The present New Orleans No Drapery half dime displays navy-blue freckles throughout the borders. The centers are cream-gray and tan-brown. Census: 7 in 64, 6 finer (11/23). NGC ID# 232T, PCGS# 4320

1849/8 Half Dime, MS66+
FS-301, Multicolor Toning

- 3248** 1849/8 V-4, FS-301, Flynn-OVD-001, MS66+ PCGS. CAC. Ex: Bender Collection. *Cherry pickers'* states that the 1849/8 half dime has a 4 in the date that "is at least triple punched, with one secondary 4 south and one east of the primary 4." The 9 in the date commands yet greater attention, although its underdigit, and even its overdate status, is contested. The *Guide Book* and PCGS call the variety an 1849/6, not to be confused with FS-302, a different (and also disputed) 1849 overdate. This splendid Premium Gem displays exquisite tan-gold, rose-red, and navy-blue toning. The strike is intricate, and the minimal contact is chiefly relegated to the field near star 3. Population: 6 in 66 (2 in 66+), 6 finer. CAC: 1 in 66, 3 finer (11/23). NGC ID# 233D, PCGS# 38738 Base PCGS# 4343

EARLY DIMES

1796 JR-1 Dime, VG8
Collectible Draped Bust Type Coin

- 3249** 1796 JR-1, R.3, VG8 PCGS. A large, lumpy rim cud at star 1 readily identifies the JR-1 die pair. The horizontal die crack on the reverse beneath the eagle's right (facing) wing is just beginning to form or is partially effaced by wear, as it is only visible near the wing feathers. Liberty's portrait is fully outlined, and all border legends are complete, including the date. The eagle's left (facing) wing is slightly soft from an uneven screw press strike. Golden-russet patina accents each side.
From The Riccolo Collection.
NGC ID# 236B, PCGS# 38742 Base PCGS# 4461

1798/97 JR-1 Dime, VF20
16 Stars Reverse

- 3250** 1798/97 16 Stars Reverse, JR-1, R.3, VF20 NGC. A hallmark of the JR-1 dies is a prominent 8/7 overdate feature, which is clear even on well-worn examples. This midgrade piece displays steel-gray patina and moderate wear. Most of the rims are complete, though some unevenness of strike is seen along the lower obverse border. The devices retain major details in the hair strands as well as on the eagle's wings and the shield.
NGC ID# 236F, PCGS# 38750 Base PCGS# 4468

1798/97 JR-1 Dime, AU55
16 Reverse Stars, Colorfully Toned

- 3251** 1798/97 16 Stars Reverse, JR-1, R.3, AU55 NGC. The reported dime mintage for 1798 was 27,550 pieces. Four die pairs exist, but JR-1 is the sole marriage with 16 stars on the reverse, and thus JR-1 commands its own *Guide Book* listing. Additionally, the eagle's neck is longer and thinner than seen on the other three die pairs. This lightly circulated representative offers rich cobalt-blue and autumn-brown toning that is deeper throughout the borders than across the centers. Marks of any notice are confined to a few slight nicks on the upper obverse rim.
NGC ID# 236F, PCGS# 38750 Base PCGS# 4468

1798 Large 8 Dime, XF45
JR-4, Early Die State

- 3252** 1798 Large 8, JR-4, R.3, XF45 PCGS. CAC. JR-4 is the sole 1798 Normal Date, Large 8 die variety, and hence commands its own *Guide Book* entry. The present lavender-gray and forest-green representative is generally well defined, though the coin was struck from out-of-parallel dies, favoring the right borders over the left margins. Unblemished save for a pair of slender lines on the left obverse field. From early dies without the nosetip arc crack, and reverse cuds, often seen with JR-4.
NGC ID# 236E, PCGS# 38753 Base PCGS# 4466

1805 4 Berries Dime, AU55
JR-2, Rich Toning

- 3253** 1805 4 Berries, JR-2, R.1, AU55 NGC. Rich gunmetal-gray toning covers this briefly circulated and unblemished Draped Bust type coin. The strike shows incompleteness on the eagle's shield, but wear is minimal, and luster illuminates the design elements. Struck slightly off center toward 12 o'clock, with dentils absent near 12 o'clock on both sides.

NGC ID# 236S, PCGS# 38769 Base PCGS# 4477

1807 JR-1 Dime, AU53
Final-Year Heraldic Eagle Reverse

- 3254** 1807 JR-1, R.1, AU53 PCGS. This coin is struck from a late die state, with a noticeable die bulges at ERT of LIBERTY and from stars 11 to 13, plus extensive obverse die clashing. The strike is diagnostically weak at the left obverse stars and on the reverse legend, although the hard-used dies held up remarkably well in their final use to strike 165,000 pieces. Light silver-gray surfaces show almond-gold toning at the margins and glimpses of remaining mint luster.

Ex: *New York Signature* (Heritage, 10-11/2015), lot 4077.

From The Kankakee Collection.

NGC ID# 236T, PCGS# 38770 Base PCGS# 4480

BUST DIME

1835 JR-1 Dime, MS65
Well-Struck Bust Type Coin

- 3255** 1835 JR-1, R.1, MS65 NGC. A hint of wheat-gold toning graces the borders of this otherwise brilliant Gem. The sharply struck surfaces teem with luster, and show only unimportant signs of contact. JR-1 is an available variety that can often be attributed at a glance by its radial die crack through the A in STATES.

NGC ID# 237F, PCGS# 38879 Base PCGS# 4527

SEATED DIMES

1837 Seated Dime, MS64
Large Date, No Stars

- 3256** 1837 No Stars, Large Date, F-101b, R.2, MS64 PCGS. The obverse displays radial die cracks at 5 and 7 o'clock, and the reverse is unclashed. The first-year Seated dime lacks stars, and is the sole Philadelphia issue of its design subtype. Large and Small Date varieties are both collectible. The present lustrous and boldly struck near-Gem displays lavish olive-green and ocean-blue toning. The centers display hints of plum-red patina. Population: 47 in 64, 43 finer (11/23).

PCGS# 537636 Base PCGS# 4561

1839 No Drapery Dime, MS66
High-End Type Coin

- 3257** 1839 No Drapery, F-107, R.3, MS66 PCGS. Repunching on star 8 aids in attribution of Fortin-107, which is one of the more plentiful 1839 No Drapery dime varieties. This Premium Gem example displays a sharp strike and satiny, golden-toned mint luster. A thin, faint mark appears in the obverse field near stars 12 and 13, but the coin is otherwise essentially pristine. Eye appeal is outstanding. Population: 15 in 66 (2 in 66+), 12 finer (10/23).

From The Kankakee Collection.

PCGS# 537679 Base PCGS# 4571

**1874-CC Arrows Dime, Fair 2
Low Mintage, Low Survival Rate**

- 3258** 1874-CC Arrows, F-101, R.4, Fair 2 NGC. This Carson City issue is one of the challenging issues missing from many Seated dime collections. A rare coin in all grades and conditions, the 1874-CC commands attention no matter what. The low 10,817-piece mintage translates to between 40 to 60 survivors in all grades, making it the key to the series. This Fair 2 example occupies the bottom rung of grading series, yet if ever there was an ideal coin for the grade, this is it. The date and mintmark are strong despite extensive wear. The central devices are generally well outlined, with the rims blending into the peripheries. Pleasing, original medium-gray toning spreads evenly throughout both sides. PCGS# 538347 Base PCGS# 4669

**1883 Seated Dime, MS67+
Beautifully Toned Type Coin**

- 3259** 1883 F-113, R.2, MS67+ PCGS. CAC. Date position and die cracks in the wreath identify Fortin-113. This high-end Superb Gem also shows faint peripheral die cracks on the obverse. Pleasing rose-gold, powder-blue, and light lilac toning gives each side outstanding eye appeal complementary of frosty mint luster. The strike is bold. Although plentiful as a date, the 1883 Seated Liberty dime is rarely offered this fine, particularly with CAC endorsement. Population: 17 in 67 (1 in 67+), 4 finer. CAC: 9 in 67, 1 finer (10/23). *From The Kankakee Collection.* PCGS# 538672 Base PCGS# 4691

PROOF SEATED DIMES

**1856 Small Date Dime, PR64+
Doubled Die Obverse, Ex: Gardner**

- 3260** 1856 Small Date, Doubled Die Obverse, F-101, High R.6, PR64+ PCGS. CAC. PCGS estimates that only 30 to 40 proof 1856 dimes are extant. The proof mintage is unknown, as is the case for all proof dimes struck prior to 1858. Although Small Date and Large Date varieties are known for 1856 business strikes, only Small Date proofs are known. All are Fortin-101, which exhibits strong die doubling on Liberty's shield and gown. The F-101 dies did not strike coins for commerce. The present colorful near-Gem offers butter-gold centers and rich navy-blue and plum-red toning at the borders. Population: 9 in 64 (1 in 64+), 9 finer. CAC: 6 in 64, 3 finer (10/23). *Ex: David Lawrence (8/1998); Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98308; Long Beach / Summer FUN Signature (Heritage, 7/2023), lot 3473.* PCGS# 538996 Base PCGS# 4745

**1859 Dime, Multicolor PR66+
Beautiful CAC Proof**

- 3261** 1859 PR66+ PCGS. CAC. Scarce, from the second year of proof set production, for purposeful sale to collectors. The Premium Gem surfaces yield deep reflectivity in the fields, highlighted by vivid sun-gold, amber, violet, blue, and sea-green toning. The strike is sharp, and the frosty devices are devoid of contact marks. A Cameo designation might have been awarded were it not for the beautiful toning throughout. Population: 18 in 66 (3 in 66+), 1 finer. CAC: 7 in 66, 2 finer (11/23). PCGS# 538999 Base PCGS# 4748

1884 Dime, PR67+ Cameo
Exemplary Multicolor Toning

- 3262** 1884 PR67+ Cameo PCGS. F-101, R.3. A magnificently toned Superb Gem. Concentric bands of ocean-blue, plum-red, and straw-gold endow the obverse. The reverse displays similar but more subtle shades. The strike is strong, and the sole imperfection is a narrow strike-through near the I in UNITED. Population: 27 in 67 (5 in 67+) Cameo, 1 finer (11/23). NGC ID# 23D9, PCGS# 84781

BARBER DIMES

1893/2 Barber Dime, MS64
Original Patina

- 3263** 1893/2 MS64 PCGS. CAC. A horizontal line within the lower loop of the 3, along with a horizontal die crack near the bust tip, indicates the rarely encountered overdate. Scattered areas of toning appear on both sides of this near-Gem and include shades of orange, red, teal, apple-green, and fuchsia. Other than the dentils, the coin displays a sharp strike overall. Population: 9 in 64, 13 finer. CAC: 3 in 64, 5 finer (11/23).
Ex: Central States Signature (Heritage, 4/2013), lot 1818.
NGC ID# 23DP, PCGS# 4799

1896-S Barber Dime, MS65
Conditionally Rare Semikey Issue
Ex: Gene Gardner

- 3264** 1896-S MS65 PCGS. CAC. The 1896-S (575,056 coins struck) boasts a lower mintage than its New Orleans Mint counterpart yet tends to take a back seat to the more famous 1896-O, which David Lawrence describes as a "magical date." In reality, this issue is only marginally more available overall, and top-notch Gems may prove equally challenging to locate. The design definition on this Gem S-mint Barber dime is razor-sharp, and the eye appeal is every bit as strong. The obverse shows slate-gray centers with golden-russet edge toning, while the reverse exhibits mixed lilac, gold, and blue-green patina. Population: 13 in 65, 10 finer. CAC: 3 in 65, 4 finer (11/23).
Ex: Albert W. Savage Collection (Stack's, 10/1997), lot 486; Eugene H. Gardner Collection, Part IV (Heritage, 10/2015), lot 98358.
NGC ID# 23E2, PCGS# 4811

1897 Barber Dime, MS67
Few Known This Fine

- 3265** 1897 MS67 PCGS. A beautiful example of this type coin issue — well struck, satiny, and pristine, showing blended rose and olive-gold toning overall. The coin is a rarity in this grade and just outside the Condition Census. An ideal Registry Set contender. Population: 6 in 67 (2 in 67+), 1 finer (11/23). NGC ID# 23E3, PCGS# 4812

1897 Dime, MS67+
Stunning Preservation and Luster

- 3266** 1897 MS67+ PCGS. CAC. Beautifully preserved and sharply struck, showing glistening mint luster bathed in golden-amber, pine-green, and pale lilac toning. Neither side exhibits notable abrasions. A heavy die chip appears at the top of the 7 in the date. Although one or two finer pieces known, this Plus-designated Superb Gem is without a doubt part of the Condition Census. Population: 6 in 67 (2 in 67+), 1 finer. CAC: 5 in 67, 0 finer (11/23). NGC ID# 23E3, PCGS# 4812

1900-O Barber Dime, MS66
Pristine, Satiny Surfaces

- 3267 1900-O MS66 PCGS.** This turn-of-the-century New Orleans issue is a rarity above MS65, and this Premium Gem is among the finest examples certified at PCGS, with only a lone Plus-designated piece arguably superior among its peers at that service (11/23). Satiny ivory-white luster complements a bold strike, and neither side exhibits bothersome abrasions. An attractive and pristine coin. Population: 8 in 66 (1 in 66+), 0 finer (11/23). NGC ID# 23ED, PCGS# 4822

1900-S Barber Dime, MS66
Well-Pedigreed Registry Coin

- 3268 1900-S MS66 PCGS. CAC.** Ex: Eliasberg. Aside from the delicate gold toning over satiny silver luster, this sharply defined coin indicates the quality craftsmanship at the San Francisco Mint more than 100 years ago. Both sides enjoy bold design motifs and pristine surfaces. Minuscule die defects appear inside the lower loop of each 0 in the date. J.M. Clapp purchased this coin directly from the San Francisco Mint. The Clapp Estate sold his collection to Louis Eliasberg, and Gene Gardner was the successful bidder at the Eliasberg Collection sale in 1996. *Purchased directly from the San Francisco Mint; J.M. Clapp; Clapp Estate (1942); Louis E. Eliasberg, Sr.; Eliasberg Collection (Bowers and Merena, 5/1996), lot 1268; Eugene H. Gardner Collection, Part III (Heritage, 5/2015), lot 98293; Long Beach Signature (Heritage, 6/2016), lot 4396; Long Beach Signature (Heritage, 10/2022), lot 3602.* NGC ID# 23EE, PCGS# 4823

1910 Dime, MS67+
Only One Coin Numerically Finer
Ex: Duckor

- 3269 1910 MS67+ PCGS.** Ex: Lily Nicole Collection. The 1910 is one of the most plentiful issues in the series, but Superb Gem examples such as this are seldom seen. Both sides exhibit satiny silver surfaces beneath lovely gold and pale green toning. The surfaces are virtually perfect in their quality, even upon magnified examination. The devices are boldly rendered and the eye appeal is exceptional, aided by vibrant mint luster. Population: 16 in 67 (6 in 67+), 3 finer (10/23). *Ex: Duckor Collection / FUN Signature (Heritage, 1/2006), lot 1025; Long Beach Signature (Heritage, 5/2009), lot 519; The Lily Nicole Collection / Central States Signature (Heritage, 4/2015), lot 3960.* NGC ID# 23FF, PCGS# 4854

1916-S Barber Dime, MS67
Condition Census Rarity

- 3270 1916-S MS67 PCGS.** This is a rare Condition Census example of the 1916-S Barber dime, among the finest examples extant and essential for a high-ranking Registry Set. We have previously handled only a single coin in this grade, back in 2016. Satiny luster complements a bold strike, and the silvery-white interiors yield daubs of original russet toning around the borders. Eye appeal is excellent. Population: 4 in 67 (1 in 67+), 0 finer (11/23). NGC ID# 23FZ, PCGS# 4871

MERCURY DIMES

1916-D Mercury Dime, Fine 12 Problem-Free Collector Coin

- 3271 1916-D Fine 12 PCGS.** The mintmark is high, close to the lowest olive leaf, and leans right relative to the rim. A strong rim around each side complements the grade, while original stone-gray and russet-blue patina encompasses each side. Collector-grade examples of this first-year key date are often challenging to come by.
From The Riccolo Collection.
NGC ID# 23GY, PCGS# 4906

1916-D Mercury Dime, VF30 Choice Surfaces

- 3272 1916-D VF30 PCGS.** A moderately circulated collector-grade example of this first-year key date, showing steel-gray patina over uniform, problem-free surfaces. The mintmark is clear. As the only major "stopper" in the Mercury dime series, the 1916-D is in constant demand in all grades, and attractive midgrade pieces are especially sought after.
NGC ID# 23GY, PCGS# 4906

1927-S Dime, MS65 Full Bands Ex: Larry Shapiro

- 3273 1927-S MS65 Full Bands PCGS.** Ex: Larry Shapiro. This example has a silvery-gray obverse with light copper-gold and lilac-blue toning, while the reverse is less deeply toned. The obverse shows a number of small die cracks. One runs from the rim left of the date, along the neck rim to Liberty's hair at the back of the neck. Another branches from this crack and runs straight up the neck to the hair. A crack that is frequently seen on Mercury dimes of all dates runs from the wingtip to the rim. Under examination with a loupe, the cheek shows two marks, one a light scrape, the other possibly a small planchet flaw, with a few minor reverse ticks and abrasions. Pleasing and attractive. Population: 37 in 65 (2 in 65+) Full Bands, 22 finer (11/23).
Ex: *The Larry Shapiro #1 All-Time Finest Mercury Dimes Full Bands Basic PCGS Registry Set / FUN Signature (Heritage, 1/2006), lot 1896; Long Beach / Summer FUN Signature (Heritage, 7/2023), lot 3490.*
NGC ID# 23HW, PCGS# 4965

1930-S Dime, MS67 Full Bands Tied for Finest Certified

- 3274 1930-S MS67 Full Bands NGC.** The 1930-S is a challenging acquisition in high Full Bands grades, with NGC reporting only a handful of pieces in MS67 Full Bands and none finer (11/23). This piece is satiny and displays brilliant luster, with no bothersome abrasions. Registry collectors will appreciate the top-grade status of this piece. Census: 5 in 67 (2 in 67+) Full Bands, 0 finer (11/23).
NGC ID# 23J6, PCGS# 4981

1937-S Dime, MS68 Full Bands Rare Top-Grade Registry Coin

- 3275 1937-S MS68 Full Bands NGC.** A bold strike spans the interior devices as well as the border legends, and satiny luster produces a modest cartwheel effect throughout brilliant surfaces. The 1937-S is a major rarity in this grade, with only a handful of pieces known. This is an ideal Registry coin. Census: 8 in 68 Full Bands, 0 finer (11/23).
NGC ID# 23JL, PCGS# 5009

1943 Dime, MS68 Full Bands
Brilliant and Conditionally Rare

- 3276** 1943 MS68 Full Bands NGC. Brilliant, beautifully preserved mint luster characterizes this top-grade 1943 Mercury dime, complementing boldly struck devices and well-separated fasces bands. This Philadelphia issue is a rarity in MS68 Full Bands, and no numerically finer pieces are reported. This is an important opportunity for the Registry collector. Census: 21 in 68 (1 in 68+) Full Bands, 0 finer (11/23).
NGC ID# 23K8, PCGS# 5045

1945-D Dime, MS68 Full Bands
Border-Toned Registry Contender

- 3277** 1945-D MS68 Full Bands NGC. Deep violet, amber-gold, and midnight-blue toning frames most of the borders on this Registry Set coin, leaving the interiors mainly brilliant. The strike is sharp in the centers and throughout the border legends, adding appeal to the satiny luster and exceptional preservation. The 1945-D is rarely offered in this grade, and no numerically finer Full Bands examples are known. Census: 29 in 68 (2 in 68★) Full Bands, 0 finer (11/23).
NGC ID# 23KE, PCGS# 5059

1945-S Dime, MS68 Full Bands
Two-Sided Toning, Registry Set Quality

- 3278** 1945-S MS68 Full Bands NGC. A splash of multicolor toning encompasses the interior of each side, leaving a deeper blue-gray color around the borders. Satiny luster complements sharp devices, and there are no discernible abrasions. The 1945-S Mercury dime is a rarity in MS68 Full Bands, and none are numerically finer. Census: 35 in 68 (3 in 68★ Full Bands, 1 in 68+★), 0 finer (11/23).
NGC ID# 23KG, PCGS# 5061

TWENTY CENT PIECE

1875-CC Twenty Cent, MS63
Pleasing Carson City Type Coin

- 3279** 1875-CC MS63 PCGS. BF-4, R.2. A less often seen variety, though still collectible. This Select 1875-CC twenty cent piece displays satiny luster with russet and blue-gray border toning around near-brilliant interiors. The upper portion of the eagle's left (facing) wing is slightly soft, but the strike is otherwise strong throughout. Eye appeal is excellent for the grade, with minimal abrasions evident.
From The Riccolo Collection.
NGC ID# 23R6, PCGS# 5297

BUST QUARTER

1832 B-2 Quarter, MS63
A Top Ten Example

- 3280** 1832 B-2, R.2, MS63 PCGS. Tompkins Die State 2/1. This pleasing Browning-2 Select Mint State example is tied for the eighth-finest according to the Rea-Koenings-Haroutunian Condition Census that is presented in *Early Quarter Dollars of the United States Mint* by Rory Rea, Glenn Peterson, Bradley Karoleff, and John Kovach, Jr. Only two varieties are confirmed for the 1832 date despite the substantial 320,000-piece mintage. The obverse die is shared, while both reverse dies were carried over from 1831. The obverse is cracked from the inner points of star 13 through star 12 and into the field approaching star 11. Die study confirms this B-2 variety was produced before 1832 B-1. Both sides exhibit frosty mint luster with delicate gold, champagne, and steel toning on the ivory surfaces. Population (both 1832 varieties combined): 19 in 63 (1 in 63+), 18 finer (10/23).
Ex: New York Signature (Heritage, 10-11/2015), lot 3184.
From The Kankakee Collection.
NGC ID# 23RX, PCGS# 38988 Base PCGS# 5351

SEATED QUARTERS

1874-S Arrows Quarter, MS66
Outstanding, High-End Type Coin

- 3281 1874-S Arrows MS66 PCGS. Briggs 1-A.** Forest-green and tobacco-brown toning accompanies the borders, while the fields and motifs are principally brilliant. A crisply struck, frosty, and thoroughly lustrous Premium Gem that boasts superior eye appeal. PCGS reports just five numerically finer examples. Population: 39 in 66 (3 in 66+), 5 finer (10/23).
Ex: ANA Signature (Heritage, 8/2016), lot 3753; Long Beach Signature (Heritage, 6/2017), lot 3429.
From The Kankakee Collection.
NGC ID# 23VY, PCGS# 5495

1877-CC Quarter Dollar, MS65
Exemplary Surface Quality

- 3282 1877-CC MS65 CACG.** The 1877-CC Seated Liberty quarter is scarce in Gem and better grades. This is the sole MS65 coin housed in a CACG slab, although 11 other coins in this grade carry the comparable CAC green label. Sharp motifs and frosty, vibrant mint luster complement blue-gray, violet, and golden-olive toning. Eye appeal is excellent.
NGC ID# 23V6, PCGS# 5505

1883 Seated Quarter, MS66
Semiprooflike, CAC Approved

- 3283 1883 MS66 PCGS. CAC. Briggs 2-A,** the circulation-strike die pair. The reverse is lapped, with weakening of the olive branch, and significant reflectivity is observed in the fields on both sides. Pristine, satiny mint luster adorns the central devices, and neither side exhibits a single mentionable abrasion. CAC endorsement is well deserved. Lovely lilac, blue-green, gold, and pale rose toning accents each side. Population: 22 in 66 (2 in 66+), 3 finer. CAC: 9 in 66, 2 finer (10/23).
From The Kankakee Collection.
NGC ID# 23VF, PCGS# 5515

PROOF SEATED QUARTER

1886 Quarter, PR67
Colorfully Toned

- 3284 1886 PR67 PCGS. Briggs 2-B.** Splendid aquamarine, plum-red, and golden-brown toning graces the obverse, though the open field and high points are close to brilliant. The reverse displays peripheral powder-blue and lavender patina, with glimpses of apple-green near the 6 o'clock margin. An intricately struck Superb Gem that exhibits strong eye appeal. Population: 11 in 67 (3 in 67+), 0 finer (11/23).
NGC ID# 23XJ, PCGS# 5587

BARBER QUARTERS

1895 Barber Quarter, MS67
Tied for Finest Certified

- 3285 1895 MS67 NGC.** A brilliant, vibrantly lustrous Superb Gem example of this Philadelphia issue, among the finest examples of the date certified. NGC and PCGS combined report fewer than a dozen pieces in this grade. The strike is sharp, and each side is pristine. Census: 5 in 67, 0 finer (11/23).
NGC ID# 23Y4, PCGS# 5610

1901-S Quarter Dollar, AG3
Full Obverse Rim

- 3286 1901-S AG3 PCGS.** Among the three big key dates in the Barber quarter series, the 1901-S is the most challenging to acquire in high grade, and even low-end circulated command strong premiums. As a result, the Barber quarter series is challenging to complete, even in worn condition. This accessible AG3 example displays natural silvery-gray patina with hints of olive-gold in the margins. The typical two-faced appearance shows a bold obverse rim and a completely effaced reverse rim.
From The Riccolo Collection.
NGC ID# 23YR, PCGS# 5630

1901-S Barber Quarter, AG3
Pleasing and Accessible

- 3287 1901-S AG3 PCGS.** A.G. Heaton published his reference on mintmarks in 1895, but collecting Barber coinage by mintmark took a number of years to gain traction among contemporary numismatists. The low-mintage 1901-S quarter, for example, was largely ignored by collectors until Mint State examples began appearing at auction circa 1914 and the elusive nature of the issue was recognized. By then, most pieces in circulation had already become well worn, including the coin now offered here. The border legends are worn into the rims on the reverse, but less peripheral wear is present on the obverse. Original surfaces have smokey-silver accents over the devices. Problem-free for the grade.
Ex: FUN Signature (Heritage, 1/2005), lot 6503.
From The Riccolo Collection.
NGC ID# 23YR, PCGS# 5630

1901-S Barber Quarter, Good 4
Pleasing, Uniform Patina

- 3288 1901-S Good 4 PCGS.** The 1901-S is often referred to as the "King" of the Barber quarter series, being the most elusive of the three big key dates. Most of the 72,664 pieces struck were released into circulation and became well worn. Barber's design was not popular with contemporary collectors, and although some high-profile numismatists like the Clapps acquired Barber coinage from the branch mints, most individuals who preserved pieces selected proofs or Philadelphia specimens. This accessible Good 4 example of the 1901-S quarter displays pleasing stone-gray patina with sharply outlined devices. The obverse rims are complete, while the reverse rims exhibit ever so slight merging here and there.
From The Riccolo Collection.
NGC ID# 23YR, PCGS# 5630

1901-S Quarter, Good 4
Collector-Grade Example

- 3289 1901-S Good 4 PCGS.** With a mintage of only 72,664 pieces, the 1901-S Barber quarter stands as one of the scarcest issues in the Barber quarter series, alongside other key dates like 1896-S and 1913-S. This collectible example displays well-worn surfaces, although most of the rims remain strong, save for slight merging along the left reverse border. Lilac-gray and golden-olive patina emerges beneath a light. Scattered light abrasions are not bothersome.
From The Riccolo Collection.
NGC ID# 23YR, PCGS# 5630

1901-S Quarter, Good 4
Problem-Free Surfaces

- 3290 1901-S Good 4 NGC.** Warm rose-gray surfaces show a typical assortment of abrasions, including a few long, wispy slide marks on the portrait. The obverse retains full outlining of devices and rims, with a resolute Y in LIBERTY as a bonus, though the reverse does exhibit merging along the upper and left margins as is often seen.
Ex: Long Beach Signature (Heritage, 9/2010), lot 3983.
From The Riccolo Collection.
NGC ID# 23YR, PCGS# 5630

1906 Barber Quarter, MS67
Among the Finest

- 3291 1906 MS67 NGC.** This highly lustrous quarter is completely brilliant over each side. The strike is bold throughout, and both sides are essentially immaculate. Formidable quality for this Teddy Roosevelt-era quarter issue, a little-saved affair of less than 3.7 million pieces. Census: 2 in 67, 0 finer (11/23).
Ex: Long Beach Signature (Heritage, 5/2009), lot 651.
NGC ID# 23Z5, PCGS# 5642

1909-S Barber Quarter, MS67
Rare Top-Grade Registry Coin

- 3292 1909-S MS67 NGC.** This San Francisco issue is a major rarity in MS67, and no finer pieces are known. This piece is brilliant and pristine, showing satiny luster that rolls through mostly well defined central devices. Only the eagle's right (facing) talons and the fletchings exhibit the expected softness. An ideal Registry coin. Census: 4 in 67, 0 finer (11/23). NGC ID# 23ZK, PCGS# 5656

PROOF BARBER QUARTER

1898 Barber Quarter, PR67
Exceptional Toning and Overall Preservation

- 3293 1898 PR67 PCGS. CAC.** Struck during the high-point of strong-contrast proofs, 1896 through 1898, this richly toned Barber quarter represents both the best of proof production for the period as well as one of the finest preserved examples. The obverse features swirls of multiple colors, while the reverse shows the same patina but it is more evenly distributed. This is truly a coin that must be seen to be truly appreciated. Fully struck throughout with no evidence of contact with other coins. Population: 17 in 67, 7 finer. CAC: 5 in 67, 4 finer (11/23). NGC ID# 242D, PCGS# 5684

STANDING LIBERTY QUARTERS

1916 Standing Liberty Quarter
XF Details

- 3294 1916 — Improperly Cleaned — NGC Details. XF.** This piece is well detailed for a 1916, and wear is light. Pleasing silver-gray surfaces show few abrasions, although hairlines on each side and a slightly glossy appearance give away an old cleaning. The cleaning was likely performed to remove PVC residue, a few tiny remnants of which remain visible in the peripheral recesses of the reverse. The clear date numerals will make this piece appeal to many date and mintmark collectors.
Ex: Dallas Signature (Heritage, 11/2021), lot 3120.

1917-D Type Two Quarter, MS66 Full Head
Finer Pieces Are Rare

- 3295 1917-D Type Two MS66 Full Head PCGS.** The 1917-D Type Two is the first issue in the series (save for the 1916) that is significantly elusive in high grade Full Head. This Gem displays frosty original mint luster with dusky champagne toning. Liberty's head is sharp, although the shield rivets are not fully defined. A few trivial surface grazes are not out of line for the grade. Population: 28 in 66 (4 in 66+) Full Head, 4 finer (10/23).
Ex: FUN Signature (Heritage, 1/2017), lot 4068.
NGC ID# 2435, PCGS# 5717

1918-D Quarter, MS66 Full Head
Pleasant Old-Time Toning

- 3296 1918-D MS66 Full Head NGC.** The 1918-D Standing Liberty quarter is a challenging date in high grade Full Head. This Premium Gem combines the Full Head strike with satiny luster and delicate gold, champagne, olive, and russet toning. No distracting abrasions are seen. Eye appeal is pleasing. Census: 16 in 66 (3 in 66+ Full Head, 1 in 66★), 0 finer (11/23). NGC ID# 2438, PCGS# 5723

**1919 Quarter, MS66+ Full Head
Sharp and Appealing**

- 3297 1919 MS66+ Full Head NGC.** Although the 1919 Standing Liberty quarter is relatively plentiful in the context of pre-1925 Type Two issues, high-end Full Head pieces remain elusive, and coins grading finer than the present piece are borderline rare. This coin displays amber-gold border toning around glistening ivory interiors. Shield and head detail is sharp. Census: 56 in 66 (5 in 66+) Full Head, 21 finer (10/23).

**1923-S Quarter, MS64 Full Head
Luminous and Appealing**

- 3298 1923-S MS64 Full Head NGC.** The 1923-S is a key date in the Standing Liberty quarter series. The date wore off this issue quickly in circulation, making low-grade coins with full, readable dates elusive. Higher-grade circulated pieces and low-end Mint State coins are occasionally seen, but eye appeal is often lacking. Full Head coins are scarce above MS64. This accessible near-Gem coin displays a bold head and satiny, luminous mint luster. Light handling marks limit the grade, including some small abrasions on the lower portion of the left wall, but the prime focal areas are well preserved for the grade. Census: 58 in 64 (1 in 64+) Full Head, 51 finer (10/23).

From The Riccolo Collection.
NGC ID# 243K, PCGS# 5745

**1923-S Quarter, MS65 Full Head
Excellent Luster and Light Toning**

- 3299 1923-S MS65 Full Head ANACS.** Liberty's head is well defined, and only two shield rivets show softness. The leading edge of the eagle's left (facing) wing is sharply detailed. Glistening satin luster has a delicate champagne tint overall, with small splashes of sky-blue clustered around the relief elements. A few marks on the ridge of Liberty's leg are present as almost always, although the remainder of the coin is devoid of mentionable abrasions. Full Head 1923-S quarters are scarce in this grade and borderline rare any finer.

From The Riccolo Collection.
NGC ID# 243K, PCGS# 5745

**1929 Quarter, MS67 Full Head
Among the Finest Certified**

- 3300 1929 MS67 Full Head NGC.** Pristine surfaces yield frosty, vibrant mint luster on this Superb Gem Full Head 1929 Standing Liberty quarter. Liberty's head detail is sharp, and the shield rivets exhibit above-average definition, even if not quite full. Light golden toning includes small daubs of orange-gold near the borders. The 1929 is rarely offered in this top Full Head grade. Census: 17 in 67 (2 in 67+ Full Head, 2 in 67★), 0 finer (10/23).

NGC ID# 2442, PCGS# 5773

WASHINGTON QUARTERS

**1934 Quarter Dollar, MS68
Tied for Finest Certified**

- 3301 1934 MS68 NGC.** This coin will be high on the want lists of many Registry Set collectors, ranking with the finest examples of the date certified. Satiny, pristine mint luster adorns well-struck design elements, and a light golden glow warms each side. NGC and PCGS combined report only nine 1934 Washington quarters in MS68 with none numerically finer. Census: 5 in 68, 0 finer (11/23).

NGC ID# 244A, PCGS# 5793

**1942-D Washington Quarter, MS68
Beautifully Toned Registry Coin**

- 3302 1942-D MS68 PCGS.** No Washington quarters struck prior to the mid-1990s are common in MS68 PCGS holders. The 1942-D is a good representation of the rarity of these coins, surviving to the extant of just six coins in this grade at PCGS, with another four at NGC (11/23). This example displays near-flawless, satiny mint luster, and a bold strike. Original multicolor toning adorns each side. Population: 6 in 68, 0 finer (11/23). NGC ID# 2453, PCGS# 5818

**1960 Quarter Dollar, MS67+
Registry-Grade Example**

- 3303 1960 MS67+ PCGS.** This is a Condition Census example of the 1960 Washington quarter, being tied with four other Plus-graded Superb Gems for the second finest at PCGS (11/23). Expectedly satiny luster characterizes each side, with lemon-gold border toning and a few russet flecks. The strike is sharp, and neither side exhibits bothersome abrasions. Population: 41 in 67 (5 in 67+), 1 finer (11/23). NGC ID# 246K, PCGS# 5868

**1961-D Quarter Dollar, MS67
Unknown Numerically Finer**

- 3304 1961-D MS67 PCGS.** Mottled original toning covers each side in russet and golden colors, complementing the satin mint luster and sharp strike. This Denver issue, while plentiful overall, is conditionally scarce at the Superb Gem level, and such coins are in high demand among Registry collectors. Population: 37 in 67 (8 in 67+), 0 finer (11/23). NGC ID# 246N, PCGS# 5871

PROOF WASHINGTON QUARTERS

**1936 Washington Quarter, PR67+
Sharp and Conditionally Scarce**

- 3305 1936 PR67+ NGC.** Although the Washington quarter debuted in 1932, the new design was not struck in proof format until 1936 when denominational proof sets were reintroduced (following the failed matte proof experiment of 20 years before). This high-end Superb Gem is an excellent Registry candidate. Hints of champagne toning grace the glimmering fields and sharp devices. Each side is beautifully unmarked. Census: 52 in 67 (9 in 67+, 1 in 67★), 1 finer (11/23). NGC ID# 27HN, PCGS# 5975

**1952 Washington Quarter, PR67
Rare Ultra Cameo Example**

- 3306 1952 PR67 Ultra Cameo NGC.** The Mint resumed proof set offerings in 1950 and collector demand really took off in 1952, when a mintage of 81,980 proof Washington quarters was achieved. This impeccably preserved Superb Gem exhibits sharply detailed design elements throughout and the deeply mirrored fields contrast profoundly with the richly frosted devices. Census: 6 in 67 Ultra Cameo (2 in 67+), 5 finer (11/23). Ex: FUN Signature (Heritage, 1/2021), lot 3561; Long Beach / Summer FUN Signature (Heritage, 7/2023), lot 3538. NGC ID# 7HV5, PCGS# 95984

EARLY HALF DOLLARS

1795 O-113a Half Dollar, VF25 A Over E in STATES

- 3307** 1795 2 Leaves, A Over E in STATES, O-113a, T-14, R.3, VF25 PCGS. Tompkins Die State 3/1. The distinctive A Over E in STATES reverse pairs with the equally recognizable O-113 obverse that features a large die lump between the 5 in the date and star 15. A blurry die crack above LIB of LIBERTY suggests the middle die state, lacking die lumps around that form around star 14 and an extension of the crack above LIBERTY as seen in later die states. This lightly toned silver-gray example is free of adjustment marks and well-defined throughout its raised motifs.

From The Riccolo Collection.

NGC ID# 24E7, PCGS# 39254 Base PCGS# 39252

1805/4 O-101a Half Dollar, VF30 Sought-After Guide Book Listing

- 3308** 1805/4 O-101a, T-4, Low R.4, VF30 PCGS. Tompkins Die State 1/3. A heavy die crack exists over RI in AMERICA forming a retained cud, but the rare later die state with a full cud over RI has not yet formed. This 1805/4 O-101 variety is one of the prominent overdates in the early half dollar series, but not quite as spectacular as the 1805/4 O-103 die pair, which forms a memorable triangular retained cud at stars 1 and 2 in its late die state. The present O-101a displays intense deep-gray toning at the borders surrounding ivory-gold centers. Close examination reveals myriad light hair-thin abrasions on the obverse, and scattered small ticks throughout both sides. Solid VF definition remains intact.

NGC ID# 24EH, PCGS# 39290 Base PCGS# 6070

BUST HALF DOLLARS

1814 O-104a Half Dollar, MS63 Multicolor Toning

- 3309** 1814 O-104a, R.2, MS63 PCGS. This is the late die state of the O-104 dies, showing a border crack along the tops of S OF AM on the reverse. Blending rose, gold, sea-green, blue, and lavender hues adorn each side, with somewhat concentric bands on the obverse. Stars 6 and 7 are weak, but the remainder of the design is well brought up. Faint handling marks on the high points of the devices are all that prevent a finer grade.

NGC ID# 24F3, PCGS# 39479 Base PCGS# 6105

1815/2 Half Dollar, XF Details Low-Mintage Key, O-101

- 3310** 1815/2 O-101, R.1 — Corrosion Removed — PCGS Genuine. XF Details. Every Bust half dollar collector knows that the 1815-dated half is a major stopper in the series. The typical example is a cleaned VF coin. The present steel-gray and straw-gold representative shows luster within the curls and plumage, and substantial definition remains. The left margins are sharper than the right borders due to misaligned dies, which is unusual for the issue. Moderate pitting is evident near RICA, and thin marks are present near the C in 50 C.

1815/2 O-101 Half Dollar, XF40 Popular Guide Book Overdate

- 3311** 1815/2 O-101, R.1, XF40 NGC. This is the early die state of the 1815/2 overdate, showing no reverse die cracks, although both sides are heavily clashed. The 2 underdigit is plainly visible amid the 5 in the date with magnification. This is a *Guide Book* variety and the only Overton die marriage for the year. The mintage of 47,150 coins circulated extensively, making this issue key to a date collection of Capped Bust halves. This XF coin shows strong detail and uniform olive-gray patina. No major distractions are visible.

NGC ID# 24F5, PCGS# 39491 Base PCGS# 6108

1827 Bust Half Dollar, MS64
O-105, Square Base 2, Recut 5

- 3312** 1827 Square Base 2, O-105, R.3, MS64 PCGS. A double tip on the flag of 5 in 50C is the confirming characteristic of the O-105 variety, combined with its T-I alignment. This is a sparkling near-Gem Uncirculated example, with a halo of pale-gold toning at the margins and brilliant, virtually mark-free centers. The central devices are needle-sharp, while the right-side stars are mostly flat as are stars 1 and 8 (typical of the O-105 dies). This coin sits just below the Condition Census for the variety.

From The Kankakee Collection.

NGC ID# 24FN, PCGS# 39697 Base PCGS# 6144

1829/7 Half Dollar, O-102, MS64
Ex: Earle-Eliasberg-Link

- 3313** 1829/7 O-102, R.2, MS64 PCGS. Ex: Eliasberg-Link. The base of a 7 is obvious within the lower loop of the 9 in the date. On the reverse, the 5 in 50 C. has a defective and triangular flag. This satiny silver-gray, near-Gem is uncommonly free from marks. The strike is sharp aside from stars 8 and 9. The eye appeal is worthy of the coveted Eliasberg pedigree.

Ex: George H. Earle Collection (Henry Chapman, 6/1912), lot 2935; John Clapp; Louis E. Eliasberg, Sr.; Louis E. Eliasberg, Jr.; Eliasberg Collection (Bowers and Merena, 4/1997), lot 1848; Charles Link; Regency Auction 28 (Legend, 9/2018), lot 59.

SEATED HALF DOLLAR

1861-O Seated Half Dollar, AU50
WB-102, FS-401, CSA Obverse

- 3314** 1861-O Confederate Obverse, WB-102, FS-401, Die Pair 11, R.3, AU50 PCGS. The radial die crack at Liberty's face is faint but visible with a loupe, and the small repunched flag on the 1 in the date aids in attribution of the CSA obverse die. This AU coin displays dusky pewter-gray patina with hints of luster in the most protected portions of the fields. Liberty's head and the adjacent stars exhibit the usual strike softness.

PCGS# 390906 Base PCGS# 39968

CONFEDERATE STATES OF AMERICA

(1879) Scott Restrike CSA Half Dollar
AU55, Guide Book Listed

- 3315** (1879) Scott CSA Restrike, Breen-8002, Bertram-B861-267, AU55 PCGS. The original Confederate States of America half dollar die struck a few half dollars in 1861, then was retained by Benjamin Taylor, the New Orleans Mint Chief Coiner at the advent of the Civil War. In 1879, Taylor sold the die to numismatic journalist Ebenezer Mason, who in turn sold it to well-known New York City coin dealer J.W. Scott. Scott accumulated 500 1861-O halves, mechanically planed off their reverses, then struck the blank side with the Confederate die. Survivors from the Scott striking are graded by the Confederate side. The date side tends to show circulation wear, and flattening from the one-sided Scott impression. This slate-gray example has an unevenly struck Confederate side, with FEDERATE STAT weak relative to the rest of the design. The surfaces show minimal marks and good eye appeal. Listed on page 435 of the 2024 Guide Book.

NGC ID# ERJ5, PCGS# 340402

SEATED HALF DOLLAR

1864 Half Dollar, MS64
Attractively Toned, Bold Strike

- 3316** 1864 WB-101, Die Pair 7, R.4, MS64 PCGS. Exquisite ocean-blue, ruby-red, and sun-gold toning encompasses this lustrous Civil War near-Gem. The well-struck surfaces are smooth save for minor field scuffs west of star 13. Among all Civil War issues, the 1864 has the second-lowest half dollar mintage. Population: 18 in 64 (1 in 64+), 9 finer (11/23).
PCGS# 907837 Base PCGS# 6311

PROOF SEATED HALF DOLLARS

1873 Seated Liberty Half Dollar, PR66
No Arrows, Closed 3

- 3317** 1873 No Arrows, Closed 3, PR66 NGC. A small mintage of 600 proof Seated Liberty half dollars was accomplished early in 1873, with No Arrows and the Closed 3 in the date. This spectacular Premium Gem exhibits sharply detailed design elements throughout. The impeccably preserved surfaces include deeply mirrored fields, under vivid highlights of violet and sea-green toning. Eye appeal is terrific. Census: 23 in 66 (1 in 66+, 1 in 66★), 3 finer (11/23).
NGC ID# 27U8, PCGS# 6431

1875 Half Dollar, PR66
Lightly Toned, Well Struck

- 3318** 1875 PR66 NGC. The 1875 is scarcer in proof format than its 1876 successor, which had an inflated mintage from set sales at the Philadelphia Centennial Exposition. This Premium Gem boasts light to medium peripheral wheat-gold toning and an essentially pristine reverse. The obverse shows only delicate contact in the right obverse field. The strike is intricate save for incompleteness on the eagle's left (facing) ankle. Census: 9 in 66, 8 finer (10/23).
NGC ID# 27U9, PCGS# 6436

1881 Half Dollar, PR67
Virtually Unobtainable Any Finer

- 3319** 1881 PR67 PCGS. Type One Reverse (Open Bud). Rich multicolor toning covers both sides of this spectacular Superb Gem proof, with sharply detailed design elements and deeply reflective fields underneath. The surfaces are impeccably preserved and the eye appeal is terrific. From a mintage of 975 pieces, the 1881 proof half dollar is almost uncollectible at the PR67 grade level. Population: 4 in 67, 0 finer (11/23).
NGC ID# 27UG, PCGS# 6442

1885 Seated Half Dollar, PR65
Elusive Cameo Example

- 3320** 1885 PR65 Cameo NGC. The Philadelphia Mint struck a small production of 5,200 half dollars for circulation in 1885, putting considerable date pressure on the 930 proofs produced alongside them. This impressive Gem Cameo specimen presents well-detailed design elements, with a touch of softness on Liberty's head and some star centers. The well-preserved surfaces include deeply mirrored fields that contrast boldly with the frosty devices. Attractive highlights of lime-green toning enhance the outstanding eye appeal. Census: 7 in 65 Cameo (1 in 65★), 27 finer (11/23).
From The Riccolo Collection.
NGC ID# 27UL, PCGS# 86446

1888 Seated Half Dollar, PR66
Delicate Pastel Toning

- 3321** 1888 PR66 PCGS. High-end proof 1888 half dollars are scarce, even without Cameo contrast. This Premium Gem example displays glimmering fields around satiny, fully defined central devices and border stars. Pastel lilac, blue, mint-green, and yellow-gold toning covers each side. Eye appeal is excellent, complemented by subtle obverse contrast. Population: 15 in 66 (3 in 66+), 3 finer (10/23).
NGC ID# 27UP, PCGS# 6449

PROOF BARBER HALF DOLLAR

1892 Half Dollar, PR65 Cameo
Well Contrasted

- 3322 1892 PR65 Cameo NGC.** Dusky lavender-gray and blue-green toning encompasses this Gem Cameo proof, while pronounced field-device contrast is apparent on each side when angled away from a light. The usual touch of softness is seen on the right shield corner, but the eagle's talons are well defined, as are the obverse border stars. A loupe reveals a few faint hairlines on the cheek that singularly prevent an even finer grade. Census: 34 in 65 Cameo (1 in 65+, 1 in 65★), 44 finer (10/23).
From The Riccolo Collection.
NGC ID# BYMW, PCGS# 86539

WALKING LIBERTY HALF DOLLARS

1916-S Walking Liberty Half Dollar, MS64
Low-Mintage, First-Year Issue

- 3323 1916-S MS64 PCGS.** The 1916-S Walking Liberty half dollar claims a small first-year mintage of 508,000 pieces, making it an elusive issue in higher Mint State grades. This attractive Choice specimen displays well-detailed design elements, with just a touch of the usual softness on the eagle's leg. The well-preserved surfaces are lustrous and appealing.
NGC ID# 24PN, PCGS# 6568

1917 Walking Liberty Half Dollar, MS66+
Conditionally Rare in Finer Grades

- 3324 1917 MS66+ NGC.** From a substantial mintage of more than 12 million pieces, the 1917 Walking Liberty half dollar is still an elusive issue at the MS66 grade level, and finer coins are condition rarities. This Plus-Graded Premium Gem exhibits sharply detailed design elements and virtually flawless lustrous surfaces, with subtle highlights of lime-green and lavender-gray toning. Census: 56 in 66 (5 in 66+, 1 in 66★), 8 finer (11/23).
NGC ID# 24PP, PCGS# 6569

1917-D Half Dollar, MS65
Reverse Mintmark

- 3325 1917-D Reverse Mintmark MS65 NGC.** The 1917-D Reverse Mintmark Walking Liberty half dollar is scarce in Gem condition, and finer pieces are major rarities. This MS65 coin displays vibrant cartwheel luster and minimal signs of contact, with pleasing lavender-gold toning over much of each side. The strike is sharp. Census: 27 in 65 (1 in 65+), 4 finer (11/23).
NGC ID# 24PS, PCGS# 6571

1927-S Walking Liberty Half, MS64
Infrequently Available Finer

- 3326 1927-S MS64 PCGS.** The 1927-S half dollar is much more elusive in high grade than its mintage of nearly 2.4 million pieces would suggest. The issue circulated extensively, and few roll quantities were preserved during the economic climate that shortly followed the coin's distribution. This collectible Choice example displays brilliant, satiny mint luster and minimal abrasions, with the usual touch of strike softness in the centers.
NGC ID# 24RA, PCGS# 6587

1934-S Walking Liberty Half Dollar, MS66
Rare Issue in Finer Grades

- 3327 1934-S MS66 NGC.** Despite an adequate mintage of more than 3.6 million pieces, the 1934-S Walking Liberty half dollar is surprisingly difficult to locate in grades above MS66. NGC has graded only 11 numerically finer examples (11/23). This spectacular Premium Gem displays sharply detailed design elements and the impeccably preserved surfaces radiate vibrant mint luster from both sides. Eye appeal is terrific.
From The Washington Corner Collection.
NGC ID# 24RH, PCGS# 6594

**1936-S Half Dollar, MS67
Brilliant Top-Grade Registry Coin**

- 3328 1936-S MS67 NGC.** A conditionally scarce Superb Gem example of this otherwise plentiful San Francisco issue, showing vibrant mint luster and incredibly well preserved, brilliant surfaces. Liberty's branch hand shows modest strike softness, which is largely unavoidable on this issue. No numerically finer examples are known. Census: 34 in 67 (2 in 67+), 0 finer (11/23). NGC ID# 24RP, PCGS# 6600

**1938-D Walking Liberty Half Dollar, MS66+
CAC-Approved Quality**

- 3329 1938-D MS66+ PCGS. CAC.** The 1938-D Walking Liberty half dollar is a better date in the mid-series, from a small mintage of just 491,000 pieces. This spectacular Plus-graded Premium Gem exhibits razor-sharp definition on all design elements and the virtually flawless surfaces radiate vibrant mint luster from both sides. Overall eye appeal is terrific and the high quality within the grade is confirmed by CAC.
From The Kankakee Collection.
NGC ID# 24RV, PCGS# 6605

**1940-S Half Dollar, MS67
None Numerically Finer**

- 3330 1940-S MS67 NGC.** No half dollars were struck at Denver in 1940, and the San Francisco issue is significantly scarcer than the Philadelphia coin in Superb Gem condition. This MS67 coin is among the finest certified, with only a single Star-designated piece arguably finer at NGC (11/23). The coin is brilliant, satiny, and well struck, and neither side exhibits bothersome abrasions in the fields. Census: 29 in 67 (1 in 67+★), 0 finer (11/23). NGC ID# 24S2, PCGS# 6610

**1943 Half Dollar, MS68
Tied Atop the Certified Population**

- 3331 1943 MS68 NGC.** This boldly struck Superb Gem lacks nothing in its design sharpness, and the glistening, virtually flawless surfaces complement that detail with radiant brilliance and a few russet flecks around the borders. The 1943 Walking Liberty half dollar is elusive in this lofty grade, and no numerically finer pieces are known. Census: 32 in 68, 0 finer (11/23). NGC ID# 24S9, PCGS# 6618

**1943-S Half Dollar, MS67
Brilliant Top-Grade Example**

- 3332 1943-S MS67 NGC.** The 1943-S is scarcer than its Philadelphia counterpart in MS67, infrequently available in this grade and unknown numerically finer. This brilliant example displays radiant mint luster and only a few tiny marks. Liberty's branch hand and the eagle's trailing leg exhibit a touch of softness, but overall definition is pleasing for the issue. Census: 88 in 67 (13 in 67+, 2 in 67★), 0 finer (11/23). NGC ID# 24SB, PCGS# 6620

**PROOF WALKING LIBERTY
HALF DOLLARS**

**1936 Half Dollar, PR66
First Walking Liberty Proof**

- 3333 1936 PR66 NGC.** The Philadelphia Mint resumed its commercial proof set offerings in 1936, after a two-decade hiatus. A small production of 3,901 proof Walking Liberty half dollars was accomplished. The issue is not too difficult to locate at the PR66 grade level today, but finer coins are elusive. This spectacular Premium Gem exhibits sharply detailed design elements and impeccably preserved surfaces, with deeply reflective fields. NGC ID# 27V4, PCGS# 6636

**1941 Walking Liberty Half, PR68
Extremely Rare Any Finer**

- 3334 1941 PR68 NGC.** No AW. From a mintage of 15,412 pieces, the 1941 proof Walking Liberty half dollar is an elusive issue at the PR68 grade level, and finer coins are prime condition rarities. This spectacular PR68 specimen offers sharply detailed design elements and virtually flawless surfaces, with deeply reflective fields and highlights of sea-green and amber toning. NGC has graded only three numerically finer examples (11/23).
NGC ID# 24SP, PCGS# 6641

**1941 Half Dollar, PR68
Brilliant Proof Type Coin**

- 3335 1941 PR68 NGC.** No AW. A fairly generous mintage of 15,412 proof Walking Liberty half dollars was accomplished in 1941 and the issue is not too difficult to locate in grades up to the PR67 level. The 1941 is elusive in PR68, however, and finer coins are virtually unobtainable. This sharply detailed PR68 specimen offers impeccably preserved surfaces, with reflective fields and outstanding eye appeal. NGC has graded three numerically finer examples (11/23).
NGC ID# 24SP, PCGS# 6641

FRANKLIN HALF DOLLARS

**1950 Half Dollar, MS67 Full Bell Lines
Toned Obverse**

- 3336 1950 MS67 Full Bell Lines NGC.** The obverse of this toned Franklin half dollar has vibrant and beautiful gold, rose, and green toning that fails to subdue the brilliant and frosty underlying luster. The reverse is fully brilliant save for a touch of gold toning at the upper-right border. This is a splendid half dollar. Census: 18 in 67 (3 in 67+) Full Bell Lines, 0 finer (10/23).
Ex: FUN Signature (Heritage, 1/2019), lot 5061.
NGC ID# 24SW, PCGS# 86656

**1951-S Half, MS67 Full Bell Lines
Colorfully Toned, Well Preserved**

- 3337 1951-S MS67 Full Bell Lines PCGS.** Splendid orange-gold, lilac-red, and lemon-yellow toning endows this lustrous Superb Gem. Hints of sea-green and powder-blue are also evident in protected regions. The obverse appears pristine, and reverse contact is mostly limited to the lower left portion of the Liberty Bell. Population: 16 in 67 (2 in 67+) Full Bell Lines, 0 finer (11/23).
NGC ID# 24T2, PCGS# 86660 Base PCGS# 86660

**1953-S Franklin Half Dollar, MS67+
Stunning Preservation**

- 3338 1953-S MS67+ PCGS. CAC.** The 1953-S Franklin half dollar is profoundly rare above MS65 with Full Bell Lines, but non-Full Bell Lines coins offer a more accessible option. This high-end Superb Gem is tied for finest certified. Frosty, pristine mint luster is beautiful to admire in-hand. Each side is mostly frost-white, although crescents of gold grace the left borders. Eye appeal is outstanding. Population: 51 in 67 (3 in 67+), 0 finer. CAC: 33 in 67, 0 finer (11/23).
NGC ID# 24T8, PCGS# 6666

**1954-S Half Dollar, MS67 Full Bell Lines
Beautiful Preservation, Original Toning**

- 3339 1954-S MS67 Full Bell Lines PCGS.** Less than one fourth of the certified Mint State 1954-S half dollar population at PCGS qualifies for the Full Bands designation, and such coins are notably rare at the Superb Gem level. This Condition Census Registry coin is tied for the finest known (11/23). Frosty luster glistens across pristine surfaces, bathed in original steel-blue, violet, and forest-green patina. Population: 10 in 67 Full Bell Lines, 0 finer (11/23).
NGC ID# 24TB, PCGS# 86669

1955 Franklin Half Dollar, MS67
FS-401, Bugs Bunny

- 3340** 1955 Bugs Bunny, FS-401, MS67 PCGS. CAC. Ex: Ruby's Franklins. This is a popular *Cherrypickers'* variety showing light clash marks at Franklin's mouth that give him the appearance of having buck teeth (similar to those seen on the cartoon character for which this variety is nicknamed). This is the sole finest non-Full Bell Lines example at PCGS, although three Full Bell Lines coins also reported in this grade at that service (11/23). Softly frosted luster illuminates pristine surfaces, and the obverse shows vivid forest-green, faded plum, and autumn-gold toning. The reverse is brilliant.
PCGS# 145357 Base PCGS# 6670

1956 Franklin, MS67+ Full Bell Lines
Tied for Finest Known, CAC Approved

- 3341** 1956 MS67+ Full Bell Lines PCGS. CAC. While the 1956 Franklin is occasionally seen in MS67 Full Bell Lines, such coins are rare with a Plus designation, and no finer pieces are known (11/23). This top-grade coin also boasts CAC endorsement, ranking as an essential acquisition for a high-ranking Registry Set. Softly frosted, pristine luster illuminates dusted russet-olive and golden-amber toning on each side. A loupe fails to reveal mentionable abrasions. Population: 13 in 67+ Full Bell Lines, 0 finer. CAC: 80 in 67, 0 finer (11/23).
NGC ID# 24TD, PCGS# 86671

1962 Franklin Half Dollar, MS67
Beautiful Original Toning

- 3342** 1962 MS67 NGC. The 1962 Franklin half dollar is a rarity in Superb Gem condition. This is one of just four coins in MS67 non-Full Bell Lines at NGC, and just one coin is in this grade at PCGS. (Reportedly, NGC has certified 28 pieces in MS69, but that figure may reflect duplicate submissions or an entry error at NGC, as no such coins have ever appeared in our auctions.) The finest non-Full Bell Lines pieces we have handled were at the MS66 numeric level, making the current coin the finest we have yet seen in this category. Frosty, pristine luster adorns original, dusky toning in shades of gold, olive, russet, and lilac. Eye appeal is outstanding. Census: 4 in 67, 28 finer (10/23).
NGC ID# 24TR, PCGS# 6682

PROOF FRANKLIN HALF DOLLARS

1950 Franklin Half, PR66 Cameo
Pronounced Contrast

- 3343** 1950 PR66 Cameo NGC. The debut proof Franklin half dollar is plentiful in PR66, but Cameo coins in this grade are scarce. This Premium Gem is brilliant and well preserved, showing liquidlike mirroring and sharp, frosted devices. Eye appeal is excellent, unhindered by contact marks or hairlines. Finer Cameo proofs are borderline rare.
NGC ID# 27VA, PCGS# 86691

1952 Half Dollar, PR67+ Cameo
CAC-Approved Registry Contender

- 3344** 1952 PR67+ Cameo PCGS. CAC. The proof 1952 Franklin half dollar is a major rarity in the Deep Cameo category, leading many collectors to seek out high-end Cameo pieces. This Plus-graded Superb Gem Cameo boasts CAC endorsement, making it an excellent choice for Registry collectors. Brilliant surfaces and pronounced field-device contrast produce ample eye appeal. Population: 91 in 67 (8 in 67+) Cameo, 5 finer. CAC: 79 in 67, 10 finer (11/23). NGC ID# 6L9P, PCGS# 86693

1953 Franklin Half Dollar, PR68 Cameo
None Finer at PCGS

- 3345** 1953 PR68 Cameo PCGS. CAC. This magnificent PR68 specimen features sharply detailed design elements with a rich coat of mint frost that contrasts boldly with the deeply mirrored fields to create a dramatic cameo effect. The brilliant surfaces are impeccably preserved and eye appeal is terrific. Population: 40 in 68 Cameo, 0 finer. CAC: 61 in 68, 0 finer (11/23). Ex: ANA Signature (Heritage, 8/2014), lot 4606. NGC ID# 6L9P, PCGS# 86694

1963 Franklin, PR69 Deep Cameo
Top-Grade Registry Coin

- 3346** 1963 PR69 Deep Cameo PCGS. The final-year proof Franklin half dollar is elusive in PR69 regardless of the level of cameo contrast, and the smallest portion of this top-grade survivorship is allocated to the Deep Cameo category. This is one of just two dozen top-grade Deep Cameos at PCGS — an ideal acquisition for the advanced Registry collector. Each side is brilliant and sharp, with pronounced field-device contrast. Deep, watery mirroring in the fields adds to the eye appeal. Population: 24 in 69 Deep Cameo, 0 finer (11/23). NGC ID# CPEU, PCGS# 96704

EARLY DOLLARS

1795 Flowing Hair Dollar, Fine Details
Two Leaves, Scarce B-4, BB-14

- 3347** 1795 Flowing Hair, Two Leaves, B-4, BB-14, R.4 — Cleaned — PCGS Genuine. Fine Details. Bowers Die State I. The scarce BB-14 is the “Hidden Star” variety. Star 16 is fully below the bust tip, out of Liberty’s sight. BB-14 is a better die marriage, scarcer than BB-20 and much scarcer than BB-21. The obverse is slightly glossy and the reverse is hairlined, but design definition is bold for the Fine level. The left obverse border shows light adjustment marks, but post-strike contact is minimal aside from field lines near stars 2 and 4.

1795 Flowing Hair Dollar, VG10
Three Leaves, B-5, BB-27, Strong Eye Appeal

- 3348** 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, VG10 PCGS. CAC. The diagnostic thick, raised die line behind the Liberty’s highest neck curl is visible beneath the speckled olive-gray and charcoal toning of this smoothly worn, CAC-endorsed BB-27 dollar. Strong light reveals bluish undertones throughout the minimally marked fields. Light-gray patina covers the high points. Excellent definition exists throughout the devices, easily exceeding expectations for the assigned VG10 grade. From The Riccolo Collection. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

1795 Flowing Hair Dollar, Fine 15
B-5, BB-27, Three Leaves

- 3349** 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, Fine 15 PCGS. Bowers Die State II. The tell-tale slender “bar” behind Liberty’s highest neck curl is diagnostic for BB-27, a variety often selected by early type coin collectors. This silver-gray example appears to be struck slightly off-center toward 11 o’clock, unusual for a Flowing hair dollar. The obverse rim is slightly upset near 8:30, and star 12 shows a moderate mark, but there are no other detractors. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

**1795 Flowing Hair Dollar, Fine 15
Three Leaves, B-5, BB-27**

- 3350** 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, Fine 15 PCGS. The Flowing Hair dollar was the first silver type produced at the Philadelphia Mint. The type was struck only in 1794 and 1795, and since first-year dollars are costly rarities, most collectors settle for a 1795 example. BB-27 is quickly identified by the slender "bar" in the left obverse field behind the highest neck curl. This minimally abraded example has steel-gray fields and stone-gray high points. We note a lightly granular cobalt-blue area near 3 o'clock on the obverse.

From The William K. Harter Collection, Part II.
NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

**1795 Flowing Hair Dollar, XF Details
B-5, BB-27, Three Leaves**

- 3351** 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1 — Cleaned — NGC Details. XF. Bowers Die State II. BB-27 is a plentiful Head of 1795 variety ideal for type purposes. Smooth steel-gray surfaces on this lightly circulated example produce pleasing visual appeal despite scattered hairlines that reveal a light cleaning. No major adjustment marks are seen, and the coin is devoid of major impairments.

**1796 B-5, BB-65 Dollar, VF30
Pleasing Large Date, Small Letters Coin**

- 3352** 1796 Large Date, Small Letters, B-5, BB-65, R.2, VF30 PCGS. Bowers Die State II. The 1796 BB-65 Large Date, Small Letters variety uses the same date size seen on 1797 Draped Bust dollars. The 6 in the date is recut, and the variety is easily identified by its large die lump between I and C of AMERICA. Deep lavender-gray toning displays gold accents. As often seen, the obverse is sharper than the reverse, showing weakness at STATES. Smooth, largely unabraded surfaces reveal no adjustment marks.
NGC ID# 24X3, PCGS# 40002 Base PCGS# 6861

**1798 B-20, BB-102 Dollar, AU50
Ex: Queller-Hesselgesser**

- 3353** 1798 Large Eagle, Pointed 9, Wide Date, B-20, BB-102, R.5, AU50 PCGS. Ex: Hesselgesser/Queller. Die State IV. The area between two parallel cracks below ERI on the reverse has raised slightly to form an internal retained cud. There is no evidence of the State V crack through ICA. The reverse is usually recognized by the heavy rim break below the eagle's tail. An attractive piece with light silver surfaces that are accented by hints of pale gold toning on each side. Considerable luster remains, especially near the devices. The B-20 die combination is scarce in all grades, and usually found below XF. This example, a lovely AU coin, ranks among the finest known.

Ex: FUN Signature (Heritage, 1/2013), lot 4508.
NGC ID# 24X6, PCGS# 40019 Base PCGS# 40018

**1798 B-23, BB-105 Dollar, VF35
Large Eagle, Pointed 9, Wide Date**

- 3354** 1798 Large Eagle, Pointed 9, Wide Date, B-23, BB-105, R.3, VF35 PCGS. Bowers Die State III. A band of bluish-gray toning surrounds silver-gray centers of this Wide Date early dollar. The 1 is distant from the curl and the 8 touches the lower fold of Liberty's drapery. This example is well-defined for the Choice VF designation, especially on the reverse where the field stars are bold and only minor wear shows on the eagle's neck, breast, and scroll. Field star 12 is well clear of the eagle's beak. Only light abrasions are seen with a loupe and there are no adjustment marks on either side.

From The Kankakee Collection.
NGC ID# 24X6, PCGS# 40022 Base PCGS# 6873

**1799 7x6 Stars Dollar, XF40
B-12, BB-160, Well Defined**

- 3355** 1799 7x6 Stars, B-12, BB-160, R.3, XF40 PCGS. Bowers Die State III, which shows several die cracks at and around the date. The reverse has no berries, and the U in UNITED is missing its upper left serif. This is a pleasing, original powder-gray piece that has appeal suggestive of a slightly higher grade. Brownish-gold toning combines blue accents for excellent original eye appeal. Struck a smidgen off-center left, both sides are sharply defined and no adjustment marks are visible. The BB-160 variety is somewhat scarce and seldom surpasses the XF grade level. It is one of the two 1799 No Berries reverses that exist — the other is the equally scarce BB-161 variety.
NGC ID# 24X7, PCGS# 40051 Base PCGS# 6878

**1799 7x6 Stars, AU53
B-11, BB-161, Late Die State**

- 3356** 1799 7x6 Stars, B-11, BB-161, R.3, AU53 PCGS. Bowers Die State "IV." An unlisted late die state in the Bowers *Encyclopedia*, but one often seen for the BB-161 variety. At least one even-later die state exists with a descending die crack through ATE of STATES, not seen on this example. Dappled warm-gray toning reveals golden highlights. Traces of mint luster remain on both sides of this attractive About Uncirculated coin, with a sharply struck obverse and equally sharp reverse despite die wear at the margins.
From The Riccolo Collection.
NGC ID# 24X7, PCGS# 40052 Base PCGS# 6878

**1803 Dollar, Appealing XF45
B-1, BB-251, Small 3 in Date**

- 3357** 1803 Small 3, B-1, BB-251, R.4, XF45 PCGS. Bowers Die State II. A lesser-seen die pairing, one of four 1803 varieties using the Small 3 logotype in the date. Diagnostic to the reverse is a small spur off the lower outside of the D in UNITED. This attractive Choice XF example retains considerable luster beneath gray and golden toning. A small planchet streak is found between IB in Liberty and the upper curls.
Ex: ANA Signature (Heritage, 8/2007), lot 951.
From The Riccolo Collection.
NGC ID# 24XD, PCGS# 40096 Base PCGS# 6900

SEATED DOLLAR

**1862 Seated Dollar, Unc Details
Challenging Philadelphia Issue**

- 3358** 1862 — Cleaned — NGC Details. Unc. OC-1, R.3. Osburn-Cushing Die State b/b, lightly clashed on Liberty's lap and within the reverse shield recesses. This dollar is brilliant and bright, showing semireflective fields that complement mostly well-struck and satiny devices. The upper obverse stars and Liberty's temple exhibit trivial softness. Minor abrasions are evident throughout. The brightness of the surfaces, coupled with hairlines, reveal the cleaning noted by NGC, though eye appeal remains for the budget-conscious collector. Only 11,540 Seated dollars were struck in 1862, all at Philadelphia.

PROOF SEATED DOLLAR

1870 Silver Dollar, PR64 Cameo
Strong White-On-Black Contrast

- 3359** 1870 PR64 Cameo PCGS. OC-P1, Low R.3. Osburn-Cushing Die State a/a. Light wheat-gold patina adorns this crisply struck and nearly unblemished near-Gem. The motifs are frosty and the fields are reflective. A broad diagonal area of delicate milky toning crosses the central obverse. The left reverse is lightly die doubled. Population: 16 in 64 (1 in 64+) Cameo, 18 finer (11/23).
Ex: Chicago ANA (Stack's Bowers, 8/2011), lot 10575.
From The Kankakee Collection.
NGC ID# 252S, PCGS# 87018

TRADE DOLLARS

1873-CC Trade Dollar, AU55
Scarce Old West Issue

- 3360** 1873-CC AU55 NGC. The first-year Carson City Trade dollar is scarcer than its 1874-CC through 1877-CC successors. The mintage was only 124,500 pieces, and relatively few were set aside. The present Choice AU representative displays powder-blue fields and lavender-gray peripheries. The upper obverse displays a few minor ticks.
From The Riccolo Collection.
NGC ID# 252X, PCGS# 7032

1875-S Trade Dollar, MS64+
Frosty CAC Type Coin

- 3361** 1875-S Type One Reverse MS64+ PCGS. CAC. The 1875-S is among the more plentiful Trade dollars in high grade, although even this issue becomes scarce in Gem or better condition. The current Plus-graded near-Gem represents some of the finest quality most collectors will have access to. Frosty luster is nearly brilliant, while hints of light gold appear in the margins. Minor contact marks are not distracting. Liberty's head and the adjacent stars exhibit the usual strike softness, as does the eagle's right (facing) talons. Nonetheless, eye appeal is excellent for the grade, and CAC endorsement affirms that. CAC: 45 in 64, 19 finer (10/23).
NGC ID# 2536, PCGS# 510101 Base PCGS# 7039

PROOF TRADE DOLLARS

1878 Trade Dollar, PR63
Sharply Detailed and Vividly Toned

- 3362** 1878 PR63 PCGS. The Philadelphia Mint only struck Trade dollars in proof format in 1878, when a mintage of 900 pieces was produced. The issue is scarce at the PR63 grade level, and finer coins are even more elusive. This impressive Select proof displays sharply detailed design elements and lightly marked surfaces, under vivid shades of jade-gray toning.
From The Riccolo Collection.
NGC ID# 27YP, PCGS# 7058

1878 Trade Dollar, PR64
Toned Proof-Only Representative

- 3363** 1878 PR64 NGC. The Philadelphia Mint limited Trade dollar production to proofs only in 1878, when a workmanlike mintage of 900 specimens was accomplished. The richly toned surfaces of this impressive near-Gem proof feature shades of sea-green, violet, and amber patina that cover flashy underlying surfaces. A predictably sharp and attractive example.
NGC ID# 27YP, PCGS# 7058

1879 Trade Dollar, PR64 Cameo
CAC-Approved, Proof-Only Issue

- 3364 1879 PR64 Cameo PCGS. CAC.** From a proof-only mintage of 1,541 pieces, the 1879 Trade dollar is an elusive issue at the PR64 grade level, with the Cameo designation. This impressive Choice proof exhibits razor-sharp definition on all design elements and the well-preserved surfaces are enhanced by attractive highlights of sea-green toning, with deeply reflective fields underneath. Field/device contrast is bold and the high quality within the grade is confirmed by CAC. Population: 52 in 64 (3 in 64+) Cameo, 52 finer. CAC: 12 in 64, 26 finer (11/23). NGC ID# 27YR, PCGS# 87059

MORGAN DOLLARS

1878 Morgan Dollar, MS66+
First-Year, 8 Tail Feathers Variety

- 3365 1878 8TF Diagonal In 8, VAM-17, MS66+ NGC.** According to the 2024 *Guide Book*, the Philadelphia Mint struck a small mintage of 749,500 business-strike Morgan dollars with the 8 Tail Feathers reverse in 1878, before switching over to the 7 Tail Feathers motif later in the year. The issue is definitely scarce at the MS66 grade level, and finer coins are virtually unobtainable. This Plus-graded Premium Gem exhibits sharply detailed design elements and impeccably preserved lustrous surfaces, with outstanding eye appeal. Census: 42 in 66 (4 in 66+, 6 in 66★), 1 finer (11/23). NGC ID# 253H, PCGS# 133818 Base PCGS# 7072

1878-CC Morgan Dollar, MS66
First-Year Branch Mint Issue

- 3366 1878-CC MS66 PCGS.** The Carson City Mint struck a respectable mintage of more than 2.2 million Morgan dollars in 1878, the first year of the design. The issue is not too difficult to locate at the MS66 grade level today, but finer coins are condition rarities. This spectacular Premium Gem exhibits sharply detailed design elements and impeccably preserved brilliant surfaces, with vibrant mint luster and outstanding eye appeal. PCGS has graded seven numerically finer examples (11/23). *From The Tien's Treasure Collection.* NGC ID# 253M, PCGS# 7080

1880/79-CC Morgan Dollar, MS65+
VAM-4 Overdate, Reverse of 1878

- 3367 1880/79-CC Reverse of 1878, VAM-4, MS65+ PCGS.** A Top 100 Variety. A strong overdate feature makes this VAM variety widely popular among Morgan dollar collectors, and it is also a *Guide Book* listing. The current Plus-graded Gem displays bold central definition and frosty, untoned mint luster. A few trivial grazes in the left obverse field are all that deny an even finer grade. NGC ID# AP7P, PCGS# 133876 Base PCGS# 7108

1880/79-CC Morgan Dollar, MS66
VAM-4, Reverse of 1878

- 3368 1880/79-CC Reverse of 1878, VAM-4, MS66 PCGS.** A Top 100 Variety. The parallel top arrow feather and a concave breast on the eagle confirm the Reverse of 1878 die. The obverse displays clear 80/79 repunching in the date, with tiny ears of the underdigit 7 extending above the top loop of the 8 and further evidence of the 7 within the loops of the 8. The 9 shows clearly within the 0. This is a brilliant and richly frosted Premium Gem example, with none numerically finer at PCGS. Population (VAM-4 variety): 5 in 66 (2 in 66+), 0 finer (10/23). *From The Riccolo Collection.* NGC ID# AP7P, PCGS# 133876 Base PCGS# 7108

**1880-S Morgan Dollar, MS68
Exceptional Type Coin**

- 3369 1880-S MS68 NGC.** From a substantial mintage of 8.9 million pieces, the 1880-S Morgan dollar can be located at the exalted MS68 grade level with a little patience, but finer coins are condition rarities. This magnificent MS68 example exhibits sharply detailed design elements throughout, and the impeccably preserved, lustrous surfaces are enhanced by vivid crescents of sea-green and cobalt-blue toning on the lower obverse. Eye appeal is terrific. NGC has graded five numerically finer examples (11/23). NGC ID# 2544, PCGS# 7118

**1881-CC Silver Dollar, MS67
Beautifully Frosted and Pristine**

- 3370 1881-CC MS67 PCGS.** Pristine, frosty mint luster engulfs this Superb Gem Carson City dollar. Sunset-gold toning graces portions of the borders, primarily on the obverse. The interiors are ivory-white. Sharp definition and virtually flawless cheek on Liberty add all the more to the eye appeal. Finer 1881-CC dollars are rare. NGC ID# 2547, PCGS# 7126

**1881-CC Morgan Dollar, MS65
Deep Mirror Prooflike Example**

- 3371 1881-CC MS65 Deep Mirror Prooflike PCGS.** The 1881-CC Morgan dollar was well represented in the GSA sales of the 1970s and the issue is not too difficult to locate in lower Mint State grades, but Deep Mirror Prooflike examples are elusive above the MS65 grade level. This spectacular Gem displays sharply detailed design elements in most areas, but the hair above the ear shows some of the usual softness, due to some die striations that were not completely struck out. The deeply reflective fields show no mentionable distractions, with some subtle hints of pale green toning at certain angles. NGC ID# 2547, PCGS# 97127

**1881-S Morgan Dollar, MS68
Brilliant Obverse, Toned Reverse**

- 3372 1881-S MS68 NGC.** The 1881-S is a popular type coin, plentiful as fine as MS68. This example displays radiant cartwheel luster with a brilliant obverse and multicolor reverse, which yields lilac-rose, gold, blue, and mint-green hues. A faint graze in the left obverse field is the only perceptible flaw, and the strike is sharp. Eye appeal is outstanding. NGC and PCGS each report only two numerically finer non-Prooflike pieces (10/23). NGC ID# 2549, PCGS# 7130

**1882-CC Silver Dollar, MS67
Brilliant and Lustrous**

- 3373 1882-CC MS67 NGC. VAM-3.** The "Spiked Wing" variety, named after a slender die line from the eagle's body into the right (facing) wing. A brilliant and thoroughly lustrous Superb Gem. None are numerically finer at NGC, and it is little wonder why, since a loupe is required to locate the minute indications of contact. The strike is generally bold, though the hair above the ear is incomplete. Census: 97 in 67 (8 in 67+, 4 in 67★, 2 in 67+★), 0 finer (11/23). NGC ID# 254B, PCGS# 7134

**1883-CC Morgan, MS66 Deep Mirror Prooflike
Brilliant With Cameo Contrast**

- 3374 1883-CC MS66 Deep Mirror Prooflike PCGS. Ex: Texas Coins.** The 1883-CC is among the more plentiful Carson City Morgans in high grade, as more than 755,000 pieces were distributed through the GSA sales of the 1970s. This Premium Gem, however, is conditionally scarce with its Deep Mirror Prooflike designation. Each side is brilliant, and the sharp devices are thickly frosted. Deep mirroring in the fields adds to the pronounced cameo effect. No major abrasions appear, though a few small marks are in the left obverse field as usual. PCGS reports only three numerically finer Deep Mirror Prooflike examples (11/23). NGC ID# 254H, PCGS# 97145

**1883-O Morgan Dollar, MS67
Registry-Grade Example**

- 3375 1883-O MS67 PCGS.** Despite a large mintage of more than 8.7 million pieces, the 1883-O Morgan dollar is an elusive issue at the MS67 grade level, and finer coins are virtually unobtainable. This spectacular Superb Gem displays well-detailed design elements, with just a touch of the usual softness on the hair above the ear. The lustrous surfaces are impeccably preserved. PCGS has graded one numerically finer example (11/23).
NGC ID# 254J, PCGS# 7146

**1883-S Morgan Dollar, MS63
Vibrant Luster, Attractive Border Toning**

- 3376 1883-S MS63 PCGS.** This Select Uncirculated 1883-S Morgan dollar boasts smooth, remarkably mark-free surfaces for the grade, a full strike, and delicate reddish-gold and blue toning at the rims, presenting a fine blend of aesthetic appeal and well-preserved surfaces. The 1883-S is the first of several scarce S-mint issues from the 1880s, seldom seen this attractive in an MS63 holder.
From The Kankakee Collection.
NGC ID# 254K, PCGS# 7148

**1883-S Morgan Dollar, MS63
Lustrous, Brilliant Surfaces**

- 3377 1883-S MS63 PCGS.** From an ample mintage of more than 6.2 million pieces, the 1883-S Morgan dollar is not difficult to locate at the MS63 grade level, but the population does thin out in higher grades. This impressive Select specimen displays sharply detailed design elements and lightly marked brilliant surfaces, with vibrant mint luster and outstanding eye appeal.
From The Tien's Treasure Collection.
NGC ID# 254K, PCGS# 7148

**1884-O Morgan Dollar, MS67+
Conditionally Challenging**

- 3378 1884-O MS67+ NGC.** The 1884-O is plentiful in most Mint State grades, but emerges as a notable condition rarity at the MS67+ level. NGC has certified just 12 pieces as MS67+, along with two coins as MS67+★ and a single example as MS68 (11/23). Thus the issue is uncollectible any finer than the present Superb Gem, which has a good strike, booming luster, and light golden-brown peripheral patina. The reverse is practically pristine, as is Liberty's cheek, and the obverse field shows only wispy grazes.
NGC ID# 254N, PCGS# 7154

**1888 Morgan Dollar, MS67
One Numerically Finer Coin at NGC**

- 3379 1888 MS67 NGC.** From a huge mintage of more than 19 million pieces, the 1888 Morgan dollar is still scarce at the MS67 grade level, and finer coins are virtually unobtainable. This magnificent Superb Gem exhibits razor-sharp definition on all the design elements and the lustrous brilliant surfaces show no mentionable defects. NGC has graded one numerically finer example (11/23).
NGC ID# 2555, PCGS# 7182

**1888-O Dollar, MS66+
Extremely Rare Any Finer**

- 3380 1888-O MS66+ NGC.** From a substantial mintage of more than 12 million pieces, the 1888-O Morgan dollar can only be called scarce at the MS66 grade level, but finer coins are prime condition rarities. This Plus-graded Premium Gem offers impeccably preserved lustrous surfaces with vivid highlights of violet, slate-gray, and sea-green toning. The design elements are sharply detailed throughout.
Census: 78 in 66 (8 in 66+, 2 in 66★), 2 finer (11/23).
NGC ID# 2556, PCGS# 7184

1888-O VAM-4 Morgan Dollar Grade Set
18 Pieces, Fair 2 to AU58
A Top 100 Variety, 'Hot Lips'

- 3381 1888-O 18-Piece Grading Set, Hot Lips, Doubled Die Obverse, VAM-4, Fair 2 to AU58 PCGS.** A Top 100 Variety. This remarkable set includes 18 examples of the sought-after VAM-4 "Hot Lips" variety, consecutively graded from Fair 2 to AU58 (the AU55 is CAC-endorsed). Each piece displays natural silver-gray patina, with the higher-grade pieces showing more brilliance and luster. A clear progression of the grades is apparent in each coin, showing deliberate attention by our consignor to acquiring accurately graded pieces for each level. VAM-4 is a major rarity in Mint State, and so the AU58 coin in this set is particularly important as a high-end example of the variety. The variety is nicknamed "Hot Lips" due to the pronounced die doubling of Liberty's lips, but the entire obverse portrait is boldly doubled. VAM-4 is one of the most coveted doubled dies in the entire Morgan dollar series. (Total: 18 coins)

1889-CC Morgan Dollar, VF35
Low-Mintage Branch Mint Key

- 3382 1889-CC VF35 PCGS.** From a small mintage of 350,000 pieces, the 1889-CC is the most elusive Morgan dollar from the famous Carson City Mint. Only even wear shows on the design elements of this Choice VF example and most interior detail remains intact. A dark line of color crosses the eagle's left wing on the reverse, but both sides are free of distracting contact marks. This coin will be a welcome addition to a fine collection of Morgan dollars.
Ex: Central States Signature (Heritage, 4/2011), lot 5737.
 NGC ID# 2559, PCGS# 7190

1892-CC Morgan Dollar, MS63
Popular Carson City Issue

- 3383 1892-CC MS63 PCGS.** The 1892-CC Morgan dollar claims a fairly generous mintage for a Carson City issue, at more than 1.3 million pieces. Unfortunately, the 1892-CC was not well-represented at the GSA sales of the 1970s, so the issue is not easy to locate in higher Mint State grades. This attractive Select specimen is sharply detailed and lightly marked, with vibrant mint luster throughout. Housed in a green label holder.
 NGC ID# 255M, PCGS# 7214

1892-CC Morgan Dollar, MS64
Popular Branch Mint Issue

- 3384 1892-CC MS64 PCGS.** The 1892-CC Morgan dollar was represented by only a single coin in the General Services Administration sales of the 1970s. Many of the Mint State pieces known came out of the Redfield hoard, but those coins were mainly low grade. The issue is readily collectible at the MS64 grade level, but the population drops off precipitously above MS65. This impressive Choice specimen is sharply detailed, with lightly marked brilliant surfaces that radiate vibrant mint luster throughout.
From The Riccolo Collection.
 NGC ID# 255M, PCGS# 7214

1892-CC Morgan Dollar, MS64
Sharply Struck, Lustrous Example

- 3385 1892-CC MS64 PCGS.** From an adequate Carson City mintage of more than 1.3 million pieces, the 1892-CC Morgan dollar can be located in MS64 condition with a little patience, but finer coins are elusive. This impressive Choice example exhibits sharply detailed design elements and well-preserved, brilliant surfaces that radiate vibrant mint luster from both sides. Eye appeal is outstanding.
From The Tien's Treasure Collection.
 NGC ID# 255M, PCGS# 7214

**1892-CC Dollar, MS64
CAC-Approved Quality**

- 3386 1892-CC MS64 NGC. CAC.** With a mintage of 1.3 million pieces, the 1892-CC Morgan dollar is readily collectible at the MS64 grade level, making it a popular choice with branch mint type collectors. Highlights of sea-green, jade-gray, turquoise, and amber toning enhance the well-preserved surfaces of this attractive Choice specimen. The design elements are sharply detailed, aside from the slightest trace of blending on the hair above the ear, where some die striations were not completely struck out. The high quality within the grade is confirmed by CAC.
NGC ID# 255M, PCGS# 7214

**1892-S Morgan Dollar, AU55
Rarely Seen in High Grade**

- 3387 1892-S AU55 NGC.** From a smallish mintage of 1.2 million pieces, the 1892-S Morgan dollar is not difficult to locate in lower circulated grades, but it is one of the most challenging issues of the series in high grade. This impressive Choice AU specimen shows just a trace of wear on the design elements and the lustrous surfaces are lightly abraded. The overall presentation is most attractive.
NGC ID# 255P, PCGS# 7218

**1893 Silver Dollar, MS63+
Low-Mintage Philadelphia Issue**

- 3388 1893 MS63+ PCGS. CAC.** The 1893 Morgan dollar claims a low business-strike mintage of 378,000 pieces, but the issue can be found in MS63 condition without much difficulty. This Plus-graded Select example displays sharply detailed design elements and lightly marked surfaces, with vibrant mint luster and outstanding eye appeal. The high quality within the grade is confirmed by CAC.
From The Tien's Treasure Collection.
NGC ID# 255R, PCGS# 7220

**1893-CC Morgan Dollar, MS62
Final Carson City Issue**

- 3389 1893-CC MS62 PCGS.** The Carson City Mint was closed for coinage operations in 1893, but not before a small production of 677,000 Morgan dollars was issued. The issue was not well represented in the GSA sales of the 1970s, making it difficult to locate in high grade. This impressive MS62 specimen exhibits sharply detailed design elements throughout. The lustrous surfaces are lightly marked for the grade and the eye appeal is quite strong.
From The Tien's Treasure Collection.
NGC ID# 255S, PCGS# 7222

**1893-O Dollar, AU58
Low-Mintage, O-Mint Issue**

- 3390 1893-O AU58 PCGS.** This impressive 1893-O Morgan dollar shows only fleeting signs of time spent in circulation. The silver-white surfaces retain most of its original mint luster and the O-mint strike is sharper than often seen. Only 300,000 pieces were struck, due to the effects of the Panic of 1893 and the repeal of the Sherman Silver Purchase Act. The 1893-O is only slightly more available than the acclaimed 1895-O among all O-mint Morgans.
From The Tien's Treasure Collection.
NGC ID# 255T, PCGS# 7224

**1893-S Morgan Dollar, Good 6
Pleasing Two-Toned Gray Surfaces**

- 3391 1893-S Good 6 NGC.** This is a well-worn example of the key-date 1893-S Morgan dollar, although it remains problem free and displays pleasing two-toned gray patina with gunmetal in the fields and slate-gray on the devices and legends. A pleasing "circulation cameo" appearance prevails. Low-grade circulated 1893-S dollars are in constant demand from date and mintmark collectors, though few problem-free pieces are seen in these grades.
From The Washington Corner Collection.
NGC ID# 255U, PCGS# 7226

1893-S Morgan Dollar, VG8
Collectible Series Key Example

- 3392 1893-S VG8 PCGS.** Smoothly worn silver-gray toning deepens in the recesses and toward the borders of this pleasing VG8 coin. Most marks and abrasions are long since diminished by wear. Two die pairs produced the 100,000 pieces struck for this famous Morgan series key issue. Most survivors are well-circulated, but not all are as problem-free as this coin.
From The Riccolo Collection.
NGC ID# 255U, PCGS# 7226

1893-S Silver Dollar, VF Details
Celebrated Series Stopper

- 3393 1893-S — Cleaned, Rim Damage — NGC Details. VF.** The 1893-S has long reigned as the king of Morgan dollars struck for commerce. The mintage was lowest of the series, only 100,000 pieces. Although such issues as the 1885-CC and the 1894 have similar mintages, they are more available in better grades, while the 1893-S is challenging in any condition. This cream-gray and straw-gold example is somewhat glossy, and displays inoffensive marks on the reverse rim past 6 o'clock. A horizontal pod-shaped mark is seen on the lower cheek.

1893-S Silver Dollar, VF20
Sought-After S-Mint Morgan Rarity

- 3394 1893-S VF20 PCGS.** The majority of 1893-S silver dollars survive in VF or lesser grades. This VF20 coin displays glints of bright silver throughout the rich, warm-gray toning. A few tiny marks and faint abrasions exist beneath the attractive patina. A shallow rim indent below 3 in the date is minor and the eye appeal is strong.
From The Riccolo Collection.
NGC ID# 255U, PCGS# 7226

1894 Morgan Dollar, AU58
Only 110,000 Examples Struck

- 3395 1894 AU58 PCGS.** The 1894 Morgan dollar claims the second-lowest business-strike mintage of the series, at a mere 110,000 pieces, making the issue decidedly elusive in high grade. This impressive near-Mint specimen exhibits just a trace of friction on the high points of the design elements and the still-lustrous surfaces are lightly abraded. The overall presentation is most attractive.
From The Tien's Treasure Collection.
NGC ID# 255V, PCGS# 7228

1894 Silver Dollar, MS62
Satin Mint Luster

- 3396 1894 MS62 NGC.** The 1894 Morgan dollar is notable for its low mintage of just 110,000 coins — the second-smallest regular-issue production total of the series, with only the 1893-S boasting a lower mintage. This Mint State piece has brilliant, satiny mint luster. The coin is boldly struck, though some light abrasions and slide marks on the cheek prevent a finer numeric grade.
Ex: Long Beach Signature (Heritage, 2/2013), lot 4459.
From The Riccolo Collection.
NGC ID# 255V, PCGS# 7228

1894 Silver Dollar, MS62
Low-Mintage Philadelphia Issue

- 3397 1894 MS62 PCGS.** The 1894 is the scarcest circulation-strike Morgan dollar from the Philadelphia Mint, boasting a limited mintage of only 110,000 coins. This Mint State example displays satiny luster with a dusting of champagne-gray color. Some central strike softness is seen as expected for the date.
NGC ID# 255V, PCGS# 7228

1894-S Dollar, MS64
Sharply Detailed, Lustrous Specimen

3398 1894-S MS64 PCGS. From a relatively modest mintage of 1.2 million pieces, the 1894-S Morgan dollar is an available issue at the MS64 grade level, but it becomes scarce in finer grades. This impressive Choice example offers sharply detailed design elements and lightly marked surfaces, with vibrant mint luster throughout. Eye appeal is outstanding.

From The Tien's Treasure Collection.
 NGC ID# 255X, PCGS# 7232

1896-S Dollar, MS63
Challenging Issue in High Grade

3401 1896-S MS63 PCGS. The 1896-S Morgan dollar claims a mintage of 5 million pieces and the issue is not difficult to locate at the MS63 grade level, but it becomes challenging in higher grades. This attractive Select specimen exhibits lightly marked brilliant surfaces, aside from a bit of chatter on Liberty's cheek, with vibrant mint luster and a sharp strike. Eye appeal is outstanding.

From The Tien's Treasure Collection.
 NGC ID# 2564, PCGS# 7244

1895-O Silver Dollar, AU58
Better New Orleans Issue

3399 1895-O AU58 NGC. The 1895-O is a better date in the Morgan dollar series, coming from a limited mintage of just 450,000 coins. Mint State examples are scarce and out of reach for many collectors, making high-end AU pieces like the present coin widely sought after. Each side is brilliant and lustrous with satiny cartwheel bands. Tinges of lavender-russet toning appear around the outer margins. Light handling marks are present, but little true wear is seen.

NGC ID# 255Y, PCGS# 7236

1897-O Morgan Dollar, MS63
Scarce Any Finer

3402 1897-O MS63 PCGS. The 1897-O Morgan dollar claims an adequate mintage of more than 4 million pieces, and the issue is not too difficult to locate in MS63 condition, but finer coins are scarce. This impressive Select example exhibits sharply detailed design elements throughout. Vivid shades of orange-red, magenta, and lavender-gray toning enhance the lightly marked, lustrous surfaces. PCGS has graded 62 numerically finer examples (11/23).

NGC ID# 2566, PCGS# 7248

1895-S Morgan Dollar, AU55
Low-Mintage Branch Mint Issue

3400 1895-S AU55 PCGS. Always in demand because of its small mintage of 400,000 pieces, the 1895-S Morgan dollar is an elusive issue in Mint State grades, making this impressive Choice AU specimen particularly attractive. This coin exhibits only light wear on the design elements and the lightly abraded surfaces are still lustrous and appealing. This coin should find a home in a fine collection of Morgan dollars.

From The Tien's Treasure Collection.
 NGC ID# 255Z, PCGS# 7238

1904-O Morgan Dollar, MS67
Registry-Grade Example

3403 1904-O MS67 NGC. From an adequate mintage of 3.7 million pieces, the 1904-O Morgan dollar is still collectible at the exalted MS67 grade level, but neither of the leading grading services have certified any coins in higher numeric grades (11/23). This spectacular Superb Gem exhibits well-detailed design elements, with just a touch of the usual blending on the hair above the ear. The virtually pristine surfaces radiate vibrant mint luster, with attractive highlights of sea-green toning at the peripheries.

NGC ID# 256V, PCGS# 7292

1921 Morgan Dollar, MS67
Top-Grade, Final-Date Example

- 3404 1921 MS67 NGC.** The Philadelphia Mint struck a huge production of more than 44 million Morgan dollars in 1921, the final date of the design. Despite the large production, the issue is still decidedly rare at the MS67 grade level, and no coins have been certified in higher numeric grades by either PCGS or NGC (11/23). This delightful Superb Gem exhibits sharply detailed design elements throughout, and the virtually flawless brilliant surfaces are lustrous and appealing. Census: 25 in 67 (1 in 67+, 1 in 67★), 0 finer (11/23). NGC ID# 256X, PCGS# 7296

PROOF MORGAN DOLLAR

1901 Morgan Dollar, PR62
Popular Proof Date

- 3405 1901 PR62 PCGS.** The Philadelphia Mint struck 813 proof Morgan dollars in 1901, some before moving into the Third Philadelphia Mint building, and some afterward, near the end of the year. This impressive PR62 example exhibits sharply detailed design elements and reflective fields, with highlights of jade, and slate-gray toning. The surfaces are lightly marked for the grade. *From The Tien's Treasure Collection.* NGC ID# 27ZZ, PCGS# 7336

PEACE DOLLARS

1921 Peace Dollar, MS66
Attractively Lustrous

- 3406 1921 MS66 NGC.** The distinctive satin luster characteristic of 1921 Peace dollars is beautifully preserved on this piece, with only a few small reverse field marks to limit the grade. Light golden toning warms each side. The usual central strike softness is seen on the eagle's wing and Liberty's hair. While the 1921 High Relief is occasionally seen in MS66, NGC has certified only eight numerically finer pieces (11/23). NGC ID# 2U4E, PCGS# 7356

1924 Silver Dollar, MS67
Sharply Struck Type Coin

- 3407 1924 MS67 NGC.** An impressively sharp, satiny Superb Gem example of this available type coin issue, showing a near-brilliant obverse and a reverse that is toned tan-gold. No distracting abrasions are seen. The 1924 is collectible in MS67 with a little patience, although NGC and PCGS each report only a single numerically finer example (11/23). NGC ID# 257J, PCGS# 7363

1925 Silver Dollar, MS67+
Only One Finer at NGC

- 3408 1925 MS67+ NGC. CAC.** This extraordinary Peace dollar hosts a splash of iridescent toning over the back of Liberty's head on otherwise brilliant silver surfaces. Both sides are pristine and exhibit bold design features. NGC has certified 20 of these in MS67+, one in MS67★, and one finer that is graded MS68. CAC: 67 in 67, 0 finer (10/23).

**1925-S Peace Dollar, MS64+
Exceptional Quality for the Grade**

3409 1925-S MS64+ PCGS. CAC. The Plus designation and CAC endorsement elevate this near-Gem 1925-S Peace dollar above the majority of its peers. Just a few light grazes prevent full Gem classification. The 1925-S is one of the scarcest issues in the series in MS65, making high-end Choice pieces like the present highly sought after. Brilliant luster and a satiny cartwheel effect produce excellent eye appeal.
NGC ID# 257M, PCGS# 7366

**1926-S Peace Dollar, MS66
Prohibitively Rare Any Finer**

3410 1926-S MS66 PCGS. A pristine Premium Gem example of this San Francisco issue, showing light golden toning with daubs of russet in the right-hand margins. Well-struck design elements add to the appeal. While the 1926-S is occasionally seen in MS66, such coins are challenging to acquire, and PCGS reports only two numerically finer examples (11/23).
NGC ID# 257R, PCGS# 7369

**1927-S Peace Dollar, MS65
Rarely Offered Any Finer**

3411 1927-S MS65 NGC. The 1927-S boasts a limited mintage of 866,000 pieces, and it is an elusive date in MS65. A handful of pieces are finer, which are out of reach for most collectors. This piece is brilliant and well struck for the date. No major abrasions are seen. Census: 90 in 65 (4 in 65+), 3 finer (11/23).
NGC ID# 257U, PCGS# 7372

**1927-S Peace Dollar, MS65
High-End for the Issue**

3412 1927-S MS65 NGC. Hints of peach-gold toning, primarily in the margins, complement brilliant interiors on this Gem 1927-S Peace dollar. The devices are well defined. Only 866,000 silver dollars were struck at San Francisco in 1927, ranking the 1927-S among the lower-mintage issues in the series. Examples are scarce in MS65 and prohibitively rare finer. Census: 91 in 65 (4 in 65+), 3 finer (10/23).
NGC ID# 257U, PCGS# 7372

**1928 Silver Dollar, MS65
Rarely Offered Finer**

3413 1928 MS65 NGC. The 1928 Peace dollar boasts the lowest mintage in the series (360,649 pieces), and is the overall top key date, even though not as rare in MS65 as some other issues. This Gem displays brilliant, satiny luster and is well struck. A few light marks on Liberty's cheek are not out of line for the grade. NGC reports only nine numerically finer pieces (11/23).
NGC ID# 257V, PCGS# 7373

EISENHOWER DOLLAR

**1974 Ike Dollar, MS67
None Graded Finer**

3414 1974 MS67 NGC. The 1974 will never be rare in most grades, but the third-party census drops dramatically at the MS67 level, and none have been certified finer at either NGC or PCGS. This Superb Gem displays vibrant mint luster and medium wheat-gold toning. The strike is good, and post-strike contact is only incidental. Census: 15 in 67, 0 finer (11/23).
NGC ID# 258D, PCGS# 7415

SACAGAWEA DOLLAR

2000-P Sacagawea Dollar, MS67
FS-902, "Cheerios" Issue

- 3415** 2000-P "Cheerios," FS-902, MS67 PCGS. Santa Fe, New Mexico artist Glenna Goodacre (1939-2020) prepared designs for the new dollar coins that were issued in 2000, featuring Sacagawea as portrayed by Randy L Teton, a member of the Shoshone-Bannock Tribe from southeastern Idaho. As part of their promotion of the Sacagawea dollars, the U.S. Mint provided a small number of examples to General Mills for distribution in random boxes of their Cheerios cereal. Many of those dollars were spent, but others survived, often in high grades such as this Superb Gem. These "Cheerios" dollars were struck from prototype dies featuring an eagle with boldly detailed tail feathers, unlike the circulation-strike coins. This lovely example has brilliant and highly lustrous satin surfaces with the distinctive golden appearance of the Sacagawea dollar coins. Also included is the Lincoln cent that accompanied the dollar. (Total: 2 coins)
PCGS# 411990 Base PCGS# 147231

GOLD DOLLARS

1849-D Gold Dollar, AU58
Semiprooflike Fields

- 3416** 1849-D AU58 NGC. CAC. Variety 1-A. The 1849-D is the first gold dollar issue from the Dahlonega Mint, and the only D-mint issue with an open wreath. This is a semiprooflike coin that shows only a hint of wear on Liberty's cheek, ear, and bust truncation. The sea-green surfaces show minimal contact aside from a mark on the rim near the U in UNITED. Housed in a prior-generation holder.
NGC ID# 25BD, PCGS# 7507

1853-D Gold Dollar, AU58
Remarkably Strong

- 3417** 1853-D AU58 NGC. Variety 5-G. This is a remarkably strong and well-preserved example of a notoriously softly struck Dahlonega issue (6,583 coins minted). Partial mint luster glows from bright yellow and olive-gold surfaces. The stars and curls exhibit impressive definition and barely a hint of high-point rub. Census: 54 in 58 (2 in 58+), 40 finer (11/23).
From The Estate of Charles W. Montgomery, Part II.
NGC ID# 25BW, PCGS# 7523

1854-S Gold Dollar, AU58
Inaugural San Francisco Issue

- 3418** 1854-S AU58 NGC. This gold dollar was struck during the San Francisco Mint's first year of operation. It was one of 14,632 1854-S dollars manufactured for local circulation, though this one hardly appears to have circulated at all. Just a hint of rub occurs over otherwise boldly detailed devices. Yellow-gold surfaces still show abundant remaining luster.
Ex: Public Auction Sale (Stack's, 3/1995), lot 377.
From The Estate of Charles W. Montgomery, Part II.
NGC ID# 25C2, PCGS# 7527

1854 Gold Dollar, MS63
Type Two Representative

- 3419** 1854 Type Two MS63 PCGS. Struck from worn, clashed dies but still moderately well-detailed, this Select 1854 Type Two gold dollar displays grade-appropriate abrasions and pleasing straw-gold coloration. The 1854 is one of only two dates of the Type Two design that are usually available in Mint State for type purposes.
Ex: Long Beach Signature (Heritage, 6/2017), lot 3795.
From The William K. Harter Collection, Part II.
NGC ID# 25C3, PCGS# 7531

1855 Type Two Gold Dollar, MS63
Pleasing for the Grade

- 3420 1855 Type Two MS63 PCGS.** This Type Two gold dollar design was struck only from 1854 to 1856. This Select Uncirculated 1855 example displays bold mint luster and a typically sharp strike. A few faint adjustment marks crisscross Liberty's cheek and hair above the ear. The reverse exhibits an equally crisp strike, with only slight weakness at 8 in the date and at LL of DOLLARS. Raised die polish lines run vertically across the minimally marked fields within the wreath and at the margins. Frosty honey-gold color provides excellent eye appeal.
NGC ID# 25C4, PCGS# 7532

1855 Type Two Gold Dollar, MS63
Choice Surfaces

- 3421 1855 Type Two MS63 PCGS.** Struck from clashed dies as usual, with satiny orange-gold luster that is remarkably devoid of bothersome abrasions for the grade. Only slight softness is noted on Liberty's hair curls, and the wreath bowknot shows above-average definition. An outstanding Type Two gold dollar. Housed in a green label holder.
From The William K. Harter Collection, Part II.
NGC ID# 25C4, PCGS# 7532

1855-C Gold Dollar, AU53
Significant Type Two Issue

- 3422 1855-C AU53 NGC. Variety 2.** An early die state without lapping on the upper-left portion of the wreath. The date is even with the second 5 positioned to the right under the A in DOLLAR. The 1855-C is an important single-year type, representing the sole Type Two emission in the series from the Charlotte Mint (9,803 coins). The somewhat mushy appearance is as much a result of strike as it is of wear, if not more. Yellow-gold surfaces display an unsurprising number of scattered marks.
Ex: Long Beach Signature (Heritage, 6/2002), lot 6567.
From The Estate of Charles W. Montgomery, Part II.
NGC ID# 25C5, PCGS# 7533

1885 Gold Dollar, MS66
Sharply Struck and Lustrous

- 3423 1885 MS66 NGC.** This sharply defined gold dollar is one of just 11,156 circulation-strike coins that were minted in 1885. High-grade gold dollars from the late 1880s were saved in larger quantities than those of earlier years. However, 1885-dated pieces are infrequently encountered in grades above MS65. Both sides of this Premium Gem display brilliant and satiny yellow-gold luster. Census: 59 in 66 (2 in 66+, 1 in 66★), 36 finer (11/23).
NGC ID# 25DP, PCGS# 7586

1889 Gold Dollar, MS67
Increased Mintage Quantity

- 3424 1889 MS67 PCGS.** After more than a decade of low-mintage gold dollar issues, the 1889 saw an increased production of 28,950 coins and many of those were saved when the denomination was discontinued at the end of that year. The average circulation-strike gold dollar production was just 5,185 coins per year from 1875 through 1887, followed by 15,501 in 1888 and 28,950 in 1889. This impressive Superb Gem displays brilliant and frosty orange-gold luster and virtually full design definition. PCGS has certified 15 numerically-finer submissions (11/23).
NGC ID# 25DU, PCGS# 7590

EARLY QUARTER EAGLE

1798 Two and a Half, VF Details
BD-1, Four Berries, Close Date

- 3425** 1798 Close Date, Four Berries, BD-1, High R.5 — Cleaned — NGC Details. VF. Ex: Long Island Collection. The 1798 two and a half has a meager mintage of only 1,094 pieces. That production is divided between two varieties with different berry counts on the eagle's branch. BD-1 is the Four Berries variety, and considered moderately rarer than its BD-2 Five Berries alternative. The present example is circulated and shows sharper definition on the reverse. The straw-gold surfaces lack mentionable marks. The obverse is moderately bright.

Ex: *The Long Island Collection, Part II (Heritage, 2/2022)*, lot 3722.

CLASSIC QUARTER EAGLE

1839-C Two and a Half, XF45
HM-1, Repunched Date

- 3426** 1839-C HM-1, High R.3, XF45 NGC. The 3 in the date is boldly repunched south, a radial crack passes through Liberty's chin, and the eagle's beak exhibits a vertical die crack. These characteristics confirm the HM-1 die marriage, one of three for this second-year Charlotte issue. The mintage was a mere 18,140 pieces, and HM-1 constitutes about half of survivors. The present butter-gold example displays many glimpses of luster within design elements. The reverse displays a few moderate ticks.

NGC ID# 25G4, PCGS# 764797 Base PCGS# 7699

LIBERTY QUARTER EAGLES

1840-C Two and a Half, AU55
Pleasing Color and Surfaces

- 3427** 1840-C AU55 NGC. Variety 1. Orange-tinged luster fills and outlines the legends and devices of this scarce Southern gold two and a half. The strike is above average for the issue, though the eagle's neck and leg plumage displays minor blending. Marks of any notice are confined to the M in AMERICA. Certified in a circa-2000 holder.

NGC ID# 25GB, PCGS# 7718

1840-C Quarter Eagle, AU58
Early Branch Mint Gold

- 3428** 1840-C AU58 NGC. Variety 1. The first Charlotte Liberty quarter eagle issue is from a low mintage of 12,822 pieces. The present lot displays original orange-gold surfaces, and vibrant luster accompanies design elements. The strike is good for the branch facility. Relevant marks are absent, though a green spot crosses the mintmark. Certified in a circa-2000 holder. Census: 31 in 58, 17 finer (11/23).

NGC ID# 25GB, PCGS# 7718

1844-D Two and a Half, AU55
Elusive Southern Gold Issue

- 3429** 1844-D AU55 NGC. CAC. Variety 5-I. A difficult Dahlonega issue. Only 17,332 pieces were produced, and the present green-gold example is nicer than most survivors. Luster fills the borders, legends, and devices. The centers are lightly brought up, but the peripheral elements are sharp, and no abrasions are noticeable. Relatively few examples bear the coveted CAC green bean. Encapsulated in a circa-2000 holder. CAC: 10 in 55, 14 finer (11/23).

NGC ID# 25GV, PCGS# 7736

**1851 Quarter Eagle, MS65
Extremely Rare Any Finer**

- 3430 1851 MS65 NGC.** Despite an ample business-strike mintage of more than 1.3 million pieces, the 1851 quarter eagle is a rare issue at the MS65 grade level, and finer coins are virtually unobtainable. This delightful Gem displays sharply detailed design elements and impeccably preserved orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. Census: 9 in 65, 2 finer (11/23). NGC ID# 25HL, PCGS# 7759

**1852-D Two and a Half, XF40
Low-Mintage Georgian Issue**

- 3431 1852-D XF40 PCGS. Variety 16-N.** The 1852-D two-and-a-half is a rare Dahlonga issue with a mintage of just 4,078 pieces. The present sun-gold example is graded XF40 by PCGS, but displays surviving mint luster associated with a higher grade. Portions of the eagle are incompletely brought up, but actual wear is minimal. Moderate marks are located above Liberty's eye and below her hair bun. Housed in a green-label holder. NGC ID# 25HT, PCGS# 7765

**1858-C Quarter Eagle, AU55
Scarce Southern Gold Issue**

- 3432 1858-C AU55 PCGS.** The 1858-C is another challenging Southern gold issue. The mintage was a scant 9,056 pieces, and many survivors are in VF and XF grades. This Choice AU coin displays an inexact impression on the eagle, but pockets of bright sun-gold luster are prevalent. Marks are minimal and mostly limited to a few lines beneath the second S in STATES. *From The Riccolo Collection.* NGC ID# 25JH, PCGS# 7787

**1878 Two and a Half, MS65+
Relatively Few Finer**

- 3433 1878 MS65+ NGC.** Mintages of gold coins at Philadelphia increased in 1878, in anticipation that paper money would trade at par with gold, and gold coin would return to Eastern commerce. The 1878 is more available than preceding dates in Mint State, but Gems are rare. This lustrous and well-struck yellow-gold example exhibits a smooth cheek and only minor field contact. Census: 36 in 65 (3 in 65+), 12 finer (11/23). NGC ID# 25KY, PCGS# 7828

**1883 Two and a Half, AU58
Reflective Fields, Excellent Color**

- 3434 1883 AU58 PCGS.** With a mintage of only 1,920 pieces, the 1883 quarter eagle is rare in Mint State. This near-Mint example shows prooflike fields and sharp design elements with rich, original orange-gold patina. A few light handling marks are not out of line for the grade. Housed in a first generation holder. Population: 28 in 58, 24 finer (10/23). *Ex: ANA Signature (Heritage, 8/2017), lot 5523. From The Kankakee Collection.* NGC ID# 25L7, PCGS# 7835

**1888 Two and a Half Dollar Liberty, MS66
Rarely Seen This Fine**

- 3435 1888 MS66 NGC.** The Philadelphia Mint struck a small business-strike production of just 16,001 quarter eagles in 1888. As might be expected, the issue is rare at the MS66 grade level and finer coins are virtually unobtainable. This spectacular Premium Gem exhibits well-detailed design elements, with just a touch of softness on the hair above the ear, and impeccably preserved orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. Census: 8 in 66 (2 in 66+), 1 finer (11/23). NGC ID# 25LC, PCGS# 7840

**1893 Two and a Half, MS66+
Underrated Condition Rarity**

3436 1893 MS66+ PCGS. The 1893 two-and-a-half mintage of 30,000 pieces is low, particularly when compared with the half eagle production that year of more than 1.5 million pieces. Fortunately for collectors, banks set aside examples, both in the U.S. and abroad. Today, the 1893 quarter eagle can be located without much of a challenge in MS61 through MS64 grades. But at the MS66+ level, the 1893 becomes an important conditional rarity, since only five such pieces are graded as such by PCGS (11/23). Just seven coins are certified finer at that service. A well-struck and lustrous orange-gold Premium Gem that displays only widely scattered and minimal contact.

From The William K. Harter Collection, Part II.
NGC ID# 25LH, PCGS# 7845

**1896 Quarter Eagle, MS67+
Tied for Finest at NGC**

3437 1896 MS67+ NGC. The present Superb Gem is tied for highest-graded business strike 1896 quarter eagle in an NGC holder. Although 12 examples have been certified at the MS67 level by NGC (10/23), only this and one other coin additionally boasts a Plus designation. The 1896 business mintage amounted to only 19,000 pieces, and although examples have emerged in quantity in average Mint State grades, only a handful of survivors can compete with the eye appeal of the present coin. The fully struck pumpkin-gold surfaces are highly lustrous and virtually immaculate. The reverse displays a wire rim between 7 and 1 o'clock, most prominent near 10 o'clock.

NGC ID# 25LL, PCGS# 7848

**1898 Two and a Half, MS66
Sharp and Frosty**

3438 1898 MS66 PCGS. Sharply struck devices complement pristine, glistening surfaces on this Premium Gem 1898 quarter eagle. Bright straw-gold color adorns each side and grows toward orange around the borders. Eye appeal is excellent. The 1898 is a collectible issue in high grade, suitable for type purposes. Population: 54 in 66 (5 in 66+), 23 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 25LN, PCGS# 7850

**1899 Two and a Half, MS67
Outstanding Quality**

3439 1899 MS67 PCGS. 1899 was a low-mintage date for the quarter eagle denomination. A scant 27,200 pieces were produced for commerce. Nonetheless, several hundred examples were saved in Mint State, set aside for their bullion content. Those coins tend to be in MS61 to MS65 grades. Superb Gems are undeniably rare, and the issue is uncollectible any finer. This magnificent peach-gold representative displays dynamic luster and a good strike, but its most important characteristic is practically pristine preservation. Only a delicate field line above the arrowheads preludes perfection. Population: 18 in 67 (1 in 67+), 1 finer (11/23).

NGC ID# 25LP, PCGS# 7851

**1907 Liberty Quarter Eagle, MS67+
Virtually Perfect**

3440 1907 MS67+ NGC. 1907 was the final issue of the Liberty quarter eagle series. By that time, the denomination did not circulate extensively except in the West, since the public found paper money more convenient. The quarter eagle was primarily used for export payments, and most latter-date survivors are Mint State pieces returned from long-term storage in foreign bank vaults. The 1907 is plentiful in Uncirculated grades, but the present MS67+ example is one of just 16 pieces graded as such by NGC (11/23) with only eight coins finer. As one might expect, this lustrous sun-gold Superb Gem is close to pristine and exhibits an intricate strike.

NGC ID# 25LY, PCGS# 7859

PROOF LIBERTY QUARTER EAGLES

1899 Quarter Eagle, PR62
Elusive Cameo Example

- 3441** 1899 PR62 Cameo PCGS. JD-1, R.4. From a mintage of 150 pieces, the 1899 Liberty quarter eagle is an elusive issue at the PR62 grade level, with the Cameo designation. This impressive PR62 specimen displays sharply detailed design elements and deeply mirrored fields that contrast boldly with the richly frosted devices. The pleasing orange-gold surfaces show a few scattered minor contact marks that define the grade. Population: 9 in 62 Cameo, 3 finer (11/23). NGC ID# 288N, PCGS# 87925

1900 Quarter Eagle, PR61
Pleasing Cameo Specimen

- 3442** 1900 PR61 Cameo NGC. JD-1, Low R.4. The proof 1900 Liberty quarter eagle claims a generous mintage of 205 pieces, with the coins delivered in quarterly batches of 88, 24, 24, and 69 pieces. A single die pair was used to strike all the proofs. John Dannreuther estimates the surviving population at 120 to 150 examples in all grades. This impressive PR61 example displays sharply detailed, frosty design elements that contrast boldly with the deeply reflective fields. The orange-gold surfaces are lightly marked for the grade. NGC ID# 288P, PCGS# 87926

INDIAN QUARTER EAGLES

1911-D Two and a Half, AU53
Sought-After CAC Green Label

- 3443** 1911-D AU53 PCGS. CAC. Strong D, as noted on the holder — although each side is lightly worn, the mintmark remains clear. Smooth antique-gold patina characterizes each side, and most major details remain. CAC endorsement adds to the appeal, as only 18 coins in AU53 carry the green label. Select design recesses show touches of green verdigris, a testament to the originality of the patina. NGC ID# EGZ7, PCGS# 7943

1914-D Two and a Half, MS64
Rich Coloration

- 3444** 1914-D MS64 CACG. The 1914-D is one of the top condition keys in the Indian quarter eagle series, rivaled only by the 1914 Philadelphia coin and the obvious key-date 1911-D. This piece displays a strong strike and rich orange-gold patina, with a few light marks as allowed by the grade. Housed in a new CACG slab and certainly strong for the MS64 grade. NGC ID# 2899, PCGS# 7947

THREE DOLLAR GOLD PIECES

1878 Three Dollar Gold Piece, MS62
Original Patina

- 3445** 1878 MS62 PCGS. The 1878 three dollar gold piece is a high-mintage issue (82,324 pieces struck) and popular with type collectors. The present MS62 coin represents an accessible entry into the date for collectors. Soft, satiny orange-gold luster yields only minimal abrasions, and slight strike softness on the wreath bowknot is not unusual for the series in general. *From The Kankakee Collection.* NGC ID# 25MZ, PCGS# 8000

1878 Three Dollar Gold, MS63
Appealing Natural Mint Luster

- 3446** 1878 MS63 PCGS. A mintage of 82,324 pieces was substantial for the series, making the 1878 three dollar piece an ideal type coin. The date also frequently comes with beautiful luster and can be found with ease in middle Mint State grades. This Select example displays warm orange-gold color and satiny luster with minimal marks. The wreath bowknot shows slight softness as usual, but the strike is otherwise well executed. *From The William K. Harter Collection, Part II.* NGC ID# 25MZ, PCGS# 8000

**1878 Three Dollar, MS63
Shimmering Mint Luster**

- 3447** 1878 MS63 PCGS. The wreath bowknot shows above-average definition for the issue, though it is not quite full. Satiny luster shimmers in the fields, and warm wheat-gold color with rose hues produces pleasing visual appeal. Minor marks are not bothersome. The 1878 three dollar piece represents one of the three top type coin options for collectors, the other common dates being the 1854 and 1874.

From The William K. Harter Collection, Part II.
NGC ID# 25MZ, PCGS# 8000

**1878 Three Dollar, MS63
Important CAC Endorsement**

- 3448** 1878 MS63 NGC. CAC. While the 1878 three dollar issue is plentiful overall, CAC-approved examples are in the distinct minority in every grade. Less than 100 MS63 coins carry the coveted green label on the holder. This example displays a pleasing if not quite full strike, with bright straw-gold luster and mild abrasions and hairlines.

NGC ID# 25MZ, PCGS# 8000

**1883 Three Dollar, AU55
CAC Approved**

- 3449** 1883 AU55 PCGS. CAC. The 1883 three dollar gold piece boasts one of the lowest mintage of the series (just 900 coins), although a significant percentage of these coins survive due to the hoarding of the date by contemporary numismatists. This Choice AU example shows light wear and hairlines, but the fields are deeply reflective. CAC endorsement adds to the appeal of the blond-gold surfaces. CAC: 7 in 55, 25 finer (11/23).

From The Kankakee Collection.
NGC ID# 25N6, PCGS# 8005

EARLY HALF EAGLE

**1804 Half Eagle, AU Sharpness
Rare BD-5, Small Over Large 8**

- 3450** 1804 Small Over Large 8, BD-5, High R.6 — Repaired — PCGS Genuine. AU Details. Bass-Dannreuther Die State a/k. All seven 1804-dated half eagle die marriages are very scarce to rare. The *Guide Book* lists two varieties, the Small Date (BD-1 through BD-4) and the Small Over Large Date (BD-5 to BD-7). BD-5 is the second-rarest 1804-dated marriage, trailing only BD-4. The die state is usual for BD-5, and displays prominent clash marks and cracks on the reverse. The left obverse field has been smoothed, and the lemon-gold surfaces are cleaned and appear prooflike. Nonetheless a sharp example of a challenging die pairing.

CLASSIC HALF EAGLES

**1838-C Five Dollar, HM-1, AU Details
Important Classic Head Charlotte Issue**

- 3451** 1838-C HM-1, High R.4 — Cleaned — PCGS Genuine. AU Details. The 1838-C is a one-year Classic Head type coin in the Charlotte half eagle series, and it is in high demand in all grades. HM-1 is the more plentiful of the two known die varieties, although minutely. This AU-level example displays uniform butter-gold luster and strong detail, with light wear overall. A loupe reveals hairlines on each side, as noted by PCGS.

1838-D HM-1 Half Eagle, AU Details
Bold Definition

- 3452** 1838-D HM-1, R.3 — Reverse Repaired — NGC Details. AU. Uniform bronze-gold patina complements boldly struck design elements, while hints of luster cling to the protected portions of the fields. The reverse fields show numerous scratches that have been repaired to be less bothersome. Other minor abrasions are characteristic of the issue. The Dahlonega Mint struck 20,583 half eagles in 1838, making this the only five dollar piece from the Georgia branch mint featuring William Kneass' Classic Head design.

1847 Five Dollar Liberty, MS63
Seldom Seen Any Finer

- 3454** 1847 MS63 NGC. From a substantial mintage of 915,981 pieces, the 1847 Liberty half eagle is relatively available in high grade, but it is still rare at the MS63 grade level. This impressive Select specimen displays lightly marked orange-gold surfaces, with vibrant mint luster throughout. The strike is sharp, including practically full central and peripheral details on both sides, though a trace of softness is noted on the hair around Liberty's ear and the eagle's neck feathers. A heavy die crack is evident from the rim to the point of the coronet, and another shows from the coronet, through the hair and neck, to a dentil below the 4 in the date. Census: 17 in 63, 15 finer (11/23). NGC ID# 25TL, PCGS# 8231

LIBERTY HALF EAGLES

1846-O Five Dollar, AU53
Scarce No Motto Issue

- 3453** 1846-O AU53 PCGS. **Variety 1.** This better No Motto New Orleans issue has a mintage of 58,000 pieces. It is usually seen with a low mintmark, as is the case here, though a rare centered mintmark variety exists. The present original olive and peach-gold representative is lightly abraded and well defined. Ex: FUN Signature (Heritage, 1/2013), lot 7149. NGC ID# 25TK, PCGS# 8230

1850-C Half Eagle, AU53
Ample Luster, CAC-Approved

- 3455** 1850-C AU53 NGC. CAC. **Variety 3.** Half eagle mintages at Charlotte peaked between 1847 and 1853, with the latter issues augmented by an influx of California Gold Rush bullion shipped to the East Coast. Nonetheless, examples are scarce in AU grades, and are rarely seen with a CAC seal. The present Charlotte type coin possesses peach-gold luster in the recesses of the design. The open areas are yellow-gold. Minor abrasions are distributed, though none are worthy of singular comment. CAC: 5 in 53, 8 finer (11/23). NGC ID# 25TZ, PCGS# 8244

1851-C Five Dollar, AU53
'Earring' Variety

- 3456** 1851-C AU53 NGC. **Variety 1.** The "earring" variety with a small hole (as made) on Liberty's earlobe. The hole is at the exact center of the obverse, and is a product of the die manufacture. Similar holes are regularly encountered on midcentury Mature Head large cents. This sea-green and straw-gold Charlotte Mint five is from a low mintage of 49,176 pieces. Glimpses of peach-tinged luster dominate the design recesses. The strike is typical for the issue, and the slightly cloudy surfaces display relatively few marks. NGC ID# 25U6, PCGS# 8247

1873 Half Eagle, MS63
Closed 3, Scarce in Mint State

- 3457** 1873 Closed 3 MS63 NGC. CAC. During 1873, double eagle production was favored at Philadelphia, and the Closed 3 half eagle mintage was only 112,480 pieces. The issue is very scarce in any Mint State grade, and MS63 examples are rare. This caramel-gold representative is lustrous and shows minor incompleteness of strike on the lovelock. Moderate marks on noted on Liberty's eyebrow and the field above the bust tip. Census: 7 in 63 (2 in 63+), 1 finer. CAC: 5 in 63, 4 finer (11/23). NGC ID# 25WK, PCGS# 8329

1895 Five Dollar, MS66
High Grade, Repunched Date

- 3458** 1895 MS66 NGC. The 5 in the date is repunched south. The 1895 is among the Liberty gold issues that returned to the U.S. in quantity from foreign bank vaults during the decades following World War II. But those coins typically grade AU55 to MS64. Premium Gems are important conditional rarities. This apricot-gold example demonstrates dazzling cartwheel luster, and the well-struck surfaces show only incidental signs of contact. Census: 12 in 66, 4 finer (11/23). NGC ID# 25YH, PCGS# 8390

1898-S Five Dollar, MS65+
Conditionally Challenging

- 3459** 1898-S MS65+ NGC. The 1898-S has a respectable mintage of close to 1.4 million pieces, and can be located with minimal effort in AU55 to MS63 grades. Near-Gems are undeniably scarce, and Gems are rare. The present well-struck, orange-gold example has remarkably smooth fields, and the portrait is also nearly free from contact. A brief, narrow strike-through on the cheek does not impact the technical grade. Census: 11 in 65 (1 in 65+), 6 finer (11/23).

INDIAN HALF EAGLES

1909 Five Dollar, MS64
Satiny and Sharp

- 3460** 1909 MS64 PCGS. The 1909 Indian half eagle is plentiful in MS64 but not nearly so much as the 1909-D. This example displays satiny orange-gold luster and is sharp throughout the troublesome headdress feathers. A few light handling marks in the fields are all that limit the grade, save for a lone tick above the PL in PLURIBUS that serves as a pedigree marker. *From The William K. Harter Collection, Part II.* NGC ID# 28DH, PCGS# 8513

1909-D Five Dollar Indian, MS64+
Sharply Detailed, Lustrous Example

- 3461** 1909-D MS64+ PCGS. The 1909-D Indian half eagle claims a substantial mintage of more than 3.4 million pieces, making the issue readily available in grades up to the MS64 level, but the population drops off quickly in finer grades. This Plus-graded Choice specimen displays razor-sharp definition on all design elements and the well-preserved orange-gold surfaces are lustrous and appealing. *From The William K. Harter Collection, Part II.* NGC ID# 28DJ, PCGS# 8514

1909-O Indian Five Dollar, AU Details
Key New Orleans Issue

- 3462** 1909-O — Test Cut — PCGS Genuine. AU Details. The mintmark is lightly worn but still clear on this piece. Rich olive-gold patina encompasses each side, with hints of luster in the recessed devices. Minor marks and wear appear in the fields as usual. A moderate test cut appears on the reverse rim at the D in UNITED, but there are no other obvious impairments.

**1912 Half Eagle, MS64
Scarce Any Finer**

- 3463 1912 MS64 PCGS.** The 1912 Indian half eagle is an available issue in grades up to the MS64 level, but the population drops off dramatically in finer grades. This attractive Choice specimen displays sharply detailed design elements in most areas, with just a touch of softness on the eagle's shoulder. The vivid orange-gold surfaces show only the most insignificant signs of contact, with vibrant mint luster on both sides. PCGS has graded 69 numerically finer examples (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 28DS, PCGS# 8523

**1912 Indian Half Eagle, MS64+
Scarce in Finer Grades**

- 3464 1912 MS64+ PCGS. CAC.** From a mintage of 790,000 pieces, the 1912 half eagle is readily collectible up to the MS64 grade level, but the issue is definitely scarce in finer grades. This Plus-graded Choice example exhibits sharply detailed design elements and well-preserved orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. The high quality within the grade is confirmed by CAC. PCGS has graded 69 numerically finer examples. CAC: 88 in 64, 11 finer (11/23).
NGC ID# 28DS, PCGS# 8523

LIBERTY EAGLES

**1839/8 Ten Dollar, XF Details
Large Letters, Head of 1838**

- 3465 1839/8 Large Letters, Head of 1838 — Cleaned — NGC Details. XF.** The Head of 1838, Large Letters Reverse is a two-year subtype, struck only in 1838 and early 1839. Both issues are scarce. The 1839/8 has a mintage of 25,801 pieces, and is more available than the 1838. The bust leans forward and has a widely curved neck truncation, relative to its familiar successor. This lightly circulated example is moderately glossy from a wipe, and thin marks are seen above the hairbun and across the horizontal shield lines.

**1842 Ten Dollar, AU55
Elusive Small Date Variety**

- 3466 1842 Small Date AU55 PCGS.** The Philadelphia Mint struck a small mintage of 18,623 eagles of the Small Date variety in 1842, before switching over to the Large Date dies later in the year. The Small Date variety is much more elusive than its Large Date counterpart and examples in AU55 condition are rare. This Choice AU specimen shows only light wear on the design elements and the pleasing orange-gold surfaces are lightly abraded, with traces of original mint luster in sheltered areas. Population: 9 in 55, 11 finer (11/23).

From The Kankakee Collection.
NGC ID# 262L, PCGS# 8585

**1847 Ten Dollar Liberty, MS61
Pursued Mint State Type Coin**

- 3467 1847 MS61 PCGS.** The 1847 Philadelphia eagle has the highest mintage of the No Motto type, and is regularly encountered in XF and lower AU grades. But due to the high face value, few collectors saved examples during the 19th century, and today No Motto tens are rare in Mint State. The present coin possesses a good strike and ample sun-gold luster. A pair of rose-red alloy impurities are noted near the right (facing) wingtip.
NGC ID# 262Z, PCGS# 8597

1849 Ten Dollar, AU55
Ex: S.S. Republic

- 3468 1849 AU55 NGC.** Ex: S.S. Republic. An almond-gold No Motto type coin recovered from the famous 1865 shipwreck. Unusual for the issue, the fields are semiprooflike. The centers and stars are typically struck. Liberty's ear and the upper reverse field display moderate marks. Designated on the NGC holder as "Founders Edition #29/50." According to DavidLawrence.com, "only 50 [sets] were produced for the shareholders that helped finance the shipwreck recovery."
 NGC ID# 2635, PCGS# 8601

1856 Ten Dollar, MS61
Lower-Mintage Philly Issue

- 3469 1856 MS61 NGC.** The 1856 is a relatively scarce No Motto issue that has a low mintage of 60,490 pieces. The NGC Census is predominantly in XF and AU grades. Mint State pieces are undeniably rare. The present apricot-gold example shows softly impressed stars, but the remainder of the design is well struck. The fields show a few scuffs consistent with the grade. Census: 11 in 61, 8 finer (11/23).
 NGC ID# 263P, PCGS# 8619

1867 Ten Dollar Liberty, AU50
Only 3,090 Pieces Minted

- 3470 1867 AU50 NGC.** A small mintage of only 3,090 eagles left the Philadelphia Mint in 1867, and few of those coins have survived. The typical grade is just XF. This piece has light green-gold surfaces that are accented by pale rose-gold toning. Small abrasions are only evident upon close inspection. Census: 9 in 50, 34 finer (11/23).
 Ex: FUN Signature (Heritage, 1/2009), lot 5553; Houston Signature (Heritage, 11-12/2012), lot 5079; Long Beach Signature (Heritage, 9/2019), lot 4989; FUN Signature (Heritage, 1/2020), lot 5464; Long Beach / Summer FUN Signature (Heritage, 7/2023), lot 3923.
 NGC ID# 264L, PCGS# 8651

1874-CC Ten Dollar, XF40
Low-Mintage CC-Mint Issue

- 3471 1874-CC XF40 NGC. Variety 1-A.** The Carson City Mint struck a modest production of 16,767 tens in 1874 and Rusty Goe estimates the surviving population at 275 to 300 pieces in all grades. Only one die variety is known. This impressive XF example shows light wear on the design elements, but most interior detail remains intact. The pleasing orange-gold surfaces retain traces of original mint luster and show the expected number of minor abrasions for the grade.
 NGC ID# 2658, PCGS# 8670

1884-S Ten Dollar, MS63
Among Finest Certified

- 3472 1884-S MS63 PCGS. CAC.** The 1884-S is very difficult to obtain in Mint State. In MS63, the grade of the current coin, only 20 others have been so graded by PCGS and NGC combined, and none are finer (11/23). Yellow-gold surfaces exhibit sharply struck design features and pleasing luster. Light marks preclude a finer grade. Population: 17 in 63, 0 finer. CAC: 3 in 63, 0 finer (11/23).
 Ex: New York Signature (Heritage, 12/2011), lot 4670.
 NGC ID# 266C, PCGS# 8705

1891-CC/CC Eagle, AU55
Collectible Carson City Type

- 3473 1891-CC/CC FS-501 AU55 NGC. Variety 3-C.** The repunched mintmark reverse die for the 1891-CC was paired with two different obverse dies to create two varieties, 3-C and 4-C. Variety 3-C is scarcer. The present peach-gold Carson City type coin has a nice strike and displays many pockets of vibrant luster. The surfaces show distributed inoffensive marks.
 NGC ID# 266U, PCGS# 145728 Base PCGS# 8720

1891-CC/CC Ten Dollar, AU58
FS-501, Repunched Mintmark

- 3474 1891-CC/CC FS-501 AU58 NGC. Variety 4-C. Although undesignated as such on the NGC insert, the mintmark is widely repunched. A popular *Cherrypickers'* variety. The 1891-CC is in demand from Carson City type collectors. It is a well-made issue that often exhibits a sharp strike and good eye appeal. The present orange-gold example offers ample luster. Small marks are scattered, but none are of individual relevance.
NGC ID# 266U, PCGS# 145728 Base PCGS# 8720

1901 Ten Dollar, MS66
Lustrous and Well Struck

- 3475 1901 MS66 NGC. Uncirculated Liberty eagles returned in quantity from foreign bank vaults in the decades following World War II. Those coins had been held as gold reserves instead of saved for their numismatic premium, and most were loosely stored. High-grade examples are scarce relative to demand from gold type collectors. The present orange-gold Premium Gem displays refreshingly few marks. A small spot at the base of the shield provides an identifier.
NGC ID# 267P, PCGS# 8747

1901-S Liberty Ten, MS65
Radiant Type Coin

- 3476 1901-S MS65 NGC. This San Francisco issue is an ideal type coin candidate, being plentiful in MS65 and even occasionally seen finer. This Gem example displays radiant cartwheel bands that roll through bright straw-gold patina. A sharp strike adds to the eye appeal, while a few small marks on Liberty's portrait are not bothersome.
From The William K. Harter Collection, Part II.
NGC ID# 267S, PCGS# 8749

1901-S Eagle, MS65
Repunched Date Variety

- 3477 1901-S MS65 NGC. Breen-7075. This repunched date variety shows repunching at the base of the 1 and 9, and on the top of the 0. As a date, the 1901-S ten dollar is plentiful and ideal for type collectors seeking a high-grade early 20th century issue. This example is sharp and radiantly lustrous with pleasing straw-gold and deeper honey hues. No major abrasions are seen.
From The William K. Harter Collection, Part II.
NGC ID# 267S, PCGS# 8749

1901-S Ten Dollar, MS66
Popular Gold Type Coin

- 3478 1901-S MS66 NGC. A beautiful Liberty gold type coin that boasts dynamic cartwheel luster and exemplary peach-gold surfaces. The strike is sharp, and the eye appeal is exceptional. We note only a line below the olive branch. The 1901-S is the most available issue of the series in higher Mint State grades, but specimens of the present quality are desirable and always in demand.
NGC ID# 267S, PCGS# 8749

1906-D Eagle, MS63 Prooflike
Rare With Reflective Fields

- 3479 1906-D MS63 Prooflike NGC. Denver Mint issues of the Liberty eagle type were limited to the 1906-D and 1907-D. Mint State examples can be found without difficulty, but prooflike pieces are rare. PCGS has yet to designate an example as Prooflike, and the Prooflike NGC Census is a mere 11 pieces, predominately at the MS61 and MS62 level. This apricot-gold example has radiant motifs and reflective fields. A narrow mark southeast of star 7 determines the grade. Census: 2 in 63 Prooflike, 0 finer (11/23).
NGC ID# 2685, PCGS# 78760

PROOF LIBERTY EAGLE

1903 Liberty Eagle, PR55
Only 96 Minted

- 3480 1903 PR55 NGC. JD-1, Low R.5.** This Liberty eagle should prove to be an affordable representative from the low-mintage proof issue of 1903 when compared to the small population of higher-grade examples. In all grades, NGC has certified just 45 proofs while PCGS adds another 47 submissions (11/23). Those totals include an unspecified number of resubmissions and cross-overs as John Dannreuther estimates an existing population of 50 to 60 examples. Scattered marks appear on the surfaces of this honey-gold example that shows a trace of rub on the design high-points. A small rim mark above the tip of the coronet and a splash of copper toning at star 11 identify this example.
NGC ID# 28GA, PCGS# 8843

INDIAN EAGLES

1926 Ten Dollar, MS65
Smooth, Lustrous Surfaces

- 3481 1926 MS65 PCGS.** As the second-most available Indian eagle of the series (behind the 1932 issue), only highly graded 1926 coins carry notable numismatic significance above the intrinsic value. Even Gem Uncirculated examples are reasonably available, although finer pieces than MS65 are few and far between. This is a sharply struck Gem with pinpoint sharpness on the headdress and bold detail at the eagle's shoulder. Vibrant orange-gold color radiates from satin-smooth, fully lustrous surfaces. Only a handful of minuscule ticks are seen under magnification.
From The Kankakee Collection.
NGC ID# 28H9, PCGS# 8882

1926 Ten Dollar Indian, MS65
Lustrous Type Coin

- 3482 1926 MS65 NGC.** After the 1932, the 1926 is the most available type coin issue in the Indian eagle series, especially in Gem condition. This frosty example displays a pleasantly sharp strike and warm orange-gold luster. A couple tiny ticks on Liberty's cheek and another in the reverse field to the left of the eagle's neck serve as pedigree markers, while the overall eye appeal is pleasing.
NGC ID# 28H9, PCGS# 8882

1926 Eagle, MS65
Frosty Original Mint Luster

- 3483 1926 MS65 NGC.** Beautifully frosted surfaces yield original wheat-gold and pale rose hues across each side of this Gem 1926 Indian ten. The 1926 is a popular type coin, often being available in high grade and coming quite attractive. This piece upholds those attributes and combines them with excellent preservation.
From The William K. Harter Collection, Part II.
NGC ID# 28H9, PCGS# 8882

1926 Ten Dollar, MS65
Beautifully Luminous Surfaces

- 3484 1926 MS65 PCGS.** This coin displays frosty mint luster with rich sun-gold and peach-orange hues. Each side glistens and is beautifully preserved, presenting significant eye appeal, as is expected of the Gem grade level. The 1926 is available as fine as MS65, but the current coin represents uncommonly strong eye appeal, even for this issue.
From The William K. Harter Collection, Part II.
NGC ID# 28H9, PCGS# 8882

LIBERTY DOUBLE EAGLES

1850 Twenty Dollar, AU53
Collectible First Year of Issue

- 3485 1850 AU53 NGC.** As the first official double eagle issue, the 1850 remains popular with collectors. This lightly worn example displays light, scattered marks over each side and minor high point wear. The yellow-gold obverse is luminous, while the reverse periphery shows stronger luster. An appealing piece for the grade.
Ex: ANA Signature (*Heritage*, 8/2007), lot 3265.
NGC ID# 268F, PCGS# 8902

1851-O Double Eagle, XF45
Scarce New Orleans Mintmark

- 3486 1851-O XF45 NGC. Variety 1.** A die chip west of Liberty's eye is the pick-up point for the first of seven die pairs known for the 1851-O twenty. The issue is popular with New Orleans type collectors, since other Southern gold twenty dollar issues are scarce to rare. This orange-gold example offers many pockets of mint luster, though Liberty's hair confirms a stint in antebellum commerce. A mark is noted across OF.
NGC ID# 268J, PCGS# 8905

1851-O Twenty Dollar, AU55
Early New Orleans Issue

- 3487 1851-O AU55 NGC. Variety 1.** The second-year 1851-O is the most available New Orleans issue of the denomination, and under strong demand from Southern gold type collectors. Most survivors are in XF40 to AU55 grades. This olive-gold representative displays light wear on the wingtips and Liberty's curls. Pockets of luster are prevalent on both sides. A few moderate marks are distributed. An opportunity to acquire a sharp example at a four-figure cost.
NGC ID# 268J, PCGS# 8905

1854 Small Date Twenty, AU58
Ex: S.S. Republic

- 3488 1854 Small Date AU58 NGC.** Ex: S.S. Republic. According to the NGC Census, 32 1854 Small Date twenties were recovered from the October 25, 1865 shipwreck of the S.S. Republic. About half of those coins are in AU58 and finer grades. The 1854 is scarce at the near-Mint level and rare any finer. This almond-gold representative displays fewer marks than anticipated. Luster is noticeable throughout the legends and devices.
NGC ID# 268P, PCGS# 8911

1855-S Double Eagle, MS60
Rare in Mint State

- 3489 1855-S MS60 PCGS.** The 1855-S carries only a modest premium above melt in grades through AU50, but only a tiny percentage of survivors remain in Mint State. This second-year San Francisco twenty provides peach-gold luster and is devoid of consequential contact. The strike is sharp. A desirable example that would prove difficult to improve upon. Population: 7 in 60, 36 finer (11/23).
NGC ID# 268X, PCGS# 8916

1857-S Twenty Dollar, MS63
Ex: S.S. Central America

- 3490 1857-S Spiked Shield, Variety 20A, MS63 PCGS.** Ex: S.S. Central America, SSCA 2106. A pair of thin die lines near the left shield border identify the "Spiked Shield" variety, named by S.S.C.A. numismatist Robert Evans. Delivery from the dies was apparently shortly prior to the August 20, 1857 departure of the S.S. Sonora for Panama. Those double eagles were transported across the isthmus onto the S.S. Central America. The ship departed September 3, 1857, and sank nine days later in the aftermath of a hurricane. The present impressive orange-gold example has a practically pristine reverse, and the obverse field is uncommonly smooth. The cheek displays moderate grazes. Housed in a gold-label holder.
PCGS# 70000 Base PCGS# 8922

1857-S Double Eagle, MS63
Ex: S.S. Central America

- 3491 1857-S Narrow Serif, Variety 20C, MS63 PCGS.** Ex: S.S. Central America, SSCA 4536. The "Narrow Serif" variety is named after the thin line comprising the left serif of the U in UNITED. The mintmark is furthest left among the eight varieties cataloged by Robert Evans. Variety 20C is significantly scarcer than the often-encountered "Spiked Shield" Variety 20A. The present peach-gold example is lustrous and lovely with a good strike and attractive eye appeal.
 PCGS# 70002 Base PCGS# 8922

1860 Double Eagle, AU58
Uncommonly Attractive for the Grade

- 3492 1860 AU58 PCGS.** This medium-gold presents a sharp strike with smooth, minimally bagmarked surfaces. The coin displays preservation that epitomizes borderline Mint State condition — only scant signs of circulation exist. A small mark at the E in STATES is noted, but it does not significantly impede the coin's overall appeal. More than 100 1860 double eagles recovered from the S.S. Republic greatly increased the number of near-Mint and Mint State 1860 examples, but based on its appearance, this coin does not appear to be one of the seawater recoveries.
From The Kankakee Collection.
 NGC ID# 269D, PCGS# 8929

1861-S Double Eagle, AU58
Rare Any Finer

- 3493 1861-S AU58 NGC.** Like most Type Two issues, the 1861-S is rare in Mint State. Borderline Uncirculated examples are scarce yet affordable. The present peach-gold, near-Mint twenty is well struck and partly lustrous. We note a field scuff northeast of the eagle's head, but the remainder of the coin is lightly abraded given its service in commerce.
 NGC ID# 269K, PCGS# 8935

1867 Twenty Dollar, AU53
Partial Field Reflectivity

- 3494 1867 AU53 NGC.** This Type Two double eagle from a mintage of just more than a quarter million coins shows partial prooflikeness in the fields and impressive strike definition despite scattered abrasions and a bit of high-point rub. Clearly an early impression from the dies.
 NGC ID# 269Z, PCGS# 8951

1873 Open 3 Twenty Dollar, MS61
Lustrous Yellow-Gold Surfaces

- 3495 1873 Open 3 MS61 NGC.** An Open 3 example makes an ideal type coin for any double eagle collection. In addition, the 1873 Open 3 has the distinction of being the most collectible issue in the Type Two subseries. This brilliant and vibrant yellow-gold example displays frosted surfaces that are far better than the MS61 grade suggests. The strike is sharp and distractions are remarkably few for the assigned grade.
 NGC ID# 26AH, PCGS# 8967

1873 Double Eagle, MS61
Open 3, Lustrous Type Coin

- 3496 1873 Open 3 MS61 PCGS.** On January 18, 1873, Chief Coiner Archibald Loudon Snowden complained to U.S. Mint Director James Pollock that the final digit of the new date logotype too closely resembled an 8 instead of a 3. Pollock, in turn, requested that the engraving department provide new "Open 3" date punches. The distinction was largely ignored by collectors until publicized nearly a century later by numismatist Harry X Boosel. The present Open 3 twenty is lustrous and pleasing. The apricot-gold surfaces are well struck and display fewer marks overall than expected for the grade.
 NGC ID# 26AH, PCGS# 8967

1873 Double Eagle, MS62
Open 3, Scarce in Higher Grades

- 3497 1873 Open 3 MS62 PCGS.** As one of the most available dates in the entire Liberty Head series, the 1873 Open 3 is also one of the most-sought representatives of the Type Two design in Mint State. Rich, variegated orange-gold color covers the deeply frosted surfaces of this pleasing MS62 example. Minor field chatter and luster grazes visit the obverse, while the reverse shows scattered small marks and a long, curved indent above TWENTY. NGC ID# 26AH, PCGS# 8967

1874-CC Double Eagle, XF40
Attractive and CAC-Approved

- 3498 1874-CC XF40 PCGS. CAC. Variety 4-A.** Diagnostic markers include a die chip on Liberty's neck and the widely spaced mintmark. This eye-appealing XF40 representative maintains surprisingly vibrant luster around the hidden areas and lovely reddish-gold color overall. Characteristically defined for a Type Two twenty with marked central softness. Few CAC-approved examples at this grade level.
Ex: October Signature (Heritage, 10/2020), lot 3556.
NGC ID# 26AP, PCGS# 8971

1875 Twenty Dollar Liberty, MS61
Lustrous and Pleasing for the Grade

- 3499 1875 MS61 NGC.** The 1875 double eagle is a plentiful Type Two coin in Mint State, with low-end pieces being accessible to collectors of even modest means. This piece is appealing for the grade. Although moderate abrasions prevent a finer designation, they are light, and the warm orange-gold surfaces display pleasing satin mint luster.
From The William K. Harter Collection, Part II.
NGC ID# 26AS, PCGS# 8973

1875-S Double Eagle, MS61
Lustrous, Colorful Surfaces

- 3500 1875-S MS61 PCGS.** The 1875-S twenty dollar Liberty claims a substantial mintage of more than 1.2 million pieces, making the issue reasonably available in lower Mint State grades. This impressive MS61 example exhibits sharply detailed design elements throughout and the lustrous orange-gold surfaces show the expected number of minor contact marks and luster grazes for the grade. NGC ID# 26AU, PCGS# 8975

1875-S Double Eagle, MS62
Lustrous Condition Rarity

- 3501 1875-S MS62 NGC.** The 1875-S mintage was large — more than 1.2 million pieces were struck. Much of the production was used for international payments. Despite many examples found in foreign holdings, the 1875-S remains scarce in MS62 and rare any finer. This is a lustrous, brassy-gold coin with a sharp San Francisco Mint strike and far fewer abrasions than usually seen for the issue. NGC reports only 18 finer examples, plus six in 62+ (10/23). NGC ID# 26AU, PCGS# 8975

1876 Double Eagle, MS61
Two Rays Subtype

- 3502 1876 MS61 NGC.** The ephemeral Light Motto subtype, is distinguished by two long rays clustered above the left (facing) wing; while the more familiar Heavy Motto subtype (also struck at Philadelphia in 1876) displays three short rays just above that wing. The Light Motto is a single-year subtype abandoned with the advent of the Type Three design. It is not seen on Carson City or San Francisco twenties. The present lustrous butter-gold example is nicely struck and possesses a number of small marks appropriate for the MS61 level. NGC ID# 26AV, PCGS# 8976

**1876 Twenty Dollar, MS62
Scarce Finer**

- 3503 1876 MS62 NGC.** Heavy Motto. The surfaces of this scarce, final-year, Two P-mint twenty display scattered light marks, yet the coin is notable for its frosty, bright luster and mint-fresh eye appeal. While the 1876 is available in circulated grades and in the lowest Mint State categories, it is seldom seen finer than this MS62 coin. NGC reports a mere 51 numerically finer examples plus three in 62+ and one in 62★ (10/23). NGC ID# 26AV, PCGS# 8976

**1876-CC Double Eagle, XF40
Luster Remains in the Fields**

- 3504 1876-CC XF40 NGC. Variety 8-D.** This is the only documented die pair that uses the Wide CC reverse for 1876. This lightly circulated example displays hints of luster in the fields with uniform orange-gold patina. Minor abrasions accompany the grade, including field chatter and an old reed mark in front of Liberty's ear. Among Carson City double eagles, the 1876-CC is plentiful, making it popular with type collectors of branch mint coinage. NGC ID# 26AW, PCGS# 8977

**1876-CC Twenty Dollar, AU Details
Ample Luster Remains**

- 3505 1876-CC — Cleaned — NGC Details. AU. Variety 3-A.** A loupe reveals a few faint hairlines, but this AU-level Carson City double eagle does not otherwise appear cleaned to the unaided eye. Warm orange-gold patina and ample mint luster complement the bold strike. Light, scattered abrasions are typical of the issue, though eye appeal is far better than expected.

**1876-S Type Two Twenty, MS61
CAC Approved**

- 3506 1876-S MS61 NGC. CAC.** Ex: Granite Lady Hoard. The 1876-S was the final West Coast Type Two issue. This Mint State representative displays plentiful honey-gold luster. The obverse field has a few moderate marks, and both sides display a number of tiny dark gray flecks, as coined. Only a small percent of MS61 examples have CAC confirmation. NGC ID# 26AX, PCGS# 8978

**1877 Twenty Dollar Liberty, MS62
Appealing Mint Luster**

- 3507 1877 MS62 NGC.** The Type Three reverse was introduced on the double eagle in 1877, featuring the denomination fully spelled out, among other changes to the orientation of the central relief elements. On the obverse, the Liberty portrait was also modified to include sharper detailing in the hair. This Mint State coin displays softly frosted peach-gold color with minor abrasions. Eye appeal pleases for the grade. NGC ID# 26AY, PCGS# 8982

**1877-S Double Eagle, MS62
Frosty Luster, Original Peach-Gold Color**

- 3508 1877-S MS62 PCGS. CAC.** Small S. A blend of frosty luster and original peach-gold color lends incredible eye appeal to this CAC-approved Type Three double eagle. A sharp strike enhances the overall quality of this 1877-S representative, which is just about the finest most collectors could hope to find. There are 39 numerically finer submissions at PCGS (11/23). NGC ID# 26B2, PCGS# 8984

**1883-CC Twenty Dollar, AU53
Bright Mint Luster Remains**

- 3509 1883-CC AU53 PCGS. Variety 2-A.** Bagmarks are the bane of 1883-CC double eagles, but this About Uncirculated coin is unexpectedly free of any heavy or distracting marks. A few light abrasions appear under a loupe. Mint luster remains strong on this briefly circulated example, surrounding the devices and encompassing most of the reverse. While the 1883-CC is readily available from its 59,962-piece mintage, few coins are as sharp and pleasing as this glistening, orange-gold representative.
From The Kankakee Collection.
NGC ID# 26BH, PCGS# 8999

**1883-CC Twenty Dollar, Unc Details
Bright and Satiny**

- 3510 1883-CC — Obverse Scratched — NGC Details. Unc. Variety 2-A.** A heavy obverse scratch is well hidden along Liberty's hairline, extending the length of the portrait with little aesthetic obstruction. Bright butter-gold luster complements a sharp strike, while light abrasions overall are typical of the issue. A loupe reveals minor obverse hairlines. The 1883-CC is a plentiful Type Three Carson City issue, boasting a mintage of 59,962 coins — and ideal choice for branch mint type collectors.

1884-CC Double Eagle, AU Details

- 3511 1884-CC — Cleaned — NGC Details. AU. Variety 1-A.** The 1884-CC has less than one-tenth the mintage of its West Coast 1884-S cousin. In lightly circulated grades, the 1884-CC is collectible but scarce relative to demand. The present partly lustrous representative displays delicate hairlines, but marks are few save for faint field lines near the left (facing) wing. Peach-gold toning accompanies the date and upper reverse legends.

**1884-CC Twenty Dollar, AU58
The Only Confirmed Die Pair**

- 3512 1884-CC AU58 NGC. Variety 1-A.** Despite hundreds of 1884-CC twenties found in foreign hoards, this Carson City date remains scarce by demand and popular among double eagle collectors. This near-Mint State example has its share of the unavoidable abrasions but shows little actual wear. Original deep orange-gold color includes a sparse overlay of bag grime, while the sharply struck motifs reveal a scattering of incidental bagmarks.
NGC ID# 26BK, PCGS# 9001

**1884-CC Double Eagle, AU58
Impressive Old West Gold**

- 3513 1884-CC AU58 NGC. Variety 1-A.** An impressive Carson City representative, due to abundant caramel-gold luster throughout design elements. A good strike, and the absence of mentionable marks, ensure that the quality will please the knowledgeable specialist. CC-mint twenty dollar issues are invariably scarcer than their San Francisco counterparts, and problem-free examples will always be in demand.
NGC ID# 26BK, PCGS# 9001

**1893 Double Eagle, MS63
Challenging Above This Level**

- 3514 1893 MS63 NGC.** David Akers called the 1893 "a moderately scarce date, certainly much more scarce than most of the Philadelphia Mint Liberty Heads that follow." It remains accessible through MS63, becoming more more challenging above that level. This sharp orange-gold example glistens with frosty luster. Abrasions are minor.
NGC ID# 26C8, PCGS# 9022

1894 Twenty Dollar, MS64+
Frosty and Clean for the Grade

- 3515 1894 MS64+ NGC.** This near-Gem is only a half point away from joining some of the finest examples of the date at both services. Frosty, strongly struck surfaces are clean with orange-gold color and minimal grazes for the Choice assessment. Eye appeal is lovely. NGC reports only nine numerically finer submissions (11/23). NGC ID# 26CB, PCGS# 9025

1896-S Double Eagle, MS63
Accents of Rose and Green-Gold

- 3516 1896-S MS63 NGC.** Medium S. Accents of rose and green-gold color paint this strong Select Mint State 1896-S double eagle (mintage of 1.4 million coins). As expected, each side shines with brightly frosted and wholly original mint luster. Light ticks appear throughout, but they are minor. NGC ID# 26CG, PCGS# 9030

1896-S Twenty Dollar, MS63
Cartwheel Luster

- 3517 1896-S MS63 NGC.** Medium S. San Francisco gold generally comes frosty, and that is on full display here. Cartwheel luster rolls over strongly detailed yellow-gold surfaces. Scattered grazes and other small abrasions explain the Select Mint State assessment. One of them is a shallow horizontal depression northwest of the mintmark. NGC ID# 26CG, PCGS# 9030

1899-S Double Eagle, MS63
Rich Mint Luster

- 3518 1899-S MS63 NGC.** The 1899-S double eagle is generally available in the middle and lower Mint State grades, while examples become major rarities in MS65. This collectible Select example displays original sun-gold luster and well-defined central devices and border stars. Myriad light abrasions on the obverse deny a finer grade, but none are individually noteworthy. NGC ID# 26CN, PCGS# 9036

1901 Twenty Dollar, MS64
Lower-Mintage Philadelphia Issue

- 3519 1901 MS64 NGC.** The 1901 is an underappreciated issue. The mintage was only 111,430 pieces, and although nice Mint State examples can be found, they are scarce relative to many other 20th century Liberty twenty dollar issues. The present crisply struck near-Gem exhibits an uncommonly smooth reverse. The obverse shows moderate contact consistent with the grade. NGC ID# 26CS, PCGS# 9039

1901 Liberty Twenty, MS64
Rich Original Mint Luster

- 3520 1901 MS64 PCGS. CAC.** Radiant luster and exquisitely struck motifs highlight this attractive near-Gem twenty. Some minute luster grazes on bright yellow-gold surfaces preclude full Gem status, but overall eye appeal is outstanding. The 1901 is a popular date with 20th century type collectors.
Ex: Dallas Signature (Heritage, 11/2007), lot 2431.
From The William K. Harter Collection, Part II.
NGC ID# 26CS, PCGS# 9039

**1904 Twenty Dollar, MS65
Pristine Fields**

- 3521 1904 MS65 NGC.** The fields are pristine on this piece, and only some faint slide marks on Liberty's cheek prevent an even finer grade from NGC. The strike is sharp, complementing rich orange-gold patina that enlivens the radiant cartwheel effect. Eye appeal is outstanding. The 1904 in Gem condition is an ideal type coin.
From The William K. Harter Collection, Part II.
NGC ID# 26CY, PCGS# 9045

**1904 Twenty Dollar, MS65
Appealing Cartwheel Luster**

- 3522 1904 MS65 NGC.** Beautiful, glistening cartwheel luster adorns the honey-gold and peach-orange surfaces of this Gem 1904 double eagle. The strike is sharp, and eye appeal is outstanding, with no overt abrasions. The availability of the 1904 issue makes it popular with type collectors when found at the Gem grade level.
From The William K. Harter Collection, Part II.
NGC ID# 26CY, PCGS# 9045

**1904 Double Eagle, MS65
Sharp and Lustrous**

- 3523 1904 MS65 NGC.** The 1904 double eagle is the most plentiful issue in the Liberty Head series, popular with type collectors in Gem or better grades and gold investors in lower grades. This Gem type coin displays a sharp strike and radiant, satiny sun-gold luster. A few light marks on the obverse are all that limit the grade, and eye appeal is pleasing.
From The William K. Harter Collection, Part II.
NGC ID# 26CY, PCGS# 9045

**1904 Double Eagle, MS65
Ideal Type Candidate, CAC Endorsed**

- 3524 1904 MS65 PCGS. CAC.** A mintage exceeding 6.2 million pieces makes the 1904 Liberty twenty plentiful even at the Gem Uncirculated level. This is a brilliant and frosty, yellow-gold example — sharply struck, with only a few microscopic obverse ticks in the fields and an unblemished cheek on Liberty. Vibrant cartwheel mint luster adds to the outstanding eye appeal. CAC endorsement is granted to only about 3% of all MS65 examples, the ultimate series type coin.
NGC ID# 26CY, PCGS# 9045

**1904 Twenty Dollar, MS63 Prooflike
Seldom Seen With Such Contrast**

- 3525 1904 MS63 Prooflike PCGS.** Only a minuscule fraction of the hundreds of thousands of 1904 double eagles certified qualify for a formal Prooflike designation. This is one of them, with deeply reflective fields and needle-sharp definition over the devices. Orange-gold surfaces with partial contrast exhibit scattered bagmarks. PCGS lists 12 numerically finer Prooflike submissions (11/23).
NGC ID# 26CY, PCGS# 89045

**1907 Liberty Double Eagle, MS64
Last P-Mint Issue in the Series**

- 3526 1907 MS64 NGC.** Near-Gem 1907 double eagles are relatively scarce compared to earlier P-mint dates from the 1900s. Full Gem Uncirculated coins are nothing short of rare. This is a sharp and attractive MS64 example that exhibits sharper than expected definition on Liberty's hair and frosty, highly lustrous surfaces. Tiny marks and shallow abrasions exist, but they do little to diminish the Mint-fresh eye appeal. PCGS reports only 38 numerically finer examples, plus 89 in 64+ (11/23).
NGC ID# 26D7, PCGS# 9052

1907-D Liberty Double Eagle, MS63
Popular Branch Mint Type Coin

- 3527 1907-D MS63 PCGS.** The Denver Mint produced a substantial mintage of 842,250 Liberty double eagles in 1907, just its second year of coinage operations. The 1907-D is an available issue in high grade today and it represents the final year of the Liberty design, making it a popular choice of branch mint type collectors. This impressive Select example exhibits sharply detailed design elements and lightly marked orange-gold surfaces, with vibrant mint luster and outstanding eye appeal.
From The William K. Harter Collection, Part II.
NGC ID# 26D8, PCGS# 9053

SAINT-GAUDENS DOUBLE EAGLES

1907 Arabic Date Saint-Gaudens Twenty, MS63
First Generation Holder

- 3528 1907 MS63 PCGS.** The debut Arabic Date issue in the Saint-Gaudens double eagle series is available in a range of grades as fine as MS66, although mid-level pieces such as this MS63 coin are in demand among budget-conscious type collectors and gold investors. Softly frosted orange-gold and peach hues adorn the minimally marked surfaces, and the devices are well brought up. Housed in a first generation "rattler" holder.
NGC ID# 26F5, PCGS# 9141

1907 Saint-Gaudens Twenty, MS63
Arabic Date

- 3529 1907 MS63 PCGS.** The first-year Saint-Gaudens issue with the Arabic date is a popular No Motto type coin. This collectible Select example displays butter-gold luster and is well struck. Scattered, unobtrusive abrasions prevent a finer numeric grade from PCGS, but eye appeal remains pleasing for the grade.
NGC ID# 26F5, PCGS# 9141

1907 Saint-Gaudens Twenty, MS64
No Motto Type Coin

- 3530 1907 MS64 NGC.** A collector-grade Mint State example of this debut Arabic Date issue, suitable for type or date purposes for the budget-conscious collector. Light abrasions are consistent with the grade, none being particularly bothersome. Some lightness of strike in the centers is consistent with norms for the issue.
NGC ID# 26F5, PCGS# 9141

1907 Saint-Gaudens Double Eagle, MS65
Arabic Date Type Coin

- 3531 1907 MS65 PCGS.** Lustrous surfaces yield a radiant cartwheel effect on each side of this Gem 1907 Arabic Date Saint-Gaudens twenty. Well-struck devices add to the eye appeal. The fields are mostly clean, while a few light marks on the high points of Liberty's figure prevent a finer numeric grade.
From The William K. Harter Collection, Part II.
NGC ID# 26F5, PCGS# 9141

1907 Arabic Date Saint-Gaudens Twenty
Appealing Original Patina, MS65

- 3532 1907 MS65 PCGS.** Lovely peach-orange, lilac, and rose-gold hues adorn the Gem surfaces of this 1907 Arabic Date type coin. The strike is well executed for the issue, and a loupe reveals only trivial surface marks in the fields and on the high points of the devices. This issue is plentiful in MS65 and suitable as a type coin.
From The William K. Harter Collection, Part II.
NGC ID# 26F5, PCGS# 9141

1907 Arabic Date Double Eagle, MS65
First-Year Saint-Gaudens Issue

- 3533 1907 MS65 PCGS.** The 1907 Arabic Date Saint-Gaudens double eagle introduced the final version of Saint-Gaudens' design and was produced to the extent of more than 361,000 coins late in the year. Gems like the present are available and suitable type coins. Vibrant peach-gold luster complements well-struck design elements, while minor abrasions are not out of line for the grade.
From The William K. Harter Collection, Part II.
NGC ID# 26F5, PCGS# 9141

1908 No Motto Double Eagle, MS65+
Collectible Gem Type Coin

- 3536 1908 No Motto MS65+ PCGS.** This coin represents an available date in an available numeric grade but with the added perk of a Plus designation, indicating high quality — the perfect marriage of attributes that make a type coin. Satiny peach-gold luster yields few abrasions, and only slight strike softness is noted on Liberty's knee and the eagle's leg. Eye appeal is pleasing.
From The William K. Harter Collection, Part II.
NGC ID# 26F6, PCGS# 9142

1907 Arabic Date Saint-Gaudens Twenty
Frosty MS65+

- 3534 1907 MS65+ PCGS.** Vibrant cartwheel luster adorns this butter-gold Gem 1907 Saint-Gaudens double eagle. The surfaces are frosty and show minimal contact marks, and the Plus designation adds considerable appeal to the coin. The Arabic Date 1907 Saint marks the debut of the short-lived low relief No Motto design and is a popular type coin issue.
From The William K. Harter Collection, Part II.
NGC ID# 26F5, PCGS# 9141

1908 No Motto Double Eagle, MS66
Attractive Type Coin

- 3537 1908 No Motto MS66 NGC.** Luminous, satiny surfaces yield warm peach-gold luster on this well-preserved No Motto 1908 Saint-Gaudens double eagle. Slight strike softness appears on portions of the eagle's plumage and on Liberty's knee, although the torch is well defined. Light marks on the high points of the figure and eagle are not bothersome for the grade.
From The William K. Harter Collection, Part II.
NGC ID# 26F6, PCGS# 9142

1907 Saint-Gaudens Twenty, MS65
Arabic Numerals

- 3535 1907 MS65 PCGS. CAC.** Luster is unbroken throughout this refreshingly unmarked introductory-year Gem. Rich lemon toning cedes to gunmetal hues on the high points. The strike is strong on the Capitol building, although the eagle's leg and Liberty's knee are slightly blunt. The 1907 Arabic Numerals Saint is available in Mint State, presumably due to pieces held abroad as bullion reserves, but most survivors are abraded compared with the present piece.
Ex: Dallas Signature (Heritage, 7/2006), lot 1881; FUN Signature (Heritage, 1/2016), lot 6727.
From The William K. Harter Collection, Part II.
NGC ID# 26F5, PCGS# 9141

1908 No Motto Saint-Gaudens Twenty
Luminous MS66

- 3538 1908 No Motto MS66 NGC.** This No Motto issue was represented by the thousands in the Wells Fargo Hoard, which added to its availability and popularity as a type coin. The current Premium Gem example displays shimmering autumn-gold mint luster. The strike is above average, and a loupe reveals only a few trivial marks, none out of line for the grade.
From The William K. Harter Collection, Part II.
NGC ID# 26F6, PCGS# 9142

**1908 No Motto Double Eagle, MS67
Stunning Luster and Color**

- 3539** 1908 No Motto MS67 NGC. The 1908 No Motto is one of the most plentiful dates in the series and is by far the most available No Motto issue. Type coins are available to most collectors as fine as MS67, and some of these — such as the present example — exhibit tremendous visual appeal and technical quality. Rich orange-gold and lilac-rose hues adorn the unabraded fields. The strike is excellent. NGC ID# 26F6, PCGS# 9142

**1908 No Motto Double Eagle, MS67
Pleasing and Lustrous**

- 3540** 1908 No Motto MS67 NGC. Satiny orange-gold and honey hues adorn the Superb Gem surfaces of this No Motto type coin. The eagle's leg and Liberty's knee show slight strike softness, but the overall definition is pleasing. No distracting abrasions are apparent. The 1908 No Motto double eagle is plentiful in this grade and affords collectors of modest means the ability to acquire a high-end Saint. NGC ID# 26F6, PCGS# 9142

**1908 No Motto Double Eagle, MS66
Ex: Wells Fargo Hoard**

- 3541** 1908 No Motto, Wells Fargo Nevada, MS66 NGC. Ex: Wells Fargo Nevada Gold. Consistent with the reputation of Wells Fargo Hoard coins, this Premium Gem 1908 No Motto double eagle is beautifully preserved and displays pleasing orange-gold luster with a soft, satiny texture. Trivial central strike softness is hardly noticed. Eye appeal is excellent. NGC ID# 26F6, PCGS# 99142 Base PCGS# 9142

**1908 No Motto Twenty, MS67
Wells Fargo Hoard Example**

- 3542** 1908 No Motto, Wells Fargo Nevada, MS67 PCGS. Ex: Wells Fargo Nevada Gold. A delightful Superb Gem from the famous Wells Fargo Hoard, this coin exhibits razor-sharp definition on all design elements, with fine detail on the Capitol and Liberty's facial features. The virtually flawless orange-gold surfaces radiate vibrant mint luster from both sides and eye appeal is terrific. From the final year of the short-lived No Motto design. NGC ID# 26F6, PCGS# 99142 Base PCGS# 9142

**1908-D No Motto Twenty, MS65
Rich Orange-Gold Patina**

- 3543** 1908-D No Motto MS65 NGC. While the 1908 No Motto Philadelphia issue is readily available in just about any grade desired, the Denver No Motto coin is only typically available as fine as MS65. NGC and PCGS combined report only 22 finer pieces (11/23). This coin displays a bold strike and vibrant orange-gold mint luster, with no significant abrasions. Census: 48 in 65 (1 in 65+), 6 finer (11/23). NGC ID# 26F7, PCGS# 9143

**1908-D Motto Double Eagle, MS65
Seldom Offered Finer**

- 3544** 1908-D Motto MS65 PCGS. Vibrant cartwheel luster yields mainly orange-gold hues with lilac and deeper rose elements in the obverse peripheries. The strike is well executed, and minor abrasions are not distracting or out of line for the grade. The 1908-D With Motto issue is occasionally available in this grade, but finer pieces are scarce with only a few dozen reported (11/23). *From The William K. Harter Collection, Part II.* NGC ID# 26F9, PCGS# 9148

**1908-D Twenty Dollar, MS65
With Motto Variant
Beautifully Preserved**

- 3545 1908-D Motto MS65 PCGS.** The fields are exceptionally clean on this piece, yielding luminous orange-gold mint luster and a vibrant cartwheel effect. Minor handling marks on the high points of Liberty's figure appear to be all that deny an even finer grade. The strike is bold, and eye appeal exceeds expectations for the grade. PCGS reports 42 numerically finer pieces (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 26F9, PCGS# 9148

**1909-D Twenty Dollar Saint-Gaudens, MS63
Low-Mintage Denver Issue**

- 3546 1909-D MS63 PCGS.** Bright prairie-gold luster forms vibrant cartwheel bands around each side of this Select 1909-D Saint-Gaudens double eagle. The strike is sharp, and minimal abrasions are present for the grade. This Denver issue is elusive in Mint State, coming from a small mintage of only 52,500 pieces.
From The William K. Harter Collection, Part II.
NGC ID# 26FD, PCGS# 9152

**1909-S Double Eagle, MS64
Normal Mintmark**

- 3547 1909-S MS64 PCGS.** There are at least five repunched mintmark varieties that are identified for the 1909-S double eagles. Those with a normally formed mintmark are the minority of known examples, although many of the others have escaped identification. This is an exceptional example for the grade with a sharp strike, minimal marks, and frosty orange-gold luster.
NGC ID# 26FE, PCGS# 9153

**1909-S Double Eagle, MS64
Pleasing for the Grade**

- 3548 1909-S MS64 PCGS.** Students of the Saint-Gaudens series will appreciate the large areas of the fields that are devoid of abrasions on this coin, with only a cluster of grazes near the 3 o'clock rim prevent Gem consideration. Satiny luster and orange-gold patina complement the preservation, while the only notable strike softness appears on the torch.
NGC ID# 26FE, PCGS# 9153

**1909-S Double Eagle, MS64
Boldly Struck**

- 3549 1909-S MS64 PCGS.** Bright honey-gold mint luster displays as satiny cartwheel bands on each side of this near-Gem 1909-S double eagle. The devices are boldly struck, and only a few minor abrasions prevent Gem classification. The 1909-S is plentiful in this grade but becomes increasingly elusive at finer levels of preservation.
NGC ID# 26FE, PCGS# 9153

**1909-S Double Eagle, MS64+
Minor Repunched Mintmark Variety**

- 3550 1909-S MS64+ PCGS. VP-002. Repunched Mintmark.** The mintmark is repunched on this piece, although it is not the FS-501 Cherry-pickers' variety. NGC lists it as VP-002. The secondary S is punch southwest of the primary mintmark and is tilted right by comparison. The coin displays satiny orange-gold luster and is boldly struck, with minimal surface marks for the grade. The Plus designation is well suited to this coin.
From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 9153

1909-S Double Eagle, MS65
Rarely Available Finer

- 3551 1909-S MS65 NGC.** The 1909-S is much less available in Gem condition than most common dates in the series, and finer examples are rare, with just 13 reported at NGC (11/23). This piece is well struck and displays satiny orange-gold luster. A few light abrasions seen under a loupe are not out of line for the grade. NGC ID# 26FE, PCGS# 9153

1909-S Double Eagle, MS65
Eye-Appealing Surfaces

- 3552 1909-S MS65 PCGS.** The 1909-S is among the list of Saint-Gaudens double eagles that are collectible with some patience in MS65 but rare finer. PCGS reports only two dozen submissions numerically finer than the current coin (11/23). Frosty peach-gold luster and well-defined motifs produce strong eye appeal, while a few faint marks on Liberty's figure and the eagle's wing are all that prevent a finer grade.
From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 9153

1909-S Double Eagle, MS65+
Important Plus Designation

- 3553 1909-S MS65+ PCGS.** This is a sharply struck, high-end Gem example of the 1909-S double eagle, showing vibrant orange-gold mint luster and strong eye appeal. The obverse has minimal marks, although a vertical line on the eagle's wing serves as a pedigree marker. The 1909-S is rare in this grade with a Plus designation, and finer pieces are similarly elusive. Population: 19 in 65+, 24 finer (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 9153

1909-S/S Double Eagle, MS65
Among the Finest FS-501 Coins Certified

- 3554 1909-S/S FS-501 MS65 NGC.** The mintmark is tilted sharply right and repunched on this variety. Examples of FS-501 are scarce, and the finest pieces are graded MS65. This top-grade NGC coin displays a bold strike and softly frosted wheat-gold mint luster. A few light, scattered marks are not bothersome for the grade. Eye appeal is excellent. Census: 5 in 65, 0 finer (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 26FE, PCGS# 145741 Base PCGS# 9153

1910-D Twenty Dollar, MS65
Sharply Struck

- 3555 1910-D MS65 PCGS.** The 1910-D is the most plentiful Denver issue in the Saint-Gaudens series struck up to that point, although it is significantly scarcer in high grade than its commonly seen successor, the 1911-D. This Gem coin represents the finest grade usually available, as finer pieces can be elusive. The strike is sharp, and satiny orange-gold luster characterizes the eye appeal. NGC ID# 26FG, PCGS# 9155

1910-D Twenty, MS65
Popular Early Mintmarked Issue

- 3556 1910-D MS65 PCGS.** A sharply struck Gem, as evidenced by crisp detail on the Capitol building, Liberty's fingers, and the eagle's plumage. Greenish-gold surfaces yield pleasing luster and just a few minor marks show that are consistent with the designated grade.
Ex: Summer FUN Signature (Heritage, 7/2009), lot 2278.
From The William K. Harter Collection, Part II.
NGC ID# 26FG, PCGS# 9155

**1910-D Twenty Dollar, MS65+
Scarce With Plus Designation**

- 3557 1910-D MS65+ PCGS.** A high-end Gem representative of this early series branch mint issue, with well-detailed design elements and well-preserved orange-gold surfaces that radiate vibrant mint luster. The 1910-D is very scarce in finer grades. Only 50 examples of the 1910-D have been given the Plus designation in MS65 by PCGS. *Ex: Houston Money Show Signature (Heritage, 12/2015), lot 4748. From The William K. Harter Collection, Part II.* NGC ID# 26FG, PCGS# 9155

**1911-D Twenty, Vibrant MS65
Minor Repunched Mintmark Variety**

- 3558 1911-D MS65 PCGS. Repunched Mintmark.** Not the FS-501 repunched mintmark variety, but there is the faint “ghost” of a secondary D shifted west of the primary mintmark. The coin is boldly struck and displays natural honey-gold mint luster. A vibrant cartwheel effect balances the eye appeal with some light marks on the devices. *From The William K. Harter Collection, Part II.* NGC ID# 26FK, PCGS# 9158

**1911-D Twenty Dollar, MS65
Branch Mint Type Coin**

- 3559 1911-D MS65 NGC.** A boldly struck example of this early Denver issue, showing radiant blond-gold mint luster and strong cartwheel effect. A bold strike adds to the appeal, and there are only slight abrasions on the high points of Liberty's figure. The 1911-D is plentiful among early branch mint issues in the series and is a suitable type coin. *From The William K. Harter Collection, Part II.* NGC ID# 26FK, PCGS# 9158

**1911-D Twenty Dollar, MS65+
Desirable Plus Designation**

- 3560 1911-D MS65+ NGC.** Satiny honey-gold luster engulfs this piece in finely textured cartwheel luster, as is characteristic of the issue. Abrasions are light and minimal, as suggested by the Plus designation. The strike is sharp. While the 1911-D Saint-Gaudens twenty is often available in MS65, a minority of the survivorship is Plus designated.

**1911-D Twenty Dollar, MS65+
Radiant Cartwheel Luster**

- 3561 1911-D MS65+ PCGS.** The Plus designation sets this piece apart from the majority of its peers. Vibrant, satiny mint luster yields warm wheat-gold color on each side, and the design elements are well defined. Only faint marks are discernible with a loupe. The 1911-D is a plentiful early branch mint issue, suitable for type collectors. *From The William K. Harter Collection, Part II.* NGC ID# 26FK, PCGS# 9158

**1911-D Twenty Dollar, MS65
Pleasing for the Grade**

- 3562 1911-D MS65 PCGS. CAC.** A satiny coin with finely textured luster indicative of a later die state. No major abrasions are seen, and the overall eye appeal is excellent for the grade and issue. CAC endorsement is well deserved. The strike is sharp, and eye appeal is pleasing. The 1911-D is relatively plentiful among branch mint issues of the 1910s, and it is a suitable issue for type collections. *From The William K. Harter Collection, Part II.* NGC ID# 26FK, PCGS# 9158

**1911-D Twenty, CAC-Approved MS65
Excellent Luster and Preservation**

- 3563 1911-D MS65 PCGS. CAC.** A boldly struck coin with satiny mint luster and original wheat-gold color. Much of the fields are pristine, and the high points of Liberty's figure are only lightly marked upon close examination. Eye appeal is excellent. Although the 1911-D is plentiful in this grade, CAC-approved coins are elusive by comparison.
From The William K. Harter Collection, Part II.
NGC ID# 26FK, PCGS# 9158

**1911-D Saint-Gaudens Twenty, MS65+
Radiant Surfaces**

- 3564 1911-D MS65+ PCGS. CAC.** An unquestionable Gem, and high-end for the grade as well. Glistening, softly frosted luster yields original sun-gold color across mostly unabraded fields. Even the high points of Liberty's figure show minimal signs of contact. The strike is sharp, and overall eye appeal exceeds expectations for the issue.
From The William K. Harter Collection, Part II.
NGC ID# 26FK, PCGS# 9158

**1911-D Saint-Gaudens Twenty, MS66+
Original Satin Luster**

- 3565 1911-D MS66+ NGC.** This Denver issue is plentiful enough to be suitable for type purposes, but it is much scarcer than the typical common dates such as the 1924 and 1927. This Premium Gem displays well-struck design elements and satiny orange-gold mint luster. The surfaces are devoid of bothersome abrasions.
NGC ID# 26FK, PCGS# 9158

**1911-D Saint-Gaudens Double Eagle, MS66+
Elusive Issue in Finer Grades**

- 3566 1911-D MS66+ NGC.** From a mintage of 846,500 pieces, the 1911-D Saint-Gaudens double eagle is an elusive issue in grades above the MS66 level. This Plus-graded Premium Gem exhibits sharply detailed design elements throughout and the impeccably preserved orange-gold surfaces radiate vibrant mint luster, with outstanding eye appeal. NGC has graded 42 numerically finer examples (11/23).
NGC ID# 26FK, PCGS# 9158

**1911-D Saint-Gaudens Twenty, MS66+
Popular Branch Mint Type Coin**

- 3567 1911-D MS66+ NGC.** The Plus designation sets this piece apart from the majority of its peers. Vibrant, satiny mint luster yields warm wheat-gold color on each side, and the design elements are sharply detailed throughout. Only a few faint contact marks are discernible on close examination with a loupe. The 1911-D is a plentiful early branch mint issue, and a popular choice of type collectors. NGC has graded 42 numerically finer examples (11/23).
NGC ID# 26FK, PCGS# 9158

**1911-D/D Twenty Dollar, MS65
Repunched Mintmark Variety**

- 3568 1911-D/D FS-501 MS65 NGC. CAC.** The mintmark is noticeably repunched on this variety. The current Gem example displays the typical satin luster of the 1911-D issue, with rich orange-gold color and a sharp strike. Most of the fields are clean, and the high points of Liberty's figure show only minor contact marks.
From The William K. Harter Collection, Part II.
NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

**1911-D/D Twenty Dollar, MS65
Elusive CAC Example, FS-501**

3569 1911-D/D FS-501 MS65 PCGS. CAC. An often seen but dramatic repunched mintmark variety, showing the secondary D shifted east of the primary D. This Gem example is an elusive coin with CAC endorsement. Vibrant cartwheel luster yields warm orange-gold patina, and the design elements are well brought up. No major abrasions are observed.

From The William K. Harter Collection, Part II.
NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

**1911-S Twenty Dollar, MS65
Strong Cartwheel Luster**

3572 1911-S MS65 PCGS. The 1911-S double eagle is usually available as fine as MS65, but finer pieces are scarce and may be out of reach for many collectors. This Gem displays radiant sun-gold luster with deeper orange accents around the borders. A few minor abrasions are not out of line for the grade, and the strike is bold aside from the usual softness on the top of the torch.

From The William K. Harter Collection, Part II.
NGC ID# 26FL, PCGS# 9159

**1911-D/D Twenty Dollar, MS66
Beautifully Preserved**

3570 1911-D/D FS-501 MS66 PCGS. This repunched mintmark variety is elusive in Premium Gem condition and nearly uncollectible finer. The present Premium Gem example displays satiny honey-gold mint luster and sharply struck design elements. The lack of severe abrasions adds tremendous visual appeal. Population (FS-501): 80 in 66 (13 in 66+), 1 finer (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FK, PCGS# 145010 Base PCGS# 9158

**1912 Double Eagle, MS62
No Branch Mint Issues**

3573 1912 MS62 PCGS. Some collectors seek an example of every Saint-Gaudens double eagle issue, while others search for a single coin from each year, regardless of the mintmark. However, for 1912, both groups of collectors need the 1912 Philadelphia double eagle as there were no branch mint issues that year. This coinage issue is also one of the 10 lowest mintage Saint-Gaudens double eagles. Housed in a green-label PCGS holder, this piece has trivial, grade-limiting marks on rich orange-gold surfaces.

NGC ID# 26FM, PCGS# 9160

**1911-S Double Eagle, MS65
Seldom Seen in Higher Grades**

3571 1911-S MS65 PCGS. The 1911-S is scarcer in Gem condition than its Denver counterpart, and it is particularly elusive above this grade level. The current coin displays vibrant orange-gold mint luster and is well struck. Faint handling marks are all that deny an even finer grade from PCGS. Eye appeal is pleasing.

From The William K. Harter Collection, Part II.
NGC ID# 26FL, PCGS# 9159

**1913-D Double Eagle, MS64
Popular Collector Grade**

3574 1913-D MS64 NGC. From the start of third-party grading nearly 40 years ago, emphasis has been placed on coins that grade MS65 or finer. However, for many collectors, coins that grade MS64 are highly popular, providing a nearly Gem-level coin at a substantially lower price-point. This Choice Mint State 1913-D double eagle boasts an excellent strike and brilliant orange-gold luster.

NGC ID# 26FP, PCGS# 9162

1913-D Saint-Gaudens Twenty, MS65
Few Available Finer

3575 1913-D MS65 PCGS. The strike lacks virtually nothing on this piece, complemented by satiny orange-gold mint luster and a strong cartwheel effect. Some faint, microscopic grazes on the devices and in the fields prevent a finer grade but are largely unseen by the naked eye. The 1913-D is occasionally available in this grade, but PCGS reports only 14 numerically finer examples (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FP, PCGS# 9162

1913-D Twenty Dollar, MS65
Deep Orange-Gold Color

3576 1913-D MS65 PCGS. Luster glistens across the luminous orange-gold surfaces of this Gem 1913-D Saint-Gaudens twenty, complementing a lack of bothersome abrasions. Only some light marks on the high points of Liberty's figure are noted beneath a loupe. The strike is bold. PCGS reports only 14 numerically finer submissions (11/23).

From The William K. Harter Collection, Part II.
NGC ID# 26FP, PCGS# 9162

1913-D Saint-Gaudens Twenty, MS65
A Rare Date in Finer Grades

3577 1913-D MS65 PCGS. This Denver issue is plentiful through MS64 and is occasionally seen in MS65, but PCGS reports only 14 numerically finer pieces (11/23). Satiny luster illuminates well-preserved surfaces and sharp devices on this Gem example. A few tiny marks are noted, but none are out of line for the grade.

From The William K. Harter Collection, Part II.
NGC ID# 26FP, PCGS# 9162

1913-S Twenty Dollar, MS63
Low-Mintage Issue

3578 1913-S MS63 PCGS. This San Francisco issue boasts a mintage of only 34,000 pieces — the second lowest mintage in the With Motto series. The date remains collectible in Mint State, but attractive pieces are in high demand at all grade levels. This honey-gold Select example displays a pleasing strike with satiny mint luster. Scattered light marks determine the grade.

From The William K. Harter Collection, Part II.
NGC ID# 26FR, PCGS# 9163

1914-D Double Eagle, MS65
Immensely Attractive

3579 1914-D MS65 PCGS. Despite a seemingly small mintage of 453,000 coins, the 1914-D double eagle is plentiful in grades through MS65, although PCGS has certified fewer than 100 submissions in finer grades. This brilliant and lustrous example has frosty yellow surfaces with faint orange overtones, all accompanying sharp design motifs.

NGC ID# 26FT, PCGS# 9165

1914-D Twenty Dollar, MS65
Green Label Holder

3580 1914-D MS65 PCGS. The 1914-D Saint-Gaudens double eagle is plentiful in MS65 but becomes notably scarce in finer grades. This satiny example displays a strong cartwheel effect, while the design elements are boldly brought up. Minor abrasions are not out of line for the grade, and the coin displays considerable eye appeal for the issue. Housed in a green label holder.

From The William K. Harter Collection, Part II.
NGC ID# 26FT, PCGS# 9165

**1914-D Twenty Dollar, MS65
Elusive Any Finer**

- 3581 1914-D MS65 NGC.** The 1914-D Saint-Gaudens double eagle is usually available in grades through MS65, but finer pieces are scarce. This Gem example displays satiny prairie-gold mint luster and well-struck design elements. A few light, unobtrusive abrasions are not bothersome. Eye appeal is pleasing for the grade.
From The William K. Harter Collection, Part II.
NGC ID# 26FT, PCGS# 9165

**1914-D Saint-Gaudens Twenty, MS65+
Rare Plus-Graded Example**

- 3582 1914-D MS65+ NGC.** Although NGC reports more than 700 1914-D twenties in MS65, only 16 of those coins carry a Plus designation (11/23). The present piece is indeed high-end for the grade. Radiant, satiny sun-gold mint luster adorns the Gem surfaces, complementing well-struck central devices. No major abrasions are seen. Finer pieces are scarce.
NGC ID# 26FT, PCGS# 9165

**1914-D Twenty Dollar, MS65+
Vivid Color**

- 3583 1914-D MS65+ PCGS.** Only about 3% of the 1914-D double eagles graded MS65 at PCGS are Plus designated, and finer pieces are nearly as scarce. This high-end Gem displays radiant orange-gold cartwheel luster with lighter yellow-gold and lilac hues around the borders. Eye appeal is excellent. The strike is sharp. Population: 42 in 65+, 97 finer (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 26FT, PCGS# 9165

**1914-S Twenty Dollar, MS65
Pleasing Collectible Example**

- 3584 1914-S MS65 PCGS.** The 1914-S Saint-Gaudens double eagle is plentiful through MS65 but becomes scarcer in higher grades. This example displays a well-defined figure and eagle, with satiny straw-gold luster. Light, unobtrusive marks seen beneath a loupe are not bothersome. Eye appeal is pleasing for the grade.
NGC ID# 26FU, PCGS# 9166

**1914-S Twenty Dollar, MS65
Sharply Detailed and Lustrous**

- 3585 1914-S MS65 NGC.** From a mintage of almost 1.5 million pieces about a million of those went to Europe, where most were used for interbank transfers. Others went to Japan as well as Central and South America. Only about 1,500 1914-S double eagles were released for domestic circulation. This is a vibrant, orange-gold Gem Uncirculated coin, with excellent luster and only a few tiny marks and finely textured surfaces. Sharply struck surfaces offer strong eye appeal.
NGC ID# 26FU, PCGS# 9166

**1914-S Double Eagle, MS65
Popular San Francisco Issue**

- 3586 1914-S MS65 NGC.** This San Francisco issue is plentiful in MS65 but notable more elusive in higher grades. The current coin displays textured but satiny luster, with well-defined central devices. Minor softness is noted on the torch. A few light, scattered marks are not bothersome for the grade.
NGC ID# 26FU, PCGS# 9166

1914-S Twenty Dollar, MS65
Attractively Lustrous

- 3587 1914-S MS65 PCGS.** This San Francisco issue is plentiful in MS65, but the population thins out considerably in lower grades. The current Gem example displays vibrant cartwheel luster with a distinctive satin sheen, while rich orange-gold color warms each side. The strike is bold, and a few small marks on the high points of the figure are all that deny an even finer grade.
From The William K. Harter Collection, Part II.
NGC ID# 26FU, PCGS# 9166

1914-S Twenty Dollar, MS65+
Popular Date From the Teens

- 3588 1914-S MS65+ PCGS.** An available date typically seen with numerous handling marks from years of storage in European vaults. This well-struck example offers exceptionally clean, orange-gold surfaces, save for a mark on the right portion of the eagle that limits the grade.
Ex: ANA Signature (Heritage, 8/2014), lot 4301.
From The William K. Harter Collection, Part II.
NGC ID# 26FU, PCGS# 9166

1915-S Double Eagle, MS63
Sharp and Brilliant

- 3589 1915-S MS63 PCGS. CAC.** Although a few scattered surface marks limit the grade of this piece, the CAC approval lets the collector know that several sets of experienced eyes consider this piece to be an exceptional example at the grade level. The design details are sharply defined and the surfaces display excellent yellow-gold luster.
NGC ID# 26FW, PCGS# 9168

1915-S Double Eagle, MS65
Collectible Branch Mint Issue

- 3590 1915-S MS65 PCGS.** This San Francisco issue is collectible in MS65 and presents a good branch mint type coin option. This piece displays satiny orange-gold luster and a pleasing strike, with only minor softness seen on the torch. A few light abrasions are not out of line for the grade. Eye appeal is pleasing.
NGC ID# 26FW, PCGS# 9168

1915-S Double Eagle, MS65
Strong Mint Luster

- 3591 1915-S MS65 NGC.** The 1915-S is by far the more plentiful of the two double eagle issues produced that year, ideal for date representation. This Gem example displays satiny straw-gold luster enveloping well-defined design elements, with minor abrasions that are consistent with the grade. Eye appeal is pleasing.
From The William K. Harter Collection, Part II.
NGC ID# 26FW, PCGS# 9168

1915-S Double Eagle, MS65+
Elusive With a Plus Designation

- 3592 1915-S MS65+ PCGS.** Ex: San Francisco Gold Hoard. PCGS has certified more than 2,400 1915-S double eagles in MS65, but only several dozen of those coins are Plus designated. This piece displays a sharp strike and satiny orange-gold mint luster. Some light handling marks are evident on the high points of the devices, but none are obtrusive.
NGC ID# 26FW, PCGS# 9168

**1915-S Double Eagle, MS65
CAC Endorsed**

3593 1915-S MS65 PCGS. CAC. The CAC green label sets this Gem 1915-S double eagle apart from the majority of its peers, as less than 5% of certified MS65 coins carry CAC endorsement (11/23). Well-struck devices and satiny orange-gold luster produce pleasing eye appeal, while only minor contact marks are evident beneath a loupe.

From The William K. Harter Collection, Part II.
NGC ID# 26FW, PCGS# 9168

**1915-S Twenty Dollar Saint, MS65
Popular S-Mint Issue**

3594 1915-S MS65 PCGS. CAC. Of the two double eagle issues struck in 1915, the 1915-S is the more often seen in high grade, ideal for representation in a date set. This Gem example displays satiny orange-gold luster that rolls over surprisingly well-defined relief elements. The CAC-approved surfaces are devoid of mentionable abrasions.

Ex: FUN Signature (Heritage, 1/2016), lot 6780.
From The William K. Harter Collection, Part II.
NGC ID# 26FW, PCGS# 9168

**1915-S Double Eagle, MS65+
Few CAC-Endorsed Coins Finer**

3595 1915-S MS65+ PCGS. CAC. A high-end Gem example, CAC-endorsed for quality and eye appeal. This 1915-S Saint-Gaudens double eagle displays a sharp strike and satiny orange-gold luster with only a few trivial marks preventing an even finer grade. The 1915-S is available in Gem condition, but finer coins are notably elusive by comparison.

Ex: Summer FUN Signature (Heritage, 7/2016), lot 4698.
From The William K. Harter Collection, Part II.
NGC ID# 26FW, PCGS# 9168

**1915-S Twenty Dollar, MS65+
High-End for the Issue, CAC Approved**

3596 1915-S MS65+ PCGS. CAC. This is an exceptionally clean example for the grade on the obverse, easily earning the Plus designation and CAC endorsements. Some faint marks within the eagle's feathers on the reverse are all that deny an even finer numeric grade. Vibrant sun-gold luster adorns the sharp devices and glittering fields, while eye appeal is outstanding. Less than 3% of the MS65 population at PCGS is Plus designated.

From The William K. Harter Collection, Part II.
NGC ID# 26FW, PCGS# 9168

**1916-S Double Eagle, MS65
Rich Color**

3597 1916-S MS65 PCGS. The 1916-S is a necessity for *Guide Book* series collectors as well as date collectors, as no other mint produced double eagles this year. This is a well-struck coin overall, although the torch is a touch soft as usual. Minor marks on Liberty's figure and the eagle's wing are all that deny an even finer grade.

From The William K. Harter Collection, Part II.
NGC ID# 26FX, PCGS# 9169

**1916-S Double Eagle, MS65+
Scarce Plus-Designated Piece**

3598 1916-S MS65+ PCGS. PCGS has certified more than 1,300 1916-S double eagles in MS65, but only 55 of those coins are Plus graded. This piece is appreciably well struck and displays vibrant sunset-gold luster, with mostly clean fields. Some tiny marks on Liberty's bust and the eagle's wing prevent full Premium Gem classification. Eye appeal is excellent.

From The William K. Harter Collection, Part II.
NGC ID# 26FX, PCGS# 9169

**1916-S Double Eagle, MS65+
Good Balance of Quality and Availability**

3599 1916-S MS65+ PCGS. The 1916-S Saint-Gaudens double eagle has been overlooked and undervalued by collectors over the years, because of its presence in several hoards that surfaced in the 1970s and 1980s. In high grade, the 1916-S is still a scarce date, and the MS65+ category seems to provide just the right combination of high-grade scarcity and reasonable price. This high-end Gem displays sharply detailed devices, vibrant mint luster, and light greenish-gold surfaces.

Ex: Central States Signature (Heritage, 4/2011), lot 7002.

From The William K. Harter Collection, Part II.

NGC ID# 26FX, PCGS# 9169

**1916-S Double Eagle, MS65+
Elusive CAC-Approved Example**

3600 1916-S MS65+ PCGS. CAC. The reverse of this coin is largely pristine and might grade a point higher by itself, although a few small marks in the right obverse field prevent a numerically finer classification. Nonetheless, the quality is outstanding for the grade, as denoted by the Plus designation and CAC endorsement. A bold strike and warm honey-gold luster contribute to strong eye appeal. CAC-approved coins represent less than 6% of the MS65 population (11/23).

From The William K. Harter Collection, Part II.

NGC ID# 26FX, PCGS# 9169

**1922 Saint-Gaudens Double Eagle, MS65
Rarely Offered Finer**

3601 1922 MS65 PCGS. According to Roger Burdette's research, more than 100,000 1922 double eagles have been repatriated from foreign holdings, making this a plentiful issue in the Saint-Gaudens series up to the Gem level. Finer grades are elusive. Unlike later dates in the 1920s, the 1922 largely escaped the nationalization of gold and subsequent melting. This is a brilliant Gem Uncirculated example, minimally abraded, and well struck except on some of the lower stars. PCGS reports only 16 numerically finer examples, plus 67 coins in 65+ (11/23).

NGC ID# 26G3, PCGS# 9173

**1922-S Double Eagle, MS63
Attractive Luster and Sharpness**

3602 1922-S MS63 NGC. An impressively bold strike spans the central devices, border stars, the torch, and the Capitol building. Frosty prairie-gold luster glistens across each side, and a strong cartwheel effect adds to the eye appeal. Minor abrasions on Liberty's figure prevent a finer grade, although the 1922-S twenty is a challenging acquisition even in MS63.

Ex: The Massachusetts Historical Society, et al (Bowers and Merena, 11/1994), lot 2480.

From The Estate of Charles W. Montgomery, Part II.

NGC ID# 26G4, PCGS# 9174

**1923 Double Eagle, MS65
Rarely Finer**

3603 1923 MS65 PCGS. With a mintage of 566,000 coins and a surviving population that approaches one-third of that production, the 1923 double eagle is plentiful in all grades through MS65, but the collector who seeks a finer example must settle in for a long wait as PCGS has certified just six finer pieces, or about one finer coins every six years. This Gem features a sharp strike and brilliant, frosty yellow luster.

From The Kankakee Collection.

NGC ID# 26G5, PCGS# 9175

1923-D Saint-Gaudens Twenty, MS65
Popular Branch Mint Type Coin

- 3604** 1923-D MS65 PCGS. From a mintage of more than 1.7 million pieces, the 1923-D Saint-Gaudens double eagle is the only readily collectible branch mint issue of the 1920s in high grade, making it extremely popular with type collectors. This delightful Gem exhibits sharply detailed design elements and impeccably preserved orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. NGC ID# 26G6, PCGS# 9176

1923-D Twenty Dollar, MS65
Especially Rich Color

- 3605** 1923-D MS65 PCGS. A satiny Gem example of this plentiful Denver type coin issue, showing bold strike and suitably well-preserved orange-gold luster for the grade. A small mark is noted on Liberty's knee. The 1923-D is one of the few branch mint issues that is widely sought out as a type coin, as the date often has strong eye appeal when found in MS65 or better condition.
From The William K. Harter Collection, Part II.
NGC ID# 26G6, PCGS# 9176

1923-D Saint-Gaudens Twenty, MS66
Popular for Type Purposes

- 3606** 1923-D MS66 NGC. Richly toned with green-gold margins and peach-tinted centers. The fields of this lustrous Premium Gem are exceptionally smooth, and only a few ticks on Liberty's legs exclude the possibility of an even finer grade. The 1923-D is more plentiful than other branch mint postwar twenties, but high-grade pieces are always welcomed in the marketplace.
Ex: FUN Signature (Heritage, 1/2007), lot 6719.
From The William K. Harter Collection, Part II.
NGC ID# 26G6, PCGS# 9176

1924 Saint-Gaudens Twenty, MS66
Incredibly Radiant Luster

- 3607** 1924 MS66 NGC. Exceptionally bright and radiant golden luster immediately separates this Premium Gem 1924 double eagle from the appearance of most of its peers. The devices are also sharp, and the fields are largely clean. The 1924 is a plentiful date in this grade, but remarkably few coins are as attractive as the current piece. NGC ID# 26G7, PCGS# 9177

1924 Double Eagle, MS66
Pleasing Mint Luster

- 3608** 1924 MS66 PCGS. A boldly struck and lustrous example of this type coin issue, showing wheat-gold color and a strong cartwheel effect. A few light marks are all that deny an even finer grade, although there is considerable eye appeal even in the MS66 condition. The availability of the 1924 Saint makes it popular with type collectors and gold investors. NGC ID# 26G7, PCGS# 9177

1924 Twenty Dollar, MS66
Lustrous Type Coin

- 3609** 1924 MS66 NGC. The 1924 is a favorite type coin, being plentiful in high grade. This Premium Gem is well struck and displays soft, satiny wheat-gold mint luster. A few light marks appear beneath a loupe, but none are out of line for the grade. Finer 1924 Saint-Gaudens double eagles may be out of reach for some collectors. NGC ID# 26G7, PCGS# 9177

**1924 Twenty Dollar, MS66
Vibrant Mint Luster**

- 3610 1924 MS66 NGC.** This Premium Gem Saint-Gaudens type coin displays satiny honey-gold mint luster, complementing sharp design elements. The fields are mostly clean, and only a few tiny marks are discernible on the high points of Liberty's figure. Eye appeal is excellent. Finer examples of this date are sometimes seen but are out of reach for many collectors.
From The William K. Harter Collection, Part II.
NGC ID# 26G7, PCGS# 9177

**1924 Twenty Dollar Saint-Gaudens, MS66
Lustrous and Appealing**

- 3611 1924 MS66 PCGS.** The 1924 is the quintessential common date in the Saint-Gaudens double eagle series, plentiful in grades as fine as MS66 and occasionally seen finer. This makes the date ideal for type collectors. The current Premium Gem displays radiant butter-gold luster and a bold strike, with no major abrasions.
From The William K. Harter Collection, Part II.
NGC ID# 26G7, PCGS# 9177

**1925 Twenty Dollar, MS66
A Rarity in Higher Grades**

- 3612 1925 MS66 PCGS.** The 1925 is a plentiful Philadelphia issue, but that availability only extends as far as MS66 up the grade ladder — finer pieces are rare, with only nine reported at PCGS (11/23). This collectible Premium Gem is well struck and displays satiny orange-gold luster, with a pleasing cartwheel effect.
NGC ID# 26GA, PCGS# 9180

**1925 Twenty Dollar Saint-Gaudens, MS66+
Rarely Available in Finer Grades**

- 3613 1925 MS66+ NGC.** Intensely vibrant luster illuminates rich orange-gold hues on this high-end Premium Gem 1925 double eagle. The strike is bold throughout, and only a few faint marks are discernible with a loupe, none of which are obtrusive. The 1925 is a plentiful date in MS66, although Plus-graded pieces are elusive. NGC lists only 35 finer submissions, PCGS just nine (11/23).
NGC ID# 26GA, PCGS# 9180

**1925-D Saint-Gaudens Twenty, MS61
Better Denver Issue**

- 3614 1925-D MS61 NGC.** The 1925-D Saint-Gaudens double eagle is among the more challenging dates of the 1920s. Much of the more than 2.9 million coins struck at Denver this year were melted in the 1930s, leaving a minimal Mint State survivorship. The strike on the present coin is sharp, and each side displays satiny orange-gold mint luster. Scattered abrasions are as expected for the grade.
Ex: Selections from the James A. Stack, Sr. Collection (Stack's, 3/1995), lot 797.
From The Estate of Charles W. Montgomery, Part II.
NGC ID# 26GB, PCGS# 9181

**1926 Twenty Dollar, MS65
Attractive Mint Luster**

- 3615 1926 MS65 NGC.** This Philadelphia issue is plentiful in Gem condition, though not nearly as much as the 1924, 1927, and 1928 issues. It is a suitable type coin for collectors seeking a slightly more challenging acquisition. This piece displays a bold strike and satiny peach-gold mint luster, with only a few tiny marks seen beneath a loupe.
From The William K. Harter Collection, Part II.
NGC ID# 26GD, PCGS# 9183

1926 Double Eagle, MS65
Collectible Philadelphia Issue

- 3616 1926 MS65 PCGS.** Satiny yellow-gold luster and well-defined motifs characterize this Gem 1926 double eagle. A few light marks are seen in the fields and on the devices, but overall eye appeal is excellent for the grade. The 1926 is a plentiful Philadelphia issue, although it is not nearly as common as the 1924 and some other dates from the 1920s.

From The William K. Harter Collection, Part II.
NGC ID# 26GD, PCGS# 9183

1927 Twenty Dollar Saint-Gaudens, MS65
Lustrous and Appealing

- 3619 1927 MS65 NGC.** Hallmarks of the 1927 Saint-Gaudens double eagle include a sharp strike, satiny luster with varying shades of golden color, and a powerful cartwheel effect. These hallmarks also serve as a description of the current coin, which fully embodies what makes the 1927 an appealing type coin issue. Only a few tiny marks prevent a finer numeric grade.

From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1926 Saint-Gaudens Double Eagle, MS65
Medium-Intensity Color

- 3617 1926 MS65 PCGS.** A sharp, satiny Gem example of this plentiful Philadelphia issue, showing orange-gold luster with a few light abrasions as allowed by the grade. The 1926 is an underrated type coin issue, being plentiful at the Gem grade level despite having a population significantly under those of the 1924 and 1927 issues.

From The William K. Harter Collection, Part II.
NGC ID# 26GD, PCGS# 9183

1927 Double Eagle, MS65
Outstanding Satin Luster

- 3620 1927 MS65 PCGS.** The 1927-D Saint-Gaudens double eagle performs widespread service as a type coin, benefiting from a substantial surviving population in grades through MS66. This Gem example displays sharp motifs and smooth, luminous fields. There is a distinct lack of serious abrasions, and eye appeal is excellent.

From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1926 Twenty Dollar, MS66
Rare in Finer Grades

- 3618 1926 MS66 PCGS.** The 1926 double eagle is plentiful in grades through MS66, but PCGS reports only seven Superb Gems finer (11/23), making the current offering among the finest pieces typically available. A bold strike and satiny orange-gold luster complement a radiant cartwheel effect, while a loupe reveals only trivial signs of contact.

From The William K. Harter Collection, Part II.
NGC ID# 26GD, PCGS# 9183

1927 Saint-Gaudens Double Eagle, MS66
Appreciably Well Struck

- 3621 1927 MS66 PCGS.** A pleasing Saint-Gaudens type coin with deep orange-gold patina, satiny luster, and a bold strike. A loupe reveals minimal signs of contact, particularly in the well-preserved fields. Eye appeal is excellent. The 1927 is the second most plentiful issue in the series, ideal as a type coin.

NGC ID# 26GG, PCGS# 9186

1927 Twenty Dollar Saint-Gaudens, MS66
Deep Original Patina

- 3622** 1927 MS66 PCGS. Sharp devices and rich orange-gold patina give this satiny Premium Gem excellent eye appeal, as is expected of the high grade. Minimal surface abrasions are seen with a loupe. The scarcity of higher-grade 1927 Saints puts added demand on attractive MS66 coins, such as the present.
NGC ID# 26GG, PCGS# 9186

1927 Double Eagle, MS66
Sharp and Appealing

- 3623** 1927 MS66 PCGS. This Premium Gem example upholds the reputation of the 1927 double eagle as a sharply struck type coin. Each side is also vibrantly lustrous and well preserved, showing orange-gold mint luster with few marks. Finer 1927 coins will be out of reach for most collectors, especially high-end coins.
NGC ID# 26GG, PCGS# 9186

1927 Double Eagle, MS66
Frosty and Luminous

- 3624** 1927 MS66 PCGS. The 1927 is ranked among the most popular type coin issues, affording collectors ample numbers of survivors from which to be selective when choosing a coin. This Premium Gem is virtually pristine in the fields and even shows excellent preservation of the eagle's wing, while some light marks are noted only on the high points of Liberty's figure. Frosty orange-gold luster boosts the eye appeal even further.
From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1927 Saint-Gaudens Twenty, MS66
Satiny Original Luster

- 3625** 1927 MS66 NGC. The 1927 is one of the top type coin choices in the Saint-Gaudens series, as it is readily available as fine as MS66. The population thins considerably in finer grades, however. This Premium Gem displays satiny sun-gold and peach-orange mint luster, with boldly rendered motifs. Light stacking marks on the high points of the figure and eagle are all that limit the grade.
From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1927 Double Eagle, MS66
Beautifully Preserved

- 3626** 1927 MS66 PCGS. Satiny mint luster illuminates pristine fields as it rolls around the Premium Gem surfaces of this 1927 double eagle. A sharp strike adds to the appeal, and there are no significant abrasions. While plentiful in this grade, the 1927 becomes scarce in finer grades with only 40 such coins reported at PCGS (11/23).
From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1927 Twenty Dollar Saint-Gaudens, MS66
Attractive CAC Type Coin

- 3627** 1927 MS66 NGC. CAC. A boldly struck Premium Gem, showing satiny orange-gold mint luster with excellent preservation. A minority of the coins in this grade are CAC endorsed, adding appeal to the current example. Finer 1927 Saint-Gaudens double eagles are scarce and can quickly climb out of reach at auction. This piece offers excellent type coin value.
From The William K. Harter Collection, Part II.
NGC ID# 26GG, PCGS# 9186

1928 Twenty Dollar Saint-Gaudens, MS66
Late-Series Type Coin

- 3628** 1928 MS66 PCGS. The 1928 is the last common date in the Saint-Gaudens series, being the last issue that was released from the Mint in large quantities before the 1933 Gold Recall order suspended payments of gold coin. This Premium Gem example displays a bold strike and satiny orange-gold luster, with only minor abrasions discernible with a loupe. Eye appeal is outstanding. *From The William K. Harter Collection, Part II.* NGC ID# 26GK, PCGS# 9189

1928 Double Eagle, MS66
Beautifully Frosted Luster

- 3629** 1928 MS66 PCGS. This piece is sharp throughout and displays original, frosty mint luster with rich peach-gold color. Only slight marks are discerned with a loupe, and eye appeal is excellent. The 1928 is a popular type coin, being a well-made issue and one that is available in high grade. The current coin is ideal. *From The William K. Harter Collection, Part II.* NGC ID# 26GK, PCGS# 9189

1928 Saint-Gaudens Double Eagle, MS66+
Popular Late-Series Type Coin

- 3630** 1928 MS66+ NGC. The 1928 double eagle claims a series-high mintage of more than 8.8 million pieces, making the issue readily available in high grade, and a popular choice of type collectors. This Plus-graded Premium Gem exhibits sharply detailed design elements and virtually pristine orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. NGC ID# 26GK, PCGS# 9189

COMMEMORATIVE SILVER

1900 Lafayette Dollar, MS65+
Popular Commemorative Issue

- 3631** 1900 Lafayette Dollar MS65+ NGC. DuVall 2-C. The leaf terminates above the 9 in the date, and the second S in STATES is repunched. A plentiful variety among Lafayette commemorative silver dollars, of which 36,026 pieces were distributed. This is a satiny, minimally toned Gem with noticeably few ticks for the grade.

1921 Alabama 2x2 Half Dollar, MS66+
Exceptionally Attractive

- 3632** 1921 Alabama 2x2 MS66+ PCGS. Although usually available in MS65 and MS66, this issue is notably scarce in MS66+, and it is a rarity any finer. This example displays glistening original mint luster and is pristine throughout, with well-defined centers. The obverse is iridescent ivory-white, while the reverse displays a golden-lilac hue across the lower half. Population: 45 in 66+, 11 finer (10/23). NGC ID# BYEZ, PCGS# 9225

1936 Delaware Half Dollar, MS68
Rare, None Numerically Finer

- 3633** 1936 Delaware MS68 NGC. A virtually flawless example of the Delaware half dollar, showing original olive-gold and russet toning that gravitates to the lower right obverse margin but spans most of the reverse. Luster is satiny and pristine, and the strike is sharp. Only a handful of pieces are reported in this top grade. An ideal Registry coin. Census: 9 in 68 (2 in 68★), 0 finer (11/23). NGC ID# BYGJ, PCGS# 9301

**1936 Gettysburg Half Dollar, MS67+
Near the Condition Census**

- 3634 1936 Gettysburg MS67+ PCGS.** The Plus designation sets this piece apart from the majority of its peers, and only a handful of finer examples are reported at PCGS. Glisten ivory-champagne luster dominates on each side, while russet toning accents the right margins. The strike is sharp, and a loupe fails to reveal noteworthy abrasions. Eye appeal is excellent. Population: 59 in 67+, 7 finer (10/23). NGC ID# BYGM, PCGS# 9305

**1936 Gettysburg Half Dollar, MS67+
Few Pieces Known Finer**

- 3635 1936 Gettysburg MS67+ PCGS.** Although available with some searching in MS67, the 1936 Gettysburg half dollar is scarce in this grade with a Plus designation, and finer pieces are rare and out of reach for many collectors. This example displays a bold strike and softly frosted, pristine mint luster with iridescent peach-gold and light olive toning. Eye appeal is outstanding. Population: 59 in 67+, 7 finer (10/23). NGC ID# BYGM, PCGS# 9305

**1935 Hudson Half Dollar, MS67
Among the Finest Graded**

- 3636 1935 Hudson MS67 NGC.** A plentiful issue overall, the 1935 Hudson half dollar is conditionally scarce in MS67, and no numerically finer pieces are known. This displays hints of golden-russet toning over softly frosted, pristine mint luster. Slight central strike softness is not unusual for the issue. Census: 41 in 67 (3 in 67+), 3 in 67★, 0 finer (11/23). NGC ID# BYGS, PCGS# 9312

**1921 Missouri Centennial Half, MS66+
Particularly Attractive Luster**

- 3637 1921 Missouri MS66+ NGC.** This piece is boldly struck, and the softly frosted, champagne-tinted mint luster is largely unabraded. The Plus designation is well warranted, and eye appeal is equally strong. The Missouri half dollar is elusive in MS66 and rare in this grade with a Plus designation. Only a handful of finer pieces are known. Census: 58 in 66 (9 in 66+), 7 finer (11/23). NGC ID# BYH3, PCGS# 9330

**1921 2x4 Missouri Half, MS66
Only One Coin Numerically Finer**

- 3638 1921 Missouri 2x4 MS66 NGC.** A boldly struck, softly frosted example of this Missouri Centennial half dollar subtype, showing hints of russet and light champagne color on otherwise ivory-white surfaces. The 2x4 issue is scarce in MS66 but collectible for a price, while NGC and PCGS combined report only a single numerically finer example. Census: 56 in 66 (7 in 66+), 1 finer (11/23). NGC ID# BYH2, PCGS# 9331

**1946-D Booker T. Washington Half, MS67+
Important, High-End Type Coin**

- 3639 1946-D Booker T. Washington MS67+ PCGS. CAC.** An exceptionally well-preserved example, with even Washington's cheek devoid of the usual tiny planchet marks that are a mainstay of this type. This 1946-D Booker T. Washington half is toned in multicolor hues and displays frosty mint luster. The strike is sharp. Higher-grade examples are major rarities. Population: 86 in 67 (19 in 67+), 7 finer. CAC: 69 in 67, 7 finer (11/23). Ex: Central States Signature (Heritage, 4/2020), lot 4214. NGC ID# BYJT, PCGS# 9405

1947-S Booker T. Washington Half, MS67+
Registry Set Quality

- 3640** 1947-S Booker T. Washington MS67+ PCGS. CAC. A conditionally scarce Superb Gem example of this otherwise plentiful Booker T. Washington issue, showing brilliant satin luster with die striations in the fields that produce slight reflectivity. The strike is bold. This coin is tied for the finest at PCGS and CAC, while NGC reports just two coins finer. Population: 49 in 67 (4 in 67+), 0 finer. CAC: 31 in 67, 0 finer (11/23). NGC ID# BYJX, PCGS# 9410

1949-S Booker T. Washington Half Dollar
Top-Grade MS67+

- 3641** 1949-S Booker T. Washington MS67+ PCGS. CAC. The 1949-S Booker T. Washington half is occasionally seen in MS67 and even with CAC endorsement, but only a small portion of these coins boast a Plus designation. This coin is tied for finest known. Satiny, brilliant mint luster and pristine surfaces produce ample eye appeal. Population: 13 in 67+, 0 finer. CAC: 78 in 67, 0 finer (11/23). NGC ID# BYK5, PCGS# 9418

1951-D Booker T. Washington Half Dollar
CAC-Approved MS67+

- 3642** 1951-D Booker T. Washington MS67+ PCGS. CAC. This Denver issue is scarce in Superb Gem condition, and only a dozen coins in this grade are Plus designated at PCGS. The current example displays delicate champagne toning over softly frosted, beautifully preserved surfaces. The strike is pleasing. No finer pieces are known at PCGS, making this coin the top option for advanced Registry collectors. Population: 68 in 67 (12 in 67+), 0 finer. CAC: 58 in 67, 0 finer (11/23). NGC ID# BYKA, PCGS# 9425

1951 Washington-Carver Half, MS67
CAC Approved, None Numerically Finer

- 3643** 1951 Washington-Carver MS67 PCGS. CAC. Original sea-green, gold, amber, and lilac hues adorn the Superb Gem surfaces of this satiny 1951 Washington-Carver half dollar. The coin is well struck and exceptionally appealing for the issue, as noted by the CAC green label. Only a handful of coins are certified this fine, and this is one just four in MS67 with CAC. Population: 7 in 67, 0 finer. CAC: 4 in 67, 0 finer (11/23). NGC ID# BYKY, PCGS# 9430

1953-S Half Dollar, MS67
Washington-Carver Issue

- 3644** 1953-S Washington-Carver MS67 PCGS. CAC. The traditional numismatic name for this type is "Washington-Carver" although contemporary documentation suggests that it is more properly the "Carver-Washington" half dollar. This Superb Gem hosts dappled gold toning with vibrant emerald, rose, and gold toning on the obverse, with similar but bright toning on the reverse. A stunning example that is tied for the finest PCGS has certified. Population: 27 in 67 (6 in 67+), 0 finer. CAC: 12 in 67, 0 finer (11/23). Ex: FUN Signature (Heritage, 1/2020), lot 5004. NGC ID# BYL8, PCGS# 9440

1954-S Washington-Carver Half, MS67
Original Toning

- 3645** 1954-S Washington-Carver MS67 PCGS. Freckled autumn-amber toning dusts each side of this otherwise silvery-white Superb Gem, complementing the exceptional preservation of the satiny mint luster. The strike is well executed, and eye appeal is strong for collectors who appreciate old-time toning on classic commemoratives. The 1954-S is seldom seen in MS67, and no numerically finer examples are known. Population: 19 in 67 (3 in 67+), 0 finer (11/23). NGC ID# BYLB, PCGS# 9444

COMMEMORATIVE GOLD

1903 Louisiana Purchase Gold Dollar, MS67+ McKinley Obverse

- 3646** 1903 Louisiana Purchase, McKinley Gold Dollar MS67+ PCGS. The Plus designation sets this high-end Registry contender apart from the majority of its peers, and the coin is indeed nearly flawless across each side. Satiny orange-gold luster complements the sharp strike, and eye appeal equals the technical quality. Only a handful of finer pieces are reported at PCGS, with a dozen coins finer at NGC. Population: 28 in 67+, 7 finer (11/23). NGC ID# BYLE, PCGS# 7444

1904 Lewis and Clark Gold Dollar Lustrous MS66

- 3647** 1904 Lewis and Clark Gold Dollar MS66 NGC. The 1904 Lewis and Clark gold dollar is a rarity in Superb Gem condition, although this Premium Gem example remains accessible for many collectors and provides a high level of preservation in itself. Pleasing yellow-gold luster complements well-struck motifs, with no bothersome abrasions. NGC ID# BYLE, PCGS# 7447

1904 Lewis and Clark Gold Dollar, MS67 Scarce in This Lofty Grade

- 3648** 1904 Lewis and Clark Gold Dollar MS67 NGC. The 1904 Lewis and Clark gold dollar is slightly more plentiful in high grade than the 1905 issue, making it ideal for type collectors who only need one date for a complete set. This Superb Gem displays satiny straw-gold luster and well-struck design elements, with beautiful preservation. Census: 32 in 67 (2 in 67+, 5 in 67★, 2 in 67+★), 1 finer (11/23). NGC ID# BYLE, PCGS# 7447

1905 Lewis and Clark Gold Dollar, MS65 Challenging in Finer Grades

- 3649** 1905 Lewis and Clark Gold Dollar MS65 PCGS. A satiny Gem example of the 1905 Lewis and Clark gold dollar, struck in conjunction with the Lewis and Clark Centennial Exposition held in Portland, Oregon the same year. The fields are semireflective with a balance of cartwheel luster. Well-struck design elements add to the eye appeal. NGC ID# BYLG, PCGS# 7448

1905 Lewis and Clark Gold Dollar Semiprooflike MS66

- 3650** 1905 Lewis and Clark Gold Dollar MS66 NGC. Despite an identical mintage (10,000 coins), the 1905 Lewis and Clark gold dollar is somewhat scarcer than its 1904 counterpart in high grade. This Premium Gem displays bright yellow-gold luster, as usual, with semireflective fields and well-struck design elements. Eye appeal is pleasing. Census: 63 in 66 (9 in 66+, 1 in 66★), 4 finer (11/23). NGC ID# BYLG, PCGS# 7448

1915-S Panama-Pacific Quarter Eagle, MS65 Popular Exposition Commemorative

- 3651** 1915-S Panama-Pacific Quarter Eagle MS65 PCGS. Satiny butter-gold luster characterizes this Gem 1915-S Pan-Pac quarter eagle, with only the slightest abrasions evident beneath a loupe. The crests of the eagle's wings are slightly soft, but the strike is otherwise bold. Only 6,749 Panama-Pacific quarter eagles were distributed, mainly through various sets with other exposition commemoratives. NGC ID# BYLR, PCGS# 7450

**1915-S Panama-Pacific Quarter Eagle, MS66+
Exemplary High-End Example**

- 3652 1915-S Panama-Pacific Quarter Eagle MS66+ CACG.** This is one of two Panama-Pacific quarter eagles that CACG has slabbed as MS66+, and the service also lists two slabbed coins in MS66; an additional 225 coins in MS66 carry CAC stickers (11/23). Without a doubt, the present piece best of the best for the MS66 grade, and its eye appeal supports that standing. Rich orange-gold luster and bold devices complement largely untouched surfaces. NGC ID# BYLP, PCGS# 7450

**1926 Sesquicentennial Quarter Eagle, MS66
Only One Coin Numerically Finer at PCGS**

- 3655 1926 Sesquicentennial Quarter Eagle MS66 PCGS.** This issue can be quite attractive in high grade, and the current Premium Gem example does not disappoint. Satiny, vibrant mint luster shimmers across largely untouched surfaces, yielding orange-gold and yellow-rose hues across the well-defined motifs. The Sesquicentennial quarter is occasionally seen in MS66, but PCGS reports only a single numerically finer example (11/23). NGC ID# BYLT, PCGS# 7466

**1922 Grant Gold Dollar, MS67+
No Star, CAC Approved**

- 3653 1922 Grant Gold Dollar, No Star, MS67+ NGC. CAC.** A sharp strike manifests itself in excellent delineation of Grant's hair on this high-end Superb Gem, while satiny orange-gold mint luster adorns the pristine surfaces. The 1922 Grant No Star gold dollar is occasionally available in MS67, but Plus-graded and/or CAC-approved examples form a minority of the survivorship in this condition. CAC: 85 in 67, 0 finer (11/23). NGC ID# BYLN, PCGS# 7458

**1926 Quarter Eagle, MS66
Sesquicentennial Commemorative**

- 3654 1926 Sesquicentennial Quarter Eagle MS66 NGC.** The 1926 Sesquicentennial of American Independence is commemorated on this quarter eagle coined at the Philadelphia Mint. This Premium Gem has frosty light yellow surfaces. The exceptional, mark-free surfaces provide a high degree of eye appeal. While plentiful at this grade level, few finer examples are certified. NGC has graded three coins numerically finer while PCGS adds only one more (11/23). NGC ID# BYLT, PCGS# 7466

TERRITORIAL GOLD

**1849 Norris, Gregg, & Norris Half Eagle, Fine 15
K-4, Reeded Edge, No Period After ALLOY**

- 3656 1849 Norris, Gregg, & Norris Five Dollar, Reeded Edge, Fine 15 PCGS. K-4, R.4.** No period after ALLOY. It is generally accepted that Norris, Gregg, & Norris was the first California private coiner, opening for business in May 1849. Gold coin was desperately needed in local commerce, and this piece shows evidence of extensive circulation. The high points of the design show wear, and both sides display distributed small abrasions. Orange-gold toning accompanies protected regions. Listed on page 408 of the 2024 *Guide Book*.

Ex: FUN Signature (Heritage, 1/2016), lot 6832.
NGC ID# ANJE, PCGS# 10282

1849 Moffat & Co. Five, AU Details
K-4a, Key Gold Rush Private Coiner

- 3657** 1849 Moffat & Co. Five Dollar — Graffiti — NGC Details. AU. K-4a, R.4. Although Moffat & Co. was not the first firm to issue private gold coins in San Francisco, they soon became the most respected Gold Rush coiner. Several die varieties of five dollar pieces were struck in both 1849 and 1850 before the firm operated the San Francisco Assay Office. The present green-gold example exhibits only a whisper of wear, but an X test mark is in the upper reverse field, and the left obverse field displays cursive letters. Listed on page 408 of the 2024 *Guide Book*.
Ex: Mail Bid Sale (Coin Galleries, 2/1999), lot 2818.
From The Estate of Charles W. Montgomery, Part II.

1854 Kellogg & Co. Twenty, AU Details
K-1a, Respected Private Coiner

- 3659** 1854 Kellogg & Co. Twenty Dollar — Damaged, Cleaned — NGC Details. AU. K-1a, R.4. Short Arrows. The Assay Office ceased coining in 1853, and the San Francisco Mint did not begin to strike gold coins until April 3, 1854. During the interim, private assayer Kellogg & Co. struck gold coins to serve the Gold Rush economy. 1854 Kellogg twenties exist in five die varieties, three with Short Arrows and two with Long Arrows. Kagin-1a is identified by the left-leaning 4 in the date. This briefly circulated caramel-gold example is hairlined, and the left obverse exhibits many narrow marks. Listed on page 418 of the 2024 *Guide Book*.
Ex: Numisma '95 (RARCOA/Akers, 11/1995), lot 2663.
From The Estate of Charles W. Montgomery, Part II.

'1850' Baldwin & Co. Ten, Unc Details
Gilt White Metal Nagy Restrike, Kagin-1g

- 3658** "1850" 'Restrike' Baldwin & Co. Ten Dollar, Gilt White Metal — Cleaned — NGC Details. Unc. K-1g, R.6. In 1909, Stephen K. Nagy produced copy dies "restrikes" of the famous 1850 Baldwin & Co. ten-dollar Horseman type, listed on page 367 of the 1981 classic Kagin reference. Examples were struck in various alloys, and are known with cuds along the lower reverse border. The present piece is an early striking. Over the years, the gilt surfaces acquired deep gray toning, and the coin was wiped to remove the toning from the open fields. Struck from a rusted obverse die.
Ex: George N. Polis, M.D. Collection, et al (Bowers and Merena, 6/1991), lot 1032; Long Beach Signature (Heritage, 10/1995), lot 5638.
From The Estate of Charles W. Montgomery, Part II.

PATTERNS

1858 Flying Eagle Cent in Copper-Nickel
Judd-203, PR63
Popular Paquet Pattern

- 3660** 1858 Flying Eagle Cent, Judd-203, Pollock-247, Snow-PT18a, R.5, PR63 PCGS. CAC. The obverse shows a hooked-neck eagle flying left with raised wings. On the reverse, the denomination is set within a wide oak wreath with an olive sprig and a group of three arrows wrapped into the bottom of the wreath. Struck in copper-nickel with a plain edge. The Judd-203 is among the varieties included a 12-piece set sold by the mint to collectors. An intricately struck specimen without evident marks. Mottled tan-brown and lilac-red toning accompanies both sides. A few tiny spots are scattered.
From The Riccolo Collection.
NGC ID# 29BJ, PCGS# 11869

1858 Indian Cent in Copper-Nickel
Judd-208, Scarce Pollock-254, PR64 Cameo

- 3661** 1858 Indian Cent, Judd-208, Pollock-254, Snow-PT35, R.7, PR64 Cameo NGC. There are four notable subvarieties of Judd-208; these include each combination of narrow or broad bust point obverses paired with either five or six-leaf cluster laurel wreath reverses. The present piece pairs the narrow bust point obverse with six-leaf clusters on the wreath. Struck in copper-nickel with a plain edge. Snow states, "Rare and popular as the true transitional - The exact style of 1859." USPatterns.com estimates only a half-dozen or so pieces are known with this rare combination of a low date and a six-leaf cluster. The surfaces retain most of the bright, original honey-tan color that is inherent to copper-nickel, with slight reddish patina and an occasional dab or streak of deeper red. Stark contrast is evident between the fields and devices, as indicated by the Cameo designation.

Ex: Long Beach Signature (Heritage, 6/2019), lot 4405.

From The William K. Harter Collection, Part II.

NGC ID# 29BP, PCGS# 11885

1858 Indian Cent in Copper-Nickel
Judd-208, Pollock-259, PR65

- 3662** 1858 Indian Cent, Judd-208, Pollock-259, Snow-PT28, R.3, PR65 PCGS. Ex: Heathgate. Eagle Eye Photo Seal, card included. There are four notable subvarieties of Judd-208; these include each combination of narrow or broad bust point obverses paired with either five or six-leaf cluster laurel wreath reverses. The present piece pairs the broad bust point obverse with a five-leaf clusters wreath reverse. Struck in copper-nickel with a plain edge. Significant reddish-violet toning is seen on the reverse, while the obverse shows occasional reddish patina. Smooth, clean surfaces with no mentionable marks or notable carbon.

From The William K. Harter Collection, Part II.

NGC ID# 29BP, PCGS# 11885

1858 Indian Cent, Struck in Copper-Nickel
Judd-211, Pollock-262, PR66 Cameo

- 3663** 1858 Indian Cent, Judd-211, Pollock-262, Snow-PT26, R.5, PR66 Cameo NGC. Eagle Eye Photo Seal, card included. The obverse is similar to the issued Indian cent, but dated 1858. The reverse is similar to the issued 1860 cent reverse, except there is no shield between the ends of the oak wreath. This is the centered date, broad bust point variant, thus the Pollock-262 designation. Struck in copper-nickel with a plain edge. The surfaces display a pronounced reddish hue with traces of carbon flecks on each side. Fully struck.

From The William K. Harter Collection, Part II.

NGC ID# 29BT, PCGS# 11893

1858 Indian Cent in Copper-Nickel
Judd-212, Pollock-263, PR65 Cameo

- 3664** 1858 Indian Cent, Judd-212, Pollock-263, R.4, PR65 Cameo NGC. Eagle Eye Photo Seal, card included. Similar to the Indian cent as issued in 1860, except the shield is wider and has fancy scrollwork. The usual Pollock variant with a centered date and a broad bust point. Struck in copper-nickel with a plain edge. This Gem proof specimen has dazzling mint luster and a full strike. There is scant evidence of carbon.

Ex: ANA Signature (Heritage, 7-8/2008), lot 2719.

From The William K. Harter Collection, Part II.

NGC ID# 29BU, PCGS# 811895

1858 Copper-Nickel Indian Cent
Judd-213, Pollock-252, PR63

- 3665** 1858 Indian Cent, Judd-213, Pollock-252, Snow-PT30, R.7, PR63 PCGS. Eagle Eye Photo Seal, card included. A regular issue Low Leaves reverse is paired with an obverse identical to the issued 1859 Indian cent except dated 1858. The Low Date, Narrow Bust Point variant. Judd-213 is R.5 overall, but Snow-PT30 is R.7, since most examples of Judd-213 are the Broad Bust Point variety. Struck in copper-nickel with a plain edge. The surfaces have deepened in color with numerous specks of carbon scattered over each side.

From The William K. Harter Collection, Part II.

NGC ID# 29BV, PCGS# 11897

1858 Copper-Nickel Indian Cent
Judd-213, Pollock-252, PR63

- 3666** 1858 Indian Cent, Judd-213, Pollock-252, Snow-PT30, R.7, PR63 PCGS. CAC. Eagle Eye Photo Seal, card included. The obverse is similar to the issued Indian cent, but dated 1858. The reverse is similar to the issued 1860 cent reverse, except there is no shield between the ends of the oak wreath. This is the centered date, broad bust point variant, thus the Pollock-262 designation. Struck in copper-nickel with a plain edge. The gray-white nature of the copper-nickel composition shows a slight overlay of reddish patina. Numerous small to medium carbon specks determine the grade.
From The William K. Harter Collection, Part II.
NGC ID# 29BV, PCGS# 11897

1858 Indian Cent in Copper-Nickel
Judd-213, Pollock-258, PR65

- 3667** 1858 Indian Cent, Judd-213, Pollock-258, Snow-PT22, R.5, PR65 PCGS. Eagle Eye Photo Seal, card included. The obverse is similar to the issued Indian cent, but dated 1858. The reverse is similar to the issued 1860 cent reverse, except there is no shield between the ends of the oak wreath. This is the centered date, broad bust point variant, thus the Pollock-258 designation. Struck in copper-nickel with a plain edge. The surfaces display rich reddish patina, and there are no distracting contact marks on either side.
From The William K. Harter Collection, Part II.
NGC ID# 29BV, PCGS# 11897

1859 Transitional Indian Cent
Judd-228, MS65

- 3668** 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS65 PCGS. CAC. Eagle Eye Photo Seal, card included. The popular transitional Indian cent pattern that displays the shield reverse of 1859. Struck in copper-nickel with a plain edge. A satiny and virtually unabraded Gem with only inconsequential carbon. The strike is good despite trivial incompleteness on the upper portion of the shield. Certified in a green label holder.
Ex: Madison Collection / FUN Signature (Heritage, 1/2008), lot 3562.
From The William K. Harter Collection, Part II.
NGC ID# 29C8, PCGS# 11932

1859 Indian Cent in Copper-Nickel
Judd-228, Pollock-272, MS65

- 3669** 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS65 PCGS. CAC. Eagle Eye Photo Seal, card included. This is a transitional pattern that combines the standard Indian Head cent obverse with the adopted reverse design of 1860-1909. Struck in copper-nickel with a plain edge. The surfaces are well preserved, with lovely gold-tan color. A few scattered flyspecks are noted, but there are no distracting marks on either side of this appealing Gem.
Ex: Baltimore Signature (Heritage, 3/2009), lot 2464.
From The William K. Harter Collection, Part II.
NGC ID# 29C8, PCGS# 11932

1865 With Motto Ten Dollar
Judd-450, PR63 Gilt

- 3670** 1865 Ten Dollar, Judd-450, Pollock-522, High R.6, PR63 Gilt NGC. This transitional ten dollar shows the normal obverse and IN GOD WE TRUST on the reverse above the eagle. Struck in copper with a reeded edge. The design was adopted for use in 1866. USPatterns.com notes that over a dozen examples are known, several of which have been gilt in order to represent what an actual gold strike would look like. The surfaces are bright, yellow-gold with the gilt intact throughout.

From The Estate of Charles W. Montgomery, Part II.
NGC ID# 29JV, PCGS# 70637

1868 Gold Dollar, Struck in Aluminum
Judd-653, PR63

- 3671** 1868 Gold Dollar, Judd-653, Pollock-726, Low R.7, PR63 NGC. The regular dies trial piece for the gold dollar. Struck in aluminum with a reeded edge. According to the USPatterns website: "These were deliberately struck to show how easily aluminum coined ..." Only a half-dozen pieces are believed known today. Since aluminum is a malleable metal, the strike definition is complete throughout. The surfaces are bright, as always, and the only identifying imperfection is a planchet flaw on the reverse just left of the 1 in the denomination.

From The Estate of Charles W. Montgomery, Part II.
NGC ID# 29P6, PCGS# 60871

1879 Goloid Metric Dollar
Judd-1617, PR62

- 3672** 1879 Goloid Metric Dollar, Judd-1617, Pollock-1813, R.4, PR62 PCGS. William Barber's Metric Dollar with Liberty wearing a coronet with a border of pearls. The reverse is quite elaborate with a partial wreath of cotton and corn tied at the base, a ribbon, and with DEO EST GLORIA on a tablet above. Struck in silver or goloid with a reeded edge. Several hundred pieces are known, but very few have undergone metallurgical testing. From the Mint's perspective it would have been inconvenient to strike these pieces in goloid; similarly, it would have been convenient to strike them using standard silver dollar planchets. Deeply toned, especially around the margins, with significantly lighter centers.

NGC ID# 2AH8, PCGS# 61995

1896 One Cent in Bronze
Judd-1768, PR66 Red and Brown

- 3673** 1896 One Cent, Judd-1768, Pollock-1983, R.5, PR66 Red and Brown PCGS. Ex: Harry W. Bass, Jr. Collection. The Charles Barber design. Shield at center obverse with LIBERTY incused. Crossed poles behind support a Liberty cap and an eagle. E PLURIBUS UNUM is at the top rim, with stars seven left, six right. On the reverse a large 1 occupies the center, with CENT below, an olive spring surrounding and UNITED STATES OF AMERICA at the rim. Struck in bronze with a plain edge. Two die varieties exist. Pollock-1983 has the eagle on the pole below the S in PLURIBUS. Each side of this Premium Gem displays lovely copper-brown surfaces with hints of glowing red around the devices. Violet accents heighten the eye appeal.

Ex: Purchased from Bowers and Ruddy Galleries (8/11/1971); The Harry W. Bass, Jr. Core Collection, Part III (Heritage, 5/2023), lot 4621.
NGC ID# 2AM7, PCGS# 72222

PHILIPPINES

1945-S Philippines 50 Centavos, MS67+ Tied for Finest Certified

- 3674** 1945-S MS67+ PCGS. The 1945-S was the final fifty centavos issue struck for the Philippines under U.S. sovereignty. The issue was saved in roll quantity, and can be readily purchased in typical Mint State. At the MS67+ level, however, it is a great rarity. PCGS has graded two coins as MS67+, while NGC has yet to grade any pieces above MS67 (11/23). Certainly, the exceptional toning on the present Superb Gem is partly responsible for its lofty third-party assessment. Lime-green, cherry-red, lemon-gold, and powder-blue shades dance across lustrous and practically pristine surfaces. NGC ID# 26XW, PCGS# 90376

ERRORS

1917 Buffalo Nickel, MS64 Brown Struck on a Cent Planchet

- 3675** 1917 Buffalo Nickel — Struck on a Cent Planchet — MS64 Brown PCGS. Over the years, Heritage has auctioned a number of Buffalo nickels struck on cent planchets, but the present lot appears to be the earliest-dated that we have encountered. The MS64 Brown grade is also high for this error combination, an off-metal striking on a popular obsolete type. The mahogany-brown surfaces are unmarked, although a few aqua specks are noted on the obverse near 9 o'clock. The nose and cheekbone of the Native American are toned steel-gray. The upper peripheral legends are partial, due to the undersized flan. *From The Riccolo Collection.*

2018-D Roosevelt Dime, MS60 Struck on a Steel Planchet

- 3676** 2018-D Roosevelt Dime — Struck on a Foreign Planchet — MS60 PCGS. 1.5 grams. 98% Iron. The expected weight of a clad dime is 2.27 grams. The traditional alloy of steel is 98% iron and 1.5% copper with a trace of other elements. Thus, the present dime was struck on a steel planchet. Presumably, the planchet was purchased from a private firm that also provided planchets for foreign country coinage. We know of four 2018-D dimes on steel planchets, one each for PCGS certification IDs 45559216 through 45559219. This off-metal, wrong-planchet mint error is steel-gray with hints of russet toning. The borders are softly struck, typical for an undersized planchet. No marks are of any notice.

End of Auction

Terms and Conditions of Auction

Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., Heritage Auctions, Inc., Heritage Collectibles, Inc., Heritage Luxury Property Auctions, Inc., Heritage Numismatic Auctions, Inc., Heritage Vintage Sports Auctions, Inc., Currency Auctions of America, Inc., Heritage Auctions (HK) Limited, or Heritage Auctions – Europe Cooperatief U.A. as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the “Auctioneer”). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid. The Buyer's Premium for each Auction is published by Auctioneer in the printed catalog and on the Internet.

Bidders:

3. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction (“Bidder(s)”).
4. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
5. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

6. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Internet bids will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Auctioneer may, in its sole discretion, require a deposit in good funds of twenty-five percent (25%) of the amount of each bid prior to acceptance of the bid. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security so a credit check may be performed prior to Auctioneer's acceptance of a bid. Settlement via check and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction.

Bidding Options:

7. Auctioneer accepts bids from the Internet, telephone, fax, mail, floor, and HeritageLive! from registered clients.
8. Bids in Signature Auctions may be placed as set forth in the printed catalog section entitled “Choose your bidding method.” For auctions held solely on the Internet, see the alternatives on HA.com. Review at <http://www.ha.com/c/ref/web-tips.zx#biddingTutorial>.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) and floor bids must be on-increment or at a half increment (“Cut Bid”). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding or entry of bids. When identical mail or fax bids are submitted, preference is given to the first received. To ensure the greatest accuracy, written bids should be entered on the standard printed bid sheet and received by Auctioneer at least two business days prior to Auction start. Auctioneer is not responsible for executing mail bids or fax bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, fax, email, Internet, or in person once Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-409-1425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: “How can I lose by less than an increment?” on our website. Bids will be accepted in whole dollar amounts only. No “buy” or “unlimited” bids will be accepted.

Current bidding increments during any live auction session or components thereof (e.g. mail/fax bids and LiveProxy bidding) (see HA.com/c/ref/web-tips.zx#guidelines-increments) are:

Current Bid	Bid Increment	Current Bid	Bid Increment
< \$10	\$1	\$10,000 - \$19,999	\$1,000
\$10 - \$49	\$2	\$20,000 - \$49,999	\$2,000
\$50 - \$99	\$5	\$50,000 - \$99,999	\$5,000
\$100 - \$199	\$10	\$100,000 - \$199,999	\$10,000
\$200 - \$499	\$20	\$200,000 - \$499,999	\$20,000
\$500 - \$999	\$50	\$500,000 - \$999,999	\$25,000
\$1,000 - \$1,999	\$100	\$1,000,000 - \$1,999,999	\$50,000
\$2,000 - \$4,999	\$200	\$2,000,000 - \$9,999,999	\$100,000
\$5,000 - \$9,999	\$500	>= \$10,000,000	\$200,000

Note: Half-increment bidding is available prior to the live auction session.

12. If Auctioneer calls for a full increment, Bidder may request Auctioneer to accept a Cut Bid only once per lot. After offering a Cut Bid, Bidder may continue to bid on lot only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature Auctions. Bids solicited by Auctioneer at other than the expected increment will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A “Minimum Bid” is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN “Minimum Bids” ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE “Minimum Bid”, THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. “Minimum Bids” are generally posted online several days prior to the Auction closing. Any successful bid placed by a consignor on his property on the Auction floor, by any means during the live session, or after the “Minimum Bid” for an Auction have been posted, will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot. Auctioneer or its affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise. Regardless of placed bids, Auctioneer reserves the right to withdraw any lot, or any part of a lot, from Auction at any time prior to the opening of any such lot by the auctioneer (crier), or in the

case of Internet-only auctions when the bid opens for either live Internet bidding or the beginning of any extended period.

15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in “Good Faith” when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in “Good Faith.” Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (generally 40%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold or the Auctioneer may place a protective bid on behalf of the consignor.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, bidding may be extended at Auctioneer's discretion. Bidders unable to place their bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots.
22. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
23. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

24. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the merchandise; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes “good funds”: checks drawn on a U.S. bank are subject to a ten business day hold, thirty days when drawn on an international bank. Clients with pre-arranged credit may receive immediate credit for payments via eCheck, personal, or corporate checks. All others will be subject to a hold of 5 business days, or more, for the funds to clear prior to releasing merchandise. (Ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website. Payment via credit card (Visa, Mastercard, and Discover) will be accepted upon prior approval by Auctioneer. All payments by credit card will incur a surcharge of 2.5%. Payment by eCheck, wire transfer, or check will not incur a surcharge. This fee only applies to credit transactions, and does not exceed Auctioneer's cost of processing.
25. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after Auction close. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot or Auctioneer. Alternatively, Auctioneer at its sole option, may charge a twenty (20%) fee based on the amount of the purchase. In either case the Auctioneer may offset amount of its claim against any monies owing to the Bidder or secure its claim against any of the Bidder's properties held by the Auctioneer.
26. Purchased lots may be subject to taxes or fees imposed by various foreign taxing agencies. Buyer is responsible for paying all foreign imposed taxes whether VAT, GST, etc. prior to delivery unless other arrangements are made in writing. Lots delivered to Buyer, or Buyer's representative are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. Should state sales tax become applicable in the state for delivery prior to delivery of the property on the invoice, Buyer agrees to pay all applicable state sales tax as required by the delivery state as of the shipping date. Buyer agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction, or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
27. In the event that Buyer's payment is dishonored upon presentment(s), Buyer shall pay the maximum statutory processing fee set by applicable state law. If Buyer attempts to pay via eCheck and Buyer's financial institution denies this bank account, or the payment cannot be completed using the selected funding source, Buyer agrees to complete payment using your credit card on file (subject to the surcharge detailed in paragraph 24).
28. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount. If the Auctioneer refers any invoice to an attorney for collection, Buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
29. In the event Buyer fails to pay any amounts due, Buyer authorizes Auctioneer to charge the Buyer's credit card on file with Auctioneer in the amount required to pay the invoice in full or sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Buyer agrees to pay for the reasonable costs of resale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Buyer is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 15% seller's commissions, if sold at an Auctioneer's auction.
30. Title shall not pass to Buyer until all invoices are paid in full. Auctioneer shall have a lien against the merchandise purchased by Buyer to secure payment of any and all outstanding Auction invoices. Auctioneer is further granted a lien and the right to retain possession of any other property of Buyer then held by Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due Auctioneer or affiliates from Buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). Any Heritage foreclosure auction venue is deemed a reasonably commercial sale. In addition, with respect to payment of the Auction invoice(s), Buyer waives any and all rights of offset he might otherwise have against Auctioneer and the consignor of the merchandise included on the invoice. If Buyer owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Buyer, and it may secure by possessory lien any unpaid amount by any of the Buyer's property in their possession.

Delivery, Shipping, and Handling Charges:

31. Buyer is liable for all shipping, handling, registration, and renewal fees, if any. Please refer to Auctioneer's website HA.com/c/shipping.zx for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Merchandise will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs. Buyer

agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer (subject to the surcharge detailed in paragraph 24).

32. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot.
33. On all shipments in which Auctioneer charges the Delivery, Handling, and Transit Fee *infra*, any risk of loss during shipment will be borne by Auctioneer until the common carrier's confirmation of delivery to the address of record in Auctioneer's file, this is the "Secure Location". A common carrier's confirmation is conclusive to prove delivery to Buyer; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature. Auctioneer shall arrange, select, and engage common carriers and other transportation vendors on your behalf. Transit services are subject to the following terms and conditions:
 - a. **Scope of Transit Services:** Merchandise for transit will be insured under one or more insurance policies issued by an authorized broker to Auctioneer. The merchandise will be insured for the invoice price of the properties (hammer price plus Buyer's Premium) ("Insured Value"). For each shipment, Buyer will provide a Secure Location to which the items will be delivered. NOTICE: **Auctioneer is neither an insurance company nor a common carrier of any type.**
 - b. **Auctioneer's Compensation for Transit Services:** Auctioneer will provide transit services to Buyer for ¼ of 1% of the Insured Value, plus packaging and handling fees and fees for the common carrier (collectively, "Delivery, Handling, and Transit Fee"). Buyer agrees to pay Delivery, Handling, and Transit Fee and comply with all terms of payment as set forth herein.
 - c. **Auctioneer's Limitation of Liability for Transit Services:** Buyer understands and agrees that Auctioneer's liability for loss of or damage to the items, if any, ends when the items have been delivered to the Secure Location, and Auctioneer has received evidence of delivery. Any claim that property has sustained loss or damage during transit must be reported to Auctioneer within seventy-two (72) hours of the delivery date. Any recovery for loss of or damage to any merchandise is limited to the lesser of actual cash value of the merchandise or the Insured Value. **Under no circumstances is Auctioneer liable for consequential or punitive damages.**
34. It shall be the responsibility for Buyer to arrange pick-up or shipping in a timely manner (within 10 days). Merchandise will be subject to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5 daily for smaller items (storage fee per item) after 35 days. In the event the merchandise is not removed within ninety days, the merchandise may be offered for sale to recover any past due storage or moving fees, including a 20% Seller's Commission.
35. A. NOTICE OF CITES COMPLIANCE: The purchase of items made from protected species: Any property made of or incorporating endangered or protected species or wildlife may have import and/or export restrictions established by the Convention of International Trade in Endangered Species of Wild Fauna and Flora (CITES) in various countries and domestically. Plant and animal properties include (but are not limited to) items made of (or including) Brazilian rosewood, ivory, whalebone, turtle shell, coral, crocodile, alligator, lizard, or other wildlife. These items may not be available to ship internationally or, in some cases, domestically. Domestic bans and restrictions exist in these states: 1) California state law prohibits the importation of any product containing Python skin into the State of California, thus no lot containing Python skin will be shipped to or invoiced to a person or company in California. 2) Fossil Ivory is currently banned or restricted in 5 U.S. states: New York, New Jersey, California, Hawaii, and New Mexico. By placing a bid, the bidder acknowledges that he or she is aware of any restriction in their country or place of residence and takes responsibility for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay, failure, or incapacity to obtain any such license or permit does not relieve the buyer of timely payment or afford them the capacity to void their purchase or payment. Lots containing potentially regulated wildlife material are noted in the description as a convenience to our clients. Heritage Auctions does not accept liability for errors or failure to mark lots containing protected or regulated species. For further assistance, please contact client services at 1-800-872-6467.
- B. California State law prohibits the importation of any product containing Python skin into the State of California. No merchandise containing Python skin will be shipped to or invoiced to a person or company in California.
- C. Auctioneer shall not be liable for any loss caused by or resulting from:
 - a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
 - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles.
36. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties, and Disclaimers:

37. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of merchandise or second opine contained in this Auction is for the sole purpose of identifying merchandise for those Bidders who do not have the opportunity to view merchandise prior to bidding, and no description of merchandise has been made part of the basis of the bargain or has created any express warranty that merchandise would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, e.g. Fine Art, may have express written warranties and Bidder is referred to those specific terms and conditions.
38. Auctioneer is selling only such right or title to merchandise being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the merchandise. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
39. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
40. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any merchandise by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
41. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for return or reduction in purchase price.

Release:

42. In consideration of participation in Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein, and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
43. Notice: Some merchandise sold by Auctioneer is inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Buyer accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution, Arbitration, and Remedies:

By placing a bid or otherwise participating in Auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein.

44. Exclusive Dispute Resolution Process: All claims, disputes, or controversies in connection with, relating to, and/or arising out of Bidder's participation in Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description, and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation, or any claim made by Bidder of a lot or Bidder's participation in Auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer [which claim Bidder consents to be made a party] (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent) and Auctioneer each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administrated by and conducted under the rules of, the American Arbitration Association. The locale for all such arbitrations shall be Dallas, Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. In the event that any Claim needs to be litigated, including actions to compel arbitration, construe the agreement, actions in aid of arbitration, or otherwise, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. If a Claim involves a consumer, exclusive subject matter jurisdiction for the Claim is in the State District Courts of Dallas County, Texas and the consumer consents to subject matter and in personam jurisdiction; further CONSUMER EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY. A consumer may elect arbitration as specified above. Any claim involving the purchase or sale of numismatic or related items may be submitted through binding PNG arbitration. A Claim is not subject to class certification.
45. Choice of Law: Agreement and any Claim shall be determined and construed under Texas law. For auctions conducted by Heritage Auctions (HK) Limited, any Agreement and any Claim shall be determined and construed under Hong Kong law.
46. Fees and Costs: The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought versus awarded or the successful defense of a Claim based on damages sought versus awarded) may be awarded reasonable attorneys' fees and costs.
47. Remedies: Any Claim must be brought within two (2) years of the alleged breach, default or misrepresentation or the Claim is waived. After one (1) year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. Exemplary or punitive damages are not permitted and are waived. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Buyer; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, refund Buyer's purchase price without further obligation. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return.
48. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

Miscellaneous:

49. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
50. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
51. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in Texas. Notice is hereby given that the auctioneer is licensed by the Texas Department of Professional Licensing and Regulation, and any concerns may be addressed to Department at P. O. Box 12157, Austin, TX 78711, (512) 463-6599, or <https://www.tdlr.texas.gov/>.

Additional Terms & Conditions: COINS & CURRENCY

COINS & CURRENCY TERM A: Signature® Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-872-6467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS & CURRENCY TERM B: Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage Auctions, 2801 W. Airport Freeway, Dallas TX 75261. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS & CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS & CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcgs.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS & CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency and PMG may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 10470, Peoria, IL 61612-0470; PCGS Gold Shield, PO Box 9458, Newport Beach, CA 92658. Third-party graded notes are not returnable for any reason whatsoever.

COINS & CURRENCY TERM F: Notes graded by PCGS Currency between February 4, 2009 and January 30, 2019 were graded and authenticated by K3B, Inc. under license from Collectors Universe, Inc. K3B, Inc., now operating as Legacy Currency Grading, has expressed in writing that notes graded under the license during this time period will still be covered by the full written guaranty of PCGS Currency. Warranties may be available from Collectors Universe, Inc. for all PCGS Currency notes graded prior to February 4, 2009.

COINS & CURRENCY TERM G: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS & CURRENCY TERM H: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS & CURRENCY TERM I: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS & CURRENCY TERM J: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS & CURRENCY TERM K: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the noncertified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS & CURRENCY TERM L: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS & CURRENCY TERM M: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS & CURRENCY TERM N: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS & CURRENCY TERM O: Financing. Auctioneer offers various extended payment options to qualified pre-approved persons and companies. The options include Extended Payment Programs (EPP) Flexible Payment Program (FPP) and Dealer Terms. Each program has its specific terms and conditions and such terms and conditions are strictly enforced. Each program has to be executed by the purchaser. Auctioneer reserves the right to alter or deny credit and in such case these auction terms shall control.

For wiring instructions, call the Credit department at 877-HERITAGE (437-4824) or email: CreditDept@HA.com.
